AGENDA ITEM WORDING: Approval to name the new terminal at the Key West International Airport for Charles "Sonny" and Merili Hilton McCoy. The building will be generically referred to as the *"McCoy Terminal Complex"*.

ITEM BACKGROUND: The Key West International Airport has a tradition of naming its new buildings after local citizens who have made significant contributions to the Key West community. Merili McCoy dedicated her life to public service as a conservationist (founder of the Tree Committee), and long-term City Commissioner. Sonny McCoy served as the Mayor of the City of Key West for a decade, and is currently in his second term as a County Commissioner, during which time he also served a year as Mayor of Monroe County. The McCoy's have lived their lives serving their community, so it is fitting that this structure, which will also serve their community for many decades to come; be named for them in their honor.
