**MASTER SERVICES AGREEMENT  
FOR PROFESSIONAL SERVICES**

THIS AGREEMENT, made and entered into as of the 19th day of January, 2012, by and between CDM Smith Inc. whose address is 800 Brickell Avenue Suite 500, Miami, Florida 33131 (hereafter "CONSULTANT or ENGINEER) and Monroe County, a political subdivision of the State of Florida, represented by its Board of County Commissioners whose address is 1100 Simonton Street, Key West, Florida, 33040 (hereinafter called "COUNTY"), collectively referred to herein as "Parties", provides as follows:

ENGINEER's Services will be performed pursuant to individual Task Orders issued by OWNER and agreed to by ENGINEER. Such Task Orders will contain the specific scope of work ("Services"), the time schedule, charges and payment conditions, and additional terms and conditions that are applicable to such Task Orders. An example Task Order is attached hereto.

Execution of a Task Order by ENGINEER and COUNTY constitutes COUNTY's written authorization to ENGINEER to proceed with the Services described in the Task Order. This Agreement will become effective on the date first above written.

The terms and conditions of this Agreement shall apply to each Task Order, except to the extent expressly modified. When a Task Order is to modify a provision of this Agreement, the Article of this Agreement to be modified shall be specifically referenced in the Task Order and the modification shall be precisely described.

**ARTICLE 1 – SCOPE OF SERVICES**

- 1.1 ENGINEER will perform for COUNTY services as described in individual Task Orders (hereinafter referred to as "Services") in accordance with the requirements outlined in this Agreement.

**ARTICLE 2 – TIMES FOR RENDERING SERVICES**

- 2.1 The initial term of this Agreement shall be three years commencing January 19, 2012 and terminating January 18, 2015, subject to the conditions specified in Article 5.3 of this Agreement. The COUNTY, at its discretion, shall have the option to renew this Agreement for two (2) additional one (1) year terms.
- 2.2 The specific time period for the performance of ENGINEER's Services will be set forth in individual Task Orders.
- 2.3 If the specific periods of time for rendering services or specific dates by which services are to be completed for any individual Task Order are changed through no fault of ENGINEER, the rates and amounts of compensation provided for herein shall be subject to equitable adjustment.

### **ARTICLE 3 – OWNER’S RESPONSIBILITIES**

COUNTY shall do the following in a timely manner so as not to delay the services of ENGINEER and shall bear all costs incident thereto:

- 3.1 Pay the ENGINEER in accordance with the terms of this Agreement.
- 3.2 Provide all criteria and full information as to COUNTY’s requirement for a Task Order and designate in writing a person to act as COUNTY’s representative with respect to the services to be performed or furnished by ENGINEER under this Agreement. Such person will have complete authority to transmit instructions, receive information, interpret, and define COUNTY’s policies and decisions with respect to ENGINEER’s services for the project.
- 3.3 Provide all criteria and full information as to COUNTY’s requirements for the project described in each Task Order, including, as applicable to the Services, design objectives and constraints, space, capacity and performance requirements, flexibility and expandability, and furnish copies of all design and construction standards which ~~OWNER~~ COUNTY will require to be included in the Drawings and Specifications.
- 3.4 Furnish to ENGINEER all existing studies, reports and other available data and services of others pertinent to the Task Order, obtain or authorize ENGINEER to obtain or provide additional reports and data as required, and furnish to ENGINEER services of others required for the performance of ENGINEER’s services for a Task Order, and ENGINEER shall be entitled to use and rely upon all such information and services provided by COUNTY or others in performing ENGINEER’s services under a Task Order.
- 3.5 Assist ENGINEER by placing at ENGINEER's disposal all available information pertinent to the project described in each Task Order including previous reports and, as applicable to the Services, any other data relative to design or construction of the project.
- 3.6 Provide access to and make all provisions for ENGINEER to enter upon County property as required for ENGINEER to perform services under a Task Order and inform and assist ENGINEER in obtaining access to private property and property owned by other government entities as required.
- 3.7 Examine all studies, reports, sketches, Drawings, Specifications, proposals and other documents presented by ENGINEER, obtain advice of an attorney, insurance counselor and other consultants as OWNER deems appropriate for such examination and render in writing decisions pertaining thereto within a reasonable time so as not to delay the services of ENGINEER.
- 3.8 Assist ENGINEER in obtaining approvals and permits from all governmental authorities having jurisdiction over the Task Order and such approvals and consents from others as may be necessary for completion of the Task Order.

- 3.9 Give prompt written notice to ENGINEER whenever COUNTY observes or otherwise becomes aware of any development that affects the scope or time of performance or furnishing of ENGINEER's Services or any defect or conformance in ENGINEER's Services or in the work of any Contractor.
- 3.10 COUNTY agrees to assume responsibility for personal and property damages due to ENGINEER's interference with subterranean structures such as pipes, tanks and utility lines that are not correctly shown on the documents and information provided to ENGINEER.

#### **ARTICLE 4 – PAYMENTS TO ENGINEER FOR SERVICES**

##### **4.1 Methods of Payment for Services of ENGINEER.**

- 4.1.1 COUNTY shall pay ENGINEER for Services performed or furnished under this Agreement or as described in each Task Order. The amount of any excise, VAT, or gross receipts tax that may be imposed shall be added to the compensation shown in each Task Order.
- 4.1.2 The CONSULTANT shall submit to the COUNTY an invoice with supporting documentation acceptable to the Clerk on a schedule as set forth in the contract. Acceptability to the Clerk is based on generally accepted accounting principles and such laws, rules and regulations as may govern the Clerk's disbursement of funds.
- 4.1.3 If COUNTY fails to make any payment due ENGINEER in accordance with the Florida Prompt Payment Act F.S. chapter 255, the amounts due ENGINEER will be increased at the rate of 1.0% per month (or the maximum rate of interest permitted by law, if less) and, in addition, ENGINEER may, after giving seven days' written notice to COUNTY, suspend services under this Agreement until ENGINEER has been paid in full all amounts due for services, expenses and charges. Payments will be credited first to interest and then to principal. In the event of a disputed or contested billing, only that portion so contested may be withheld from payment, and the undisputed portion will be paid.

COUNTY agrees to pay ENGINEER all costs of collection including but not limited to reasonable attorneys' fees, collection fees and court costs incurred by ENGINEER to collect properly due payments.

#### **ARTICLE 5 – GENERAL CONDITIONS**

##### **5.1 Standard of Care**

The standard of care for all professional engineering and related services performed or furnished by ENGINEER under this Agreement will be the care and skill ordinarily used by members of ENGINEER's profession practicing under similar conditions at the same time and in the same locality.

## 5.2 Opinions of Probable Construction Cost

ENGINEER's opinions of probable Construction Cost, as applicable to the Services provided for herein are to be made on the basis of ENGINEER's experience and qualifications and represent ENGINEER's best judgment as an experienced and qualified professional engineer generally familiar with the construction industry. However, since ENGINEER has no control over the cost of labor, materials, equipment, or services furnished by others, or over the Contractor's methods of determining prices, or over competitive bidding or market conditions, ENGINEER cannot and does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by ENGINEER. If OWNER wishes greater assurance as to probable Construction Cost, OWNER shall employ an independent cost estimator.

## 5.3 Termination

The obligation to provide further services under this Agreement may be terminated by either party upon thirty days' written notice in the event of substantial failure by the other party to perform in accordance with the terms thereof through no fault of the terminating party. In the event of any termination, ENGINEER will be paid for all services rendered and reimbursable expenses incurred to the date of termination and, in addition, all reimbursable expenses directly attributable to termination.

## 5.4 Use of Documents

5.4.1 All Documents are instruments of service in respect to this Project, and ENGINEER shall retain an ownership and property interest therein (including the copyright and the right of reuse at the discretion of the ENGINEER) whether or not the Project is completed.

5.4.2 COUNTY may rely upon that data or information set forth on paper (also known as hard copies) that the COUNTY receives from the ENGINEER by mail, hand delivery, or facsimile, are the items that the ENGINEER intended to send. Files in electronic media format of text, data, graphics, or other types that are furnished by the ENGINEER to the COUNTY are furnished only for convenience, not reliance by the COUNTY. Any conclusion or information obtained or derived from such electronic files will be at the user's sole risk. In all cases, the original hard copy of the documents takes precedence over the electronic files.

5.4.3 Because data stored in electronic media format can deteriorate or be modified inadvertently or otherwise without authorization of the data's creator, the COUNTY receiving electronic files agrees that it will perform acceptance tests or procedures within 60 days, after which the COUNTY shall be deemed to have accepted the data thus transferred. Any transmittal errors detected within the 60-day acceptance period will be corrected by the ENGINEER.

5.4.4. When transferring documents in electronic media format, the ENGINEER makes no representations as to long-term compatibility, usability, or readability of such

documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used by the ENGINEER.

5.4.5 COUNTY may make and retain copies of documents for information and reference in connection with use on the Project by COUNTY. ENGINEER grants COUNTY a license to use the Documents on the Project, extensions of the Project, and other projects of COUNTY, subject to the following limitations: (1) COUNTY acknowledges that such Documents are not intended or represented to be suitable for use on the Project unless completed by ENGINEER, or for use or reuse by COUNTY or others on extensions of the Project or on any other project without written verification or adaptation by ENGINEER; (2) any such use or reuse, or any modification of the Documents, without written verification, completion, or adaptation by ENGINEER, as appropriate for the specific purpose intended, will be at COUNTY's sole risk and without liability or legal exposure to ENGINEER or to ENGINEER's Consultants; (3) COUNTY shall, to the limits set forth in Florida Statute 768.28, indemnify and hold harmless ENGINEER and ENGINEER's Consultants from all claims, damages, losses, and expenses, including attorneys' fees, arising out of or resulting from any use, reuse, or modification without written verification, completion, or adaptation by ENGINEER; (4) such limited license to COUNTY shall not create any rights in third parties.

5.4.6. If ENGINEER at COUNTY's request verifies or adapts the Documents for extensions of the Project or for any other project, then COUNTY shall compensate ENGINEER at rates or in an amount to be agreed upon by OWNER and ENGINEER.

#### 5.5 Controlling Law

This Agreement shall be governed by and construed in accordance with the laws of the State of Florida applicable to contracts made and to be performed entirely in the State. In the event that any cause of action or administrative proceeding is instituted for the enforcement or interpretation of this Agreement, the County and CONSULTANT agree that venue will lie in the appropriate court or before the appropriate administrative body in Monroe County, Florida.

#### 5.6 Mutual Waiver of Consequential Damages

Notwithstanding any other provision of this Agreement to the contrary, neither party including their officers, agents, servants and employees shall be liable to the other for lost profits or any special, indirect, incidental, or consequential damages in any way arising out of this Agreement however caused under a claim of any type or nature based on any theory of liability (including, but not limited to: contract, tort, or warranty) even if the possibility of such damages has been communicated.

#### 5.7 Limitation of Liability

In no event shall ENGINEER's total liability to COUNTY and/or any of the COUNTY 's officers, employees, agents, contractors or subcontractors for any and all injuries, claims, losses, expenses or damages whatsoever arising out of or in any way related to this

agreement from cause or causes, including, but not limited to, ENGINEER's wrongful act, omission, negligence, errors, strict liability, breach of contract, breach of warranty, express or implied, exceed the total amount of fee paid to ENGINEER under this agreement or \$500,000, whichever is greater.

## 5.8 Successors and Assigns

5.8.1. COUNTY and ENGINEER each is hereby bound and the partners, successors, executors, administrators and legal representatives of COUNTY and ENGINEER (and to the extent permitted by paragraph 5.8.2 the assigns of COUNTY and ENGINEER) are hereby bound to the other party to this Agreement and to the partners, successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements and obligations of this Agreement.

5.8.2. Neither COUNTY nor ENGINEER may assign, sublet or transfer any rights under or interest (including, but without limitation, moneys that may become due or moneys that are due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting or transfer is mandated by law or the effect of this limitation may be restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

5.8.3. Unless expressly provided otherwise in this Agreement:

5.8.3.1. Nothing in this Agreement shall be construed to create, impose or give rise to any duty owed by ENGINEER to any Contractor, Subcontractor, Supplier, other person or entity, or to any surety for or employee of any of them, or give any rights in or benefits under this Agreement to anyone other than COUNTY and ENGINEER.

5.8.3.2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of ~~OWNER~~ COUNTY and ENGINEER and not for the benefit of any other party.

## 5.9 Notices

Any notice required or permitted under this agreement shall be in writing and hand delivered or mailed, postage prepaid, to the other party by certified mail, returned receipt requested, or by a nationally recognized overnight courier service to the following:

All notices shall be effective upon the date of receipt.

5.10 Severability

Any provision or part of the Agreement held to be void or unenforceable under any law or regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon OWNER and ENGINEER, who agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

5.11 Changed Conditions

If concealed or unknown conditions that affect the performance of the Services are encountered, which conditions are not ordinarily found to exist or which differ materially from those generally recognized as inherent in the Services of the character provided for under this Agreement or which could not have reasonably been anticipated, notice by the observing party shall be given promptly to the other party and, if possible, before conditions are disturbed. Upon claim by the ENGINEER, the payment and schedule shall be equitably adjusted for such concealed or unknown condition by change order or amendment to reflect additions that result from such concealed, changed, or unknown conditions.

5.12 Environmental Site Conditions

5.12.1 COUNTY has disclosed to ENGINEER in writing the existence of all known and suspected Asbestos, PCBs, Petroleum, Hazardous Waste, Radioactive Material, hazardous substances, and other Constituents of Concern, as defined in Article 6, located at or near the Site, including type, quantity, and location.

5.12.2 COUNTY represents to ENGINEER that to the best of its knowledge no Constituents of Concern, other than those disclosed in writing to ENGINEER, exist at the Site.

5.12.3 If ENGINEER encounters an undisclosed Constituent of Concern, then ENGINEER shall notify (1) COUNTY and (2) appropriate governmental officials if ENGINEER reasonably concludes that doing so is required by applicable Laws or Regulations.

5.12.4 It is acknowledged by both parties that ENGINEER's scope of services does not include any services related to Constituents of Concern. If ENGINEER or any other

party encounters an undisclosed Constituent of Concern, or if investigative or remedial action, or other professional services, are necessary with respect to disclosed or undisclosed Constituents of Concern, then ENGINEER may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until COUNTY: (1) retains appropriate specialist consultant(s) or contractor(s) to identify and, as appropriate, abate, remediate, or remove the Constituents of Concern, and (2) warrants that the Site is in full compliance with applicable Laws and Regulations.

5.12.5 If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of ENGINEER's services under this Agreement, then the ENGINEER shall have the option of (1) accepting an equitable adjustment in its compensation or in the time of completion, or both; or (2) terminating this Agreement for cause on 30 days' notice.

### 5.13 Insurance

As a pre-requisite of the work governed, or the goods supplied under this Agreement (including the pre-staging of personnel and material), the CONSULTANT shall obtain, at his own expense, insurance as specified in any attached schedules, which are made part of this Agreement. The CONSULTANT will ensure that the insurance obtained will extend protection to all Contractors and subcontractors engaged by the CONSULTANT. As an alternative, the ENGINEER may require all Contractors and Subcontractors to obtain insurance consistent with the attached schedules.

The CONSULTANT will not be permitted to commence work governed by this Agreement (including pre-staging of personnel and material) until satisfactory evidence of the required insurance has been furnished to the COUNTY as specified below. Delays in the commencement of work, resulting from the failure of the CONSULTANT to provide satisfactory evidence of the required insurance, shall not extend any specified deadlines and any penalties and failure to perform assessments shall be imposed as if the work commenced on the specified date and time, except for the CONSULTANT's failure to provide satisfactory evidence.

The CONSULTANT shall maintain the required insurance throughout the entire term of this contract and any extensions specified in the attached schedules. Failure to comply with this provision may result in the immediate suspension of all work until the required insurance has been reinstated or replaced. Delays in the completion of work resulting from the failure of the CONSULTANT to maintain the required insurance shall not extend any specified deadlines and any penalties and failure to perform assessments shall be imposed as if the work had not been suspended, except for the CONSULTANT's failure to maintain the required insurance.

The CONSULTANT shall provide, to the COUNTY, as satisfactory evidence of the required insurance, a Certificate of Insurance.

The acceptance and/or approval of the CONSULTANT's insurance shall not be construed as relieving the CONSULTANT from any liability or obligation assumed under this Agreement or imposed by law.

The Monroe County Board of County Commissioners, its employees and officials will be included as Additional Insured on all policies, except for Workers' Compensation and Professional Liability.

Any deviations from these General Insurance Requirements must be requested in writing on the County-prepared form entitled, "**Request for Waiver of Insurance Requirements**" and approved by Monroe County Risk Management.

Prior to execution of this agreement, the CONSULTANT shall furnish the COUNTY Certificates of Insurance indicating the minimum coverage limitations as indicated by the attached forms identified as exhibit's 1 through 4, each attached hereto and incorporated as part of this contract document, and all other requirements found to be in the best interest of Monroe County as may be imposed by the Monroe County Risk Management Department.

#### 5.14 Discovery

ENGINEER shall be entitled to compensation on a time and materials basis when responding to all requests for discovery relating to this Project and to extent that ENGINEER is not a party to the lawsuit.

#### 5.15 Nondiscrimination and Affirmative Action

ENGINEER may utilize such ENGINEER's Subcontractors as ENGINEER deems necessary to assist in the performance of its Services.

#### 5.20 Coordination with Other Documents

It is the intention of the parties that if the ENGINEER's Services include design services, then the Standard General Conditions will be used as the General Conditions for the Project and that all amendments thereof and supplements thereto will be generally consistent therewith. Except as otherwise defined herein, the terms which have an initial capital letter in this Agreement and are defined in the Standard General Conditions will be used in this Agreement as defined in the Standard General Conditions. The term "*defective*" will be used in this Agreement as defined in the Standard General Conditions.

5.22 Change Orders

5.22.1 Any work not contained in a Task Order shall be a change, and shall be performed by ENGINEER only pursuant to a written Change Order to this Agreement signed by COUNTY and ENGINEER. Such a Change Order may increase or decrease the Work within the general scope of this Agreement. If this Change Order causes an increase in the cost of the Work, or of the time required for the performance of the Work, ENGINEER shall be paid additional compensation acceptable to both parties in accordance with Exhibit A or granted an extension of the schedule, or both.

5.22.2 In the event COUNTY requests ENGINEER to develop information necessary for the consideration of a change in the project, and such a change is not adopted, COUNTY shall reimburse ENGINEER for the costs which it incurs in connection with such efforts.

5.26 Status of ENGINEER

Nothing contained in this Agreement shall be construed or interpreted as requiring ENGINEER, its officers, agents, servants, or employees to assume the status of a generator, storer, treater, transporter or disposal facility as those terms appear within the Resource

Conservation Recovery Act, 42USCA, Section 6901, et seq. (RCRA), or within any state statute of similar effect governing the treatment, storage, transportation or disposal of waste.

#### 5.27 Dispute Resolution

In the event of any dispute between the parties arising out of or in connection with the contract or the services or work contemplated herein; the parties agree to first make a good faith effort to resolve the dispute informally. Negotiations shall take place between the designated principals of each party. If the parties are unable to resolve the dispute through negotiation within 45 days, then either party may give written notice within 10 days thereafter that it elects to proceed with non-binding mediation pursuant to the commercial mediation rules of the American Arbitration Association. In the event that mediation is not invoked by the parties or that the mediation is unsuccessful in resolving the dispute, then either party may submit the controversy to a court of competent jurisdiction. The foregoing is a condition precedent to the filing of any action other than an action for injunctive relief or if a Statute of Limitations may expire.

Each party shall be responsible for its own costs and expenses including attorneys' fees and court costs incurred in the course of any dispute, mediation, or legal proceeding. The fees of the mediator and any filing fees shall be shared equally by the parties.

- 8.17 Airport Security Requirements.
- a. General.** The federal Transportation Security Administration is the federal agency primarily responsible for overseeing the security measures utilized by the airport owner pursuant to the relevant provisions of Chapter 49, United States Code, and regulations adopted under the authority of the Code, including but not limited to 49 CFR 1540, et seq. Violations of the statutes or regulations may result in severe civil monetary penalties being assessed against the airport operator. It is the intent of the airport operator that the burdens and consequences of any security

violations imposed upon the airport operator as a result of actions by an airport tenant or the airport tenant's employees, agents, invitees, or licensees shall be borne by the airport tenant.

**b. Airport Tenant Defined.** An airport tenant means any person, entity, organization, partnership, corporation, or other legal association that has an agreement with the airport operator to conduct business on airport property. The term also includes an airport tenant as defined in 49 CFR 1540.5. Each signatory to this Agreement, other than the airport operator, is an airport tenant.

**c. Airport Operator Defined.** As used in this Agreement, airport operator means Monroe County, Florida, its elected and appointed officers, and its employees.

**d. Airport Property Defined.** Airport property shall mean the property owned or leased by, or being lawfully used by, the airport operator for civil aviation and airport-related purposes. For purposes of this Agreement, airport property is the property generally referred to as the Key West Airport, the Marathon Airport, or both as may be set forth in this Agreement.

**e. Inspection Authority.** The airport tenant agrees to allow Transportation Security Administration (TSA) authorized personnel, at any time or any place, to make inspections or tests, including copying records, to determine compliance of the airport operator or airport tenant with the applicable security requirements of Chapter 49, United States Code, and 49 CFR 1540, et seq.

**f. Airport Security Program.** The airport tenant agrees to become familiar, to the extent permitted by the airport operator, with the Airport Security Program promulgated by the airport operator and approved by TSA, and also agrees to conform its' operations and business activities to the requirements of the Airport Security Program.

**g. Tenant Security Program.** If permitted under TSA regulations, the airport tenant may voluntarily undertake to maintain an Airport Tenant Security Program as referred to in 49 CFR 1542.113. If the airport tenant voluntarily promulgates an Airport Tenant Security Program that is approved by TSA, such program, as may be amended and approved from time to time, shall be automatically incorporated into this Agreement.

**h. Breach of Agreement.** Should TSA determine that the airport tenant or one or more of the airport tenant's employees, agents, invitees, or licensees has committed an act or omitted to act as required, and such act or omission is a violation which results in TSA imposing a civil penalty against the airport operator in accordance with TSA's Enforcement Sanction Guidance Policy, such determination and imposition of a civil penalty by TSA shall be considered a significant breach of this Agreement.

**(1). Minimum Violation.** If the violation is the first or second violation attributed to the airport tenant and is a civil penalty minimum violation as provided for in TSA's Enforcement Sanction Guidance Policy, the airport tenant may cure the breach by paying to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, mitigating, compromising, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred

in the investigation, defense, compromising, mitigation, or taking of remedial action measures. If the violation is a third violation, or there are multiple violations in excess of two violations, that is or are a civil penalty minimum violation, the airport tenant shall pay to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport operator shall have the right to unilaterally cancel this Agreement, such cancellation to be effective thirty calendar days after receipt by the airport tenant of written notice of cancellation of this Agreement by the airport operator.

**(2). Moderate Violation.** If the violation is the first or second violation attributed to the airport tenant and is a civil penalty moderate violation as provided for in TSA's Enforcement Sanction Guidance Policy, the airport tenant may cure breach by paying to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, compromising, mitigating or taking of remedial measures as may be agreed to by TSA to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport tenant may cause all of airport tenant's employees involved in the airport tenant's business operations on the airport property to undergo such security training as may be required by the airport operator. The total cost of the training shall be paid for by the airport tenant. If the violation is a third violation, or there are multiple violations in excess of two violations, that is or are a civil penalty moderate violation, the airport tenant shall pay to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; further, the airport operator shall have the right to unilaterally cancel this Agreement such cancellation to be effective thirty calendar days after receipt by the airport tenant of written notice of cancellation of this Agreement by the airport operator.

**(3). Maximum Violation.** If the violation is the first violation attributed to the airport tenant and is a civil penalty "maximum violation" as provided for in TSA's Enforcement Sanction Guidance Policy, the airport tenant may cure the breach by paying to the airport operator the total costs incurred by the airport operator, including any fines and penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport tenant may cause all of airport tenant's employees involved in the airport tenant's business operations on the airport property to undergo such security training as may be required by the airport operator. The total cost of the training shall be paid for by the airport tenant. If the violation is a second violation, or there are multiple violations, that is or are a civil penalty "maximum violation", the airport tenant shall pay to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the

investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport operator shall have the right to unilaterally cancel this Agreement, such cancellation to be effective thirty calendar days after receipt by the airport tenant of written notice of cancellation of this Agreement by the airport operator.

**(4). Mitigation of Breach.** TSA has a policy of forgoing civil penalty actions when the airport operator detects violations, promptly discloses the violations to TSA, and takes prompt corrective action to ensure that the same or similar violations do not recur. This policy is known as the TSA Voluntary Disclosure Program Policy, and is designed to encourage compliance with TSA regulations, foster secure practices, and encourage the development of internal evaluation programs. The airport tenant agrees that upon detecting a violation the airport tenant will immediately report it to the airport operator. Should the TSA ultimately determine that the violation was committed by the airport tenant, or an employee, agent, invitee, or licensee of the airport tenant, but the violation should result in the issuance of a letter of correction in lieu of a civil penalty, then the airport tenant shall reimburse the airport operator the total costs incurred by the airport operator in investigating, defending, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, mitigation, or taking of remedial action measures. A violation resulting in the issuance of a letter of correction shall not be considered to be a breach of this Agreement by the airport tenant.

**(5). Survival of Sub-Section.** This sub-section 8.17 shall survive the cancellation or termination of this Agreement, and shall be in full force and effect.

8.18 Mutual Review. This Agreement has been carefully reviewed by CONSULTANT and the COUNTY; therefore this Agreement is not to be construed against either party on the basis of authorship.

8.19 Entirety of Agreement. This Agreement constitutes the entire Agreement between the parties with respect to the subject matter hereof and supersedes all prior negotiations and discussions concerning the subject matter hereof.

**THE REMAINDER OF THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK.**

**IN WITNESS WHEREOF**, the parties hereto have executed this Agreement on the day and date first written above in four (4) counterparts, each of which shall, without proof or accounting for the other counterparts, be deemed and original contract.

**CONTRACT FOR LANDSCAPING SERVICES**  
**GARDENS OF EDEN OF THE FLORIDA KEYS, INC.**  
**KWIA**

**THIS CONTRACT** (hereafter “Contract” or “Agreement”), made and entered into this 20th day of January, 2016, by and between Monroe County, a political subdivision of the State of Florida, (hereafter “County”), whose address is 1100 Simonton Street, Key West, Florida, 33040 and Gardens of Eden of the Florida Keys, Inc., a Florida Corporation (hereafter Contractor), whose address is 92 Bay Drive, Key West, Florida 33040. The parties hereto, for the considerations herein set forth, mutually agree as follows:

**1. SCOPE OF WORK.**

a) The Contractor shall provide landscaping services at the Key West International Airport, including all necessary equipment required in the performance of same, and perform all of the work described in the Specifications (Exhibit A), and the bid documents (Exhibit A-1) attached hereto and incorporated as part of this document.

b) Should additional landscaping services not included in the Specifications (Exhibit A) be required at KWIA, the additional specific tasks, and costs for these tasks, will be mutually agreed upon in writing, and approved by the Airport Manager and by the Contractor.

c) The Contractor shall insure all proper security protocols are followed at all times.

d) The Contractor and all associated employees working on the Airfield AOA/SIDA must pass a Criminal History Records Check, a Security Threat Assessment and successfully complete a Security Identification Display Area (SIDA) written test and any other required testing, as determined by the airport.

e) The Contractor and all employees working on the Airfield must successfully complete the Airfield Driver Training written and practical test and any other required testing, as determined by the airport

**2. CONTRACT SUM.** The County shall pay the Contractor for the faithful performance of said service on a per week in arrears basis during the term of the Contract. The Contractor shall invoice KWIA weekly for landscaping services performed under the Specifications contained herein. Labor shall be invoiced at \$25 per hour and the total Contract amount shall not exceed \$100,000. Contractor shall submit to County invoices with supporting documentation acceptable to the Clerk, on a weekly schedule in arrears. Acceptability to the Clerk is based on generally accepted accounting principles and such laws, rules and regulations as may govern the Clerk’s disbursement of funds. County’s performance and obligation to pay under this agreement, is contingent upon annual appropriation by the Board of County Commissioners.

Additional services approved pursuant to Article 1(b) above shall be invoiced at \$25 per hour for labor plus materials. Contractor may subcontract any approved additional services. Contractor shall follow county purchasing policy and procedures in subcontracting any additional work. Contractor shall invoice the county the actual cost of the subcontracted work plus 10% for overhead.

Additional landscape services are recognized as irregularly occurring services and the costs for additional services shall be over and above the contract sum and shall not be counted against the not to exceed contract amount of \$100,000.

**3. CONTRACTOR'S ACCEPTANCE OF CONDITIONS.**

a) The Contractor hereby agrees that he has carefully examined the sites and has made investigations to fully satisfy himself/herself that such sites are correct and suitable ones for this work and he/she assumes full responsibility therefore. The provisions of this Agreement shall control any inconsistent provisions contained in the Specifications. All Specifications have been read and carefully considered by the Contractor, who understands the same and agrees to their sufficiency for the work to be done. Under no circumstances, conditions, or situations shall this Contract be more strongly construed against the County than against the Contractor (and his Surety, if applicable).

b) Any ambiguity or uncertainty in the Specifications shall be interpreted and construed by the Airport Manager, and his decision shall be final and binding upon all parties.

c) The passing, approval, and/or acceptance of any part of the work or material by the County shall not operate as a waiver by the County of strict compliance with the terms of this Agreement, and Specifications covering said work. Failure on the part of the Contractor, immediately after Notice to correct workmanship shall entitle the County, if it sees fit, to correct the same and recover the reasonable cost of such remediation work and/or repair from the Contractor, who shall in any event be jointly and severally liable to the County for all damage, loss, and expense caused to the County by reasons of the Contractor's breach of this Agreement and/or his failure to comply strictly and in all things with this Agreement and with the Specifications.

**4. TERM OF CONTRACT/RENEWAL.**

a) This Contract shall be for a period of one year commencing on January 20, 2016 and terminating on January 19, 2017.

b) Unless otherwise indicated as set forth in subsection 34(b), this Agreement shall automatically renew on the anniversary date of the Agreement for four (4) additional one year periods. Unless earlier terminated as provided in the terms of this Agreement, this Agreement shall terminate on January 19, 2021. The contract amount agreed to herein may be adjusted annually, on the renewal date of each year, by a percentage equal to the percentage increase in the CPI for urban consumers for the preceding calendar year. In the event of a deflationary CPI, no adjustment shall be made.

**5. INDEPENDENT CONTRACTOR.** At all times and for all purposes under this Agreement the Contractor is an independent contractor and not an employee of the Board of County Commissioners for Monroe County. No statement contained in this Agreement shall be construed so as to find the contractor or any of his/her employees, contractors, servants, or agents to be employees of the Board of County Commissioners for Monroe County.

**6. ASSIGNMENT.** The Contractor shall not assign this Agreement, except in writing and with the prior written approval of the Board of County Commissioners for Monroe County, which approval shall be subject to such conditions and provisions as the Board may deem necessary. This Agreement shall be incorporated by reference into any assignment and

any assignee shall comply with all of the provisions of this Agreement. Unless expressly provided for therein, such approval shall in no manner or event be deemed to impose any obligation upon the Board in addition to the total agreed-upon price of the services/goods of the contractor.

**7. COMPLIANCE WITH THE LAW.** In providing all services/goods pursuant to this Agreement, the contractor shall abide by all statutes, ordinances, rules and regulations pertaining to, or regulating the provisions of, such services, including those now in effect and hereinafter adopted. Any violation of said statutes, ordinances, rules and regulation shall constitute a material breach of this Agreement and shall entitle the Board to terminate this contract immediately upon delivery of written notice of termination to the contractor. The Contractor shall possess proper licenses to perform work in accordance with these specifications throughout the term of this contract.

All employees or subcontractors of the Contractor must pass an airport background investigation. All employees or subcontractors of the Contractor who are not citizens of the United States must have and possess documented authorization to work in the United States, issued by the government of the United States. Failure of such person to have and possess such documentation is a material breach of the contract and will entitle Monroe County to terminate the contract for cause. The arrest, detention or taking into custody of any of the Contractor's employees or subcontractors by the Bureau of Customs and Border Protection constitutes sufficient evidence under this contract that the contractor has committed a material breach and entitles Monroe County to terminate this contract for cause.

**8. INSURANCE.** Prior to execution of this Agreement, the Contractor shall furnish to the County Certificates of Insurance for the following coverage:

- Worker's Compensation - \$100,000 Bodily Injury by Accident; \$500,000 Bodily Injury by Disease, policy limits; \$100,000 Bodily Injury by Disease, each employee
- Vehicle Liability - \$100,000 combined single limit
- General Liability - \$300,000 combined single limit
- Employee Dishonesty - \$100,000

a) Certificates of Insurance must be provided to Monroe County prior to execution of this Agreement and within fifteen days after award of proposal, with Monroe County BOCC listed as additionally insured on all except Workers Compensation. Thereafter, the Contractor must keep in full force and effect all of the insurance coverages listed above during the term of this Agreement. If the insurance policies originally purchased that meet the requirements are canceled, terminated or reduced in coverage, then the Contractor must immediately substitute complying policies so that no gap in coverage occurs.

b) All forms of insurance required above shall be from insurers acceptable to the County.

c) All insurance policies must specify that they are not subject to cancellation, non-renewal, material change, or reduction in coverage unless a minimum of thirty days prior notification is given to the County by the insurer.

d) All insurance policies must specify that they are not subject to cancellation, non-renewal, material change, or reduction in coverage unless a minimum of thirty days prior notification is given to the County by the insurer.

e) The insurance required of the Contractor by the terms of this Agreement is for the protection of the County, its property and employees, and the general public. The insurance requirement is not, however, for the protection of any specific member of the general public who might be injured because of an act or omission of the Contractor. The insurance requirements do not make any specific injured member of the general public a third party beneficiary under this Agreement. Therefore, any failure by the County to enforce these insurance requirements, or terminate this Contract if the Contractor becomes uninsured or underinsured, is not a breach of any duty or obligation owed to any specific member of the general public and cannot form the basis of any County liability to a specific member of the general public or his/her dependents, or estate or heirs.

f) Notwithstanding the provisions of paragraph 34, the County may immediately treat the Contractor in default if the Contractor fails to maintain the insurance required by this paragraph 8. Before terminating the agreement in this situation, the County need only provide the Contractor 24-hour notice by FAX or overnight courier. The County may, but need not, provide the Contractor with an opportunity to cure the default.

**9. INDEMNIFY AND HOLD HARMLESS.** Notwithstanding any minimum insurance requirements prescribed elsewhere in this agreement, Contractor shall defend, indemnify and hold the County and the County's elected and appointed officers and employees harmless from and against (i) any claims, actions or causes of action, (ii) any litigation, administrative proceedings, appellate proceedings, or other proceedings relating to any type of injury (including death), loss, damage, fine, penalty or business interruption, and (iii) any costs or expenses (including, without limitation, costs of remediation and costs of additional security measures that the Federal Aviation Administration, the Transportation Security Administration or any other governmental agency requires by reason of, or in connection with a violation of any federal law or regulation, attorneys' fees and costs, court costs, fines and penalties) that may be asserted against, initiated with respect to, or sustained by, any indemnified party by reason of, or in connection with, (A) any activity of Contractor or any of its employees, agents, contractors or other invitees on the Airport during the term of this Agreement, (B) the negligence or willful misconduct of Contractor or any of its employees, agents, contractors or other invitees, or (C) Contractor's default in respect of any of the obligations that it undertakes under the terms of this lease, except to the extent the claims, actions, causes of action, litigation, proceedings, costs or expenses arise from the intentional or sole negligent acts or omissions of the County or any of its employees, agents, contractors or invitees (other than Contractor). Insofar as the claims, actions, causes of action, litigation, proceedings, costs or expenses relate to events or circumstances that occur during the term of this Agreement, this section will survive the expiration of the term of this Agreement or any earlier termination of this Agreement.

**10. RECORDS.** Contractor shall maintain all books, records, and documents directly pertinent to performance under this Agreement in accordance with generally accepted accounting principles consistently applied. Each party to this Agreement or their authorized representatives shall have reasonable and timely access to such records of each other party to this Agreement for public records purposes during the term of the Agreement and for four years following the termination of this Agreement. If an auditor employed by the County or

Clerk determines that monies paid to the Contractor pursuant to this Agreement were spent for purposes not authorized by this Agreement, the Contractor shall repay the monies together with interest calculated pursuant to Sec. 55.03, FS, running from the date the monies were paid to Contractor.

**11. GOVERNING LAW, VENUE, INTERPRETATION, COSTS, AND FEES.** This Agreement shall be governed by and construed in accordance with the laws of the State of Florida applicable to contracts made and to be performed entirely in the State. In the event that any cause of action or administrative proceeding is instituted for the enforcement or interpretation of this Agreement, the County and Contractor agree that venue will lie in the appropriate court or before the appropriate administrative body in Monroe County, Florida. The County and Contractor agree that, in the event of conflicting interpretations of the terms or a term of this Agreement by or between any of them the issue shall be submitted to mediation prior to the institution of any other administrative or legal proceeding.

**12. SEVERABILITY.** If any term, covenant, condition or provision of this Agreement (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions and provisions of this Agreement, shall not be affected thereby; and each remaining term, covenant, condition and provision of this Agreement shall be valid and shall be enforceable to the fullest extent permitted by law unless the enforcement of the remaining terms, covenants, conditions and provisions of this Agreement would prevent the accomplishment of the original intent of this Agreement. The County and Contractor agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

**13. ATTORNEY'S FEES AND COSTS.** The County and Contractor agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this Agreement, the prevailing party shall be entitled to reasonable attorney's fees, court costs, investigative, and out-of-pocket expenses, as an award against the non-prevailing party, and shall include attorney's fees, courts costs, investigative, and out-of-pocket expenses in appellate proceedings. Mediation proceedings initiated and conducted pursuant to this Agreement shall be in accordance with the Florida Rules of Civil Procedure and usual and customary procedures required by the circuit court of Monroe County.

**14. BINDING EFFECT.** The terms, covenants, conditions, and provisions of this Agreement shall bind and inure to the benefit of the County and Contractor and their respective legal representatives, successors, and assigns.

**15. AUTHORITY.** Each party represents and warrants to the other that the execution, delivery and performance of this Agreement have been duly authorized by all necessary County and corporate action, as required by law.

**16. ADJUDICATIONS OF DISPUTES OR DISAGREEMENTS.** County and Contractor agree that all disputes and disagreements shall be attempted to be resolved by meet and confer sessions between representatives of each of the parties. If no resolution can be agreed upon within 30 days after the first meet and confer session, the issue or issues shall be discussed at a public meeting of the Board of County Commissioners. If the issue or issues are

still not resolved to the satisfaction of the parties, then any party shall have the right to seek such relief or remedy as may be provided by this Agreement or by Florida law.

**17. COOPERATION.** In the event any administrative or legal proceeding is instituted against either party relating to the formation, execution, performance, or breach of this Agreement, County and Contractor agree to participate, to the extent required by the other party, in all proceedings, hearings, processes, meetings, and other activities related to the substance of this Agreement or provision of the services under this Agreement. County and Contractor specifically agree that no party to this Agreement shall be required to enter into any arbitration proceedings related to this Agreement.

**18. NONDISCRIMINATION.** Contractor will comply with all Federal and Florida statutes, and all local ordinances, as applicable, relating to nondiscrimination. These include but are not limited to: 1) Title VI of the Civil Rights Act of 1964 (PL 88-352) which prohibits discrimination on the basis of race, color or national origin; 2) Title IX of the Education Amendment of 1972, as amended (20 USC ss. 1681-1683, and 1685 -1686), which prohibits discrimination on the basis of sex; 3) Section 504 of the Rehabilitation Act of 1973, as amended (20 USC s. 794), which prohibits discrimination on the basis of handicaps; 4) The Age Discrimination Act of 1975; as amended (42 USC ss. 6101-6107) which prohibits discrimination on the basis of age; 5) The Drug Abuse Office and Treatment Act of 1972 (PL 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; 6) The Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (PL 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; 7) The Public Health Service Act of 1912, ss. 523 and 527 (42 USC ss. 690dd-3 and 290ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; 8) Title VIII of the Civil Rights Act of 1968 (42 USC s. et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; 9) The Americans with Disabilities Act of 1990 (42 USC s. 1201 Note), as may be amended from time to time, relating to nondiscrimination based of disability; 10) Secs. 13-101, et seq., Monroe County Code, relating to discrimination based on race, color, sex, religion, disability, national origin, ancestry, sexual orientation, gender identify or expression, familial status or age; 11) Any other nondiscrimination provisions in any Federal or State statutes which may apply to the parties to, or the subject matter of, this agreement. The Contractor expressly understands that upon a determination by a court of competent jurisdiction that the Contractor has discriminated against any person, this agreement automatically terminates without any further action on the part of any party, effective the date of the Court order.

**19. COVENANT OF NO INTEREST.** County and Contractor covenant that neither presently has any interest, and shall not acquire any interest, which would conflict in any manner or degree with its performance under this Agreement, and that only interest of each is to perform and receive benefits as recited in this Agreement.

For the breach or violation of the provision, the Contractor agrees that the County shall have the right to terminate this Agreement without liability and, at its discretion, to offset from monies owed, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

**22. PUBLIC ACCESS.** The County and Contractor shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Contractor in conjunction with this Agreement; and the County shall have the right to unilaterally cancel this Agreement upon violation of this provision by Contractor.

NON-WAIVER OF IMMUNITY.** Notwithstanding the provisions of Sec. 768.28, Florida Statutes, the participation of the County and the Contractor in this Agreement and the acquisition of any commercial liability insurance coverage, self-insurance coverage, or local government liability insurance pool coverage shall not be deemed a waiver of immunity to the extent of liability coverage, nor shall any contract entered into by the County be required to contain any provision for waiver.

**24. PRIVILEGES AND IMMUNITIES.** All of the privileges and immunities from liability, exemptions from laws, ordinances, and rules and pensions and relief, disability, workers' compensation, and other benefits which apply to the activity of officers, agents, or employees of any public agents or employees of the County, when performing their respective functions under this Agreement within the territorial limits of the County shall apply to the same degree and extent to the performance of such functions and duties of such officers, agents, volunteers, or employees outside the territorial limits of the County.

**25. LEGAL OBLIGATIONS AND RESPONSIBILITIES.** Non-Delegation of Constitutional or Statutory Duties. This Agreement is not intended to, nor shall it be construed as, relieving any participating entity from any obligation or responsibility imposed upon the entity by law except to the extent of actual and timely performance thereof by any participating entity, in which case the performance may be offered in satisfaction of the obligation or responsibility. Further, this Agreement is not intended to, nor shall it be construed as, authorizing the delegation of the constitutional or statutory duties of the County, except to the extent permitted by the Florida constitution, state statute, and case law.

**26. NON-RELIANCE BY NON-PARTIES.** No person or entity shall be entitled to rely upon the terms, or any of them, of this Agreement to enforce or attempt to enforce any third-party claim or entitlement to or benefit of any service or program contemplated hereunder, and the County and the Contractor agree that neither the County nor the Contractor or any agent, officer, or employee of either shall have the authority to inform, counsel, or otherwise indicate that any particular individual or group of individuals, entity or entities, have entitlements or benefits under this Agreement separate and apart, inferior to, or superior to the community in general or for the purposes contemplated in this Agreement.

27. **ATTESTATIONS.** Contractor agrees to execute such documents as the County may reasonably require, to include a Public Entity Crime Statement, an Ethics Statement, and a Drug-Free Workplace Statement.

29. **EXECUTION IN COUNTERPARTS.** This Agreement may be executed in any number of counterparts, each of which shall be regarded as an original, all of which taken together shall constitute one and the same instrument and any of the parties hereto may execute this Agreement by signing any such counterpart.

30. **SECTION HEADINGS.** Section headings have been inserted in this Agreement as a matter of convenience of reference only, and it is agreed that such section headings are not a part of this Agreement and will not be used in the interpretation of any provision of this Agreement.

31. **FUNDING AVAILABILITY.** In the event that funds from Airports Contractual Services are partially reduced or cannot be obtained or cannot be continued at level sufficient to allow for the purchase of the services/goods specified herein, this Agreement may then be terminated immediately at the option of the Board by written notice of termination delivered in person or by mail to the contractor. The Board shall not be obligated to pay for any services provided by the contractor after the contractor has received written notice of termination.

32. **PROFESSIONAL RESPONSIBILITY.** The Contractor warrants that it is authorized by law to engage in the performance of the activities encompassed by the project herein described, subject to the terms and conditions set forth. The provider shall at all times exercise independent, professional judgment and shall assume professional responsibility for the services to be provided. Continued funding by the Board is contingent upon retention of appropriate local, state, and/or federal certification and/or licenser of contractor.

It is the intent of the airport operator that the burdens and consequences of any security violations imposed upon the airport operator as a result of actions by an airport tenant or the airport tenant's employees, agents, invitees, or licensees shall be borne by the airport tenant.

**b) Airport Tenant Defined.** An airport tenant means any person, entity, organization, partnership, corporation, or other legal association that has an agreement with the airport operator to conduct business on airport property. The term also includes an airport tenant as defined in 49 CFR 1540.5. Each signatory to this Agreement, other than the airport operator, is an airport tenant.

**c) Airport Operator Defined.** As used in this Agreement, airport operator means Monroe County, Florida, its elected and appointed officers, and its employees.

**d) Airport Property Defined.** Airport property shall mean the property owned or leased by, or being lawfully used by, the airport operator for civil aviation and airport-related purposes.

For purposes of this Agreement, airport property is the property generally referred to as the Key West Airport, the Marathon Airport, or both as may be set forth in this Agreement.

**e) Inspection Authority.** The airport tenant agrees to allow Transportation Security Administration (TSA) authorized personnel, at any time or any place, to make inspections or tests, including copying records, to determine compliance of the airport operator or airport tenant with the applicable security requirements of Chapter 49, United States Code, and 49 CFR 1540, et seq.

**f) Airport Security Program.** The airport tenant agrees to become familiar, to the extent permitted by the airport operator, with the Airport Security Program promulgated by the airport operator and approved by TSA, and also agrees to conform its' operations and business activities to the requirements of the Airport Security Program.

**g) Tenant Security Program.** If permitted under TSA regulations, the airport tenant may voluntarily undertake to maintain an Airport Tenant Security Program as referred to in 49

CFR 1542.113. If the airport tenant voluntarily promulgates an Airport Tenant Security Program that is approved by TSA, such program, as may be amended and approved from time to time, shall be automatically incorporated into this Agreement.

**h) Breach of Agreement.** Should TSA determine that the airport tenant or one or more of the airport tenant's employees, agents, invitees, or licensees has committed an act or omitted to act as required, and such act or omission is a violation which results in TSA imposing a civil penalty against the airport operator in accordance with TSA's Enforcement Sanction Guidance Policy, such determination and imposition of a civil penalty by TSA shall be considered a significant breach of this Agreement.

**(1). Minimum Violation.** If the violation is the first or second violation attributed to the airport tenant and is a civil penalty "minimum violation" as provided for in TSA's Enforcement Sanction Guidance Policy, the airport tenant may cure the breach by paying to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, mitigating, compromising, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures. If the violation is a third violation, or there are multiple violations in excess of two violations, that is or are a civil penalty "minimum violation", the airport tenant shall pay to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport operator shall have the right to unilaterally cancel this Agreement, such cancellation to be effective thirty calendar days after receipt by the airport tenant of written notice of cancellation of this Agreement by the airport operator.

**(2). Moderate Violation.** If the violation is the first or second violation attributed to the airport tenant and is a civil penalty "moderate violation" as provided for in TSA's Enforcement Sanction Guidance Policy, the airport tenant may cure the breach by paying to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport tenant may cause all of airport tenant's employees involved in the airport tenant's business operations on the airport property to undergo such security training as may be required by the airport operator. The total cost of the training shall be paid for by the airport tenant. If the violation is a third violation, or there are multiple violations in excess of two violations, that is or are a civil penalty "moderate violation", the airport tenant shall pay to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney's fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport operator shall have the right to unilaterally cancel this Agreement, such cancellation to be effective thirty calendar days after receipt by the airport tenant of written notice of cancellation of this Agreement by the airport operator.

**(3). Maximum Violation.** If the violation is the first violation attributed to the airport tenant and is a civil penalty “maximum violation” as provided for in TSA’s Enforcement Sanction Guidance Policy, the airport tenant may cure the breach by paying to the airport operator the total costs incurred by the airport operator, including any fines and penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney’s fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport tenant may cause all of airport tenant’s employees involved in the airport tenant’s business operations on the airport property to undergo such security training as may be required by the airport operator. The total cost of the training shall be paid for by the airport tenant. If the violation is a second violation, or there are multiple violations, that is or are a civil penalty “maximum violation”, the airport tenant shall pay to the airport operator the total costs incurred by the airport operator, including any fines or penalties imposed, in investigating, defending, compromising, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney’s fees and costs incurred in the investigation, defense, compromising, mitigation, or taking of remedial action measures; and, further, the airport operator shall have the right to unilaterally cancel this Agreement, such cancellation to be effective thirty calendar days after receipt by the airport tenant of written notice of cancellation of this Agreement by the airport operator.

**(4). Mitigation of Breach.** TSA has a policy of forgoing civil penalty actions when the airport operator detects violations, promptly discloses the violations to TSA, and takes prompt corrective action to ensure that the same or similar violations do not recur. This policy is known as the TSA Voluntary Disclosure Program Policy, and is designed to encourage compliance with TSA regulations, foster secure practices, and encourage the development of internal evaluation programs. The airport tenant agrees that upon detecting a violation the airport tenant will immediately report it to the airport operator. Should the TSA ultimately determine that the violation was committed by the airport tenant, or an employee, agent, invitee, or licensee of the airport tenant, but the violation should result in the issuance of a letter of correction in lieu of a civil penalty, then the airport tenant shall reimburse the airport operator the total costs incurred by the airport operator in investigating, defending, mitigating, or taking of remedial measures as may be agreed to by TSA, to include but not be limited to reasonable attorney’s fees and costs incurred in the investigation, defense, mitigation, or taking of remedial action measures. A violation resulting in the issuance of a letter of correction shall not be considered to be a breach of this Agreement by the airport tenant.

**(5). Survival of Sub-Section.** This sub-section h shall survive the cancellation or termination of this Agreement, and shall be in full force and effect.

**i) Hold Harmless; Indemnification; Defense; Release; Survival.** Notwithstanding any minimum insurance requirements prescribed elsewhere in this Agreement, the airport tenant agrees to hold harmless, indemnify, defend and release the airport operator, and the airport operator’s elected and appointed officers and employees, from any claims, actions, causes of action, litigation, administrative proceedings, appellate proceedings, or other proceedings relating to any and all types of injury, including death, loss, damage, fines, penalties, or business interruption of any nature whatsoever, of or to any person or property in connection with the use of the airport property under this Agreement, regardless of causation and including criminal acts of third parties; and especially including any and all fines, penalties, out of pocket expenses, attorney’s fees and costs, and costs of remediation or

additional security measures required to be implemented by any governmental agency (including but not limited to the Federal Aviation Administration and the Transportation Security Administration) resulting from a violation of any federal law or federal regulation. This sub-section shall survive the cancellation or termination of this Agreement.

36. **MUTUAL REVIEW.** This agreement has been carefully reviewed by the Contractor and the County, therefore this agreement is not to be construed against either party on the basis of authorship.

**IN WITNESS WHEREOF**, the parties have caused this Agreement to be executed this \_\_\_\_\_ day of \_\_\_\_\_, 2016.

**Re: Fee proposal to perform preliminary analysis to identify adjacent properties and structures within right of way to be impacted by the sea level rise (SLR) considerations in Roadway and Drainage Improvements design for Lake Surprise Estate Subdivision**

Dear Ms. Clarke;

EAC Consulting Inc. (EAC) is pleased to submit this fee proposal to Monroe County to provide civil engineering services in reference to County's request to incorporate Sea Level Rise (SLR) considerations with respect to infrastructure improvements proposed within Lake Surprise Estate.

**Background & Scope of Services:**

Monroe County has conducted a sea level rise study and the recommendation from the study to maintain roadway elevations at a minimum 2.93 feet NGVD. Accordingly, the County intends to ensure compliance with this requirement by elevating the roadways within the subdivision to accomplish a minimum edge of pavement elevation at 2.93 ft NGVD and maintaining a 2% roadway cross slope cross section. The County requires EAC Consulting, Inc., to perform a preliminary analysis to determine the following:

1. Identify the adjacent properties of the roadways that will be impacted by raising the elevation of the roadway
2. Identify the structures within the right of way that will be impacted by the raising of the elevation of the roadway.

The following roadways segments are assumed to be impacted and thus will be included in the analysis:

- Long Key Road (From Largo Road to North End)
- Lower Matecumbe Road (From Plantation Road to North End)
- Largo Road (From Grassy Road to Plantation Road)
- Plantation Road (From Largo Road to Upper Matecumbe Road)
- Upper Matecumbe Road (250 LF From Plantation Road)
- Lake Surprise (150 LF From Private Community – West End)
- Vaca Road (250 LF From West End)
- Bahia Honda Road (From East End to Largo Road)
- Big Pine Road (From East End to Largo Road)
- Summerland Road (From East End to Overseas Highway/ US-1)
- Largo Road (From Bahia Honda Road to Big Pine Road)

**Task 1 – Data Collection and Review:**

- **Site Visits:** EAC will conduct site visits to identify any obstacle for tie-ins, harmonization, drainage or gravity wall construction to incorporate in the survey and analysis. Based on the amount of houses two days have been allocated for the site visits.

**Task 2 – Preliminary Analysis:**

EAC will review the sea level rise report which is provided by the County to incorporate into the analysis. The elevation difference between the raised edge of pavement and the existing right of way boundary every 100 feet will be analyzed to determine the effect of the harmonization.

**Deliverables:**

EAC shall furnish to the County a letter report identifying the houses that will be impacted and thus requiring survey and agreements between the property owners and the county for harmonization. The letter report will also identify the structures that need to be adjusted due to the elevation change.

**Schedule:**

EAC will provide the report on December 18, 2015.

**Fee and Costs:**

Our fee proposal is summarized as follows:

| Tasks | Descriptions                        | Fee                |
|-------|-------------------------------------|--------------------|
| 1     | Data Collection & Review – Lump Sum | \$9,480.00         |
| 2     | Preliminary Analysis – Lump Sum     | \$13,480.00        |
|       | Project Management –Lump Sum        | \$3,780.00         |
|       | Reimbursables                       | \$500.00           |
|       | <b>TOTAL (LUMP SUM)</b>             | <b>\$27,240.00</b> |

We thank you for the opportunity and look forward to work with the County on this project.

Sincerely,  
EAC Consulting, Inc

**CONSULTANT will promptly notify the COUNTY if it or any subcontractor or subconsultant is formally charged with an act defined as a "public entity crime" or has been placed on the convicted vendor list.**

## 9.8 MAINTENANCE OF RECORDS

**9.10 SEVERABILITY**

If any term, covenant, condition or provision of this Agreement (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions and provisions of this Agreement, shall not be affected thereby; and each remaining term, covenant, condition and provision of this Agreement shall be valid and shall be enforceable to the fullest extent permitted by law unless the enforcement of the remaining terms, covenants, conditions and provisions of this Agreement would prevent the accomplishment of the original intent of this Agreement. The COUNTY and CONSULTANT agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

**9.11 ATTORNEY'S FEES AND COSTS**

The COUNTY and CONSULTANT agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this Agreement, the prevailing party shall be entitled to reasonable attorney's fees, court costs, investigative, and out-of-pocket expenses, as an award against the non-prevailing party, and shall include attorney's fees, courts costs, investigative, and out-of-pocket expenses in appellate proceedings.

If the issue or issues are still not resolved to the satisfaction of the parties, then any party shall have the right to seek such relief or remedy as may be provided by this Agreement or by Florida law. This provision does not negate or waive the provisions of paragraph 9.5 concerning termination or cancellation.

#### **9.16 COOPERATION**

In the event any administrative or legal proceeding is instituted against either party relating to the formation, execution, performance, or breach of this Agreement, COUNTY and CONSULTANT agree to participate, to the extent required by the other party, in all proceedings, hearings, processes, meetings, and other activities related to the substance of this Agreement or provision of the services under this Agreement. COUNTY and CONSULTANT specifically agree that no party to this Agreement shall be required to enter into any arbitration proceedings related to this Agreement.

The following terms apply to all contracts in which it is indicated in Section 6.B of the Standard Professional Services Agreement that the services involve the expenditure of federal funds:

- A. It is understood and agreed that all rights of the Department relating to inspection, review, approval, patents, copyrights, and audit of the work, tracing, plans, specifications, maps, data, and cost records relating to this Agreement shall also be reserved and held by authorized representatives of the United States of America.
- B. It is understood and agreed that, in order to permit federal participation, no supplemental agreement of any nature may be entered into by the parties hereto with regard to the work to be performed hereunder without the approval of the U.S. Department of Transportation, anything to the contrary in this Agreement notwithstanding.
- C. Compliance with Regulations: The Consultant shall comply with the Regulations of the U.S. Department of Transportation Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.
- D. Nondiscrimination: The Consultant, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of material and leases of equipment. The Consultant will not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.
- E. Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations made by the Consultant, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials and leases of equipment, each potential subcontractor or supplier shall be notified by the Consultant of the Consultant's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.
- F. - G. Sanctions for Noncompliance: In the event of the Consultant's noncompliance with the nondiscrimination provisions of this contract, the Florida Department of Transportation shall impose such contract sanctions as it or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration may determine to be appropriate, including, but not limited to,

## **ARTICLE 5**

### **Progress Payments**

- 5.1 Based upon Applications for Payment submitted by the Contractor to the Owner, and upon Project Applications and Certificates for Payment, the Owner shall make progress payments on account of the Contract Sum to the contractor as provided below and elsewhere in the Contract Documents.
- 5.2 The period covered by each Application for payment shall be one calendar month ending on the last day of the month.
- 5.3 County shall pay pursuant to the Local Government Prompt Payment Act 218.70.
- 5.4 Each Application for Payment shall be based upon the Schedule of Values submitted by the Contractor in accordance with the Contract Documents. The Schedule of Values shall allocate the entire Contract Sum among the various portions of the Work and be prepared in such form and supported by such data to substantiate its accuracy as the Owner may require. This schedule, unless objected to by the Owner, shall be used as a basis for reviewing the Contractor's Applications for Payment.
- 5.5 Applications for Payment shall indicate the percentage of completion of each portion of the Work as of the end of the period covered by the Application for Payment.
- 5.6 Subject to the provisions of the Contract Documents, the amount of each progress payment shall be computed as follows:
- 5.6.1 Take that portion of the Contract Sum properly allocable to completed Work as determined by multiplying the percentage completion of each portion of the Work by the share of the total Contract Sum allocated to that portion of the Work in the Schedule of Values, less retainage of Ten percent (10%). Pending final determination of cost to the Owner of changes in the Work, amounts not in dispute may be included in applications for Payment. The amount of credit to be allowed by the Contractor to the Owner for a deletion or change which results in a net decrease in the Contract Sum shall be actual net cost as confirmed by the Owner. When both additions and credits covering related Work or substitutions are involved in a change the

allowance for overhead and profit shall be figured on the basis of net increase, if any, with respect to that change.

5.6.2 Add that portion of the Contract Sum properly allocable to materials and equipment delivered and suitably stored at the site for subsequent incorporation in the completed construction (or, if approved in advance by the Owner, suitably stored off the site at a location agreed upon in writing), less retainage of Ten percent (10%):

5.6.3 Subtract the aggregate of previous payments made by the Owner; and

5.6.4 Subtract amounts, if any, for which the Owner has withheld or nullified a Certificate for Payment as provided in Paragraph 9.5 of the General conditions.

5.7 The progress payment amount determined in accordance with Paragraph 5.6 shall be further modified under the following circumstances:

5.7.1 Add, upon Substantial Completion of the Work, a sum sufficient to increase the total payments to Ninety percent (90%) of the Contract Sum, less such amounts as the Owner recommends and determines for incomplete Work and unsettled claims; and

5.7.2 Add, if final completion of the Work is thereafter materially delayed through no fault of the Contractor, any additional amounts payable in accordance with Subparagraph 9.10.3 of the General Conditions.

5.8 Reduction or limitation of retainage, if any, shall be as follows: None

## **ARTICLE 6**

### **Final Payment**

Final payment, constituting the entire unpaid balance of the Contract Sum, shall be made by the Owner to the Contractor when (1) the Contract has been fully performed by the Contractor except for the Contractor's responsibility to correct nonconforming Work as provided in Subparagraph 12.2.2 of the General Conditions and to satisfy other requirements, if any, which necessarily survive final payment: and (2) a final Project Certificate for Payment has been issued by the Project Manager: such final payment shall be made by the Owner not more than 20 days after the issuance of the final Project Certificate for Payment.

## **ARTICLE 7**

Violation of this section shall result in termination of this Agreement and recovery of all monies paid hereto, and may result in debarment from County's competitive procurement activities.

In addition to the foregoing, Contractor further represents that there has been no determination, based on an audit, that it or any subcontractor has committed an act defined by Section 287.133, Florida Statutes, as a "public entity crime" and that it has not been formally charged with committing an act defined as a "public entity crime" regardless of the amount of money involved or whether Contractor has been placed on the convicted vendor list.

Contractor will promptly notify the County if it or any subcontractor is formally charged with an act defined as a "public entity crime" or has been placed on the convicted vendor list. A person or affiliate who has been placed on the convicted vendor list following a conviction for public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to public entity, may not be awarded or perform work as contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

The County and Contractor agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

d) **Attorney's Fees and Costs:** The County and Contractor agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this Agreement, the prevailing party shall be entitled to reasonable attorney's fees and court costs, as an award against the non-prevailing party, and shall include attorney's fees and courts costs in appellate proceedings. i) **Covenant of No Interest:** County and Contractor covenant that neither presently has any interest, and shall not acquire any interest, which would conflict in any manner or degree with its performance under this Agreement, and that only interest of each is to perform and receive benefits as recited in this Agreement.

j) **Code of Ethics:** County agrees that officers and employees of the County recognize and will be required to comply with the standards of conduct for public officers and employees as delineated in Section 112.313, Florida Statutes, regarding, but not limited to, solicitation or acceptance of gifts; doing business with one's agency; unauthorized compensation; misuse of public position, conflicting employment or contractual relationship; and disclosure or use of certain information.

k) **No Solicitation/Payment:** The County and Contractor warrant that, in respect to itself, it has neither employed nor retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for it, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of the provision, the Contractor agrees that the County shall have the right to terminate this Agreement without liability and, at its discretion, to offset from monies owed, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

l) **Public Access:** The County and Contractor shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Contractor in conjunction with this Agreement; and the County shall have the right to unilaterally cancel this Agreement upon violation of this provision by Contractor.

Pursuant to F.S. 119.0701, Contractor and its subcontractors shall comply with all public records laws of the State of Florida, including but not limited to:

(a) Keep and maintain public records that ordinarily and necessarily would be required by Monroe County in order to perform the service.

(b) Provide the public with access to public records on the terms and conditions that Monroe County would provide the records and at a cost that does not exceed the cost provided in Florida Statutes, Chapter 119 or as otherwise provided by law.

(c) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.

(d) Meet all requirements for retaining public records and transfer, at no cost, to Monroe County all public records in possession of the contractor upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to Monroe County in a format that is compatible with the information technology systems of Monroe

m) **Non-Waiver of Immunity:** Notwithstanding the provisions of Sec. 768.28, Florida Statutes, the participation of the County and the Contractor in this Agreement and the acquisition of any commercial liability insurance coverage, self-insurance coverage, or local government liability insurance pool coverage shall not be deemed a waiver of immunity to the extent of liability coverage, nor shall any contract entered into by the County be required to contain any provision for waiver.

n) **Privileges and Immunities:** All of the privileges and immunities from liability, exemptions from laws, ordinances, and rules, pensions and relief, disability, workers' compensation, and other benefits which apply to the activity of officers, agents, or employees of any public agents or employees of the County, when performing their respective functions under this Agreement within the territorial limits of the County shall apply to the same degree and extent to the performance of such functions and duties of such officers, agents, volunteers, or employees outside the territorial limits of the County.

o) **Legal Obligations and Responsibilities:** Non-Delegation of Constitutional or Statutory Duties. This Agreement is not intended to, nor shall it be construed as, relieving any participating entity from any obligation or responsibility imposed upon the entity by law except to the extent of actual and timely performance thereof by any participating entity, in which case the performance may be offered in satisfaction of the obligation or responsibility. Further, this Agreement is not intended to, nor shall it be construed as, authorizing the delegation of the constitutional or statutory duties of the County, except to the extent permitted by the Florida constitution, state statute, and case law.

p) **Non-Reliance by Non-Parties:** No person or entity shall be entitled to rely upon the terms, or any of them, of this Agreement to enforce or attempt to enforce any third-party claim or entitlement to or benefit of any service or program contemplated hereunder, and the County and the Contractor agree that neither the County nor the Contractor or any agent, officer, or employee of either shall have the authority to inform, counsel, or otherwise indicate that any particular individual or group of individuals, entity or entities, have entitlements or benefits under this Agreement separate and apart, inferior to, or superior to the community in general or for the purposes contemplated in this Agreement.

q) **Attestations:** Contractor agrees to execute such documents as the County may reasonably require, including a Public Entity Crime Statement, an Ethics Statement, and a Drug-Free Workplace Statement.

r) **No Personal Liability:** No covenant or agreement contained herein shall be deemed to be a covenant or agreement of any member, officer, agent or employee of Monroe County in his or her individual capacity, and no member, officer, agent or employee of Monroe County shall be liable personally on this Agreement or be subject to any personal liability or accountability by reason of the execution of this Agreement.

s) **Execution in Counterparts:** This Agreement may be executed in any number of counterparts, each of which shall be regarded as an original, all of which taken together shall constitute one and the same instrument and any of the parties hereto may execute this Agreement by signing any such counterpart.

t) **Section Headings:** Section headings have been inserted in this Agreement as a matter of convenience of reference only, and it is agreed that such section headings are not a part of this Agreement and will not be used in the interpretation of any provision of this Agreement.

u) **Special Conditions,** if any are detailed in Section 01000 of the Project Manual for this Project.

v) **Hold Harmless and Indemnification:** Notwithstanding any minimum insurance requirements prescribed elsewhere in this agreement, the Contractor covenants and agrees that he shall defend, indemnify and hold the COUNTY and the COUNTY's elected and appointed officers and employees harmless from and against (i) claims, actions or causes of action, (ii) litigation, administrative proceedings, appellate proceedings, or other proceedings relating to any type of injury (including death), loss, damage, fine, penalty or business interruption, and (iii) costs or expenses that may be asserted against, initiated with respect to, or sustained by the County and the COUNTY's elected and appointed officers and employees from liabilities damages, losses and costs, including but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the Contractor and persons employed or utilized by the indemnifying party in the performance of the construction contract. The monetary limitation of liability under this contract shall be not less than \$1 million per occurrence pursuant to F. S. 725.06. Insofar as the claims, actions, causes of action, litigation, proceedings, costs or expenses relate to events or circumstances that occur during the term of this Agreement, this section will survive the expiration of the term of this Agreement or any earlier termination of this Agreement.

In the event the completion of the project (including the work of others) is delayed or suspended as a result of the Contractor's failure to purchase or maintain the required insurance, the Contractor shall indemnify the County from any and all increased expenses resulting from such delay.

The first ten dollars (\$10.00) of remuneration paid to the Contractor is for the indemnification provided for above.

The extent of liability is in no way limited to, reduced, or lessened by the insurance requirements contained elsewhere within this agreement.

In the event that any claims are brought or actions are filed against the County with respect to the indemnity contained herein, the Contractor agrees to defend against any such claims or actions regardless of whether such claims or actions are rightfully or wrongfully brought or filed. The Contractor agrees that the County may select the attorneys to appear and defend such claims or

actions on behalf of the County. The Contractor further agrees to pay at the Contractor's expense the attorney's fees and costs incurred by those attorneys selected by the County to appear and defend such claims or actions on behalf of the County at both the trial and appellate levels. The County, at its sole option, shall have the sole authority for the direction of the defense, and shall be the sole judge of the acceptability of any compromise or settlement of any claims or actions against the County.

To the fullest extent permitted by law the Contractor shall indemnify and hold harmless the State of Florida, Department of Transportation, and its officers and employees, from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the Contractor and persons employed or utilized by the Contractor in the performance of this Contract.

This indemnification shall survive the termination of this Agreement. Nothing contained in this paragraph is intended to nor shall it constitute a waiver of the State of Florida and the County's sovereign immunity.

w) **Adjudication of Disputes or Disagreements:** The Owner and Contractor agree that all disputes and disagreement shall be attempted to be resolved by meet and confer sessions between representatives of each of the parties. If no resolution can be agreed upon within 30 days after the first meet and confer session, the issue or issues shall be discussed at public meeting of the Board of County Commissioners. If the issue or issues are still not resolved to the satisfaction of the parties, then any party shall have the right to seek such relief or remedy as may be provided by this Agreement or by Florida law. This provision does not negate or waive the provisions of Paragraph X concerning cancellation.

x) **Cancellation:** In the event that the Contractor shall be found to be negligent in any aspect of installation, stocking, maintenance, repair, or service, the County shall have the right to terminate this agreement after five days written notification to the Contractor.

y) **Cooperation:** In the event any administrative or legal proceeding is instituted against either party relating to the formation, execution, performance, or breach of this Agreement, County and Contractor agree to participate, to the extent required by the other party, in all proceedings, hearings, processes, meetings, and other activities related to the substance of this Agreement or provision of the services under this Agreement. County and Contractor specifically agree that no party to this Agreement shall be required to enter into any arbitration proceedings related to this Agreement.

z) **Insurance:** In addition to insurance provisions contained in Specification Section 00900, General Insurance Requirements for Construction Contractors and Subcontractors, the Contractor shall name the Florida Department of Transportation as additional insured on any and all liability policies providing coverage, and require any subcontractors to name the Florida Department of Transportation as additional insured on any and all liability policies providing coverage for operations related to the project. 7.8 **Successors and Assigns:** The Contractor shall not assign or subcontract its obligations under this agreement, except in writing and with the prior written approval of the Board of County Commissioners for Monroe County, which approval shall be subject to such conditions and provisions as the Board may deem necessary. This paragraph shall be incorporated by reference into any assignment or subcontract and any assignee or subcontractor shall comply with all of the provisions of this Agreement. Subject to the provisions of the immediately preceding sentence, each party hereto binds itself, its successors, assigns and legal representatives to the other and to the successors, assigns and legal representatives of such other party.

7.9 **No third Party Beneficiaries:** Nothing contained herein shall create any relationship, contractual or otherwise, with or any rights in favor of, any third party.

Project Description: Garrison Bight Bridge Repair - Monroe County/FDOT District Six LAP Project

Re: Fee Proposal for the Design Development Letter Report, Bridge Repair Plans, Roadway Reconstruction Plans and Post Design Services

Dear Mr. Briggs:

Kisinger Campo & Associates (KCA) is pleased to submit this Scope of Services and Fee Proposal for engineering services for the above referenced project. The scope of services will consist of engineering services required to produce a Design Development Letter Report, Bridge Repair Plans, Roadway Reconstruction Plans, Permitting/Environmental Services and associated Post-design Services.

The Design Development Letter Report will consider all repair alternatives while also considering the possibility of future replacement. All alternatives will be evaluated based on cost, impacts to traffic, environmental impacts, permitting impacts and service life. A final repair recommendation will be made that fits the needs of the county and is within the proposed FDOT budget.

Bridge repair plans and roadway plans will be produced that conform to the approved Design Development Report Alternative. The bridge repairs will likely include spall repair, crack injection, cathodic protection, metalizing, structural steel repair, prestressed beam repair, substructure strengthening and bridge fender repairs. The roadway efforts will likely consist of milling and resurfacing with base reconstruction if warranted. In addition, KCA will provide all environmental and permitting services associated with the proposed repairs and be available to assist with all post-design support.

All of the testing and inspections associated with the above repairs is included in the scope of work and the total fee. This includes an asbestos survey, road and bridge corings and an underwater pile and retaining wall inspection to be completed by sub-consultants.

We have estimated the level of effort required for all engineering design services and plans production described above. Our total estimated fee amounts to \$263,154.12. This fee includes all KCA efforts, sub-consultant tasks, QA/QC, supervision and LAP project coordination. The fee estimate is based on hourly rates which include our expenses and overhead. For a phase breakdown of the lump sum fee, see the following sheet.

We sincerely appreciate the opportunity to continue our working relationship with you on this project. Please do not hesitate to call me if you have any questions or need any additional information.

Best Regards,

Jason L. LaBarbera, P.E.  
Project Manager

Catalog of Federal Domestic Assistance (CFDA): 20.205 Highway Planning and Construction

---

THIS AGREEMENT, made and entered into this 12 day of August, 2015 by and between the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, an agency of the State of Florida, hereinafter called the Department, and Monroe County hereinafter called the Agency.

**WITNESSETH:**

WHEREAS, the Agency has the authority to enter into this Agreement and to undertake the project hereinafter described, and the Department has been granted the authority to function adequately in all areas of appropriate jurisdiction including the implementation of an integrated and balanced transportation system and is authorized under Section 339.12, Florida Statutes, to enter into this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants, promises and representations herein, the parties agree as follows:

**1.00 Purpose of Agreement:** The purpose of this Agreement is to provide for the Department's participation in The Garrison Bight Bridge Repair Design Project and as further described in Exhibit "A" attached hereto and by this reference made a part hereof, hereinafter called the "Project," and to provide Department financial assistance to the Agency and state the terms and conditions upon which such assistance will be provided and the understandings as to the manner in which the Project will be undertaken and completed.

**1.01 Attachments:** Exhibit(s) 1, A & B are attached and made a part hereof.

**2.01 General Requirements:** The Agency shall complete the Project as described in Exhibit "A" with all practical dispatch, in a sound, economical, and efficient manner, and in accordance with the provisions herein, and all applicable laws. The Project will be performed in accordance with all applicable Department procedures, guidelines, manuals, standards, and directives as described in the Department's Local Agency Program Manual, which by this reference is made a part hereof as if fully set forth herein. Time is of the essence as to each and every obligation under this Agreement.

A full time employee of the Agency, qualified to ensure that the work being pursued is complete, accurate, and consistent with the terms, conditions, and specifications of this Agreement shall be in charge of the Project.

**Inactivity and Removal of Any Unbilled Funds**

Once the Department issues a Notice to Proceed (NTP) for the Project, the Agency shall be obligated to submit an invoice or other request for reimbursement to the Department for all work completed for the Project no less frequently than on a quarterly basis, beginning from the day the NTP is issued. If the Agency fails to submit quarterly (or more frequently than quarterly) invoices to the Department as required herein and in the event said failure to timely submit invoices to the Department results in FHWA removing any unbilled funding or in the loss of State appropriation authority (which may include the loss of state and Federal funds, if there are state funds programmed to the Project), then the Agency will be solely responsible to provide all funds necessary to complete the Project and the Department will not be obligated to provide any additional funding for the Project. The Agency waives the right to contest such removal of funds by the Department, if the removal is related to FHWA's withdrawal of funds or if the removal is related to the loss of State appropriation authority. In addition to the loss of funding for the Project, the Department will also consider the de-certification of the Agency for future LAP Projects.

## **Removal of All Funds**

If all funds are removed from the Project, including amounts previously billed to the Department and reimbursed to the Agency, and the Project is off the state highway system, then the department will have to request repayment for the previously billed amounts from the Agency. No state funds can be used on off-system projects.

**2.02 Expiration of Agreement:** The Agency agrees to complete the Project on or before March 31, 2017. If the Agency does not complete the Project within this time period, this Agreement will expire on the last day of the scheduled completion as provided in this paragraph unless an extension of the time period is requested by the Agency and granted in writing by the Department prior to the expiration of this Agreement. Expiration of this Agreement will be considered termination of the Project. The cost of any work performed after the expiration date of this Agreement will not be reimbursed by the Department.

**2.03 Pursuant to Federal, State, and Local Laws:** In the event that any election, referendum, approval, permit, notice or other proceeding or authorization is requisite under applicable law to enable the Agency to enter into this Agreement or to undertake the Project hereunder or to observe, assume or carry out any of the provisions of the Agreement, the Agency will initiate and consummate, as provided by law, all actions necessary with respect to any such matters so requisite.

**2.04 Agency Funds:** The Agency shall initiate and prosecute to completion all proceedings necessary, including federal-aid requirements, to enable the Agency to provide the necessary funds for completion of the Project.

**2.05 Submission of Proceedings, Contracts, and Other Documents:** The Agency shall submit to the Department such data, reports, records, contracts, and other documents relating to the Project as the Department and the Federal Highway Administration (FHWA) may require. The Agency shall use the Department's Local Agency Program Information Tool and applicable information systems as required.

## **3.00 Project Cost:**

**3.01 Total Cost:** The total cost of the Project is \$ 260,000. This amount is based upon the schedule of funding in Exhibit "B." The Agency agrees to bear all expenses in excess of the total cost of the Project and any deficits involved. The schedule of funding may be modified by mutual agreement as provided for in paragraph 4.00.

**3.02 Department Participation:** The Department agrees to participate in the Project cost to the extent provided in Exhibit "B." This amount includes federal-aid funds which are limited to the actual amount of federal-aid participation.

**3.03 Limits on Department Funds:** Project costs eligible for Department participation will be allowed only from the date of this Agreement. It is understood that Department participation in eligible Project costs is subject to:

- a. Legislative approval of the Department's appropriation request in the work program year that the Project is scheduled to be committed;
- b. Availability of funds as stated in paragraphs 3.04 and 3.05 of this Agreement;
- c. Approval of all plans, specifications, contracts or other obligating documents and all other terms of this Agreement; and
- d. Department approval of the Project scope and budget at the time appropriation authority becomes available.

**3.04 Appropriation of Funds:** The Department's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. If the Department's funding for this Project is in multiple fiscal years, funds approval from the Department's Comptroller must be received each fiscal year prior to costs being incurred. See Exhibit "B" for funding levels by fiscal year. Project costs utilizing these fiscal year funds are not eligible for reimbursement if incurred prior to funds approval being received. The Department will notify the Agency, in writing, when funds are available.

**3.05 Multi-Year Commitment:** In the event this Agreement is in excess of \$25,000 and has a term for a period of more than one year, the provisions of Section 339.135(6)(a), Florida Statutes, are hereby incorporated:

"(a) The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as

available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years, and this paragraph shall be incorporated verbatim in all contracts of the Department which are for an amount in excess of \$25,000 and which have a term for a period of more than 1 year."

**3.06 Notice-to-Proceed:** No cost may be incurred under this Agreement until the Agency has received a written Notice-to-Proceed (NTP) from the Department. The Agency agrees to advertise or put the Project out to bid thirty (30) days from the date the Department issues the NTP to advertise the Project. If the Agency is not able to meet the scheduled advertisement, the District LAP Administrator should be notified as soon as possible.

**3.07 Limits on Federal Participation:** Federal-aid funds shall not participate in any cost which is not incurred in conformity with applicable Federal and State laws, the regulations in 23 Code of Federal Regulations (C.F.R.) and 49 C.F.R., and policies and procedures prescribed by the Division Administrator of FHWA. Federal funds shall not be paid on account of any cost incurred prior to authorization by the FHWA to the Department to proceed with the Project or part thereof involving such cost (23 C.F.R. 1.9 (a)). If FHWA or the Department determines that any amount claimed is not eligible, federal participation may be approved in the amount determined to be adequately supported and the Department shall notify the Agency in writing citing the reasons why items and amounts are not eligible for federal participation. Where correctable non-compliance with provisions of law or FHWA requirements exists, Federal funds may be withheld until compliance is obtained. Where non-compliance is not correctable, FHWA or the Department may deny participation in parcel or Project costs in part or in total.

For any amounts determined to be ineligible for federal reimbursement for which the Department has advanced payment, the Agency shall promptly reimburse the Department for all such amounts within 90 days of written notice.

**4.00 Project Estimate and Disbursement Schedule:** Prior to the execution of this Agreement, a Project schedule of funding shall be prepared by the Agency and approved by the Department. The Agency shall maintain said schedule of funding, carry out the Project, and shall incur obligations against and make disbursements of Project funds only in conformity with the latest approved schedule of funding for the Project. The schedule of funding may be revised by execution of a LAP Supplemental Agreement between the Department and the Agency. The Agency acknowledges and agrees that funding for this project may be reduced upon determination of the agency's contract award amount. If revised, a copy of the Supplemental Agreement shall be forwarded to the Department's Comptroller. No increase or decrease shall be effective unless it complies with fund participation requirements of this Agreement and is approved by the Department's Comptroller.

#### **5.00 Records:**

**5.01 Establishment and Maintenance of Accounting Records:** Records of costs incurred under the terms of this Agreement shall be maintained and made available upon request to the Department at all times during the period of this Agreement and for 5 years after the final payment is made. Copies of these documents and records shall be furnished to the Department upon request. Records of costs incurred include the Agency's general accounting records and the Project records, together with supporting documents and records of the Agency and all subcontractors performing work on the Project and all other records of the Agency and subcontractors considered necessary by the Department for a proper audit of costs. If any litigation, claim or audit is started before the expiration of the 5-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.

**5.02 Costs Incurred for Project:** The Agency shall charge to the Project account all eligible costs of the Project except costs agreed to be borne by the Agency or its contractors and subcontractors. Costs in excess of the programmed funding or attributable to actions which have not received the required approval of the Department shall not be considered eligible costs.

**5.03 Documentation of Project Costs:** All costs charged to the Project, including any approved services contributed by the Agency or others, shall be supported by properly executed payrolls, time records, invoices, contracts or vouchers evidencing in proper detail the nature and propriety of the charges.

**5.04 Audit Reports:** The administration of resources awarded through the Department to the Agency by this Agreement may be subject to audits and/or monitoring by the Department. The following requirements do not limit the authority of the Department to conduct or arrange for the conduct of additional audits or evaluations of Federal awards or limit the authority of any State agency inspector general, the State of Florida Auditor General or any other State official. The Agency shall comply with all audit and audit reporting requirements as specified below.

- a. In addition to reviews of audits conducted in accordance with OMB Circular A-133, for fiscal years beginning before December 26, 2014, and in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, monitoring procedures may include but not be limited to on-site visits by Department staff and/or other procedures including, reviewing any required performance and financial reports, following up, ensuring corrective action, and issuing management decisions on weaknesses found through audits when those findings pertain to Federal awards provided through the Department by this Agreement. By entering into this Agreement, the Agency agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by the Department. The Agency further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Department, State of Florida Chief Financial Officer (CFO) or State of Florida Auditor General.
- b. The Agency, a non-Federal entity as defined by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and as defined by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, as a subrecipient of a Federal award awarded by the Department through this Agreement is subject to the following requirements:
  1. In the event the Agency expends a total amount of Federal awards equal to or in excess of the threshold established by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and established by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, the Agency must have a Federal single or program-specific audit for such fiscal year conducted in accordance with the provisions of OMB Circular A-133, for fiscal years beginning before December 26, 2014, and in accordance with the provisions of 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014. **Exhibit 1** to this Agreement provides the required Federal award identification information needed by the Agency to further comply with the requirements of OMB Circular A-133, for fiscal years beginning before December 26, 2014, and the requirements of 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014. In determining Federal awards expended in a fiscal year, the Agency must consider all sources of Federal awards based on when the activity related to the Federal award occurs, including the Federal award provided through the Department by this Agreement. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and established by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014. An audit conducted by the State of Florida Auditor General in accordance with the provisions of OMB Circular A-133, for fiscal years beginning before December 26, 2014, and in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, will meet the requirements of this part.
  2. In connection with the audit requirements, the Agency shall fulfill the requirements relative to the auditee responsibilities as provided in OMB Circular A-133, for fiscal years beginning before December 26, 2014, and as provided in 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014.
  3. In the event the Agency expends less than the threshold established by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and established by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, in Federal awards, the Agency is exempt from Federal audit requirements for that fiscal year. However, the Agency must provide a single audit exemption statement to the Department at [FDOTSingleAudit@dot.state.fl.us](mailto:FDOTSingleAudit@dot.state.fl.us) no later than nine months after the end of the Agency's audit period for each applicable audit year. In the event the Agency expends less than the threshold established by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and established by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, in Federal awards in a fiscal year and **elects** to have an audit conducted in accordance with the provisions of OMB Circular A-133, for fiscal years

beginning before December 26, 2014, and in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, the cost of the audit must be paid from non-Federal resources (*i.e.*, the cost of such an audit must be paid from the Agency's resources obtained from other than Federal entities).

4. The Agency must electronically submit to the Federal Audit Clearinghouse (FAC) at <https://harvester.census.gov/facweb/> the audit reporting package as required by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and as required by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months after the end of the audit period. The FAC is the repository of record for audits required by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and for audits required by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, and this Agreement. However, the Department requires a copy of the audit reporting package also be submitted to [FDOTSingleAudit@dot.state.fl.us](mailto:FDOTSingleAudit@dot.state.fl.us) within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months after the end of the audit period as required by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and as required by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014.
5. Upon receipt, and within six months, the Department will review the Agency's audit reporting package, including corrective action plans and management letters, to the extent necessary to determine whether timely and appropriate action on all deficiencies has been taken pertaining to the Federal award provided through the Department by this Agreement. If the Agency fails to have an audit conducted in accordance with OMB Circular A-133, for fiscal years beginning before December 26, 2014, and in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, the Department may impose additional conditions to remedy noncompliance. If the Department determines that noncompliance cannot be remedied by imposing additional conditions, the Department may take appropriate actions to enforce compliance.
6. As a condition of receiving this Federal award, the Agency shall permit the Department, or its designee, the CFO or State of Florida Auditor General access to the Agency's records including financial statements, the independent auditor's working papers and project records as necessary. Records related to unresolved audit findings, appeals or litigation shall be retained until the action is complete or the dispute is resolved.
7. The Department's contact information for requirements under this part is as follows:

- c. The Agency shall retain sufficient records demonstrating its compliance with the terms of this Agreement for a period of five years from the date the audit report is issued and shall allow the Department, or its designee, the CFO or State of Florida Auditor General access to such records upon request. The Agency shall ensure that the audit working papers are made available to the Department, or its designee, the CFO, or State of Florida Auditor General upon request for a period of five years from the date the audit report is issued unless extended in writing by the Department.

**5.05 Inspection:** The Agency shall permit, and shall require its contractors to permit, the Department's authorized representatives and authorized agents of FHWA to inspect all work, workmanship, materials, payrolls, and records and to audit the books, records, and accounts pertaining to the financing and development of the Project.

The Department reserves the right to unilaterally cancel this Agreement for refusal by the Agency or any contractor, sub-contractor or materials vendor to allow public access to all documents, papers, letters or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received in conjunction with this Agreement (Section 287.058(1)(c), Florida Statutes) unless the records are exempt.

**5.06 Uniform Relocation Assistance and Real Property Statistical Report:** For any project requiring additional right-of-way, the Agency must submit to the Department an annual report of its real property acquisition and relocation assistance activities on the project. Activities shall be reported on a federal fiscal year basis, from October 1 through September 30. The report must be prepared using the format prescribed in 49 C.F.R. Part 24, Appendix B, and be submitted to the Department no later than October 15 of each year.

**6.00 Requisitions and Payments:** Requests for reimbursement for fees or other compensation for services or expenses incurred shall be submitted in detail sufficient for a proper pre-audit and post-audit thereof (Section 287.058(1)(a), Florida Statutes).

All recipients of funds from this Agreement, including those contracted by the Agency, must submit bills for any travel expenses, when authorized by the terms of this Agreement, in accordance with Section 112.061, Florida Statutes, and Chapter 3-"Travel" of the Department's Disbursement Operations Manual, Topic 350-030-400 (Section 287.058(1)(b), Florida Statutes).

If, after Project completion, any claim is made by the Department resulting from an audit or for work or services performed pursuant to this Agreement, the Department may offset such amount from payments due for work or services done under any agreement which it has with the Agency owing such amount if, upon demand, payment of the amount is not made within 60 days to the Department. Offsetting any amount pursuant to this paragraph shall not be considered a breach of contract by the Department.

**7.00 Department Obligations:** Subject to other provisions hereof, the Department will honor requests for reimbursement to the Agency in amounts and at times deemed by the Department to be proper to ensure the carrying out of the Project and payment of the eligible costs. However, notwithstanding any other provision of this Agreement, the Department may elect by notice in writing not to make a payment if:

**7.01 Misrepresentation:** The Agency shall have made misrepresentation of a material nature in its application, or any supplement thereto or amendment thereof or in or with respect to any document of data furnished therewith or pursuant hereto;

**7.02 Litigation:** There is then pending litigation with respect to the performance by the Agency of any of its duties or obligations which may jeopardize or adversely affect the Project, the Agreement or payments to the Project;

**7.03 Approval by Department:** The Agency shall have taken any action pertaining to the Project which, under this Agreement, requires the approval of the Department or has made related expenditure or incurred related obligations without having been advised by the Department that same are approved;

**7.04 Conflict of Interests:** There has been any violation of the conflict of interest provisions contained here in paragraph 12.07.

**7.05 Default:** The Agency has been determined by the Department to be in default under any of the provisions of the Agreement.

**7.06 Federal Participation:** The Department may suspend or terminate payment for that portion of the Project which the FHWA, or the Department acting in lieu of FHWA, may designate as ineligible for federal-aid.

**7.07 Disallowed Costs:** In determining the amount of the payment, the Department will exclude all Projects costs incurred by the Agency prior to the effective date of this Agreement or the date of authorization, costs incurred after the expiration of the Agreement, costs which are not provided for in the latest approved schedule of funding in Exhibit "B" for the Project, costs agreed to be borne by the Agency or its contractors and subcontractors for not meeting the Project commencement and final invoice time lines, and costs attributable to goods or services received under a contract or other arrangements which have not been approved in writing by the Department.

**7.08 Final Invoices:** The Agency must submit the final invoice on the Project to the Department within 120 days after the completion of the Project. Invoices submitted after the 120-day time period may not be paid.

## **8.00 Termination or Suspension of Project:**

**8.01 Termination or Suspension Generally:** The Department may, by written notice to the Agency, suspend any or all of its obligations under this Agreement until such time as the event or condition resulting in such suspension has ceased or been corrected or the Department may terminate this Agreement in whole or in part at any time the interest of the Department requires such termination.

(a) If the Department determines that the performance of the Agency is not satisfactory, the Department shall notify the Agency of the deficiency in writing with a requirement that the deficiency be corrected within thirty (30) days of such notice. Such notice shall provide reasonable specificity to the Agency of the deficiency that requires correction. If the deficiency is not corrected within such time period, the Department may either (1) immediately terminate the Agreement as set forth in paragraph 8.(b) below, or (2) take whatever action is deemed appropriate by the Department to correct the deficiency. In the event the Department chooses to take action and not terminate the Agreement, the Agency shall, upon demand, promptly reimburse the Department for any and all costs and expenses incurred by the Department in correcting the deficiency.

(b) If the Department terminates the Agreement, the Department shall notify the Agency of such termination in writing, with instructions to the effective date of termination or specify the stage of work at which the Agreement is to be terminated.

(c) If the Agreement is terminated before the Project is completed, the Agency shall be paid only for the percentage of the Project satisfactorily performed for which costs can be substantiated. Such payment, however, shall not exceed the equivalent percentage of the contract price. All work in progress will become the property of the Department and will be turned over promptly by the Agency.

**8.02 Action Subsequent to Notice-of-Termination or Suspension:** Upon receipt of any final termination or suspension notice under this paragraph, the Agency shall proceed promptly to carry out the actions required therein which may include any or all of the following: (a) necessary action to terminate or suspend, as the case may be, Project activities and contracts and such other action as may be required or desirable to keep to a minimum the costs upon the basis of which the financing is to be computed; (b) furnish a statement of the Project activities and contracts and other undertakings the cost of which are otherwise includable as Project costs. The termination or suspension shall be carried out in conformity with the latest schedule, plan, and cost as approved by the Department or upon the basis of terms and conditions imposed by the Department upon the failure of the Agency to furnish the schedule, plan, and estimate within a reasonable time. The closing out of federal financial participation in the Project shall not constitute a waiver of any claim which the Department may otherwise have arising out of this Agreement.

## **9.00 Contracts of Agency:**

**9.01 Third Party Agreements:** Except as otherwise authorized in writing by the Department, the Agency shall not execute any contract or obligate itself in any manner requiring the disbursement of Department funds, including consultant or construction contracts or amendments thereto, with any third party with respect to the Project without the written approval of the Department. Failure to obtain such approval shall be sufficient cause for nonpayment by the Department. The Department specifically reserves unto itself the right to review the qualifications of any consultant or contractor and to approve or disapprove the employment of the same.

**9.02 Compliance with Consultants' Competitive Negotiation Act:** It is understood and agreed by the parties hereto that participation by the Department in a project with the Agency, where said project involves a consultant contract for engineering, architecture or surveying services, is contingent on the Agency's complying in full with provisions of Section 287.055, Florida Statutes, Consultants' Competitive Negotiation Act. At the discretion of the Department, the Agency will involve the Department in the consultant selection process for all projects. In all cases, the Agency shall certify to the Department that selection has been accomplished in compliance with the Consultants' Competitive Negotiation Act.

**10.00 Disadvantaged Business Enterprise (DBE) Policy and Obligation:** It is the policy of the Department that DBE's, as defined in 49 C.F.R. Part 26, as amended, shall have the opportunity to participate in the performance of contracts financed in whole or in part with Department funds under this Agreement. The DBE requirements of applicable federal and state laws and regulations apply to this Agreement.

The Agency and its contractors agree to ensure that DBE's have the opportunity to participate in the performance of this Agreement. In this regard, all recipients and contractors shall take all necessary and reasonable steps in accordance with applicable federal and state laws and regulations to ensure that the DBE's have the opportunity to compete for and perform contracts. The Agency and its contractors and subcontractors shall not discriminate on the basis of race, color, national origin or sex in the award and performance of contracts, entered pursuant to this Agreement. Furthermore, the Agency agrees that:

(a) Each financial assistance agreement signed with a US-DOT operating administration (or a primary recipient) must include the following assurance:

"The recipient shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any DOT-assisted contract or in the administration of its DBE program or the requirements of 49 C.F.R. Part 26. The recipient shall take all necessary and reasonable steps under 49 C.F.R. Part 26 to ensure nondiscrimination in the award and administration of DOT-assisted contracts. The recipient's DBE program, as required by 49 C.F.R. Part 26 and as approved by Department, is incorporated by reference in this Agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this Agreement. Upon notification to the recipient of its failure to carry out its approved program, the Department may impose sanctions as provided for under 49 C.F.R. Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 et seq.)."

(b) Each contract signed with a contractor (and each subcontract the prime contractor signs with a subcontractor) must include the following assurance:

"The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 C.F.R. Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate."

**11.00 Compliance with Conditions and Laws:** The Agency shall comply and require its contractors and subcontractors to comply with all terms and conditions of this Agreement and all federal, state, and local laws and regulations applicable to this Project. Execution of this Agreement constitutes a certification that the Agency is in compliance with, and will require its contractors and subcontractors to comply with, all requirements imposed by applicable federal, state, and local laws and regulations, including the "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions," in 49 C.F.R. Part 29, when applicable.

**11.01 Performance Evaluation:** Agencies are evaluated on a project-by-project basis. The evaluations provide information about oversight needs and provide input for the recertification process. Evaluations are submitted to the Agency's Responsible Charge or designee as part of the Project closeout process. The Department provides the evaluation to the Agency no more than 30 days after final acceptance.

**11.02 Performance Evaluation Ratings:** Each evaluation will result in one of three ratings. A rating of Unsatisfactory Performance means the Agency failed to develop the Project in accordance with applicable federal and state regulations, standards and procedures, required excessive District involvement/oversight, or the Project was brought in-house by the Department. A rating of Satisfactory Performance means the Agency developed the Project in accordance with applicable federal and state regulations, standards and procedures, with minimal District involvement/oversight. A rating of Above Satisfactory Performance means the Agency developed the Project in accordance with applicable federal and state regulations, standards and procedures, without District involvement/oversight.

**11.03 Delegation of Authority:** The District will determine which functions can be further delegated to Agencies that continuously earn Satisfactory and Above Satisfactory evaluations.

## **12.00 Restrictions, Prohibitions, Controls, and Labor Provisions:**

**12.01 Equal Employment Opportunity:** In connection with the carrying out of any project, the Agency shall not discriminate against any employee or applicant for employment because of race, age, religion, color, sex, national origin, disability or marital status. The Agency will take affirmative action to ensure that applicants are employed and that

employees are treated during employment without regard to their race, age, religion, color, gender, national origin, disability or marital status. Such action shall include, but not be limited to, the following: employment upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Agency shall insert the foregoing provision modified only to show the particular contractual relationship in all its contracts in connection with the development of operation of the Project, except contracts for the standard commercial supplies or raw materials, and shall require all such contractors to insert a similar provision in all subcontracts, except subcontracts for standard commercial supplies or raw materials. When the project involves installation, construction, demolition, removal, site improvement or similar work, the Agency shall post, in conspicuous places available to employees and applicants for employment for project work, notices to be provided by the Department setting forth the provisions of the nondiscrimination clause.

**12.02 Title VI – Civil Rights Act of 1964:** The Agency will comply with all the requirements imposed by Title VI of the Civil Rights Act of 1964, the regulations of the U.S. Department of Transportation issued thereunder, and the assurance by the Agency pursuant thereto.

**12.06 Suspension, Revocation, Denial of Qualification or Determination of Contractor Non-Responsibility:** An entity or affiliate who has had its Certificate of Qualification suspended, revoked, denied or have further been determined by the Department to be a non-responsible contractor may not submit a bid or perform work for the construction or repair of a public building or public work on a contract with the Agency.

**12.07 Prohibited Interests:** Neither the Agency nor any of its contractors or their subcontractors shall enter into any contract, subcontract or arrangement in connection with the Project or any property included or planned to be included in the Project in which any member, officer or employee of the Agency or the locality during tenure or for 2 years thereafter has any interest, direct or indirect. If any such present or former member, officer or employee involuntarily acquires or had acquired prior to the beginning of tenure any such interest, and if such interest is immediately disclosed to the Agency, the Agency, with prior approval of the Department, may waive the prohibition contained in this paragraph provided that any such present member, officer or employee shall not participate in any action by the Agency or the locality relating to such contract, subcontract or arrangement.

The Agency shall insert in all contracts entered into in connection with the Project or any property included or planned to be included in any Project, and shall require its contractors to insert in each of their subcontracts, the following provision:

"No member, officer or employee of the Agency or of the locality during his tenure or for 2 years thereafter shall have any interest, direct or indirect, in this contract or the proceeds thereof."

The provisions of this paragraph shall not be applicable to any agreement between the Agency and its fiscal depositories or to any agreement for utility services the rates for which are fixed or controlled by a governmental agency.

**12.08 Interest of Members of, or Delegates to, Congress:** No member or delegate to the Congress of the United States shall be admitted to any share or part of this Agreement or any benefit arising therefrom.

**13.00 Miscellaneous Provisions:**

**13.01 Environmental Regulations:** The Agency will be solely responsible for compliance with all the applicable environmental regulations, for any liability arising from non-compliance with these regulations, and will reimburse the Department for any loss incurred in connection therewith. The Agency will be responsible for securing any applicable permits.

**13.02 Department Not Obligated to Third Parties:** The Department shall not be obligated or liable hereunder to any individual or entity not a party to this Agreement.

**13.03 When Rights and Remedies Not Waived:** In no event shall the making by the Department of any payment to the Agency constitute or be construed as a waiver by the Department of any breach of covenant or any default which may then exist on the part of the Agency and the making of such payment by the Department, while any such breach or default shall exist, shall in no way impair or prejudice any right or remedy available to the Department with respect to such breach or default.

**13.04 How Agreement Is Affected by Provisions Being Held Invalid:** If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected. In such an instance, the remainder would then continue to conform to the terms and requirements of applicable law.

**13.05 Bonus or Commission:** By execution of the Agreement, the Agency represents that it has not paid and, also agrees not to pay, any bonus or commission for the purpose of obtaining an approval of its application for the financing hereunder.

**13.06 State Law:** Nothing in the Agreement shall require the Agency to observe or enforce compliance with any provision or perform any act or do any other thing in contravention of any applicable state law. If any of the provisions of the Agreement violate any applicable state law, the Agency will at once notify the Department in writing in order that appropriate changes and modifications may be made by the Department and the Agency to the end that the Agency may proceed as soon as possible with the Project.

**13.07 Plans and Specifications:** In the event that this Agreement involves constructing and equipping of facilities, the Agency shall submit to the Department for approval all appropriate plans and specifications covering the Project. The Department will review all plans and specifications and will issue to the Agency a written approval with any approved portions of the Project and comments or recommendations covering any remainder of the Project deemed appropriate. After resolution of these comments and recommendations to the Department's satisfaction, the Department will issue to the Agency a written approval with said remainder of the Project. Failure to obtain this written approval shall be sufficient cause of nonpayment by the Department. The Agency will physically include Form FHWA-1273 in all its contracts and subcontracts.

**13.08 Right-of-Way Certification:** Upon completion of right-of-way activities on the Project, the Agency must certify compliance with all applicable federal and state requirements. Certification is required prior to advertisement for or solicitation of bids for construction of the Project, including if no right-of-way is required.

**13.09 Agency Certification:** The Agency will certify in writing, prior to Project closeout that the Project was completed in accordance with applicable plans and specifications, is in place on the Agency's facility, adequate title is in the Agency's name, and the Project is accepted by the Agency as suitable for the intended purpose.

### **13.12 Restrictions on Lobbying:**

**Federal:** The Agency agrees that no federally-appropriated funds have been paid, or will be paid by or on behalf of the Agency, to any person for influencing or attempting to influence any officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any federal contract, grant, loan or cooperative agreement.

If any funds other than federally-appropriated funds have been paid by the Agency to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress or an employee of a Member of Congress in connection with this Agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

**13.14 Vendors Rights:** Vendors (in this document identified as the Agency) providing goods and services to the Department should be aware of the following time frames. Upon receipt, the Department has 30 working days to inspect and approve the goods and services unless the bid specifications, purchase order or contract specifies otherwise. The Department has 20 days to deliver a request for payment (voucher) to the Department of Financial Services. The 20 days are measured from the latter of the date the invoice is received or the goods or services are received, inspected, and approved.

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.
4. The terms *covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded*, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department or agency with which this transaction originated.
6. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled *Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transaction*, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which the transaction originated may pursue available remedies, including suspension and/or debarment.

PROCUREMENT  
01/12

I certify that I have no present conflict of interest, that I have no knowledge of any conflict of interest that my firm may have, and that I will recuse myself from any capacity of decision making, approval, disapproval, or recommendation on any contract if I have a conflict of interest or a potential conflict of interest.

Consultants performing work for the Department should avoid any conduct (whether in the context of business, financial, or social relationships) which might undermine the public trust, whether or not that conduct is unethical or lends itself to the appearance of ethical impropriety.

I realize that violation of the above mentioned standards could result in the termination of my work for the Department.

## **TASK WORK ORDER NO. 2**

### **Monroe County, Florida**

#### **Key Largo II – Roadway and Drainage Improvements Project**

**November 13, 2015**

This Authorization, when executed, shall be incorporated in and become part of the Agreement for Professional Services between the Monroe County (COUNTY), and CDM Smith Inc. (CONSULTANT), dated January 16, 2014, hereafter referred to as the Agreement.

#### **PROJECT BACKGROUND**

COUNTY has requested that CONSULTANT provide engineering design and construction administration services for paving, drainage and associated improvements to COUNTY roadways located in Key Largo, Florida. As shown on Exhibit A, attached, the roads included in this study are North Bay Harbor Drive, South Bay Harbor Drive, Bonito Lane, Cuda Lane, Dove Road, Heron Road, Lobster Road, Mockingbird Road, Red Bird Road, Snapper Lane, Sunset Court, and Sunset Road. These roads are in the Bay Harbor, Sunset Point, Sunrise Point Addition, Sunrise Point Revised Plat, Lime Grove Estates Section 1 and Rays Cuda Canal subdivisions of Key Largo.

#### **SCOPE OF WORK**

The following is a description of the services to be provided under this Task Authorization:

- Evaluate the subdivision roads to determine the appropriate rehabilitation method (resurfacing, widening, reconstruction)
- Design of appropriate rehabilitation method and associated drainage improvements
- Preparation of contract documents and technical specifications in coordination with standard County requirements
- Apply for a Permit Exemption from the South Florida Water Management District (SFWMD)
- Provide support during construction in responding to Contractor's needs and inquiries
- Assistance with project close-out

#### **TASK 1.0 – DATA COLLECTION & PRELIMINARY DESIGN EVALUATION**

##### **Subtask 1.1 Data Collection and Field Investigation**

The CONSULTANT will review documents provided by the COUNTY, such as Geographic Information Systems (GIS) data and Pavement Assessment Reports.

The CONSULTANT's roadway designer will perform a field investigation with County Public Works (roads and utility) staff on the same day as the kick-off meeting (Task 5.1) to gather data and identify potential problem areas that will require additional pavement cores to be performed by the geotechnical consultant and to locate utilities in the roadway. The CONSULTANT will take notes and photographs during the field investigation to document observations, discussions, and recommendations.

The CONSULTANT'S drainage designer will also attend the field investigation to assess existing drainage patterns and identify potential locations for exfiltration trenches.

##### **Subtask 1.2 Roadway Pavement Analysis**

The CONSULTANT will evaluate the data obtained to determine the appropriate method of rehabilitation for the twelve (12) roads included in this study and as shown on Exhibit A. Rehabilitation methods include milling and resurfacing of streets in good condition or reconstruction of streets showing evidence of

pavement failure or significant flooding. The CONSULTANT will recommend a rehabilitation method for each street or logical segments of each street for review and approval by the COUNTY. For purposes of this scope of services, it is assumed that twelve (12) roads will be improved: six (6) roads will be resurfaced and six (6) roads will require reconstruction based on pavement condition index (PCI). In addition, three (3) narrow roads will be widened to comply with the minimum pavement width requirement of 18 feet.

### **Subtask 1.3 Drainage Analysis**

The CONSULTANT will prepare a conceptual drainage plan outlining the locations of ditch grading improvements and exfiltration trench locations. The plan will be based on drainage needs determined during the field review and evaluation of the drainage patterns from the obtained ground survey for the project.

## **TASK 2.0 – DESIGN AND PLANS PRODUCTION**

### **Subtask 2.1 Roadway Design**

The CONSULTANT will design the following roadway elements in accordance with governing standards (AASHTO – 2011 A Policy on Geometric Design of Highways and Streets and/or 2011 FDOT Greenbook – Florida Manual of Uniform Minimum Standards Design, Construction and Maintenance for Streets and Highways), as practical:

- Milling and resurfacing of roads in fair and/or good condition.
- Widening of narrow roads to meet minimum 18-foot width requirement.
- Reconstruction of roads with evidence of structural failure.

### **Subtask 2.2 Drainage Design**

The drainage design tasks will include the following elements:

- Exfiltration trenches will be provided throughout the project as needed to facilitate positive drainage in areas of significant ponding within the roadway and/or right-of-way. The existing seepage trenches that are observed during the field review or survey and/or provided by Monroe County will be replaced with exfiltration trenches. The exfiltration trenches will be detailed in the plans. CONSULTANT will determine the approximate horizontal extent of underground utilities including water and sewer at the proposed exfiltration trench locations. CONSULTANT will locate the proposed exfiltration trenches to minimize utility impacts. CONSULTANT will provide design details for utility relocations as required. The vertical extent of the underground utilities will not be obtained for this project.
- A detailed drainage approach with the locations of the proposed drainage improvements will be included in the Conceptual Design submittal. The final proposed drainage improvements will be included in the construction plans.

### **Subtask 2.3 Preparation of Contract Documents**

The CONSULTANT will prepare Construction Documents, including final plans and technical specifications. The plans will include the following major elements:

- Key Sheet (1)
- General Notes (1)
- Special Details (2)
- Typical Section Sheets (1)
- Project Layout (1)
- Roadway Resurfacing Plan Sheets (1 per road)

- Roadway Reconstruction Plan/Profile Sheets (1 per road)
- Cross Sections for Reconstruction and/or Widening (15 sections per road)
- Stormwater Pollution Prevention Plan (1)
- Miscellaneous Design Standards/Temporary Erosion Control Details (1)

In addition, the following deliverables are anticipated for this task:

- Three (3) copies of conceptual design sketch and project approach/criteria memorandum
- Three (3) copies of 90% Construction Documents (plans and technical specifications);
- Cost estimates at 90% and 100%
- One (1) electronic copy of 100% Construction Documents (plans and technical specifications) with Draft Environmental Resource Permit (ERP) application package
- One (1) electronic copy of SFWMD ERP Application and Permit
- Three (3) signed and sealed sets of 100% Construction Plans and Technical Specifications for the County's files.

#### **Subtask 2.4 Procurement Assist**

CONSULTANT will assist the County in their preparation of Bid Forms and other Division 0 front-end documents. CONSULTANT will prepare responses to technical questions from prospecting bidders

#### **TASK 3.0 - ENVIRONMENTAL RESOURCE PERMITTING**

The CONSULTANT will schedule and conduct a pre-application meeting with SFWMD to determine the permitting requirements for the project. It is anticipated that water quality treatment will not be required for the mill and resurface and reconstruction improvements but will be required for the roadway widenings. CONSULTANT will prepare and submit an Environmental Resource Permit application for the proposed roadway widenings if necessary. The application will not include recommendations for mitigation or other information for potential impacts to protected plants and/or species. Additionally, CONSULTANT will confirm that permitting with other agencies other than SFWMD, such as the Army Corps of Engineers, Florida Department of Protection and National Marine Fisheries is not required. It is anticipated that the SFWMD permitting requirements will require the retention of stormwater from the widened roadways which will be provided within the proposed exfiltration trenches to be designed by CONSULTANT as included in Subtask 2.2 (Drainage Design).

#### **TASK 4.0 - GENERAL ENGINEERING SERVICES DURING CONSTRUCTION**

##### **Subtask 4.1 Shop Drawing Review**

The CONSULTANT will review and approve shop drawings that the contractor is required to submit.

##### **Subtask 4.2 RFI Responses**

The CONSULTANT will review requests for information (RFI) submitted by the Contractor and provide responses.

##### **Subtask 4.3 Plan Revisions**

The CONSULTANT will prepare and submit up to three (3) plans revisions to address minor design changes as a result of unforeseen field conditions or approved Contractor recommendations.

##### **Subtask 4.4 As-Built Record Drawings**

The CONSULTANT will use the design CADD files as a base to prepare as-built record drawings in CADD. The as-built revisions are to be provided as red-lined plans by the Contractor or COUNTY's project field

inspector/RPR.

#### **Subtask 4.5 SFWMD As-Built Certification**

The CONSULTANT will prepare and submit the SFWMD as-built certification form as required by SFWMD to transfer the project to the operations phase. This task includes a site visit to confirm the project was constructed in accordance with the SFWMD permit conditions.

#### **TASK 5.0 - MEETINGS, PROJECT MANAGEMENT AND QUALITY CONTROL**

Activities performed under this task consist of those general functions required to maintain the project on schedule, within budget, and that the quality of the work products defined within this scope is consistent with CONSULTANT's standards and the COUNTY's requirements. Specific activities included are identified on the following page:

##### **Subtask 5.1 Project Kick-Off Meeting**

CONSULTANT will prepare for and conduct a kick-off meeting for the project with County staff to review the scope of services, schedule and budget, and discuss initial design issues/preferences and gather any additional available data. CONSULTANT will prepare and distribute draft and final meeting minutes to all attendees.

##### **Subtask 5.2 Project Management**

CONSULTANT's project manager will prepare and submit monthly written status reports for an anticipated project life of 19 months. This task also includes monthly project status review management meetings, and periodic progress internal team meetings.

##### **Subtask 5.3 Project Quality Control (QC) Technical Review**

CONSULTANT maintains a QC program on all of its projects. Technical Review Committee (TRC) meetings are budgeted for and will be performed before submitting the deliverables. The TRC review includes a detailed review of each discipline by a Senior Engineer trained within that discipline as well as a constructability review by a Senior Construction Engineering Inspection (CEI) engineer.

#### **ASSUMPTIONS**

The above described engineering services have been based upon the following assumptions:

- The COUNTY will make the existing information available to the CONSULTANT in a timely fashion.
- The COUNTY will utilize its boilerplate, bid forms and front-end contract documents (Division O) and prepare all bid forms. If the CONSULTANT believes that significant changes or supplemental conditions are required to the COUNTY's front-ends, the CONSULTANT will discuss the recommendations with the COUNTY and provide a separate proposal for an amendment for additional scope and compensation.
- The COUNTY will provide review comments within two weeks of delivery of submittals requested to be reviewed.
- The COUNTY will be available for key meetings within two weeks of the requested date.
- Construction inspection/RPR services are not included in the CONSULTANT scope of work and will be provided by the COUNTY. COUNTY will provide CONSULTANT with weekly copies of the daily field inspector reports.
- CONSULTANT services for SFWMD and Contractor request(s) for information are generally limited to those items covered within the scope of services provided here-in. Additional items, such as stormwater treatment facilities (ponds) and storm sewer design are not included within this scope of services and will require an addendum to this contract.

- The vertical extent of underground utilities will not be obtained for this project. Utility information provided by CONSULTANT shall be considered approximate based on the limitations of the procedures used to define their locations. There is no provision for the excavation, probing or location of underground utilities, structures or improvements. Utilities shall be located to the extent that they are above ground and visible. The proposal does not include the contracting of an underground utility locating service to locate subsurface utilities. CONTRACTOR will be wholly responsible for identifying the location and extent of existing underground utilities which may be in conflict with the proposed improvements. CONSULTANT will assist with developing plan revisions to resolve conflicts identified during construction, however, will bear no responsibility for additional project costs or delays which may be incurred due to existing utility conflicts with the proposed design improvements. CONSULTANT can provide vertical utility locates upon request by the COUNTY as an addendum to this contract.
- The proposed grading plans and improvements to be provided by CONSULTANT will be developed based on limited survey information (100-foot cross sections) and right-of-way mapping. Grading irregularities between the surveyed cross sections should be anticipated and may require design revisions during construction. CONSULTANT will support CONTRACTOR during construction to provide design revisions in a timely manner as needed; however, CONSULTANT bears no responsibility for any additional charges or delays which occur as a result of the limited survey and right-of-way mapping procedures. The CONSULTANT can provide a more detailed topographical survey and right-of-way mapping process upon request of the COUNTY as an addendum to this contract.
- The CONSULTANTS proposed pavement design and associated quantities will be estimated based on limited survey (100-foot cross sections) and pavement core data. Grading irregularities and pavement thickness irregularities shall be anticipated which can affect as-built pavement quantities and lead to bid price overruns. CONSULTANT bears no responsibility for bid overruns in pavement quantities due to these limited data collection methodologies. If COUNTY requires a higher level of confidence then the scope of the survey and geotechnical tasks can be increased upon their request as an addendum to this contract.
- The SFWMD ERP application will not include information related to wetlands and/or threatened and endangered species. It is assumed that permitting with other agencies such as the Army Corps of Engineers, Florida Department of Protection and National Marine Fisheries is not required for this contract. If it is determined during the course of this project that these additional permitting services are required then an addendum will be required to provide these additional services. CONSULTANT bears no responsibility for potential construction delays and charges that may be incurred if additional permitting requirements are identified beyond the SFWMD ERP.
- COUNTY will pay the SFWMD permit application fee.
- There are no sidewalk improvements or additions as part of CONSULTANT's scope of work.
- The COUNTY will manage and be responsible for the procurement and award process.

**9.19 CODE OF ETHICS**

COUNTY agrees that officers and employees of the COUNTY recognize and will be required to comply with the standards of conduct for public officers and employees as delineated in Section 112.313, Florida Statutes, regarding, but not limited to, solicitation or acceptance of gifts; doing business with one's agency; unauthorized compensation; misuse of public position, conflicting employment or contractual relationship; and disclosure or use of certain information.

**9.20 NO SOLICITATION/PAYMENT**

The CONSULTANT and COUNTY warrant that, in respect to itself, it has neither employed nor retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for it, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of the provision, the CONSULTANT agrees that the COUNTY shall have the right to terminate this Agreement without liability and, at its discretion, to offset from monies owed, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

**9.21 PUBLIC ACCESS.**

The CONSULTANT and COUNTY shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the CONSULTANT and COUNTY in connection with this Agreement; and the COUNTY shall have the right to unilaterally cancel this Agreement upon violation of this provision by CONSULTANT.

**9.22 NON-WAIVER OF IMMUNITY**

Notwithstanding the provisions of Sec. 768.28, Florida Statutes, the participation of the CONSULTANT and the COUNTY in this Agreement and the acquisition of any commercial liability insurance coverage, self-insurance coverage, or local government liability insurance pool coverage shall not be deemed a waiver of immunity to the extent of liability coverage, nor shall any contract entered into by the COUNTY be required to contain any provision for waiver.

#### **9.24 LEGAL OBLIGATIONS AND RESPONSIBILITIES**

Non-Delegation of Constitutional or Statutory Duties. This Agreement is not intended to, nor shall it be construed as, relieving any participating entity from any obligation or responsibility imposed upon the entity by law except to the extent of actual and timely performance thereof by any participating entity, in which case the performance may be offered in satisfaction of the obligation or responsibility. Further, this Agreement is not intended to, nor shall it be construed as, authorizing the delegation of the constitutional or statutory duties of the COUNTY, except to the extent permitted by the Florida constitution, state statute, and case law.

#### **9.25 NON-RELIANCE BY NON-PARTIES**

No person or entity shall be entitled to rely upon the terms, or any of them, of this Agreement to enforce or attempt to enforce any third-party claim or entitlement to or benefit of any service or program contemplated hereunder, and the CONSULTANT and the COUNTY agree that neither the CONSULTANT nor the COUNTY or any agent, officer, or employee of either shall have the authority to inform, counsel, or otherwise indicate that any particular individual or group of individuals, entity or entities, have entitlements or benefits under this Agreement separate and apart, inferior to, or superior to the community in general or for the purposes contemplated in this Agreement.

#### **9.26 ATTESTATIONS AND TRUTH IN NEGOTIATION**

CONSULTANT agrees to execute such documents as COUNTY may reasonably require, including a Public Entity Crime Statement, an Ethics Statement, and a Drug-Free Workplace Statement. Signature of this Agreement by CONSULTANT shall act as the execution of a truth in negotiation certificate stating that wage rates and other factual unit costs supporting the compensation pursuant to the Agreement are accurate, complete, and current at the time of contracting. The original contract price and any additions thereto shall be adjusted to exclude any significant sums by which the agency determines the contract price was increased due to inaccurate, incomplete, or concurrent wage rates and other factual unit costs. All such adjustments must be made within one year following the end of the Agreement.

#### **9.27 NO PERSONAL LIABILITY**

No covenant or agreement contained herein shall be deemed to be a covenant or agreement of any member, officer, agent or employee of Monroe County in his or her individual capacity, and no member, officer, agent or employee of Monroe County shall be liable personally on this Agreement or be subject to any personal liability or accountability by reason of the execution of this Agreement.

#### **9.28 EXECUTION IN COUNTERPARTS**

**APPENDIX I OF THE FDOT STANDARD PROFESSIONAL SERVICES AGREEMENT**

#### **TERMS FOR FEDERAL AID CONTRACTS (APPENDIX I):**

The following terms apply to all contracts in which it is indicated in Section 6.B of the Standard Professional Services Agreement that the services involve the expenditure of federal funds:

- A. It is understood and agreed that all rights of the Department relating to inspection, review, approval, patents, copyrights, and audit of the work, tracing, plans, specifications, maps, data, and cost records relating to this Agreement shall also be reserved and held by authorized representatives of the United States of America.
- B. It is understood and agreed that, in order to permit federal participation, no supplemental agreement of any nature may be entered into by the parties hereto with regard to the work to be performed hereunder without the approval of the U.S. Department of Transportation, anything to the contrary in this Agreement notwithstanding.
- C. Compliance with Regulations: The Consultant shall comply with the Regulations of the U.S. Department of Transportation Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.
- D. Nondiscrimination: The Consultant, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of material and leases of equipment. The Consultant will not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.
- E. Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations made by the Consultant, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials and leases of equipment, each potential subcontractor or supplier shall be notified by the Consultant of the Consultant's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.
- F. Information and Reports: The Consultant will provide all information and reports required by the Regulations, or directives issued pursuant thereto, and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of the Consultant is in the exclusive possession of another who fails or refuses to furnish this information, the Consultant shall so certify to the Florida Department of Transportation, Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration as appropriate, and shall set forth what efforts it has made to obtain the information.
- G. Sanctions for Noncompliance: In the event of the Consultant's noncompliance with the nondiscrimination provisions of this contract, the Florida Department of Transportation shall impose such contract sanctions as it or the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or Federal Motor Carrier Safety Administration may determine to be appropriate, including, but not limited to,
  - 1. withholding of payments to the Consultant under the contract until the Consultant complies and/or
  - 2. cancellation, termination or suspension of the contract, in whole or in part.

In the event a Consultant becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the Consultant may request the Florida Department of Transportation to enter into such litigation to protect the interests of the Florida Department of Transportation, and, in addition, the Consultant may request the United States to enter into such litigation to protect the interests of the United States.
- I. Interest of Members of Congress: No member of or delegate to the Congress of the United States will be admitted to any share or part of this contract or to any benefit arising therefrom.

Accordingly, United States Code, Title 18, Section 1020, is hereby incorporated by reference and made a part of this Agreement.

In the event such PO is not signed by an authorized signatory of Customer, Customer hereby acknowledges and agrees that (i) any PO submitted to Arrow SI by Customer may be relied upon by Arrow SI as binding and fully enforceable and (i) Customer hereby waives any right to dispute the validity of such purchase due to Customer's failure to execute the applicable PO and/or Order Form. Customer may use a credit card to pay invoices up to \$100,000.00 (or such other amount as determined by Arrow SI in its sole discretion). Any and all enrollment fees, subscription charges, surcharges or other similar fees associated with

electronic invoicing requested by Customer and agreed to in writing by Arrow SI will be the Customer's responsibility. Customer may not withhold payment of any amount invoiced based on abatement, reduction, set-off, defense, counterclaim or recoupment in connection with any past, present or future claim Customer may allege against Arrow SI for charges not covered under this Agreement or against the manufacturer of any equipment or any other third party. In the event Arrow SI does not receive full payment when due, Arrow SI, in its sole discretion, may assess an additional charge against Customer in the amount of one and one-half percent (1½%) per month or the maximum rate allowed under applicable law, whichever is less, on any unpaid amounts. Amounts paid in advance or in excess of the amount invoiced will be credited to Customer's account and, for a period of up to twelve (12) months from the date the credit is issued, such credit may be applied to outstanding or future invoices; provided, however, that if this Agreement expires or is earlier terminated and there are no outstanding amounts owed or invoiced, upon Customer's written request, any unused portion of the advance or excess payment(s) will be refunded to Customer. Taxes based on Arrow SI's net income shall be the sole responsibility of Arrow SI.

**3.3** Failure to remit payment when due may result, upon Customer notification, in interruption or cancellation of Arrow SI Services under this Agreement. Customer shall be liable for the payment of all fees and expenses, including attorney's fees, reasonably incurred in collecting, or attempting to collect, any charges owed hereunder. Arrow SI may refuse to ship any Equipment, provide Services or fulfill an Order Form and/or PO if: (i) Customer provides false information to Arrow SI regarding Customer's identity, creditworthiness, or its planned use of the Equipment; (ii) any outstanding balance is due for Equipment purchased under this Agreement; (iii) Arrow SI no longer offers the Equipment or provides Arrow SI Services on the CPE or other equipment on a commercial basis; or (iv) Customer is identified as a suspect party and/or a restricted party in Arrow SI's global trade compliance system. Any deposit Customer provides to Arrow SI with an Order Form will be promptly returned to Customer if Arrow SI declines to accept the Order Form.

In the event this Agreement is terminated pursuant to this Section, the terms and conditions of this Agreement will survive with respect to any Order Form and/or PO accepted by Arrow SI outstanding at the time of termination, and shall continue in full force with respect to such Order Form and/or PO until the expiration of such Order Form and/or PO. Neither party may cancel or terminate an Order Form without Cause once it is submitted by Customer and subsequently accepted by Arrow SI, except as otherwise stated in the applicable Order Form.

7. **Indemnification.** Customer and Arrow SI agree to defend at their expense, indemnify, and hold harmless each other from and against any third party claims, suits, damages and expenses asserted against or incurred by such party ("Indemnitee") arising out of or relating to bodily injury to or death of any person or loss of or damage to real or tangible personal property or the environment to the extent that such third party claim, suit, damage, or expense was proximately caused by any negligent act or omission on the part of the party from whom indemnity is sought, its agents or employees ("Indemnifying Party"). k) **Covenant of No Interest.** County and Contractor covenant that neither presently has any interest, and shall not acquire any interest, which would conflict in any manner or degree with its performance under this Agreement, and that only interest of each is to perform and receive benefits as recited in this Agreement.

l) **Code of Ethics.** County agrees that officers and employees of the County recognize and will be required to comply with the standards of conduct for public officers and employees as delineated in Section 112.313, Florida Statutes, regarding, but not limited to, solicitation or acceptance of gifts; doing business with one's agency; unauthorized compensation; misuse of public position, conflicting employment or contractual relationship; and disclosure or use of certain information.

m) **No Solicitation/Payment.** The County and Contractor warrant that, in respect to itself, it has neither employed nor retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for it, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of the provision, the Contractor agrees that the County shall have the right to terminate this Agreement without liability and, at its discretion, to offset from monies owed, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

n) **Public Access.** The County and Contractor shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Contractor in conjunction with this Agreement; and the County shall have the right to unilaterally cancel this Agreement upon violation of this provision by Contractor. Contractor is required to:

- (1) Keep and maintain public records that ordinarily and necessarily would be required by the public agency in order to perform the service.
- (2) Provide the public with access to public records on the same terms and conditions that the public agency would provide the records and at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.
- (3) Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law.
- (4) Meet all requirements for retaining public records and transfer, at no cost, to the public agency all public records in possession of the contractor upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to the public agency in a format that is compatible with the information technology systems of the public agency.

o) **Non-Waiver of Immunity.** Notwithstanding the provisions of Section 768.28, Florida Statutes, the participation of the Contractor and the County in this Agreement and the acquisition of any commercial liability insurance coverage, self-insurance coverage, or local government liability insurance pool coverage shall not be deemed a waiver of immunity to the extent of liability coverage, nor shall any contract entered into by the County be required to contain any provision for waiver.

p) **Privileges and Immunities.** All of the privileges and immunities from liability, exemptions from laws, ordinances, and rules and pensions and relief, disability, workers' compensation, and other benefits which apply to the activity of officers, agents, or employees of any public agents or employees of the County, when performing their respective functions under this Agreement within the territorial limits of the County shall apply to the same degree and extent to the performance of such functions and duties of such officers, agents, volunteers, or employees outside the territorial limits of the County.

q) **Legal Obligations and Responsibilities: Non-Delegation of Constitutional or Statutory Duties.** This Agreement is not intended to, nor shall it be construed as, relieving any participating entity from any obligation or responsibility imposed upon the entity by law except to the extent of actual and timely performance thereof by any participating entity, in which case the performance may be offered in satisfaction of the obligation or responsibility. Further, this

Agreement is not intended to, nor shall it be construed as, authorizing the delegation of the constitutional or statutory duties of the County, except to the extent permitted by the Florida constitution, state statute, and case law.

r) **Non-Reliance by Non-Parties.** No person or entity shall be entitled to rely upon the terms, or any of them, of this Agreement to enforce or attempt to enforce any third-party claim or entitlement to or benefit of any service or program contemplated hereunder, and the County and the Contractor agree that neither the County nor the Contractor or any agent, officer, or employee of either shall have the authority to inform, counsel, or otherwise indicate that any particular individual or group of individuals, entity or entities, have entitlements or benefits under this Agreement separate and apart, inferior to, or superior to the community in general or for the purposes contemplated in this Agreement.

s) **Attestations.** Contractor agrees to execute such documents as the County may reasonably require, to include a Public Entity Crime Statement, an Ethics Statement, and a Drug-Free Workplace Statement.

t) **No Personal Liability.** No covenant or agreement contained herein shall be deemed to be a covenant or agreement of any member, officer, agent or employee of Monroe County in his or her individual capacity, and no member, officer, agent or employee of Monroe County shall be liable personally on this Agreement or be subject to any personal liability or accountability by reason of the execution of this Agreement.

u) **Execution in Counterparts.** This Agreement may be executed in any number of counterparts, each of which shall be regarded as an original, all of which taken together shall constitute one and the same instrument and any of the parties hereto may execute this Agreement by signing any such counterpart.

v) **Hold Harmless and Indemnification.** Notwithstanding any minimum insurance requirements prescribed elsewhere in this agreement, Contractor shall defend, indemnify and hold the COUNTY and the COUNTY's elected and appointed officers and employees harmless from and against (i) any claims, actions or causes of action, (ii) any litigation, administrative proceedings, appellate proceedings, or other proceedings relating to any type of injury (including death), loss, damage, fine, penalty or business interruption, and (iii) any costs or expenses that may be asserted against, initiated with respect to, or sustained by, any indemnified party by reason of, or in connection with, (A) any activity of Contractor or any of its employees, agents, contractors or other invitees during the term of this Agreement, (B) the negligence or recklessness, intentional wrongful misconduct, errors or other wrongful act or omission of Contractor or any of its employees, agents, sub-contractors or other invitees, or (C) Contractor's default in respect of any of the obligations that it undertakes under the terms of this Agreement, except to the extent the claims, actions, causes of action, litigation, proceedings, costs or expenses arise from the intentional or sole negligent acts or omissions of the COUNTY or any of its employees, agents, contractors or invitees (other than Contractor). Insofar as the claims, actions, causes of action, litigation, proceedings, costs or expenses relate to events or circumstances that occur during the term of this Agreement, this section will survive the expiration of the term of this Agreement or any earlier termination of this Agreement.

In the event that the completion of the project (to include the work of others) is delayed or suspended as a result of the Contractor's failure to purchase or maintain the required insurance, the Contractor shall indemnify the County from any and all increased expenses resulting from such delay. Should any claims be asserted against the County by virtue of any deficiency or

ambiguity in the plans and specifications provided by the Contractor, the Contractor agrees and warrants that the Contractor shall hold the County harmless and shall indemnify it from all losses occurring thereby and shall further defend any claim or action on the County's behalf.

The first ten dollars (\$10.00) of remuneration paid to the Contractor is for the indemnification provided for the above.

w) Section Headings. Section headings have been inserted in this Agreement as a matter of convenience of reference only, and it is agreed that such section headings are not a part of this Agreement and will not be used in the interpretation of any provision of this Agreement.

x) Disadvantaged Business Enterprise (DBE) Policy and Obligation. It is the policy of the County that DBE's, as defined in C.F.R. Part 26, as amended, shall have the opportunity to participate in the performance of contracts financed in whole or in part with County funds under this agreement. The DBE requirements of applicable federal and state laws and regulations apply to this Agreement. The County and its Contractor agree to ensure that DBE's have the opportunity to participate in the performance of the Agreement. In this regard, all recipients and contractors shall take all necessary and reasonable steps in accordance with applicable federal and state laws and regulations to ensure that DBE's have the opportunity to compete and perform contracts. The County and Contractor and subcontractors shall not discriminate on the basis of race, color, national origin or sex in award and performance of contracts, entered pursuant to this Agreement.

y) Agreements with Subcontractors. In the event that the Contractor subcontracts any or all of the work in this project to any third party, the Contractor specifically agrees to identify the COUNTY as an additional insured on all insurance policies required by the County. In addition, the Contractor specifically agrees that all agreements or contracts of any nature with his subcontractors shall include the COUNTY as additional insured.

z) Florida Green Building Coalition Standards. Monroe County requires its buildings to conform to Florida Green Building Coalition standards.

## GENERAL CONDITIONS OF THE CONTRACT

### 1.0 GENERAL PROVISIONS

#### 1.1 Basic Definitions

**1.1.1 The Contract Documents:** The Contract Documents consist of the Agreement between Owner and Contractor, Conditions of the Contract (General, Supplementary and other Conditions), Drawings, Specifications, addenda issued prior to execution of the Contract, Owners proposal documents, other documents listed in the Agreement and Modifications issued after execution of the Contract, and the Contractor's proposal and supporting documentation. A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, (3) a Construction Change Directive or (4) a written order for a minor change in the Work issued by Project Management.

**1.1.2 The Contract:** The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations or agreements, either written or oral. The Contract may be amended or modified only by a Modification. The Contract Documents shall not be construed to create a contractual relationship of any kind (1) between the Architect and Contractor, (2) between Project Management and Contractor, (3) between the Architect and Project Management, (4) between the Owner and a Subcontractor or (5) between any persons or entities other than the Owner and Contractor. The Owner shall, however, be entitled to enforce the obligations under the Contract intended to facilitate performance of the duties of Project Management and Architect.

**1.1.3 The Work:** The term "Work" means the construction and services required by the Contract Documents, whether completed or partially completed, and includes all other labor, materials, equipment and services provided or to be provided by the Contractor to fulfill the Contractor's obligations. The Work may constitute the whole or a part of the Project.

**1.1.4 The Project:** The Project is the total construction of which the Work performed under the Contract Documents may be the whole or a part and which may include construction by other Contractors and by the Owner's own forces including persons or entities under separate contracts not administered by Project Management.

**1.1.5 The Drawings:** The Drawings are the graphic and pictorial portions of the Contract Documents, wherever located and whenever issued, showing the design, location and dimensions of the Work, generally including plans, elevations, sections, details, schedules and diagrams.

**1.1.6 The Specifications:** The Specifications are that portion of the Contract Documents consisting of the written requirements for materials, equipment, construction systems, standards and workmanship for the Work, and performance of related services.

**1.1.7 The Project Manual:** The Project Manual is the volume usually assembled for the Work which may include the proposal requirements, sample forms, Conditions of the Contract and Specifications.

#### 1.2 Execution, Correlation and Intent

1.2.2 Execution of the Contract by the Contractor is a representation that the Contractor has visited the site, become familiar with local conditions under which the Work is to be performed and correlated personal observations with requirements of the Contract Documents.

1.2.3 The intent of the Contract Document is to include all items necessary for the proper execution and completion of the Work by the contractor. The Contract Documents are complementary, and what is required by one shall be as binding as if required by all; performance by the Contractor shall be required only to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the intended results.

1.2.4 Organization of the Specifications into divisions, sections and articles, and arrangement of Drawings shall not control the Contractor in dividing the Work among Subcontractors or in establishing the extent of Work to be performed by any trade.

1.2.5 Unless otherwise stated in the Contract Documents, words which have well-known technical or construction industry meanings are used in the Contract Documents in accordance with such recognized meanings.

1.2.6 Where on any of the drawings a portion of the Work is drawn out and the remainder is indicated in outline, the parts drawn out shall also apply to all other like portions of the Work.

### **1.3 Ownership and Use of Architect's Drawings, Specifications and Other Documents**

1.3.1 The Drawing, Specifications and other documents prepared by the Architect are instruments of the Architect's service through which the Work to be executed by the Contractor is described. The Contractor may retain one contract record set. Neither the Contractor nor any Subcontractor, Sub-subcontractor or material or equipment supplier shall own or claim a copyright in the Drawings, Specifications and other documents prepared by the Architect. All copies of them, except the Contractor's record set, shall be returned or suitably accounted for to Project Management, on request, upon completion of the Work. The Drawings, Specifications and other documents prepared by the Architect, and copies thereof furnished to the Contractor, are for use solely with respect to the Project. They are not to be used by the Contractor or any Subcontractor, Sub-subcontractor or material or equipment suppliers unless they are granted a limited license to use and reproduce applicable portions of the Drawings, Specifications and other documents prepared by the Architect appropriate to and for use in the execution of their Work under the Contract Documents. All copies made under this license shall bear the statutory copyright notice, if any, shown on the Drawings, Specifications and other documents prepared by the Architect. Submittal or distribution to meet official regulatory requirements or for other purposes in connection with this Project is not to be construed as publication in derogation of copyright or other reserved rights

1.3.2 Unless otherwise provided in the Contract Documents, the Contractor will be furnished, two (2) original sealed copies and one (1) electronic copy of Drawings, Specifications and the Project Manual free of charge for the execution of the Work. Additional copies may be obtained from Project Management at a fee of \$5.00 per page for full size drawings (.25 per page for written specifications or 11"x 17" drawings).

### **1.4 Capitalization**

1.4.1 Terms capitalized in these General Conditions include those which are (1) specifically defined, (2) the titles of numbered articles and identified references to Paragraphs, Subparagraphs and Clauses in the document or (3) the titles of other documents published by the American Institute of Architects.

## **1.5 Interpretation**

1.5.1 In the interest of brevity the Contract Documents frequently omit modifying words such as "all" and "any" and articles such as "the" and "an," but the fact that a modifier or an article is absent from one statement and appears in another is not intended to affect the interpretation of either statement.

## **2.0 OWNER**

### **2.1 Definition**

2.1.1 The Owner is Monroe County. The term "Owner" means the Owner or the Owner's authorized representative.

### **2.2 Information and Services Required of the Owner**

2.2.2 The owner shall furnish initial site surveys describing physical characteristics, legal limitations and utility locations for the site of the Project, and a legal description of the site.

2.2.3 For existing facilities the Owner shall secure and pay for necessary approvals, easements, assessments and charges, required for construction, use or occupancy of permanent structures or for permanent changes in existing facilities except for permits and fees which are the responsibility of the Contractor under the Contract Documents. It is the Contractor's responsibility to secure and pay for the building permit(s) for the project.

2.2.4 Information or services under the Owner's control shall be furnished by the Owner with reasonable promptness to avoid delay in orderly progress of the Work.

2.2.5 Unless otherwise provided in the Contract Documents, the Contractor will be furnished two (2) original sealed copies and one (1) electronic copy of Drawings, Specifications and the Project Manual free of charge for the execution of the Work as provided in Subparagraph 1.3.2.

2.2.6 The Owner shall forward all communications to the Contractor through Project Management and may contemporaneously provide the same communications to the Architect.

2.2.7 The foregoing are in addition to other duties and responsibilities of the Owner enumerated herein and especially those in respect to Article 6 (Construction by Owner or by Other Contractors), Article 9 (Payments and Completion) and Article 11 (Insurance and Bonds).

### **2.3 Owner's Right to Stop the Work**

2.3.1 If the Contractor fails to correct Work which is not in accordance with the requirements of the contract Documents as required by Paragraph 12.2 or persistently fails to carry out Work in accordance with the Contract Documents, the Owner, by written order signed personally or by an agent specifically so empowered by the Owner, may order the Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, the right of the Owner to stop the Work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity.

### **2.4 Owner's Right to Carry Out the Work**

2.4.1 If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within a three-day period after receipt of written notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may after such three-day period give the Contractor a second written

notice to correct such deficiencies within a three-day period. If the Contractor within such second three-day period after receipt of such second notice fails to commence and continue to correct any deficiencies, the Owner may, without prejudice to other remedies the Owner may have, correct such deficiencies. In such case an appropriate Change Order shall be issued deducting from payments then or thereafter due the Contractor the cost of correcting such deficiencies, including compensation for another contractor or subcontractor or Project Management's and Architect's and their respective consultants' additional services and expenses made necessary by such default, neglect or failure. If payments then, or thereafter, due the Contractor are not sufficient to cover such amounts, the Contractor shall pay the difference to the Owner. In the event of clean-up issues, Owner has right to provide a minimum of 24 hours notice. In the event of safety issues determined to be of a serious nature, as determined by Project Management, notice will be given, and contractor is required to rectify deficiency immediately.

### **3.0 CONTRACTOR**

#### **3.1 Definition**

3.1.1 The Contractor is the person or entity identified as such in the Agreement and is referred to throughout this Agreement as if singular in number. The term "Contractor" means the Contractor or the Contractor's authorized representative.

3.1.2 The plural term "Contractors" refers to persons or entities who perform construction under Conditions of the Contract that are administered by Project Management, and that are identical or substantially similar to these Conditions.

#### **3.2 Review of Contract Documents and Field Conditions by Contractor**

3.2.1 The Contractor shall carefully study and compare the Contract Documents with each other and with information furnished by the Owner pursuant to Subparagraph 2.2.2 and shall at once report to Project Management and Architect errors, inconsistencies or omissions discovered. The Contractor shall not be liable to the Owner, Project Management or Architect for damage resulting from errors, inconsistencies or omissions in the Contract Documents unless the Contractor recognized such error, inconsistency or omission and knowingly failed to report it to Project Management and Architect. If the Contractor performs any construction activity knowing it involves a recognized error, inconsistency or omission in the Contract Documents without such notice to Project Management and Architect, the Contractor shall assume appropriate responsibility for such performance and shall bear an appropriate amount of the attributable costs for correction.

3.2.2 The Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to the Contractor with the Contract Documents before commencing activities. Errors, inconsistencies or omissions discovered shall be immediately reported to Project Management and Architect.

3.2.3 The Contractor shall perform the Work in accordance with the Contract Documents and submittals approved pursuant to Paragraph 3.12.

#### **3.3 Supervision and Construction Procedures**

3.3.1 The Contractor shall supervise and direct the Work, using the Contractor's best skill and attention. The Contractor shall be solely responsible for and have control over construction means, methods, techniques, sequences and procedures and for coordinating all portions of the Work under this Contract, subject to overall coordination of Project Management as provided in Subparagraphs 4.6.3 and 4.6.5.

3.3.2 The Contractor shall be responsible to the Owner for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons performing portions of the Work under a contract with the Contractor.

3.3.3 The Contractor shall not be relieved of obligations to perform the Work in accordance with the Contract Documents either by activities or duties of Project Management in its administration of the Contract, or by test, inspections or approvals required or performed by persons other than the Contractor.

3.3.4 The Contractor shall inspect portions of the Project related to the Contractor's Work in order to determine that such portions are in proper condition to receive subsequent work.

3.3.5 The Contractor shall verify that the Construction Documents being worked with are the most recent and updated available, including all Addenda information. Also the Contractor will perform the work strictly in accordance with this contract.

#### **3.4 Labor and Materials**

3.4.1 Unless otherwise provided in the Contract Documents, the Contractor shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

3.4.2 The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Contract. The Contractor shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

3.4.3 The Contractor is responsible for the conduct of his employees at all times. Misconduct, destruction of property, unsafe practices, or violation of any Federal or State regulations including abuse of alcohol or drugs, will be cause for permanent dismissal from the project. If any Contractor's employee is determined to be detrimental to the Project, as deemed by Project Management, the Contractor will remove and/or replace the employee at the request of Project Management. Employees dismissed from the project will be transported from the job site at the Contractor's expense.

3.4.4 The Contractor shall be totally responsible for the security of his work, materials, equipment, supplies, tools, machinery, and construction equipment.

3.4.5 The Contractor shall be responsible for complete, timely and accurate field measurements as necessary for proper coordination, fabrication and installation of his materials and equipment. The Contractor agrees to cooperate with Project Management, if required, to accommodate any discovered variations or deviations from the Drawings and Specifications so that the progress of the Work is not adversely affected.

#### **3.5 Warranty**

3.5.1 The Contractor warrants to the Owner, Project Management and Architect that materials and equipment furnished under the Contract will be of good quality and new unless otherwise required or permitted by the Contract Documents, that the Work will be free from defects not inherent in the quality required or permitted, and that the Work will conform with the requirements of the Contract Documents. Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, modifications not executed by the Contractor, improper or insufficient maintenance, improper operation, or

normal wear and tear under normal usage. If required by Project Management, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

### **3.6 Taxes**

3.6.1 The Contractor shall pay sales, consumer, use and similar taxes for the Work or portions thereof provided by the Contractor which are legally enacted when bids are received or negotiations concluded, whether or not yet effective or merely scheduled to go into effect.

### **3.7 Permits, Fees and Notices**

3.7.1 The Contractor shall secure and pay for all permits, impact fees, governmental fees, licenses, inspections, testing, surveys and utility fees required by Federal, State, Municipal or Utility entities having jurisdiction over the project for the proper execution and completion of the Work which are customarily secured after execution of the Contract and which are legally required at the time bids are received. The Contractor will be responsible for all building permit costs or impact fees required for this project. The Contractor shall secure and pay for all building and specialty permits including plumbing, electrical, HVAC, etc.

3.7.2 The Contractor shall comply with and give notices required by laws, ordinances, rules, regulations and lawful orders of public authorities bearing on performance of the Work.

3.7.3 It is not the Contractor's responsibility to ascertain that the Contract Documents are in accordance with applicable laws, statutes, ordinances, building codes, and rules and regulations. However, if the Contractor observes that portions of the Contract Documents are at variance therewith, the Contractor shall promptly notify Project Management, Architect and Owner in writing, and necessary changes shall be accomplished by appropriate Modification.

3.7.4 If the Contractor performs Work knowing it to be contrary to laws, statutes, ordinances, building codes, and rules and regulations without such notice to Project Management, Architect and Owner, the Contractor shall assume full responsibility for such Work and shall bear the attributable costs.

### **3.9 Superintendent**

3.9.1 The Contractor shall employ a competent superintendent and necessary assistants who shall be in attendance at the Project site during performance of the Work. The superintendent shall represent the Contractor, and communications given to the superintendent shall be as binding as if given to the Contractor. Important communications shall be confirmed in writing. Other communications shall be similarly confirmed on written request in each case. The superintendent shall be satisfactory to Project Management and shall not be changed except with the consent of Project Management, unless the superintendent proves to be unsatisfactory to the Contractor or ceases to be in his employ.

### **3.10 Contractor's Construction Schedule**

3.10.1 The Contractor, promptly after being awarded the Contract, shall prepare and submit for the Owner's and Architect's information and Project Management's approval a Contractor's Construction Schedule for the Work. Such schedule shall not exceed time limits current under the Contract Documents, shall be revised at appropriate intervals as required by the conditions of the Work and Project, shall be related to the entire Project construction schedule to the extent required by the Contract Documents, and shall provide for expeditious and practicable execution of the Work. This schedule, to be submitted within fourteen (14) days after Contract Award, shall indicate the dates for the starting and completion of the various stages of

construction, shall be revised as required by the conditions of the Work, and shall be subject to Project Management's approval.

3.10.2 The Contractor shall cooperate with Project Management in scheduling and performing the Contractor's Work to avoid conflict, delay in or interference with the Work of other Contractors or the construction or operations of the Owner's own forces.

3.10.4 The Contractor shall conform to the most recent schedules.

3.10.5 Project Management will schedule and conduct a project meeting at a minimum of one meeting per month in each month which the Contractor shall attend. At this meeting, the parties can discuss jointly such matters as progress, scheduling, and problems.

### **3.11 Documents and Samples at the Site**

3.11.1 The Contractor shall maintain at the site for the Owner one record copy of the Drawings, Specifications, addenda, Change Orders and other Modifications, in good order and marked currently to record changes and selections made during construction, and in addition approved Shop Drawings, Product Data, Samples and similar required submittals. These shall be available to Project Management and Architect and shall be delivered to Project Management for submittal to the Owner upon completion of the Work.

### **3.12 Shop Drawings, Product Data and Samples**

3.12.1 Shop Drawings are drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

3.12.2 Product Data are illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

3.12.3 Samples are physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

3.12.4 Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents. The purpose of their submittal is to demonstrate for those portions of the Work for which submittals are required the way the Contractor proposes to conform to the information given and the design concept expressed in the Contract Documents. Review by Project Management is subject to the limitations of Subparagraph 4.6.12.

3.12.5 The Contractor shall review, approve and submit to Project Management, in accordance with the schedule and sequence approved by Project Management, Shop Drawings, Product Data, Samples and similar submittals required by the Contract Documents. The Contractor shall cooperate with Project Management in the coordination of the Contractor's Shop Drawings, Product Data, Samples and similar submittals with related documents submitted by other Contractors. Submittals made by the Contractor which are not required by the Contract Documents may be returned without action.

3.12.6 The Contractor shall perform no portion of the Work requiring submittal and review of Shop Drawings, Product Data, Samples or similar submittals until the respective submittal has been approved by Project Management. Such Work shall be in accordance with approved submittals.

3.12.7 By approving and submitting Shop Drawings, Product Data, Samples and similar submittals, the Contractor represents that the Contractor has determined and verified materials,

field measurements and field construction criteria related thereto, or will do so, and has checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

3.12.8 The Contractor shall not be relieved of responsibility for deviations from requirements of the Contract Documents by Project Management approval of Shop Drawings, Product Data, Samples or similar submittals unless the Contractor has specifically informed Project Management and Architect in writing of such deviation at the time of submittal and Project Management have given written approval to the specific deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples or similar submittals by Project Management's approval thereof.

3.12.9 The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples or similar submittals, to revisions other than those requested by Project Management and Architect on previous submittals.

3.12.10 Informational submittals upon which Project Management are not expected to take responsive action may be so identified in the Contract Documents.

3.12.11 When professional certification of performance criteria of materials, systems or equipment is required by the Contract Documents, Project Management and Architect shall be entitled to rely upon the accuracy and completeness of such calculations and certifications.

3.12.12 If materials specified in the Contract Documents are not available on the present market, the Contractor may submit data on substitute materials to Project Management for approval by the Owner.

### **3.13 Use of Site**

3.13.1 The Contractor shall confine operations at the site to areas permitted by law, ordinances, permits and the Contract Documents and shall not unreasonably encumber the site with materials or equipment.

3.13.2 The Contractor shall coordinate the Contractor's operations with, and secure the approval of, Project Management before using any portion of the site.

### **3.14 Cutting and Patching**

3.14.1 The Contractor shall be responsible for cutting, fitting or patching required to complete the Work or to make its parts fit together properly. Contractor shall also provide protection of existing work as required.

3.14.2 The Contractor shall not damage or endanger a portion of the Work or fully or partially completed construction of the Owner's own forces or of other Contractors by cutting, patching, excavating or otherwise altering such construction. The Contractor shall not cut or otherwise alter such construction by other Contractors or by the Owner's own forces except with written consent of Project Management, Owner and such other contractors: such consent shall not be unreasonably withheld. The Contractor shall not unreasonably withhold from the other Contractors or the Owner the Contractor's consent to cutting or otherwise altering the Work. When structural members are involved, the written consent of Project Management shall also be required. The Contractor shall not unreasonably withhold from Project Management or any separate contractor his consent to cutting or otherwise altering the Work.

3.14.3 The Contractor shall arrange for any blockouts, cutouts, or openings required for the installation of his materials and equipment and the execution of his work, whether or not shown

or indicated on the Drawings. The Contractor shall be further responsible for sealing and/or finishing, in an acceptable fashion and meeting any applicable code requirements, and such block-out, cutout opening, or other hole in any fire-related floor, ceiling, wall, security wall, or any other finished surface.

### **3.15 Cleaning Up**

3.15.1 The Contractor shall keep the premises and surrounding area free from accumulation of waste materials or rubbish caused by operations under the Contract. At completion of the Work the Contractor shall remove from and about the project waste materials rubbish, the Contractor's tools, construction equipment, machinery and surplus materials. Clean up shall be performed to the satisfaction of the Owner or Project Management.

3.15.2 If the Contractor fails to clean up as provided in the Contract Documents, Project Management may do so with the Owner's approval and the cost thereof shall be charged to the Contractor.

### **3.16 Access to Work**

3.16.1 The Contractor shall provide the Owner, Project Management and Architect access to the Work in preparation and progress wherever located.

### **3.17 Royalties and Patents**

3.17.1 The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of patent rights and shall hold the Owner, Project Management and Architect harmless from loss on account thereof, but shall not be responsible for such defense or loss when a particular design, process or product of a particular manufacturer or manufacturers is required by the Contract Documents. However, if the Contractor has reason to believe that the required design, process or product is an infringement of a patent, the Contractor shall be responsible for such loss unless such information is promptly furnished to the Architect and Project Management.

### **3.18 Indemnification and Hold Harmless**

3.18.1 Notwithstanding any minimum insurance requirements prescribed elsewhere in this agreement, Contractor shall defend, indemnify and hold the COUNTY and the COUNTY's elected and appointed officers and employees harmless from and against (i) any claims, actions or causes of action, (ii) any litigation, administrative proceedings, appellate proceedings, or other proceedings relating to any type of injury (including death), loss, damage, fine, penalty or business interruption, and (iii) any costs or expenses that may be asserted against, initiated with respect to, or sustained by, any indemnified party by reason of, or in connection with, (A) any activity of Contractor or any of its employees, agents, contractors or other invitees during the term of this Agreement, (B) the negligence or recklessness, intentional wrongful misconduct, errors or other wrongful act or omission of Contractor or any of its employees, agents, sub-contractors or other invitees, or (C) Contractor's default in respect of any of the obligations that it undertakes under the terms of this Agreement, except to the extent the claims, actions, causes of action, litigation, proceedings, costs or expenses arise from the intentional or sole negligent acts or omissions of the COUNTY or any of its employees, agents, contractors or invitees (other than Contractor). Insofar as the claims, actions, causes of action, litigation, proceedings, costs or expenses relate to events or circumstances that occur during the term of this Agreement, this section will survive the expiration of the term of this Agreement or any earlier termination of this Agreement.

In the event that the completion of the project (to include the work of others) is delayed or suspended as a result of the Contractor's failure to purchase or maintain the required insurance, the Consultant shall indemnify the County from any and all increased expenses resulting from such delay. Should any claims be asserted against the County by virtue of any deficiency or ambiguity in the plans and specifications provided by the Contractor, the Contractor agrees and warrants that the Contractor shall hold the County harmless and shall indemnify it from all losses occurring thereby and shall further defend any claim or action on the County's behalf.

The first ten dollars (\$10.00) of remuneration paid to the Contractor is for the indemnification provided for the above.

#### **4.0 ADMINISTRATION OF THE CONTACT**

##### **4.1 Architect/Engineer**

4.1.1 The Architect and/or Engineer is the person lawfully licensed to practice architecture/engineering or any entity lawfully practicing architecture/engineering identified as such in the Agreement and is referred to throughout the Contract Documents as if singular in number. The term "Architect" means the Architect or the Architect's authorized representative.

##### **4.2 Project Management**

4.2.1 Project Management is the person or entity identified as such in the Agreement and is referred to throughout the Contract Documents as if singular in number. The term "Project Management" means Monroe County Project Management Department or Project Management's authorized representative.

4.3 Duties, responsibilities and limitations of authority of Project Management and Architect as set forth in the Contract Documents shall not be restricted, modified or extended without written consent of the Owner, Project Management, Architect and Contractor. Consent shall not be unreasonably withheld.

4.4 In case of termination of employment of Architect, the Owner shall appoint an Architect whose status under the Contract Documents shall be that of the former Architect.

##### **4.5 Not Used**

##### **4.6 Administration of the Contract**

4.6.1 Project Management and Engineer will provide administration of the Contract as described in the Contract Documents, and will be the Owner's representatives (1) during construction, (2) until final payment is due and (3) with the Owner's concurrence, from time to time during the correction period described in Paragraph 12.2. Project Management and Engineer will advise and consult with the Owner and will have authority to act on behalf of the Owner only to the extent provided in the Contract Document, unless otherwise modified by written instrument in accordance with other provision of the Contract.

4.6.2 Project Management and Engineer will determine in general that the Work is being performed in accordance with the requirements of the Contract Documents, will keep the Owner informed of the progress of the Work, and will endeavor to guard the Owner against defects and deficiencies in the Work.

4.6.3 Project Management will provide for coordination of the activities of other Contractors and of the Owner's own forces with the Work of the Contractor, who shall cooperate with them.

The Contractor shall participate with other Contractors and Project Management and Owner in reviewing their construction schedules when directed to do so. The Contractor shall make any revisions to the Construction schedule deemed necessary after a joint review and mutual agreement. The construction schedules shall constitute the schedules to be used by the Contractor, other Contractors, Project Management and the Owner until subsequently revised.

4.6.4 Not used.

4.6.5 Project Management will visit the site at intervals appropriate to the stage of construction to become generally familiar with the progress and quality of the completed Work and to determine in general if the Work is being performed in a manner indicating that the Work, when completed, will be in accordance with the Contract Documents. However, Project Management will not be required to make exhaustive or continuous onsite inspections to check quality or quantity of the Work. On the basis of on-site observations as an architect, Project Management will keep the Owner informed of progress of the Work, and will endeavor to guard the Owner against defects and deficiencies in the work.

4.6.6 Project Management will not have control over or charge of and will not be responsible for construction means, method, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's responsibility as provided in Paragraph 3.3, and neither will be responsible for the Contractor's failure to carry out the Work in accordance with the Contract Documents. Neither Project Management nor the Architect will have control over, or charge of, or be responsible for acts or omissions of the Contractor, Subcontractors, or their agents or employees, or of any other persons performing portions of the Work.

4.6.7 Communications Facilitating Contract Administration. Except as otherwise provided in the Contract Documents or when direct communications have been specially authorized, the Owner and Contractor shall communicate through Project Management, and shall contemporaneously provide the same communications to the Architect. Communications by and with the Architect's consultants shall be through the Architect. Communications by and with Subcontractors and material suppliers shall be through the Contractor. Communications by and with other Contractors shall be through Project Management and shall be contemporaneously provided to the Architect.

4.6.8 Project Management will review and certify all Applications for Payment by the Contractor, including final payment. Project Management will assemble each of the Contractor's Applications for Payment with similar Applications from other Contractor into a Project Application for Payment. After reviewing and certifying the amounts due the Contractors, the Project Application for Payment, along with the applicable Contractors' Applications for Payment, will be processed by Project Management.

4.6.9 Based on Project Management's observations and evaluations of Contractors' Applications for Payment, Project Management will certify the amounts due the Contractors and will issue a Project Approval for Payment.

4.6.10 Project Management will have authority to reject Work which does not conform to the Contract Documents, and to require additional inspection or testing, in accordance with Subparagraphs 13.5.2 and 13.5.3, whether or not such Work is fabricated, installed or completed, but will take such action only after notifying Project Management. Subject to review, Project Management will have the authority to reject Work which does not conform to the Contract Documents. Whenever Project Management considers it necessary or advisable for

implementation of the intent of the Contract Documents, Project Management will have authority to require additional inspection or testing of the work in accordance with Subparagraphs 13.5.2 and 13.5.3, whether or not such Work is fabricated, installed or completed. The foregoing authority of Project Management will be subject to the provisions of Subparagraphs 4.6.18 through 4.6.20 inclusive, with respect to interpretations and decisions of the Architect. However, neither the Architect's nor Project Management's authority to act under this Subparagraph 4.6.10 nor a decision made by either of them in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect or Project Management to the Contractor, Subcontractors, material and equipment suppliers, their agents or employees, or other persons performing any of the Work.

4.6.11 Project Management will receive from the Contractor and review and approve all Shop Drawings, Product Data and Samples, coordinate them with information received from other Contractors, and review those recommended for approval. Project Management actions will be taken with such reasonable promptness as to cause no delay in the Work of the Contractor or in the activities of other Contractors or the Owner.

4.6.12 Project Management will review and approve or take other appropriate action upon the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Project Management action will be taken with such promptness consistent with the constraints of the project schedule so as to cause no delay in the Work of the Contractor or in the activities of the other Contractors, the Owner, or Project Management, while allowing sufficient time to permit adequate review. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment or systems, all of which remain the responsibility of the Contractor as Contractor as required by the Contract Documents. Project Management review of the Contractor's submittals shall not relieve the Contractor of the obligations under Paragraphs 3.3, 3.5 and 3.12. Project Management's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by Project Management, of any construction means, methods, techniques, sequences or procedures. Project Management's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

4.6.13 Project Management will prepare Change Orders and Construction Change Directives.

4.6.14 Following consultation with the Owner, Project Management will take appropriate action on Change Orders or Construction Change Directives in accordance with Article 7 and will have authority to order minor changes in the Work as provided in Paragraph 7.4.

4.6.16 The Contractor will assist Project Management in conducting inspections to determine the dates of Substantial completion and final completion, and will receive and forward to Project Management written warranties and related documents required by the Contract and assembled by the Contractor. Project Management will review and approve a final Project Application for Payment upon compliance with the requirements of the Contract Documents.

4.6.17 Project Management will provide one or more project representatives to assist in carrying out his responsibilities at the site. The duties, responsibilities and limitations of authority of such project representatives shall be as set forth in an exhibit to be incorporated in the Contract Documents.

4.6.18 Project Management will interpret and decide matters concerning performance under and requirements of the Contract Documents on written request of the Owner or Contractor.

Project Management's response to such requests will be made with reasonable promptness and within any time limits agreed upon. If no agreement is made concerning the time within which interpretations required of Project Management shall be furnished in compliance with this Paragraph 4.6, then delay shall not be recognized on account of failure by Project Management to furnish such interpretations until 15 days after written request is made for them.

4.6.19 Interpretations and decisions of Project Management will be consistent with the intent of and reasonably inferable from the Contract Documents and will be in writing or in the form of drawings. When making such interpretations and decisions, Project Management will endeavor to secure faithful performance by both Owner and Contractor, will not show partiality to either and will not be liable for results of interpretations or decisions so rendered in good faith.

4.6.20 Project Management's decisions on matters relating to aesthetic effect will be final if consistent with the intent expressed in the Contract Documents.

#### **4.7 Claims and Disputes**

4.7.1 **Definition.** A Claim is a demand or assertion by one of the parties seeking, as a matter of right, adjustment or interpretation of Contract terms, payment of money, extension of time or other relief with respect to the terms of the Contract. The term "Claim" also includes other disputes and matters in question between the Owner and Contractor arising out of or relating to the Contract. Claims must be made by written notice. The responsibility to substantiate Claims shall rest with the party making the claim.

4.7.2 **Meet and Confer.** The Contractor and Project Management shall try to resolve the claim or dispute with meet and confer sessions to be commenced within 15 days of the dispute or claim. Any claim or dispute that the parties cannot resolve shall be decided by the Circuit Court, 16<sup>th</sup> Judicial Circuit, Monroe County, Florida.

4.7.3 **Time Limits on Claims.** Claims by either party must be made within 21 days after occurrence of the event giving rise to such Claim or within 21 days after the claimant first recognizes the condition giving rise to the Claim, whichever is later. Claims must be made by written notice submitted to the designated representative. An additional Claim made after the initial Claim has been implemented by Change Order will not be considered unless submitted in writing to the Owner's representative in a timely manner.

4.7.3.1 Any claim not filed with the Owner within such time and in compliance with the preceding provisions shall be deemed conclusively to have been waived and shall be dismissed at the option of the Owner. The claim shall set forth in detail all known facts and circumstances supporting the claim; final costs associated with any claim upon which notice has been filed must be submitted in writing to the Owner within thirty (30) calendar days after notice has been received. In the event the Contractor seeks to make a claim for an increase in the Contract Price, as a condition precedent to any liability of the Owner therefore, unless emergency conditions exist, the Contractor shall strictly comply with the requirements of this Section and such claim shall be made by the Contractor before proceeding to execute any work for which a claim is made. Failure to comply with this condition precedent shall constitute a waiver by the Contractor of any claim for additional compensation.

4.7.4 **Continuing Contract Performance.** Pending final resolution of a Claim unless otherwise agreed in writing the Contractor shall proceed diligently with performance of the Contract and the Owner shall continue to make payments in accordance with the Contract Documents.

**4.7.5 Waiver of Claims: Final Payment.** The making of final payment shall constitute a waiver of Claim by the Owner except those arising from:

- .1 liens, Claims, security interests or encumbrances arising out of the Contract and unsettled;
- .2 failure of the Work to comply with the requirements of the Contract Documents; or
- .3 terms of special warranties required by the Contract Documents.

**4.7.6 Claims for Concealed or Unknown Conditions.** If conditions are encountered at the site which are (1) subsurface or otherwise concealed physical conditions which differ materially from those indicated in the Contract Documents or (2) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the Contract Documents, then notice by the observing party shall be given to the other party promptly before conditions are disturbed and in no event later than 10 days after first observance of the conditions. Project Management will promptly investigate such conditions, and the parties will follow the procedure in paragraph 4.7.2.

4.7.6.1 As a condition precedent to the Owner having any liability to the Contractor due to concealed and unknown conditions, the Contractor must give the Owner and Owner Engineer written notice of, and an opportunity to observe, such condition prior to disturbing it. The failure by the Contractor to give the written notice and make the claim as provided by the provisions herein shall constitute a waiver by the Contractor of any rights arising out of or relating to such concealed and unknown condition.

**4.7.7 Claims for Additional Cost.** If the Contractor wishes to make Claim for an increase in the Contract Sum, written notice as provided herein shall be given before proceeding to execute the Work. Prior notice is not required for Claims relating to an emergency endangering life or property arising under Paragraph 10.3 If the Contractor believes additional cost is involved for reasons including but not limited to (1) a written interpretation from Project Management, (2) a written order for a minor change in the Work issued by Project Management, (3) failure of payment by the Owner, (4) termination of the Contract by the Owner, (5) Owner's suspension or (6) other reasonable grounds, Claim shall be filed in accordance with the procedure established herein. In a claim by the Contractor against the Owner for compensation in excess of the Contract Sum, any liability of the Owner to the Contractor shall be strictly limited and computed in accordance with the contract documents and shall in no event include indirect costs or consequential damages of the Contractor or any estimated costs or damages.

**4.7.8 Claims for Additional Time.**

4.7.8.1. If the Contractor wishes to make Claim for an increase in the Contract Time, written notice as provided herein shall be given.

4.7.8.2 If adverse weather conditions are the basis for a Claim for additional time, such Claim shall be documented by data substantiating that weather conditions were abnormal for the period of time and could not have been reasonably anticipated, and that weather conditions had an adverse effect on the scheduled construction.

**4.7.9 Injury or Damage to Person or Property.** If either party to the Contract suffers injury or damage to person or property because of an act or omission of the other party, of any of the other party's employees or agents, or of others for whose acts such party is legally liable, written notice of such injury or damage, whether or not insured, shall be given to the other party within

a reasonable time not exceeding 21 days after first observance. The notice shall provide sufficient detail to enable the other party to investigate the matter. If a Claim for additional cost or time related to this Claim is to be asserted, it shall be filed as provided in Subparagraphs 4.7.7 or 4.7.8.

## **5.0 SUBCONTRACTORS**

### **5.1 Definitions**

5.1.1 A Subcontractor is a person or entity who has a direct contract with the Contractor to perform a portion of the Work at the site. The term "Subcontractor" is referred to throughout the Contract Documents as if singular in number and means a Subcontractor or an authorized representative of the Subcontractor. The term "Subcontractor" does not include other Contractors or subcontractors of other Contractors.

5.1.2 A Sub-subcontractor is a person or entity who has a direct or indirect contract with a Subcontractor to perform a portion of the Work at the site. The term "Sub-subcontractor" is referred to throughout the Contract Documents as if singular in number and means a Sub-subcontractor or an authorized representative of the Sub-subcontractor.

### **5.2 Award of Subcontracts and Other Contracts for Portions of the Work**

5.2.1 Unless otherwise stated in the Contract Documents or the bidding requirements, the Contractor, as soon as practicable after award of the Contract, shall furnish in writing to Project Management for review by the Owner and Project Management the names of persons or entities (including those who are to furnish materials or equipment fabricated to a special design) proposed for each principal portion of the Work. Project Management will promptly reply to the Contractor in writing stating whether or not the Owner or Project Management, after due investigation, has reasonable objection to any such proposed person or entity. Failure of Project Management to reply promptly shall constitute notice of no reasonable objection.

5.2.2 The Contractor shall not contract with a proposed person or entity to which the Owner or Project Management has made reasonable and timely objection. The Contractor shall not be required to contract with anyone to whom the Owner or Project Management has made reasonable objection.

5.2.3 If the Owner or Project Management refuses to accept any person or entity on a list submitted by the Contractor in response to the requirements of the Contract Documents, the Contractor shall submit an acceptable substitute; however, no increase in the Contract Sum shall be allowed for any such substitution.

5.2.4 The Contractor shall not change a Subcontractor, person or entity previously selected if the Owner or Project Management makes reasonable objection to such change.

### **5.3 Subcontractual Relations**

5.3.1 By appropriate written agreement, the Contractor shall require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities which the Contractor, by these Documents, assumes toward the Owner or Project Management. Each subcontract agreement shall preserve and protect the rights of the Owner or Project Management under the Contract Documents with respect to the Work to be performed by the Subcontractor so that subcontracting thereof will not prejudice such rights. When appropriate, the Contractor shall require each Subcontractor to enter into similar

agreements with Sub-subcontractors. The Contractor shall make available to each proposed Subcontractor, copies of the Contract Documents which the Subcontractor will be bound, and, upon written request of the Subcontractor, identify to the Subcontractor terms and conditions of the proposed subcontract agreement which may be at variance with the Contract Documents. Subcontractors shall similarly make copies of applicable portions of such documents available to their respective proposed Sub-subcontractors.

#### **5.4 Contingent Assignment of Subcontracts**

5.4.1 Each subcontract agreement for a portion of the Work is assigned by the Contractor to the Owner provided that:

.1 assignment is effective only after termination of the Contract by the Owner for cause pursuant to Paragraph 14.2 and only for those subcontract agreements which the Owner accepts by notifying the Subcontractor in writing; and

.2 assignment is subject to the prior rights of the surety, if any, obligated under public construction bond covering the Contract.

- i. If the work has been suspended for more than 30 days, the Subcontractor's compensation shall be equitably adjusted.

#### **6.0 CONSTRUCTION BY OWNER OR BY OTHER CONTRACTORS**

##### **6.1 Owner's Right to Perform Construction with Own Forces and to Award Other Contracts**

6.1.1 The Owner reserves the right to perform construction or operations released to the Project with the Owner's own forces, which include persons or entities under separate contracts not administered by Project Management. The Owner further reserves the right to award other contracts in connection with other portions of the Project or other construction or operations on the site under Conditions of the Contract identical or substantially similar to these including those portions related to insurance and waiver or subrogation.

6.1.2 When the Owner performs construction or operations with the Owner's own forces including persons or entities under separate contracts not administered by Project Management, the Owner shall provide for coordination of such forces with the Work of the Contractor who shall cooperate with them.

6.1.3 It shall be the responsibility of the Contractor to coordinate his work with the work of other contractors on the site. The Owner and Project Management shall be held harmless for any and all costs associated with improper coordination.

##### **6.2 Mutual Responsibility**

6.2.1 The Contractor shall afford the Owner's own forces, Project Management and other contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities, and shall connect and coordinate the Contractor's construction and operations with theirs as required by the Contract Documents.

6.2.2 If part of the Contractor's Work depends for proper execution or results upon construction or operations by the Owner's own forces or other contractors, the Contractor shall, prior to proceeding with that portion of the Work, promptly report to Project Management any apparent discrepancies or defects in such other construction that would render it unsuitable for such proper execution and results. Failure of the Contractor so to report shall constitute an

acknowledgment that the Owner's own forces or other contractors' completed or partially completed construction is fit and proper to receive the Contractor's Work, except as to defects not then reasonably discoverable.

6.2.3 Costs caused by delays or by improperly timed activities or defective construction shall be borne by the Contractor. The Contractor's sole remedy as against the Owner for costs caused by delays or improperly timed activities or defective construction shall be an extension of time.

6.2.4 The Contractor shall promptly remedy damage wrongfully caused by the Contractor to completed or partially completed construction or to property of the Owner or other contractors as provided in Subparagraph 10.2.5.

6.2.5 Claims and other disputes and matters in question between the Contractor and other contractors shall be subject to the provisions of Paragraph 4.7 provided the other contractors have reciprocal obligations.

6.2.6 The Owner and other contractors shall have the same responsibilities for cutting and patching as are described for the Contractor in Paragraph 3.14.

6.2.7 Should the Contractor contend that he is entitled to an extension of time for completion of any portion or portions of the work, he shall, within (72) hours of the occurrence of the cause of the delay, notify Project Management in writing, of his contention: setting forth (A) the cause for the delay, (B) a description of the portion or portions of work affected thereby, and (C) all details pertinent thereto. A subsequent written application for the specific number of days of extension of time requested shall be made by the Contractor to Project Management within (72) hours after the delay has ceased to exist.

.1 It is a condition precedent to the consideration or prosecution of any claim for an extension of time that the foregoing provisions be strictly adhered to in each instance and, if the Contractor fails to comply, he shall be deemed to have waived the claim.

.2 The Contractor agrees that whether or not any delay, regardless of cause, shall be the basis for an extension of time he shall have no claim against the Owner or Project Management for an increase in the Contract price, nor a claim against the Owner or Project Management for a payment or allowance of any kind for damage, loss or expense resulting from delays; nor shall the Contractor have any claim for damage, loss or expense resulting from interruptions to, or suspension of, his work to enable other contractors to perform their work. The only remedy available to the Contractor shall be an extension of time.

### **6.3 Owner's Right to Clean Up**

6.3.1 If a dispute arises among the Contractor, other contractors and the Owner as to the responsibility under their respective contracts for maintaining the premises and surrounding area free from waste materials and rubbish as described in Paragraph 3.15, the Owner may clean up and allocate the cost among those responsible as Project Management determines to be just.

## **7.0 CHANGES IN THE WORK**

### **7.1 Changes**

7.1.1 Changes in the Work may be accomplished after execution of the Contract, and without invalidating the Contract, by Change Order, Construction Change Directive or order for a minor

change in the Work, subject to the limitations stated in this Article 7 and elsewhere in the Contract Documents.

7.1.2 A Change Order shall be based upon agreement among the Owner, Project Management and Contractor; a Construction Change Directive require agreement by the Owner, Project Management and may or may not be agreed to by the Contractor; an order for a minor change in the Work may be issued by Project Management alone.

7.1.3 Changes in the Work shall be performed under applicable provisions of the Contract Documents, and the Contractor shall proceed promptly, unless otherwise provided in the Change Order, Construction Change Directive or order for a minor change in the Work.

7.1.4 If unit prices are stated in the Contract Documents or subsequently agreed upon, and if quantities originally contemplated are so changed in a proposed Change Order or Construction Change Directive that application of such unit prices to quantities of Work proposed will cause substantial inequity to the Owner or Contractor, the applicable unit prices shall be equitably adjusted.

## **7.2 Change Orders**

7.2.1 A Change Order is a written instrument prepared by Project Management and signed by the Owner, Project Management and Contractor stating their agreement upon all of the following:

- .1 a change in the Work;
- .2 the amount of the adjustment in the Contract Sum, if any; and
- .3 the extent of the adjustment in the Contract Time, if any.

7.2.2 The cost or credit to the Owner resulting from a change in the Work shall be determined in one or more of the following methods:

.1 mutual acceptance of lump sum properly itemized and supported by sufficient substantiating data to permit evaluation and payment, and approved by the appropriate authority in writing;

.2 unit prices stated in the Contract Documents or subsequently agreed upon, and approved by the appropriate authority in writing;

.3 cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee;

.4 or by method provided in subparagraph 7.2.3.

7.2.3 If none of the methods set forth in Clauses 7.2.1 or 7.2.2 is agreed upon, the Contractor, provided a written order signed by the Owner or Project Management is received, shall promptly proceed with the Work involved. The cost of such Work shall then be determined by daily force accounts in a form acceptable to the Owner and Project Management. The daily force account forms shall identify Contractor and /or Subcontractor personnel by name, total hours for each man, each piece of equipment and total hours for equipment and all material(s) by type for each extra Work activity claim. Each daily force account form shall be signed by the designated Project Management representative no later than the close of business on the day the Work is performed to verify the items and hours listed. Extended pricing of these forms shall be submitted to Project Management with all supporting documentation required by Project Management for inclusion into a change order. Unless otherwise provided in the Contract

Documents, cost shall be limited to the following: cost of materials, including sales tax and cost of delivery; cost of labor, including social security, old age and unemployment insurance, and fringe benefits required by agreement or custom; works' or workmen's compensation insurance; and the rental value of equipment and machinery. Markups for overhead and profit will be in accordance with subparagraph 7.2.4. Pending final determination of cost, payments on account shall be made as determined by Project Management. The amount of credit to be allowed by the Contractor for any deletion or change, which results in a net decrease in the Contract Sum, will be the amount of the actual net cost to the Owner as confirmed by Project Management. When both additions and credits covering related Work or substitutions are involved in any one change, the allowance for overhead and profit shall be figured on the basis of the net increase, if any with respect to that change.

7.2.4 The actual cost of Changes in the Work may include all items of labor or material, power tools, and equipment actually used, utilities, pro rata charges for foreman, and all payroll charges such as Public Liability and Workmen's Compensation Insurance. No percentage for overhead and profit shall be allowed on items of Social Security and Sales Tax. If deductions are ordered the amount of credit shall be net cost to Owner as defined in section 5.6.1 of the Contract. Items considered as overhead shall include insurance other than that mentioned above, bond or bonds, superintendent, timekeeper, clerks, watchmen, use of small tools, miscellaneous supplies, incidental job costs, warranties, and all general home/field office expenses. The actual cost of Changes in the Work (other than those covered by unit prices set forth in the Contract Documents) shall be computed as follows:

.1 if the Contractor performs the actual Work, the maximum percentage mark-up for overhead shall be five percent (5%) and the maximum percentage for profit shall be five percent (5%);

.2 if the Subcontractor performs the actual Work, the subcontractor's percentage mark-up for overhead and profit shall be a maximum addition of ten percent (10%). If the Contractor does not perform the Work, the maximum mark-up for managing the Work will be five percent (5%);

3. If the Subcontractor performs part of the actual Work, his percentage mark-up for overhead and profit shall be a maximum addition of ten percent (10%) on his direct Work only. If the Contractor performs part of the actual Work, his percentage mark-up for overhead and profit shall be a maximum addition of ten percent (10%) on his direct Work only.

7.2.5 The Contractor shall furnish to the Owner through Project Management, an itemized breakdown of the quantities and prices used in computing the value of any change that might be ordered. Any additional supporting documentation requested by Project Management such as certified quotations or invoices shall be provided by the Contractor to Project Management at no additional cost to the Owner.

7.2.6 If the Contractor claims that any instructions given to him by Project Management, by drawings or otherwise, involve extra Work not covered by the Contract, he shall give Project Management written notice thereof within five (5) days after the receipt of such instructions and before proceeding to execute the work, except in emergencies endangering life or property, in which case the Contractor shall proceed in accordance with Paragraph 10.3.

.1 The written notice to Project Management for the Extra Work shall include a complete description of the extra Work, the total cost and a detailed cost breakdown by labor, material and equipment for each additional activity required to be performed. Mark-ups shall be limited as specified elsewhere in this Article.

.2 Except as otherwise specifically provided, no claim for additional cost shall be allowed unless the complete notice specified by this subparagraph is given by the Contractor.

7.2.7 Unless otherwise agreed in writing, the Contractor shall carry on the Work and maintain its progress during any dispute or claim proceeding, and Owner shall continue to make payments to the Contractor in accordance with the Contract Documents. Disputes unresolved shall be settled in accordance with subparagraph 4.7. The Contractor shall maintain completed daily force account forms in accordance with subparagraph 7.2.3 for any dispute or claim item.

7.2.8 One or more changes to the Work within the general scope of this Contract, may be ordered by Change Order. The Owner may also issue written directions for changes in the Work and may issue Construction Change Directives, as set forth below. The Contractor shall proceed with any such changes or Construction Change Directives without delay and in a diligent manner, and same shall be accomplished in strict accordance with the terms and conditions otherwise provided for in the Contract.

7.2.9 The execution of a Change Order by the Contractor shall constitute conclusive evidence of the Contractor's agreement to the ordered changes in the work, this Contract as thus amended, the Contract Price and the time for performance by the Contractor. The Contractor, by executing the Change Order, waives and forever releases any claim against the Owner for additional time or compensation for matters relating to, arising out of or resulting from the Work included within or affected by the executed Change Order of which the Contractor knew or should have known.

### **7.3 Authority**

7.3.1 Project Management will have authority to order minor changes in the Work not involving adjustment in the Contract sum or extension of the Contract Time and not inconsistent with the intent of the Contract Documents. Such changes shall be effected by written order issued through Project Management and shall be binding on the Owner and Contractor. The Contractor shall carry out such written order promptly.

## **8.0 TIME**

### **8.1 Definitions**

8.1.1 Unless otherwise provided, Contract Time is the period of time, including authorized adjustments, allotted in the Contract Documents for Substantial Completion of the Work.

8.1.2 The date of commencement of the Work is the date established in the Agreement. The date shall not be postponed by the failure to act of the Contractor or of persons or entities for which the Contractor is responsible.

8.1.3 The date of Substantial Completion is the date certified by Project Management in accordance with Paragraph 9.8.

8.1.4 The term "day" as used in the Contract Documents shall mean calendar day unless otherwise specifically defined.

8.1.5 The Owner/Project Management shall be the final judge as to whether Substantial Completion has been achieved and certifies the date to the Contractor.

### **8.2 Progress and Completion**

8.2.1 Time limits stated in the Contract Documents are of the essence of the Contract. By executing the Agreement the Contractor confirms that the Contract Time is a reasonable period for performing the Work.

8.2.2 The Contractor shall not knowingly, except by agreement or instruction of the Owner in writing, prematurely commence operations on the site or elsewhere prior to the effective date of insurance required by Article 11 to be furnished by the Contractor. The date of commencement of the Work shall not be changed by the effective date of such insurance.

8.2.3 The Contractor shall proceed expeditiously with adequate forces and shall achieve Substantial Completion within the Contract Time.

### **8.3 Delays and Extensions of Time**

8.3.1 If the Contractor is delayed, at any time, in the progress of the Work by any act or neglect of the Owner, Project Management, or the Architect/Engineer, or by any employee of either, or by any separate contractor employed by the Owner, or by changes ordered in the Work, or by fire, unusual delay in transportation, adverse weather conditions not reasonably anticipatable, unavoidable casualties or any causes beyond the Contractor's control, or by delay authorized by the Owner, Project Management, or by any other cause which Project Management determines may justify the delay, then the Contract Time shall be extended by no cost Change Order for such reasonable time as Project Management may determine, in accordance with subparagraph 6.2.7.

8.3.2 Any claim for extension of time shall be made in writing to Project Management not more than Seventy-two (72) hours after the commencement of the delay in accordance with paragraph 6.2.7; otherwise it shall be waived. Any claim for extension of time shall state the cause of the delay and the number of days of extension requested. If the cause of the delay is continuing, only one claim is necessary, but the Contractor shall report the termination of the cause for the delay within seventy-two (72) hours after such termination in accordance with paragraph 6.2.7; otherwise, any claim for extension of time based upon that cause shall be waived.

8.3.3 No claim for an increase in the Contract Sum for either acceleration or delay will be allowed for extensions of time pursuant to this Paragraph 8.3 or for other changes in the Construction Schedules.

8.3.4 If the Project is delayed as a result of the Contractor's refusal or failure to begin the Work on the date of commencement as defined in Paragraph 8.1.2, or his refusal or failure to carry the Work forward expeditiously with adequate forces, the Contractor causing the delay shall be liable for, but not limited to, delay claims from other Contractors which are affected.

## **9.0 PAYMENTS AND COMPLETION**

### **9.1 Contract Sum**

9.1.1 The Contract Sum is stated in the Agreement and, including authorized adjustments, is the total amount payable by the Owner to the Contractor for performance of the Work under the Contract Documents.

### **9.2 Schedule of Values**

9.2.1 Before submittal of the first Application for Payment, the Contractor shall submit to Project Management, a schedule of values allocated to various portions of the Work, prepared

in such form and supported by such data to substantiate its accuracy as Project Management may require. This schedule, unless objected to by Project Management, shall be used as a basis for reviewing the Contractor's Applications for Payment.

### **9.3 Applications for Payment**

9.3.1 At least fifteen days before the date established for each progress payment, the Contractor shall submit to Project Management an itemized Application for Payment for Work completed in accordance with the schedule of values. Such application shall be notarized and supported by such data substantiating the Contractor's right to payment as the Owner or Project Management may require, such as copies of requisitions from Subcontractors and material suppliers, and reflecting retainage if provided for elsewhere in the Contract Documents.

.1 Such applications may include request for payment on account of changes in the Work which have been properly authorized by Construction Change Directives but not yet included in Change Orders.

.2 Such applications may not include requests for payment of amounts the Contractor does not intend to pay to a Subcontractor or material supplier because of a dispute or other reason.

9.3.2 Unless otherwise provided in the Contract Documents, payments shall be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment suitably stored off the site at a location agreed upon in writing. Payment for materials and equipment stored on or off the site shall be conditioned upon compliance by the Contractor with procedures satisfactory to the Owner to establish the Owner's title to such materials and equipment or otherwise protect the Owner's interest, and shall include applicable insurance, storage and transportation to the site for such materials and equipment stored off the site.

9.3.3 The Contractor warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Contractor further warrants that upon submittal of an Application for Payment all Work for which approval for payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information and belief, be free and clear of liens, claims security interests or encumbrances in favor of the Contractor, Subcontractors, material suppliers, or other persons or entities making a claim by reason of having provided labor, materials and equipment relating to the Work. All Subcontractors and Sub-subcontractors shall execute an agreement stating that title will so pass, upon their receipt of payment from the Contractor. The warranties are for the administrative convenience of the Owner only and do not create an obligation on the part of the Owner to pay directly any unpaid subcontractor, laborer or materialmen. Such persons must seek payment from the Contractor or his public construction bond surety only.

### **9.4 Approval for Payment**

9.4.1 Project Management will assemble a Project Application for Payment by combining the Contractor's applications with similar applications for progress payments from other Contractors and certify the amounts due on such applications.

9.4.2 After the Project Management's receipt of the Project Application for Payment, Project Management will either approve the Application for Payment, with a copy to the Contractor, for such amount as Project Management determine is properly due, or notify the Contractor in

writing of Project Management's reasons for withholding approval in whole or in part as provided in Subparagraph 9.5.1.

9.4.3 The issuance of a separate Approval for Payment will constitute representations made by Project Management to the Owner, based on their individual observations at the site and the data comprising the Application for Payment submitted by the Contractor, that the Work has progressed to the point indicated and that, to the best of Project Management's knowledge, information and belief, quality of the Work is in accordance with the Contract Documents. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to minor deviations from the Contract Documents correctable prior to completion and to specific qualifications expressed by Project Management. The issuance of a separate Approval for Payment will further constitute a representation that the Contractor is entitled to payment in the amount approved. However, the issuance of a separate Approval for Payment will not be a representation that Project Management has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed the Contractor's construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and material suppliers and other data requested by the Owner to substantiate the Contractor's right to payment or (4) made examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

## **9.5 Decisions to Withhold Approval**

9.5.1 Project Management may decline to approve an Application for Payment if, in his opinion, the application is not adequately supported. If the Contractor and Project Management cannot agree on a revised amount, Project Management shall process the Application for the amount it deems appropriate. Project Management may also decline to approve any Application for Payment because of subsequently discovered evidence or subsequent inspections. It may nullify, in whole or part, any approval previously made to such extent as may be necessary in its opinion because of: (1) defective Work not remedied; (2) third party claims filed or reasonable evidence indicating probable filing of such claims; (3) failure of the Contractor to make payments properly to Subcontractors or for labor, materials, or equipment; (4) reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum; (5) damage to Project Management, the Owner, or another contractor working at the project; (6) reasonable evidence that the Work will not be completed within the contract time; (7) persistent failure to carry out the Work in accordance with the Contract Documents.

No payment shall be made to the Contractor until certificates of insurance or other evidence of compliance by the Contractor, with all the requirements of Article 11, have been filed with the Owner and Project Management.

9.5.2 When the above reasons for withholding approval are removed, approval will be made for amounts previously withheld.

## **9.6 Progress Payments**

9.6.1 After Project Management has issued an Approval for Payment, the Owner shall make payment in the manner and within the time provided in the Contract Documents, and shall so notify Project Management. From the total of the amount determined to be payable on a progress payment, a retainage in accordance with the Florida Local Government Prompt Payment Act, Chapter 218, Florida Statutes will be deducted and retained by the Owner until

the final payment is made. The balance of the amount payable, less all previous payments, shall be approved for payment.

.1 It is understood and agreed that the Contractor shall not be entitled to demand or receive progress payment based on quantities of Work in excess of those provided in the proposal or covered by approved change orders, except when such excess quantities have been determined by Project Management to be a part of the final quantity for the item of Work in question.

.2 No progress payment shall bind the Owner to the acceptance of any materials or Work in place, as to quality or quantity. All progress payments are subject to correction at the time of final payments.

9.6.2 The Contractor shall promptly pay each Subcontractor, upon receipt of payment from the Owner, out of the amount paid to the Contractor on account of such Subcontractor's portion of the Work, the amount to which said Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of such Subcontractor's portion of the Work. The Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to Sub-subcontractors in similar manner.

9.6.3 Project Management will, on request, furnish to a Subcontractor, if practicable, information regarding percentages of completion or amounts applied for by the Contractor and action taken thereon by the Owner and Project Management on account of portions of the Work done by such Subcontractor.

9.6.4 Neither the Owner nor Project Management shall have an obligation to pay, or to see to, the payment of money to a Subcontractor except as may otherwise be required by law.

9.6.5 Payment to material suppliers shall be treated in a manner similar to that provided in Subparagraphs 9.6.2, 9.6.3 and 9.6.4.

9.6.6 A progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of Work not in accordance with the Contract Documents.

9.6.7 All material and work covered by partial payments made shall thereupon become the sole property of the Owner, and by this provision shall not be construed as relieving the Contractor from the sole responsibility for the materials and Work upon which payments have been made or the restoration for any damaged material, or as a waiver of the right of the Owner or Project Management to require the fulfillment of all the terms of the Contract.

9.6.8 Except in case of bona fide disputes, or where the Contractor has some other justifiable reason for delay, the Contractor shall pay for all transportation and utility services not later than the end of the calendar month following that in which services are rendered and for all materials, tools, and other expendable equipment which are delivered at the site of the Project. The Contractor shall pay to each of his Subcontractors, not later than the end of the calendar month in which each payment is made to the Contractor, the representative amount allowed the Contractor on account of the Work performed by the Subcontractor. The Contractor shall, by an appropriate agreement with each Subcontractor, also require each Subcontractor to make payments to his suppliers and Sub-subcontractors in a similar manner.

## **9.8 Substantial Completion**

9.8.1 Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so the Owner can occupy or utilize the Work for its intended use.

9.8.2 When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor and Project Management shall jointly prepare a comprehensive list of items to be completed or corrected. The Contractor shall proceed promptly to complete and correct items on the list. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents. Upon receipt of the list, Project Management will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the inspection discloses any item, whether or not included on the list, which is not in accordance with the requirements of the Contract Documents, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item upon notification by Project Management. The Contractor shall then submit a request for another inspection by Project Management, to determine Substantial Completion. When the Work or designated portion thereof is substantially complete, Project Management will prepare a Certificate of Substantial Completion, shall establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance, and shall fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion. The Certificate of Substantial Completion shall be submitted to the Owner and Contractor for their written acceptance of responsibilities assigned to them in such Certificate.

9.8.3 Upon Substantial Completion of the Work or designated portion thereof and upon application by the Contractor and certification by Project Management, the Owner shall make payment, reflecting adjustment in retainage, if any, for such Work or portion thereof as provided in the Contract Documents.

## **9.9 Partial Occupancy or Use**

9.9.1 The Owner may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer as required under Subparagraph 11.3.1 and authorized by public authorities having jurisdiction over the Work. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Owner and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor and Project Management shall jointly prepare a list as provided under Subparagraph 9.8.2. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Owner and Contractor or, if no agreement is reached, by decision of Project Management.

9.9.2 Immediately prior to such partial occupancy or use, the Owner, Project Management and Contractor shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

9.9.3 Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute acceptance of Work not complying with the requirements of the Contract Documents.

#### **9.10 Final Completion and Final Payment**

9.10.1 Upon completion of the Work, the Contractor shall forward to Project Management a written Notice that the Work is ready for final inspection and acceptance and shall also forward to Project Management a final Contractor's Application for Payment. Upon receipt, Project Management will promptly make such inspection. When Project Management, finds the Work acceptable under the Contract Documents and the Contract fully performed, Project Management will promptly issue a final Approval for Payment stating that to the best of their knowledge, information and belief, and on the basis of their observations and inspections, the Work has been completed in accordance with terms and conditions of the Contract Documents and that the entire balance found to be due the Contractor and noted in said final Approval is due and payable. Project Management's final Approval for Payment will constitute a further representation that conditions listed in Subparagraph 9.10.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.

9.10.2 Neither final payment nor any remaining retained percentage shall become due until the Contractor submits to Project Management (1) an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Owner or the Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied, (2) a certificate evidencing that insurance required by the Contract Documents to remain in force after final payment is made, is currently in effect and will not be canceled or allowed to expire until at least 30 days' prior written notice has been given to the Owner, (3) a written statement that the Contractor knows of no substantial reason that the insurance will not be renewable to cover the period required by the Contract Documents, (4) consent of surety, if any, to final payment and (5), if required by the Owner, other data establishing payment or satisfaction of obligations, such as receipts, releases and waivers of liens, claims, security interests or encumbrances arising out of the Contract. The following documents (samples included in section 1027) are required for Final Payment:

- (1) Application and Certificate for Payment
- (2) Continuation Sheet
- (3) Certificate of Substantial Completion
- (4) Contractor's Affidavit of Debts and Claims
- (5) Contractor's Affidavit of Release of Liens
- (6) Final Release of Lien
- (7) Contractor shall provide two (2) hard copies in tabulated divided binders and one (1) saved electronically tabbed and indexed in Adobe Acrobat file (.PDF) format delivered on a downloadable CD/DVD of all the following but not limited to:

- A .Project Record Documents (As Built Documents).
- B. Operating and maintenance data, instructions to the Owner's personnel.
- C. Warranties, bond and guarantees.
- D. Keys and keying schedule.

E. Spare parts and maintenance materials.

F. Electronic copies of approved submittals

G. Evidence of payment and final release of liens and consent of surety to final release (includes final release from all utilities and utility companies).

9.10.3 Acceptance of final payment by the Contractor, a Subcontractor or material supplier shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment. Such waivers shall be in addition to the waiver described Subparagraph 4.7.5.

#### **9.11 Payment of Subcontractors**

9.11.1 Any requirement of this Article 9 that the Contractor furnish proof to the Owner or Project Management that the subcontractors and materialmen have been paid is for the protection and convenience of the Owner only. Unpaid subcontractors and materialmen may only seek payment from the Contractor and the surety that provided the Contractor's Public Construction Bond. **The Contractor must insert this paragraph 9.11 in all its contracts with subcontractors and materialmen.**

### **10.0 PROTECTION OF PERSONS AND PROPERTY**

#### **10.1 Safety Precautions and Programs**

10.1.1 The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the performance of the Contract. The Contractor shall submit the Contractor's safety program to Project Management for review, approval and coordination with the safety programs of other Contractors.

10.1.2 In the event the Contractor encounters on the site material reasonably believed to be asbestos or polychlorinated biphenyl (PCB) which has not been rendered harmless, the Contractor shall immediately stop Work in the area affected and report the condition to the Owner and Project Management in writing. The Work in the affected area shall not thereafter be resumed except by written agreement of the Owner and Contractor if in fact the material is asbestos or polychlorinated biphenyl (PCB) and has not been rendered harmless. The Work in the affected area shall be resumed in the absence of asbestos or polychlorinated biphenyl (PCB), or when it has been rendered harmless, by written agreement of the Owner and Contractor.

10.1.3 The Contractor shall not be required pursuant to Article 7 to perform without consent any Work relating to asbestos or polychlorinated biphenyl (PCB).

10.1.5 If reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance encountered on the site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop Work in the affected area and report the condition to Project Management in writing. The Owner, Contractor and Project Management shall then proceed in the same manner described in Subparagraph 10.1.2.

10.1.6 The Owner shall be responsible for obtaining the services of a licensed laboratory to verify a presence or absence of the material or substance reported by the Contractor and, in the event such material or substance is found to be present, to verify that it has been rendered

harmless. Unless otherwise required by the Contract Documents, the Owner shall furnish in writing to the Contractor and Project Management the names and qualifications of persons or entities who are to perform tests verifying the presence or absence of such material or substance or who are to perform the task of removal or safe containment of such material or substance. The Contractor and Project Management will promptly reply to the Owner in writing stating whether or not any of them has reasonable objection to the persons or entities proposed by the Owner. If the Contractor or Project Management has an objection to a person or entity proposed by the Owner, the Owner shall propose another to whom the Contractor and Project Management have no reasonable objection.

## **10.2 Safety of Persons and Property**

10.2.1 The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury or loss to:

- .1 employees on the Work and other persons who may be affected thereby;
- .2 the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody or control of the Contractor or the Contractor's Subcontractors or Sub-subcontractors;
- .3 other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction; and

10.2.2 The Contractor shall give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.

10.2.3 The Contractor shall erect and maintain, as required by existing conditions and performance of the Contract, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying owners and users of adjacent sites and utilities.

10.2.4 When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the Work, the Contractor shall exercise utmost care and carry on such activities under supervision of properly qualified personnel.

10.2.5 The Contractor shall promptly remedy damage and loss to property referred to in Clauses 10.2.1.2, 10.2.1.3, 10.2.1.4 caused in whole or in part by the Contractor, a Subcontractor, a Sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible under Clauses 10.2.1.2, 10.2.1.3 and 10.2.1.4, except damage or loss attributable to acts or omissions of the Owner, Project Management or Architect or anyone directly or indirectly employed by any of them, or by anyone for whose acts any of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under Paragraph 3.18.

10.2.6 The Contractor shall designate a responsible member of the Contractor's organization at the site whose duty shall be the prevention of accidents. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Owner or Project Management.

10.2.7 The Contractor shall not load or permit any part of the construction or site to be loaded so as to endanger its safety.

### **10.3 Emergencies**

10.3.1 In an emergency affecting safety of persons or property, the Contractor shall act, at the Contractor's discretion, to prevent threatened damage, injury or loss. Additional compensation or extension of time claimed by the Contractor on account of an emergency shall be determined as provided in Paragraph 4.7 and Article 7.

### **10.4 Site Specific Safety Plan**

See Section 00970 for minimum requirements of job site safety plan.

## **11.0 INSURANCE AND BONDS**

11.1.1 Prior to commencement of Work governed by this contract (including the pre-staging of personnel and material), the Contractor shall obtain, at its own expense, insurance as specified in the schedule set forth in Section 00110 Bid Form which are made part of this Agreement. The Contractor will ensure that the insurance obtained will extend protection to all subcontractors engaged by the Contractor. As an alternative the Contractor may require all subcontractors to obtain insurance consistent with the attached schedules.

11.1.2 The Contractor will not be permitted to commence Work governed by the Agreement (including pre-staging of personnel and material) until satisfactory evidence of the required insurance has been furnished to the County as specified below. Delays in the commencement of Work resulting from the failure of the Contractor to provide satisfactory evidence of the required insurance shall not extend deadlines specified in this Agreement and any penalties and failure to perform assessments shall be imposed as if the Work commenced on the specified date and time, except for the Contractor's failure to provide satisfactory evidence of insurance.

11.1.3 The Contractor shall maintain the required insurance throughout the entire term of this contract and any extensions specified in any attached schedules. Failure to comply with this provision may result in the immediate suspension of all Work until the required insurance has been reinstated or replaced. Delays in the completion of Work resulting from the failure of the Contractor to maintain the required insurance shall not extend deadlines specified in this Agreement and any penalties and failure to perform assessments shall be imposed as if the Work commenced on the specified date and time, except for the Contractor's failure to provide satisfactory evidence of insurance.

11.1.4 The Contractor shall provide, to the County in care of Project Management as satisfactory evidence of the required insurance, either:

Certificate of Insurance

Or

A certified copy of the actual insurance policy

11.1.5 The County, at its sole option, has the right to request a certified copy of any or all insurance policies required by this Contract.

11.1.6 All insurance policies must specify that they are not subject to cancellation, nonrenewal, material change, or reduction in coverage unless a minimum of thirty (30) days prior notification is given to the County by the insurer.

11.1.7 The acceptance and/or approval of the Contractor's insurance shall not be construed as relieving the Contractor from any liability or obligation assumed under this contract or imposed by law.

11.1.8 The Monroe County Board of County Commissioners, its employees and officials will be included as "Additional Insured" on all policies, except for Worker's Compensation.

11.1.9 In addition, the County will be named as an additional insured and loss payee on all policies covering County-owned property.

11.1.10 Any deviations from these General Insurance Requirements must be requested in writing on the County prepared form entitled "Request for Waiver of Insurance Requirements" and approved by the Monroe County's Risk Manager.

11.2 Builder's Risk Insurance: NotRequired

11.3 Public Construction Bond

11.3.1 A Public Construction Bond in the amount of the cost of construction is not a requirement of this Contract.

## **12.0 UNCOVERING AND CORRECTION OF WORK**

### **12.1 Uncovering of Work**

12.1.1 If a portion of the Work is covered contrary to Project Management's request or to requirements specifically expressed in the Contract Documents, it must, if required in writing by Project Management, be uncovered for their observation and be replaced at the Contractor's expense without change in the Contract Time.

12.1.2 If a portion of the Work has been covered which Project Management has not specifically requested to observe prior to its being covered, Project Management may request to see such Work and it shall be uncovered by the Contractor, if such Work is in accordance with the Contract Documents, costs of uncovering and replacement shall, by appropriate Change Order, be charged to the Owner, if such Work is not in accordance with the Contract Documents, the Contractor shall pay such costs unless the condition was caused by the Owner or one of the other Contractors in which event the Owner shall be responsible for payment of such costs.

### **12.2 Correction of Work**

12.2.1 The Contractor shall promptly correct Work rejected by Project Management or failing to conform to the requirements of the Contract Documents, whether observed before or after Substantial Completion and whether or not fabricated, installed or completed. The Contractor shall bear costs of correcting such rejected Work, including additional testing and inspections and compensation for Project Management's services and expenses made necessary thereby.

12.2.2 If, within one year after the date of Substantial Completion of the Work or designated portion thereof, or after the date for commencement of warranties established under Subparagraph 9.9, or by terms of an applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, the Contractor shall correct it promptly after receipt of written notice from the Owner to do so unless the Owner has previously given the Contractor a written acceptance of such condition. This period of one year shall be extended with respect to portions of Work first performed after Substantial Completion by the period of time between Substantial Completion and the actual performance of the Work. This obligation under this Subparagraph 12.2.2 shall survive acceptance of the Work under the Contract and termination of the Contract. The Owner shall give such notice promptly after discovery of the condition.

12.2.3 The Contractor shall remove from the site portions of the Work which are not in accordance with the requirements of the Contract Documents and are neither corrected by the Contractor nor accepted by the Owner.

12.2.4 If the Contractor fails to correct nonconforming Work within a reasonable time, the Owner may correct it in accordance with Paragraph 2.4. If the Contractor does not proceed with correction of such nonconforming Work within a reasonable time fixed by written notice from Project Management, the Owner may remove it and store the salvageable materials or equipment at the Contractor's expense. If the Contractor does not pay costs of such removal and storage within ten days after written notice, the Owner may upon ten additional days' written notice sell such materials and equipment at auction or at private sale and shall account for the proceeds thereof, after deducting costs and damages that should have been borne by the Contractor, including compensation for Project Management's services and expenses made necessary thereby. If such proceeds of sale do not cover costs which the Contractor should have borne, the Contract Sum shall be reduced by the deficiency. If payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference to the Owner.

12.2.5 The Contractor shall bear the cost of correcting destroyed or damaged construction, whether completed or partially completed, of the Owner or other Contractors caused by the Contractor's correction or removal of Work which is not in accordance with the requirements of the Contract Documents.

12.2.6 Nothing contained in this Paragraph 12.2 shall be construed to establish a period of limitation with respect to other obligations which the Contractor might have under the Contract Documents. Establishment of the time period of one year as described in Subparagraph 12.2.2, relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations other than specifically to correct the Work.

### **12.3 Acceptance of Nonconforming Work**

12.3.1 If the Owner prefers to accept Work which is not in accordance with the requirements of the Contract Documents, the Owner may do so instead of requiring its removal and correction, in which case the Contract Sum will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

The Owner shall bear such costs except as provided in Subparagraph 13.5.3.

13.5.3 If such procedures for testing, inspection or approval under Subparagraphs 13.5.1 and 13.5.2 reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, the Contractor shall bear all costs made necessary by such failure including those of repeated procedures and compensation for Project Management's services and expenses.

13.5.4 Required certificates of testing, inspection or approval shall, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to Project Management.

13.5.5 If Project Management is to observe tests, inspections or approvals required by the Contract Documents, Project Management will do so promptly and, where practicable, at the normal place of testing.

13.5.6 Test or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

justify such action, may without prejudice to any other rights or remedies of the Owner and after giving the Contractor and the Contractor's surety, if any, 72 hours written notice, terminate employment of the Contractor and may, subject to any prior rights of the surety:

This will be our 5<sup>th</sup> year enjoying Higgs Beach as our finish line and awards venue. Nothing has changed from the previous 4 years of our event.

We are requesting the use of the section of Higgs Beach from 6pm on May 20<sup>th</sup> to 5pm on May 22<sup>nd</sup>, 2016 (Please see attached map). Our footprint includes a 40' x 80' canopy tent, a 10' x 10' canopy tent and a 12' inflatable finish line arch.

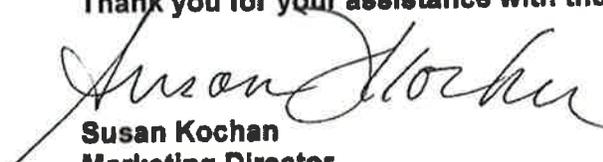

Our awards ceremony is on May 22<sup>nd</sup> from 11am to 2pm inside the larger tent. Typically around 400-500 runners and their families attend the awards ceremony. There will be a 4 piece band with a small amplifier within the tent. We will serve free donated beer to our 21 and over attendants.

We request the use of the Higgs bathrooms for the duration of the race and access to the power pole for power, lights and finish line data computer hookup.

We ask that the per person impact fee be waived as we will, as always, leave the area entirely free of trash and recyclables.

Feel free to contact me with any questions.

Thank you for your assistance with the 9<sup>th</sup> Annual KEYS100 Ultra-marathon.

**LEASE AGREEMENT  
FOR HIGGS BEACH CONCESSION**

**THIS LEASE AGREEMENT** is made and entered into on the 10th day of December 2014, by and between MONROE COUNTY, a political subdivision of the State of Florida, hereinafter referred to as County or LESSOR, and Pamela Uslander, hereinafter referred to as LESSEE or Tenant;

**WHEREAS**, LESSOR is the owner of Clarence Higgs Beach Park, hereafter Beach or Premises, that has space(s) available for mobile concessions; and

**WHEREAS**, County advertised via the competitive solicitation process a Request for Proposals (RFP) for Mobile Retail Merchandise and Food Concessions at Higgs Beach, through which the LESSEE was deemed the highest ranked responsive, conforming bidder, and

**WHEREAS**, LESSOR desires to grant to LESSEE the right to operate a concession at Higgs Beach at Key West, Florida, and

**WHEREAS**, LESSEE desires to enter into such a lease and represents to the LESSOR that it is qualified to operate a concession and has the financial resources to undertake such an operation; now, therefore

**IN CONSIDERATION** of the premises and of mutual covenants and promises hereinafter contained, the parties do hereby agree as follows:

1. Premises - LESSOR hereby leases to LESSEE a mobile vendor space within the boundary of Clarence Higgs Beach Park (Exhibit A) for use as a Concession. The mobile vendor must park in a designated parking space at least 50 feet away from existing park vendors.

2. Lease Documents - The lease documents, of which this agreement is a part, consists of the lease documents, which are as follows: This agreement and any amendments executed by the parties hereafter, together with the RFP, the response to the RFP and all required insurance documentation. In the event of a discrepancy between the documents, precedence shall be determined by the order of the documents as just listed.

3. (a) The LESSEE will sell paletas, a frozen treat made from fruit and cream, via a mobile food cart. The County reserves the right to reject any items it finds inappropriate, objectionable or not in the best interests of the County. LESSEE is permitted to employ entertainment in the form of a tape/CD, iPod, or internet sound system. Other forms of entertainment may be permitted with the written consent of the Director, Public Works & Engineering or his designee. Where permitted, no sound source shall be permitted that is so loud that it emanates outside of the LESSEE's concession space.

(b) The LESSEE must comply with all the applicable requirements of the statutes, rules, ordinances, regulations, orders and policies of the federal, state, county and city governments either in effect on the effective date of this lease or later adopted.

(c) LESSEE shall be required to obtain Monroe County and City of Key West Occupational Licenses before beginning operations. LESSEE shall also be responsible for obtaining any additional licenses which may be required by LESSEE's operations at Higgs Beach before beginning operations. A copy of all licenses must be provided to the County's contract manager within 15 days of contract award.

(d) Notwithstanding anything herein contained that may be or appear to be, to the contrary, it is expressly understood and agreed that the rights granted under this agreement are nonexclusive and the LESSOR herein reserves the right to grant similar privileges to another LESSEE or other LESSEE on other parts of Higgs Beach.

4. Term - This lease agreement will take effect on the 1<sup>st</sup> day of January 2015, and will terminate on the 31<sup>st</sup> day of December 2015, unless terminated earlier under another paragraph of this agreement. This lease may be renewed, at the County's discretion, for (2) two additional (2) two year terms upon written request by the LESSOR, which will be provided at least 60 days prior to termination of the lease.

5. Rental and Fees

(a) RENT: LESSEE agrees to pay LESSOR rent in the amount of \$ 100.00 per month, for retail concession space. Rental payments are due by the 1st day of the month for which the rent is due.

(b) Percent (%) GROSS TAXABLE SALES: In addition to the monthly rental payment, LESSEE agrees to pay LESSOR 5% of the annual gross revenues or a guaranteed minimum annual fee of \$1,200.00, whichever is greater, generated by LESSEE's operations. Annual gross revenues are determined on a calendar year basis. A calendar year shall run from January 1st through December 31st inclusive. Payment of charges under this subparagraph shall be made in monthly installments. A statement, including proof of monthly revenue and a log documenting hours of operation, shall be provided by the LESSEE to the LESSOR each month. LESSEE shall remit the greater amount of either 5% of gross taxable sales or 1/12 of the annual guaranteed minimum (\$100.00) monthly on an arrears basis. Payment shall be made no later than the 25th day of the month payment is due, i.e. January payment by February 25, February by March 25, etc. In the event the total amount paid during any calendar year period is less than the greater of the fees set forth in this contract, LESSEE shall remit the difference by February 28 of the year subsequent to the calendar year for which the charge is due.

(c) LESSEE shall open the operation for business on January 1, 2015.

LESSEE MUST OPEN FOR BUSINESS WITHIN 14 DAYS OF THE EFFECTIVE DATE

(d) LESSEE shall maintain all books, records, and documents directly pertinent to performance under this Agreement in accordance with generally accepted accounting principles consistently applied. Each party to this Agreement or their authorized representatives shall have reasonable and timely access to such records of each other party to this Agreement for public records purposes during the term of the Agreement and for four years following the termination of this Agreement. An annual operating statement prepared by a Certified Public Accountant must be provided to the LESSOR on or before February 28 of the following year.

(e) The LESSEE must pay all assessments, taxes, including sales taxes, levied by any governmental body with the power to impose assessments or taxes. The LESSEE must provide

12/5/14  
MS

the County with the sales tax records for each year on or before February 28 of the following year.

(f) The LESSEE must provide all items and equipment needed for the operation including, but not limited to: vehicle and/or mobile cart, shelving, display cases, tables, chairs, refrigeration units, etc. LESSEE'S items and equipment must be removed from the premises at the end of each day.

(g) Notwithstanding anything set forth in paragraph 9 of this agreement, if the LESSEE fails to pay any rents or fees due under this lease within 15 days after the LESSOR notifies the LESSEE in writing that the rent or charge is overdue, then the LESSOR may, in its discretion, either immediately or later, expel the LESSEE and any persons claiming the premises by or through the LESSEE, and remove any of the LESSEE's effects without being guilty of trespass and without prejudice or waiver to any other available remedy the LESSOR might have for the recovery of the rent or charges due from the LESSEE. Upon the LESSEE'S expulsion, this lease will terminate. However, the LESSEE'S obligation to pay the rent or charges due will survive the termination. Overdue rent and charges will accrue interest beginning on the 16th day after the LESSEE was notified in writing by the LESSOR that the renter charges were overdue. The interest rate will be that established by the Comptroller under Sec. 55.03, F.S., for the year in which the rent or charge first became overdue.

6. The LESSEE agrees to furnish good, prompt and efficient service to meet all demands for concession service at the Beach. The operation must be open for service 365 days per year and will operate from 10:00 a.m. to sunset, as a minimum. The hours can be revised by mutual consent. For purposes of setting up the concession in the morning and closing the concession in the evening, LESSEE may arrive one half hour prior to, and depart no later than one half hour after, the hours of operation. **LESSEE'S MOBILE CONCESSION WILL NOT OTHERWISE BE LOCATED ON HIGGS' BEACH FOR ANY REASON.**

7. (a) The LESSEE must provide an adequate number of covered metal waste containers at its operation. LESSEE shall provide separate containers for waste and for recyclables. LESSEE must deposit all trash, waste and recyclables in those containers for proper disposition of the waste and recyclables at the place designated by the LESSOR.

(b) No signs, advertising, or awnings may be erected by the LESSEE, unless they are approved by the Director, Public Works & Engineering or his designee in writing.

(c) The LESSEE is responsible for the maintenance of the LESSEE's operation, including the equipment used by LESSEE and/or offered for rental.

8. Except as otherwise provided herein, the LESSOR may cancel this agreement when, after giving the LESSEE 30 days written notice that an act of default has occurred, the LESSEE fails or cannot cure the following:

(a) The appointment of a receiver of the LESSEE's assets.

(b) The divestiture of the LESSEE's interest in the lease by court order or other operation of law.

(c) The LESSEE's abandonment of the operation. Failure to open the operation and keep it open during the business hours described in this agreement for seven (7) consecutive days shall constitute abandonment.

(d) The failure of the LESSEE to timely perform any of the obligations required of it under this agreement.

No waiver of default by the LESSOR of any of the obligations required of the LESSEE under this agreement may be construed as a waiver of any subsequent default of any of the obligations that are required to be performed, kept or observed by the LESSEE. The LESSOR's waiver of an act of default by the LESSEE is not a waiver of the right of the LESSOR to later cancel this agreement because of the LESSEE's failure to subsequently perform an obligation or obligations under this lease agreement.

9. If the LESSEE is not in default of its obligation to pay the rent and the charges, then the LESSEE may cancel this agreement when, after giving the LESSOR 30 days written notice of an act of default, the LESSOR fails or cannot cure, or fails to timely perform, the obligations required of it under this lease agreement.

10. (a) Before entering the premises, the LESSEE must obtain insurance in the amounts and according to the conditions described as follows:

The LESSEE will be responsible for all necessary insurance coverage which includes, at a minimum:

~~Worker's Compensation - \$100,000 Bodily Injury by Accident;~~  
~~-\$500,000 Bodily Injury by Disease, policy limits;~~  
~~-\$100,000 Bodily Injury by Disease, each employee~~  
~~Vehicle Liability - \$100,000 combined single limit~~  
General Liability - \$300,000 combined single limit

*Donna M. [unclear] 12/10/14 MS*

Certificates of Insurance must be provided to Monroe County within fifteen days after award of proposal. If the proper insurance forms are not received within the fifteen days, proposal may be awarded to the next selected respondent. LESSEE cannot begin operating until Certificates of Insurance have been received by the County.

The Monroe County Board of County Commissioners will be included as "Additional Insured" on all policies, except workers compensation, issued to satisfy the above requirements. All forms of insurance required above shall be from insurers acceptable to the County.

All insurance policies must specify that they are not subject to cancellation, non-renewal, material change, or reduction in coverage unless a minimum of thirty days prior notification is given to the County by the insurer.

(b) The LESSEE must keep in full force and affect the insurance described during the term of this agreement. If the insurance policies originally purchased that meet the requirements are canceled, terminated or reduced in coverage, then the LESSEE must immediately substitute complying policies so that no gap in coverage occurs.

(c) The insurance required of the LESSEE in this paragraph is for the protection of the County, its property and employees, and the general public. The insurance requirement is not, however, for the protection of any specific member of the general public who might be injured because of an act or omission of the LESSEE. The insurance requirements of this paragraph do not make any specific injured member of the general public a third party beneficiary under this agreement. Therefore, any failure by the County to enforce this paragraph, or evict the LESSEE if the LESSEE becomes uninsured or underinsured, is not a breach of any duty or obligation owed to any specific member of the general public and cannot form the basis of any County liability to a specific member of the general public or his/her dependents, or estate or heirs.

(d) Notwithstanding anything set forth in paragraph 9 of this agreement, the LESSOR may treat the LESSEE in default if the LESSEE, after entering the premises but before beginning its operation, does not have the insurance required by subparagraph 11(a). Before the County may terminate the agreement in this situation, the County must give the LESSEE a written notice of the default stating that, if the required insurance is not obtained within ten (10) days of the LESSEE's receipt of notice, then the County will cancel this agreement. The County may treat the LESSEE in default and cancel this agreement if the LESSEE, after starting the operation, fails to keep in full force and effect the insurance required by subparagraph 11(a). Before treating the LESSEE in default and terminating the agreement in this situation, the County need only provide the LESSEE 24-hour notice by FAX or overnight courier. The County may, but need not, provide LESSEE with an opportunity to cure the default.

11. Notwithstanding anything herein contained that may be, or appear to be, to the contrary, it is expressly understood and agreed that the rights granted under this agreement are nonexclusive and the LESSOR herein reserves the right to grant similar privileges to another LESSEE or other LESSEES on other parts of the Beach.

12. At the end of this agreement (or any renewal), the LESSEE's right to the premises, the use of Beach facilities, and any other right or privilege granted under this agreement ceases. All equipment, improvements, furnishings and other property of the LESSEE at the premises are personal to the LESSEE and remain the property of the LESSEE and must be removed by him. The LESSEE must also restore the premise to its original condition, ordinary wear and tear and damage by causes beyond the control of the LESSEE excepted.

13. LESSOR may enter upon the premises at any reasonable time, with advance notice, for any purpose connected with the performance of the LESSOR's obligations under this agreement or in the exercise of its governmental functions.

14. The LESSEE may not assign this agreement, or any part of it, or sublease the premises, or any portion of the premises, without the written approval of the LESSOR. The change of the LESSEE's status from an individual to a partnership or corporation is an assignment under this paragraph requiring the LESSOR's approval. If the LESSEE is approved to do business in the corporate form, any assignment of a controlling interest in the corporate stock is also an assignment under this paragraph that requires the LESSOR's approval. All the obligations of this agreement will extend to the legal representatives, successors and assigns of the LESSEE and LESSOR.

15. Hold Harmless - Notwithstanding any minimum insurance requirements prescribed elsewhere in this agreement, LESSEE shall defend, indemnify and hold the County and the

County's elected and appointed officers and employees harmless from and against (i) any claims, actions or causes of action, (ii) any litigation, administrative proceedings, appellate proceedings, or other proceedings relating to any type of injury (including death), loss, damage, fine, penalty or business interruption, and (iii) any costs or expenses that may be asserted against, initiated with respect to, or sustained by, any indemnified party by reason of, or in connection with, (A) any activity of LESSEE or any of its employees, agents, contractors or other invitees during the term of this lease, (B) the negligence or willful misconduct of LESSEE or any of its employees, agents, contractors or other invitees, or (C) LESSEE's default in respect of any of the obligations that it undertakes under the terms of this lease, except to the extent the claims, actions, causes of action, litigation, proceedings, costs or expenses arise from the intentional or sole negligent acts or omissions of the County or any of its employees, agents, contractors or invitees (other than LESSEE). Insofar as the claims, actions, causes of action, litigation, proceedings, costs or expenses relate to events or circumstances that occur during the term of this lease, this Section will survive the expiration of the term of this lease or any earlier termination of this lease.

16. Nondiscrimination - LESSEE agrees that there will be no discrimination against any person, and it is expressly understood that upon a determination by a court of competent jurisdiction that discrimination has occurred, this Agreement automatically terminates without any further action on the part of any party, effective the date of the Court order. LESSOR and LESSEE agree to comply with all Federal and Florida statutes, and all local ordinances, as applicable, relating to nondiscrimination. These include but are not limited to: 1) Title VII of the Civil Rights Act of 1964 (PL 88-352) which prohibits discrimination on the basis of race, color or national origin; 2) Title IX of the Education Amendment of 1972, as amended (20 USC ss. 1681-1683, and 1685 -1686), which prohibits discrimination on the basis of sex; 3) Section 504 of the Rehabilitation Act of 1973, as amended (20 USC s. 794), which prohibits discrimination on the basis of handicaps; 4) The Age Discrimination Act of 1975; as amended (42 USC ss. 6101-6107) which prohibits discrimination on the basis of age; 5) The Drug Abuse Office and Treatment Act of 1972 (PL 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; 6) The Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (PL 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; 7) The Public Health Service Act of 1912, ss. 523 and 527 (42 USC ss. 690dd-3 and 290ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; 8) Title VIII of the Civil Rights Act of 1968 (42 USC s. et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; 9) The Americans with Disabilities Act of 1990 (42 USC s. 1201 Note), as may be amended from time to time, relating to nondiscrimination based of disability; 10) Secs. 13-101, et seq., Monroe County Code, relating to discrimination based on race, color, sex, religion, disability, national origin, ancestry, sexual orientation, gender identify or expression, familial status or age; 11) Any other nondiscrimination provisions in any Federal or state statutes which may apply to the parties to, or the subject matter of, this Agreement.

17. Severability - If any term, covenant, condition or provision of this Agreement (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions and provisions of this Agreement, shall not be affected thereby; and each remaining term, covenant, condition and provision of this Agreement shall be valid and shall be enforceable to the fullest extent permitted by law unless the enforcement of the remaining terms, covenants, conditions and provisions of this Agreement would prevent the accomplishment of the original intent of this Agreement. LESSOR and LESSEE agree to reform the Agreement to replace any stricken

provision with a valid provision that comes as close as possible to the intent of the stricken provision.

18. Binding Effect - The terms, covenants, conditions, and provisions of this Agreement shall bind and inure to the benefit of LESSOR and LESSEE and their respective legal representatives, successors, and assigns.

19. Authority - Each party represents and warrants to the other that the execution, delivery and performance of this Agreement have been duly authorized by all necessary County and corporate action, as required by law.

20. Adjudication of Disputes or Disagreements - LESSOR and LESSEE agree that all disputes and disagreements shall be attempted to be resolved by meet and confer sessions between representatives of each of the parties. If no resolution can be agreed upon within 30 days after the first meet and confer session, the issue or issues shall be discussed at a public meeting of the Board of County Commissioners. If the issue or issues are still not resolved to the satisfaction of the parties, then any party shall have the right to seek such relief or remedy as may be provided by this Agreement by Florida law.

21. Cooperation - In the event any administrative or legal proceeding is instituted against either party relating to the formation, execution, performance, or breach of this Agreement, LESSOR and LESSEE agree to participate, to the extent required by the other party, in all proceedings, hearings, processes, meetings, and other activities related to the substance of this Agreement or provision of the services under this Agreement. LESSOR and LESSEE specifically agree that no party to this Agreement shall be required to enter into any arbitration proceedings related to this Agreement.

22. Covenant of No Interest - LESSOR and LESSEE covenant that neither presently has any interest, and shall not acquire any interest, which would conflict in any manner or degree with its performance under this Agreement, and the only interest of each is to perform and receive benefits as recited in this Agreement.

23. Code of Ethics - County agrees that officers and employees of the County recognize and will be required to comply with the standards of conduct for public officers and employees as delineated in Section 112.313, Florida Statutes, regarding, but not limited to solicitation or acceptance of gifts; doing business with one's agency; unauthorized compensation; misuse of public position, conflicting employment or contractual relationship; and disclosure or use of certain information.

24. No Solicitation/Payment - LESSOR and LESSEE warrant that, in respect to itself, it has neither employed nor retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for it, any fee, commission, percentage, gift or other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of this provision, LESSEE agrees that LESSOR shall have the right to terminate this Agreement without liability and, at its discretion, to offset from monies owed, or otherwise recover, the full amount of such fee, commission, percentage, gift or consideration.

25. Non-Waiver of Immunity - Notwithstanding the provisions of Sec. 768.28, Florida Statutes, the participation of the LESSOR and the LESSEE in this Agreement and the acquisition of any commercial liability insurance coverage, self-insurance coverage, or local government insurance pool coverage shall not be deemed a waiver of immunity to the extent of liability coverage, nor shall any contract entered into by the LESSOR be required to contain any provision for waiver.

26. Privileges and Immunities - All of the privileges and immunities from liability, exemptions from laws, ordinances, and rules and pensions and relief, disability, workers' compensation, and other benefits which apply to the activity of officers, agents, or employees of any public agents or employees of the LESSOR, when performing their respective functions under this Agreement within the territorial limits of the LESSOR shall apply to the same degree and extent to the performance of such functions and duties of such officers, agents, volunteers, or employees outside the territorial limits of the LESSOR.

27. Legal Obligations and Responsibilities - Non-Delegation of Constitutional or Statutory Duties. This Agreement is not intended to, nor shall it be construed as, relieving any participating entity from any obligation or responsibility imposed upon the entity by law except to the extent of actual and timely performance thereof by any participating entity, in which case the performance may be offered in satisfaction of the obligation or responsibility. Further, this Agreement is not intended to, nor shall it be construed as, authorizing the delegation of the constitutional or statutory duties of the LESSOR, except to the extent permitted by the Florida Constitution, State Statute, and case law.

28. Non-Reliance by Non-Parties - No person or entity shall be entitled to rely upon the terms, or any of them, of this Agreement to enforce or attempt to enforce any third-party claim or entitlement to or benefit of any service or program contemplated hereunder, and the LESSOR and LESSEE agree that neither the LESSOR nor LESSEE or any agent, officer, or employee of either shall have the authority to inform, counsel, or otherwise indicate that any particular individual or group of individuals, entity or entities, have entitlements or benefits under this Agreement separate and apart, inferior to, or superior to the community in general or for the purposes contemplated in this Agreement.

29. Attestations - LESSEE agrees to execute such documents as the LESSOR may reasonably require, to include a Public Entity Crime Statement, an Ethics Statement, and a Drug-Free Workplace Statement.

30. No Personal Liability - No covenant or agreement contained herein shall be deemed to be a covenant or agreement of any member, officer, agent or employee of Monroe County in his or her individual capacity, and no member, officer, agent or employee of Monroe County shall be liable personally on this Agreement or be subject to any personal liability or accountability by reason of the execution of this Agreement.

31. Execution in Counterparts - This Agreement may be executed in any number of counterparts, each of which shall be regarded as an original, all of which taken together shall constitute one and the same instrument and any of the parties hereto may execute this Agreement by signing any such counterpart.

AGENDA ITEM SUMMARY**

Meeting Date: January 20, 2016  
Bulk Item: Yes X No    

Department: Wastewater  
Staff Contact Person/Phone #: Wilson (453-8797)

---

**AGENDA ITEM WORDING:** Approval of Amendment 10 to the Cudjoe Regional ILA with FKAA to revise the advance schedule and add \$5.95 million of additional funding for project changes authorized by the BOCC.

---

**ITEM BACKGROUND:** The addition of the expansion areas and policy adoption to provide connection points for newly developed properties has added approximately \$5.95 million. There have been a number of small scope changes over the last year. The result is that the revised estimated total cost is now \$196.5 million (\$5.95 million above the last ILA amendment). The revision in the cash flow projection is a result of an increased project construction pace that will continue in the first two quarters of 2016. Additionally, County and FKAA staff require the flexibility to adjust the advance schedule to match actual construction expectations to ensure timely payment of the contractors and to ensure that the FKAA has enough funds on hand to meet the obligations in a timely way without sacrificing the quality of the documentation and review process.

---

**PREVIOUS RELEVANT BOCC ACTION:** On November 17, 2015, the BOCC approved a policy that any developed property in the Cudjoe Regional service area should receive a service connection at project expense whether it was in the original design or not at an estimated cost of \$2.6 million for existing developed properties. On June 10, 2015 the BOCC approved expansion of the Cudjoe regional Service area to include additional properties on NNK, Big & Middle Torch and several other properties at an estimated cost of \$3.4 million. On April 15, 2015, the BOCC approved Amendment 9 to the Cudjoe Regional ILA including \$7.1 million for deep injection well construction.

---

**CONTRACT/AGREEMENT CHANGES:** The ILA total is increased to \$196.5million. The advances required in the 1<sup>st</sup> Quarter 2016 and 2<sup>nd</sup> Quarter 2016 are significantly increased. Authority to adjust the advance schedule is clarified.

**FY 2015 LIHEAP AGREEMENT**  
**EXHIBIT 1**  
**AUDIT REQUIREMENTS**

The administration of resources awarded by DEO to the recipient may be subject to audits and/or monitoring by DEO as described in this section.

**MONITORING**

In addition to reviews of audits conducted in accordance with OMB Circular A-133 and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEO staff, limited scope audits as defined by OMB Circular A-133, as revised, and/or other procedures. By entering into this agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by DEO. In the event DEO determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by DEO staff to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

**AUDITS**

**PART I: FEDERALLY FUNDED**

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in OMB Circular A-133, as revised.

1. In the event that the recipient expends \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) or more in Federal awards in its fiscal year, the recipient must have a single or program-specific audit conducted in accordance with the provisions of OMB Circular A-133, as revised. Exhibit 1 to this agreement indicates Federal resources awarded through DEO by this agreement. In determining the Federal awards expended in its fiscal year, the recipient shall consider all sources of Federal awards, including Federal resources received from DEO. The determination of amounts of Federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, as revised. An audit of the recipient conducted by the Auditor General in accordance with the provisions of OMB Circular A-133, as revised, will meet the requirements of this part.
2. In connection with the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in Subpart C of OMB Circular A-133, as revised.
3. If the recipient expends less than \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. In the event that the recipient expends less than \$300,000 (\$500,000 for fiscal years ending after December 31, 2003) in Federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, the cost of the audit must be paid from non-Federal resources (i.e., the cost of such an audit must be paid from the recipient resources obtained from other than Federal entities).
4. Title 2 CFR part 200, entitled *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*, also known as the Super Circular, supersedes and consolidates the requirements of OMB Circulars A-21, A-87, A-110, A-122, A-89, A-102 and A-133 and is effective for Federal awards or increments of awards issued on or after December 26, 2014. Please refer to title 2 CFR part 200 for revised definitions, reporting requirements and auditing thresholds referenced in this Attachment and Agreement accordingly.

## Part II: STATE FUNDED

This part is applicable if the recipient is a non-state entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of \$500,000 in any fiscal year of such recipient (for fiscal years ending September 30, 2004 or thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; applicable rules of the Department of Financial Services; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. Exhibit 1 to this agreement indicates state financial assistance awarded through DEO by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from DEO, other state agencies, and other non-state entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a non-state entity for Federal program matching requirements.
2. In connection with the audit requirements addressed in Part II, paragraph 1, the recipient shall ensure that the audit complies with the requirements of section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by section 215.97(2), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.
3. If the recipient expends less than \$500,000 in state financial assistance in its fiscal year (for fiscal years ending September 30, 2004 or thereafter), an audit conducted in accordance with the provisions of section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than \$500,000 in state financial assistance in its fiscal year and elects to have an audit conducted in accordance with the provisions of section 215.97, F.S., the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).
4. Additional information regarding the Florida Single Audit Act can be found at:

## PART III: OTHER AUDIT REQUIREMENTS

*(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of state financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)*

**PLEASE KEEP IN MIND AT ALL TIMES THAT:**

- Submitting in a timely manner your agency **Annual Operating Report (AOR)** and keeping active a **Community Transportation Coordination (CTC)** agreement ***in effect is a mandatory requirement*** of receiving vehicles acquired through the FTA Section 5310 Program, and a crucial requirement for previous 5310 applicants to keep active if they wish to continue operations with vehicles that already have been granted through Section 5310, during the useful life of the vehicle whether the agency applies or not to the Federal Fiscal Year (2016-2017) Grant Cycle Funding.
- All returning FTA Section 5310 Applicants (with vehicles purchase though 5310 program) must have a current, active and fully executed CTC (signed by the Board of Commissioners), with their respective local county coordinator when applications are due. New applicants without program vehicles must need to coordinate with your local county coordinator as well to find out about dates and first time applicant requirements.

# 1. INTRODUCTION

This application manual pertains to applications for Federal assistance under 49 U.S.C. 5310, Formula Grants for the Enhanced Mobility of Seniors and Individuals with Disabilities Program, as administered by the Florida Department of Transportation (FDOT). It contains program information, application forms, exhibits, certifications & assurances, sample forms and instructions.

The Federal Transit Administration's goal of the Section 5310 Program is to provide assistance in meeting the needs of seniors and individuals with disabilities where public transit services are unavailable, insufficient or inappropriate.

## 2. GENERAL PROGRAM INFORMATION

### 2.1. PROGRAM ADMINISTRATION

The Federal government allocates funds to the State of Florida each year for the Section 5310 Program. FDOT has been designated by the Governor to administer the program for small urban and rural areas. Most large urbanized areas (population over 200,000 residents) have also selected FDOT to administer the program for their urbanized area. FDOT is responsible for the following services but, at its discretion, may contract with a service provider to perform these services.

- 1) announcement of funding availability;
- 2) selection of projects for funding according to approved selection criteria;
- 3) development and processing of agreements;
- 4) oversight of recipient procurement actions;
- 5) oversight of recipient compliance with State and Federal requirements;
- 6) processing of recipient invoices for reimbursement, and
- 7) provision of technical assistance regarding the Section 5310 Program.

Authorizing legislation for the program is shown in the glossary of this manual under "authorizing Federal and State Legislation."

**Large Urbanized Areas, Small Urbanized Areas, and Rural Areas.** Large urbanized areas are those with a population of 200,000 or more. Small urbanized areas are those with populations between 50,000 and 199,999. To be considered rural, an area must have a population below 50,000.

### 2.2. ELIGIBILITY CRITERIA

Eligibility Criteria are the minimum legal eligibility requirements for the Section 5310 Program. Applications must be for eligible services, eligible service areas, eligible recipients, eligible expenses, and provide evidence of local matching funds. Applicants must also ensure compliance with a number of other conditions placed on recipients of grants including, but not limited to, coordination of transit services, civil rights preservation, vehicle maintenance requirements, compliance with safety and drug free work place regulations, competitive procurement of goods and services bought with grant funds, Americans with Disabilities Act (ADA) and references to the Federal Transit Administration's (FTA) Master Agreement.

## **2.3. ELIGIBLE RECIPIENTS**

For the Section 5310 Program, funds may be awarded to any of the following service type providers:

- Public agency Community Transportation Coordinators (CTC's),
- Private non-profit CTC's,
- Private non-profit organizations providing transportation to seniors and/or persons with disabilities under a coordination agreement with the appropriate CTC(s). When the CTC is a private for-profit agency, the designated official planning agency responsible for designating the CTC may apply for Section 5310 funds, and then sub-contract with the CTC for provision of service. Recipients must be either a CTC or an agency providing service under the terms of a written agreement with a CTC. Agencies must keep their CTC Agreements current and in force at all times when receiving an award under the Section 5310 Program. Agencies must also keep their CTC Agreements current and in force every year until the vehicle(s) reaches its useful life requirement.
- Private taxi companies that provide shared-ride taxi service to the general public on a regular basis are operators of public transportation, and therefore eligible subrecipients. "Shared-ride" means two or more passengers in the same vehicle who are otherwise not traveling together. Similar to general public and ADA demand response service, every trip does not have to be shared-ride in order for a taxi company to be considered a shared-ride operator, but the general nature of the service must include shared rides.
- Taxi companies that provide only exclusive-ride service are not eligible subrecipients; however, they may participate in the Section 5310 program as contractors. Exclusive-ride taxi companies may receive Section 5310 funds to purchase accessible taxis under contract with a state, designated recipient, or eligible subrecipient such as a local government or nonprofit organization.

## **2.4. LEGAL AUTHORITY AND FISCAL & MANAGERIAL CAPABILITY**

Section 5310 applicants must have the legal authority and fiscal/managerial capability to apply for Federal assistance. Applicants are required to have sufficient local funds for match requirements and for preventative maintenance and operation of vehicles/equipment. Failure to properly manage, maintain, and operate vehicles/equipment could jeopardize existing and future grants and may result in the removal of vehicles/equipment.

## **2.5. ELIGIBLE EXPENSES**

Section 5310 funds may be used for the capital and/or operating expense of transit services to seniors and/or individuals with disabilities.

Eligible expenses are limited to:

- buses, vans or other vehicles (including sedans and station wagons)
- radios and communications equipment
- wheelchair lifts and restraints
- stretcher vehicles (excluding the cost of the stretcher seating and associated equipment)
- vehicle rehabilitation, and/or overhaul
- data processing hardware/software, other durable goods such as spare vehicle components with a

useful life of more than one (1) year and a per unit cost over \$300, initial installation costs, vehicle procurement/testing

- vehicle inspection and vehicle preventative maintenance
- applicants applying for preventative maintenance costs must have a District approved Preventative Maintenance (PM) plan and a cost allocation plan if maintenance activities are performed in house
- passenger facilities expenditures related to Section 5310-funded vehicles
- support facilities expenditures and equipment for Section 5310-funded vehicles
- operating costs associated with provision of transit services, costs associated with transit services that exceeds the requirements of the Americans with Disabilities Act of 1990
- projects that improve access to fixed route service and decrease individuals with disabilities reliance on complementary paratransit, and provide alternatives to public transportation that assist seniors and individuals with disabilities with transportation. The Federal share of eligible 5310 capital expenses may not exceed eighty percent (80%).

## **2.6. INELIGIBLE EXPENSES**

Ineligible expenses include:

- expenses associated with preparation of grant applications
- expenses associated with project planning
- expenses associated with administration
- expenses associated with extended warranties
- expenses incurred prior to Federal and State approval of a grant application
- expenses incurred prior to the execution of a grant award
- expenses incurred prior to the FDOT's approval of plans, specifications, and third-party contracts for vehicles/equipment to be purchased with Section 5310 funds

FDOT district offices have the discretion to include additional ineligible expenses in a Notice of Grant Award (NOGA) or a Joint Participation Agreement (JPA).

## **2.7. APPLICATION DEADLINES**

Application deadlines vary from District to District, your local District Office will notify applicants of their annual application deadline. FDOT District Offices evaluate grant applications within their respective Districts and, thereafter, submit proposed Programs of Projects (POPs) to the FDOT Central Office by March of each year. The Central Office compiles POPs from the various Districts and submits a statewide grant application for Federal funds to the Federal Transit Administration (FTA) by April 1 of each year. FDOT anticipates FTA's approval of the statewide grant application (including district POP's) no earlier than July 1.

The appropriation for State funds to match Federal funds is approved by the State Legislature for implementation on July 1 of each year. Once Federal and State funds are available, Districts may make grant awards (see the "Grant Award Process" section). At least 55% of the available funding statewide will be awarded to capital projects. The Department reserves the right to increase that percentage up to

100% of project selections as capital, as deemed best suited to meet the mobility needs of seniors and individuals with disabilities where public transit services are unavailable, insufficient or inappropriate.

First time private-non-profit applicants must attach a Certificate of Incorporation to their application.

### **3.8. URBANIZED AREA PROJECT REQUIREMENTS**

Section 5310 projects located in an urbanized area or within a metropolitan area planning boundary must be included in the metropolitan transportation plan (MTP), also known as the Long Range Transportation Plan prepared and approved by the metropolitan planning organization (MPO), the transportation improvement program (TIP) approved jointly by the MPO and the governor, and the statewide transportation improvement program (STIP) developed by a state and jointly approved by FTA and FHWA. Projects outside UZAs must be included in, or be consistent with the statewide long-range transportation plan, as developed by the state, and must be included in the STIP.

Although applications for projects may be accepted by the FDOT District Office prior to their listing in a TIP/STIP, a grant award will not be final for such projects until all administrative requirements are completed, including being listed in the appropriate TIP/STIP.

### **3.9. PLANNING REQUIREMENTS**

To remain eligible for Section 5310 awards, recurring applicants must submit the Transit Development Services Plan (TDSP) or Transit Development Plan (TDP) for their service area to FDOT in a timely manner. The entire TDSP or TDP does not need to be submitted with the application, only date of adoption and page numbers are needed. Applicants must also complete the form EXHIBIT I: Coordinated Public Transit-Human Services Transportation Plan and included it with this application.

### **3.10. ONLY IF THE GRANT REQUEST IS FOR FACILITIES**

Executive Order 12372 requires a review of all Federal grants to ensure compliance with the local and state planning process. Therefore, prior to submission of an application to the FDOT District Office,

copies of the application must be submitted to the appropriate **Local Clearinghouse/Regional Planning Council** (See Appendix 11.6). **A copy of the cover letter sent to the Local Clearinghouse/Regional Planning Council must be submitted with this application as an attachment.** The appropriate clearinghouse agency should be contacted to determine the number of copies required for local review. Letters from the local clearinghouse supporting the application must be submitted to the District Office before a Section 5310 Award can be made.

### **3.11. AUDIT REQUIREMENTS**

A non-Federal entity as defined by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and 2 CFR Part 200, thereafter, as a subrecipient of a Federal award awarded by FDOT, may be subject to the audit requirements established by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and 2 CFR Part 200, Subpart F – Audit Requirements, thereafter. In determining Federal awards expended in a fiscal year, the non-Federal entity must consider all sources of Federal awards, including non-cash contributions.

### **3.12. CERTIFICATIONS AND ASSURANCES**

Applicants must agree to comply with certain Federal requirements by signing the certification and assurances form covered by **Exhibits E, F, H, and I** of this manual, as appropriate. Compliance items in **Exhibit E** include (but are not limited to) regulations pertaining to charter service and school bus service when using FTA-funded vehicles, equipment, and facilities; and FTA drug and alcohol testing regulations. **Exhibit F** applies to applicants for capital assistance to purchase non-accessible vehicles. **Exhibit H** pertains to Protection of the Environment and applies to applicants seeking grants for facilities. Applicants for the Section 5310 Capital Assistance must also sign a certification and assurance to FDOT, as provided in **Exhibit G** of this manual. **Exhibit I** assures that the grant request is derived from a Coordinated Public Transit-Human Services Transportation Plan.

### **3.13. PROGRAM PERFORMANCE MEASURES**

Agencies receiving Section 5310 funds must collect data for the following indicators targeted to capture overarching program information as part of an annual report submitted to the FDOT District office. For the annual report, recipients must submit both quantitative and qualitative information on **each** of the following measures.

#### **Traditional Section 5310 Projects**

- (1) **Gaps in Service Filled:** Provision of transportation options that would not otherwise be available for seniors and individuals with disabilities, measured in numbers of seniors and individuals with disabilities afforded mobility they would not have without program support as a result of traditional Section 5310 projects implemented in the current reporting year.
- (2) **Ridership:** Actual or estimated number of rides (as measured by one-way trips) provided annually for seniors or individuals with disabilities on Section 5310 supported vehicles and services as a result of traditional Section 5310 projects implemented in the current reporting year.

#### **Other Section 5310 Projects**

- (1) **Service Improvements:** related to geographic coverage, service quality, and/or service times that impact availability of transit services for seniors and individuals with disabilities as a result of other Section 5310 projects implemented in the current reporting year.
- (2) **Physical Improvements:** Additions or changes to environmental infrastructure (e.g.,

transportation facilities, sidewalks, etc.), technology, and vehicles that impact availability of transportation services for seniors and individuals with disabilities as a result of other section 5310 projects implemented in the current reporting year.

(3) Ridership: Actual or estimated number of rides (as measured by one-way trips) provided annually for seniors or individuals with disabilities on Section 5310 supported vehicles and services as a result of other Section 5310 projects implemented in the current reporting year.

### **3.14. USE OF SECTION 5310-FUNDED VEHICLES OR EQUIPMENT**

Section 5310-funded vehicles/equipment must be used to transport seniors and individuals with disabilities within the large urbanized areas, small urbanized areas, or rural areas for which they were awarded. They may be used to provide transit to employment, medical care, education, shopping, socialization, etc. Incidental use of vehicles as cargo carriers (i.e. meals on wheels), and work vehicles (i.e. carrying crews and equipment from site to site and/or standing idle between work sites) is permitted as long as it does not interfere with the primary use of the vehicle(s). In such cases, the number of vehicles requested in an application must be justified by the number of people transported -- not meal delivery or tool handling requirements. The need and planned use of the requested vehicles must be detailed in the Proposed Project Description (Exhibit B page number 22).

The Department shall be named as the only lien holder for all vehicles acquired for the project. Should these vehicles no longer be required for the project, the Department's share of the acquisition shall be returned to the Department as described in the *Transit Vehicle Inventory Management Procedure, Topic No. 725-030-025*.

### **3.15. LEASE OF VEHICLES**

Vehicles purchased with Section 5310 funds may be leased to local public bodies or agencies, non-profit agencies, or private-for-profit operators only for the services identified in the grant application. The lease between the applicant and the lessee shall contain the terms and conditions that must be met in providing transportation service to seniors and individuals with disabilities, and must be approved by the appropriate FDOT District Office. When vehicles are operated by an agency other than the one named as applicant in the grant application, control and responsibility for the operation of the vehicles remains with the applicant.

### **3.16. GRANT APPLICATION EVALUATION CRITERIA**

Applications shall be evaluated and ranked on the basis of merit and need. Unless there is sufficient funding in a District to cover all eligible requests, District Offices will use the following criteria to evaluate applications. District Offices has the discretion to alter the grading scale in their District by assigning higher point value to projects meeting the specific priority needs in their District.

Applications shall be evaluated and ranked on the basis of merit and need. Each District has the discretion to alter the grading scale respective to their District by assigning higher point values to criteria meeting the specific priority needs in the respective District.

- A. **Service efficiency and effectiveness:** This is demonstrated by the usual daily hours of eligible service and vehicle occupancy. The emphasis is on the normal hours that agency vehicles are in service, not the hours the applicant is open for business. Applicants providing transportation service for more hours and with vehicles with higher passengers per hour will be ranked higher. The applicant's use of current vehicles (including mileage and maintenance practices) will be considered in the review and ranking.

- B. **Extent to which the community at large is served by the applicant:** Applicants serving the highest community need through social service agencies and providing the most trips to seniors and individuals with disabilities will be ranked higher.
- C. **Extent to which seniors and individuals with disabilities are served:** Applicants that maximize transportation benefits to seniors and individuals with disabilities in their community will be evaluated on the percentage of total riders/passengers served that are seniors and/or individuals with disabilities. Those serving the highest percentage will be ranked higher.
- D. **Need:** Applicants that can demonstrate they serve, or propose to serve, the largest number of eligible passengers, and have the most urgent financial needs will be ranked higher. FDOT has a goal to preserve transportation infrastructure; therefore, maintaining current levels of service may be deemed a higher priority/need than expanding into new services or expanding service area coverage. A detailed explanation of the need and evidence of the need are required.
- E. **Fiscal and managerial capability:** Applicants with well-documented budgets and good fiscal capability demonstrated by the correctness and completeness of their application, by prior audits, proper maintenance of vehicles as demonstrated by miles at replacement, and previous timeliness and accuracy of required reports, will be ranked higher.
- F. **Prior Performance:** Applicants who have a history of meeting contractual obligations and maintenance requirements for Section 5310 vehicles will be ranked higher. Compliance with non-Section 5310 contractual obligations and maintenance requirements will be considered. Compliance with the Annual Operating Report (AOR) to area CTCs may also be considered. New applicants will not be penalized for having little or no history with FDOT, but previous applicants will be penalized for poor past performance.

#### 4. GRANT AWARD PROCESS

Awards will be made by the respective FDOT District Office to agencies submitting applications approved by FDOT for an award, either by 1) issuing a Joint Participation Agreement (JPA) to the recipient; or 2) issuing a Notice of Grant Award, or 3) arranging for vehicle/equipment purchases through a contractor.

#### **4.1. GRANT AWARD PROCESS FOR SECTION 5310 CAPITAL ASSISTANCE**

**Vehicles/Equipment:** To notify an applicant (subrecipient) approved by FDOT for an award, FDOT will send a “Notice of Grant Award” to the subrecipient with instructions to sign and return it to FDOT (See sample notice in the Appendix 11.5 page 66.). Thereafter, the agency will contact the FDOT Contractor to arrange for purchase of vehicles/equipment. A signed Notice of Grant Award is a legally binding agreement. By signing a Notice of Grant Award grant subrecipients agree to comply with all applicable requirements as contained in U.S.C. 49 5310 of the Federal Transit Act of 1991, as amended. This is accomplished by ensuring adherence with all Federally-required certifications and assurances made in EXHIBIT E: Federal Certifications and Assurances, EXHIBIT F: Certification for Agencies Requesting Non-Accessible Vehicles, EXHIBIT H: Protection of the Environment: If the proposed project is for construction of facilities and EXHIBIT I: Coordinated Public Transit-Human Services Transportation Plan. Grant applicants/subrecipients must also make certain assurances and certifications to FDOT, as provided in Exhibit G. Additionally, grant subrecipients will be required to report to FDOT and FTA certain performance measures as determined by FTA.

**Mobility Management:** Grant awards will be made by the respective FDOT District Office to agencies submitting applications approved by FDOT for an award, by entering into a Joint Participation Agreement (JPA) with the agency (grant recipient).

#### **4.2. GRANT AWARD PROCESS FOR SECTION 5310 OPERATING ASSISTANCE**

Grant awards will be made by the respective FDOT District Office to agencies submitting applications approved by FDOT for an award, by entering into a Joint Participation Agreement (JPA) with the agency (grant recipient).

## 5. GENERAL INSTRUCTIONS ON FORMS, CERTIFICATIONS, AND EXHIBITS

Each form, exhibit, and certification provides FDOT with information it must have to make required assurances to the Federal government or to make decisions on project selection.

It is important that each required form, exhibit, and certification be complete and correct. Applicants should be aware that there are criminal sanctions for furnishing false information in order to obtain Federal grants (18 U.S.C. 1001).

The **original** application should be prepared on white, 8.5 X 11” paper and securely clipped (no staples, binders or dividers, please) and submitted to the appropriate FDOT District Office, as shown in the Appendix of this manual. Each District Office requires at a minimum one (1) original and additional copies, as determined by the District, to be submitted. **Application forms, resolutions, exhibits, and certifications should be arranged in the order listed in the “Checklist for Application Completeness”, as provided in this manual, to assure the application is complete.** Incomplete, illegible, or unsigned applications may be rejected.

The **original** application must be accompanied by the required **cover letter** and **two (2) fully-executed Resolution** forms (see Appendix 11.3 page 64 for sample), which includes minimum required language from the applicant’s governing board. Resolutions should authorize 1) submission of the application; 2) signing of the application and certifications/assurances by a designated individual as authorized by board resolution; 3) acceptance of the grant award by the designated individual; **4) be printed on organization/agency letterhead.**

**All signatures should be in blue ink by the individual designated by the governing board of the applicant agency. Blue ink distinguishes an original signature from a photocopy. Only original signature resolutions, applications, and acceptance of grant awards are acceptable. The additional copies of the original application may be photocopies. Agencies submitting an application via TransCIP should print and sign the documents and upload a scanned color copy into TransCIP.**

Questions regarding Section 5310 applications or the application process should be directed to the FDOT District Office in the applicant’s service area, as shown in Appendix 11.7 (page 63) of this manual.

## **7. GRANT APPLICATION INSTRUCTIONS FOR REQUIRED 424 FORM**

The standard Application for Federal Assistance (OMB Standard Form 424) must be filled out in its entirety for Section 5310 applications, and for the local clearinghouse submission (if grant is for facilities). A sample of the standard form is located on the next page of this manual. Applicants that are not using TransCIP to submit their application should print a copy of the completed 424 form (<http://www.dot.state.fl.us/transit/Pages/grantsadministration.shtm>), and include it with this application. This form must be used for ALL applications.

No pre-application process is used in this program; therefore, all submissions are applications.

The code assigned to the Section 5310 Program in the Catalog of Federal Domestic Assistance is **20.513**. This code should be shown in Section 10 of the form followed by the title: “Formula Grants for the Enhanced Mobility of Seniors and Individuals with Disabilities Program.” A guidance document containing Congressional Districts, DUNS Numbers, UZA numbers and Catalog of Federal Domestic Assistance Numbers can be obtained from

<http://www.dot.state.fl.us/transit/Pages/grantsadministration.shtm>.

### **7.1. 424 FORM FOR AGENCIES APPLYING ONLY FOR OPERATING ASSISTANCE**

Standard Form 424 should cover only the Operating Assistance being applied for by the applicant.

### **7.2. 424 FORM FOR AGENCIES APPLYING ONLY FOR CAPITAL ASSISTANCE**

Standard Form 424 should cover only the Capital Assistance being applied for by the applicant.

### **7.3. 424 FORM FOR BOTH OPERATING AND CAPITAL ASSISTANCE**

Submit separate Standard Form 424 for Operating and Capital. Each 424 form must stand alone for the type of request as the categories are different and so are the match requirements: i.e. one form should cover Operating Assistance and a separate form should cover Capital Assistance being applied for by the applicant.

A small number of recipients, **only receive grant awards through the Federal Transit Administration's Section 5310, Enhanced Mobility for Seniors and Individuals with Disabilities Program.**

**Section 5310 only recipients** must provide the District Office a Transportation Operating Procedure (TOP) that addresses the topics below. **Templates for this exhibit may be obtained from your district office and/or the FDOT State Management Plan.** All grant application packages must contain the most recent TOP.

Agencies will be required to undergo a triennial review and inspection by FDOT to determine compliance with the baseline requirements. First time applicants have one (1) year to come into compliance with the TOP requirements outlined in this document. Agencies not yet in-compliance must send a progress report to the local FDOT District office on a quarterly basis outlining the agency's progress towards compliance. **All grant application packages must contain the most recent TOP.**

### **Maintenance**

- The TOP must outline how drivers conduct and document a pre-operational bus inspection report according to Rule 14-90.006, FAC.

This should include verifying that the employee has a valid driver license, a CDL if necessary for the size vehicle being operated by the agency, and if a background check is required. It will also include how the agency ensures that all drivers have valid licenses while operating vehicles.
- The TOP must document the training provided to ensure the driver has adequate skills and capabilities to safely operate each type of vehicle operated by the agency. At a minimum this should include:
  - Bus equipment familiarization
  - Basic operations and maneuvering
  - Boarding and alighting passengers
  - Operation of wheelchair lifts and other special equipment
  - Passenger assistance and securement
  - Defensive driving
- The TOP must document the agency's procedures for handling emergency situations that occur when the vehicle is being used away from the facility.
- The TOP must document how the agency establishes and maintains a drug-free workplace policy according to Section 112.0455, F.S. Additionally, a driver holding a Commercial Driver's License is subject to the federal requirements related to drug testing. The TOP must document how an agency meets these requirements.
- The TOP must document how the agency will ensure drivers not be permitted to drive more than 12 hours in a 24 hour period; and drivers not be permitted to be on duty more than 72 hours in any period of 7 consecutive days.

- The TOP must include the agency's policy for the use of wireless communication devices while occupying the vehicle.
- Agencies will be required to investigate events involving vehicles and resulting in fatality, injury or property damage. The development of necessary reports, corrective action plans, and other documentation for the investigated event must be submitted to FDOT.

**A template for 5310 Transportation Operating Procedure (TOP) can be obtained from your local district office or be found in the Template section of the State Management Plan.**

## 9. APPLIES TO APPLICANTS FOR OPERATING ASSISTANCE

### 9.1. TRANSIT-RELATED OPERATING & ADMINISTRATIVE EXPENSES/ REVENUES

Information regarding the applicant's **transit-related** operating and administrative expenses and revenues specific to 5310 funds must be provided with the application for operating assistance. Forms B-1 and B-2, as provided in this manual, should be used for this purpose.

Applicants should show the transit-related operating and administrative expenses and revenues of their agency for the proposed project as projected for the year the Section 5310 grant award is to be used. For example, the projected expense and revenue budgets for fiscal year 2016/2017 should be used if Section 5310 Assistance is requested by the applicant for use in fiscal year 2016/2017.

Form B-1 provides space for the applicant to:

- show operating and administrative expenses of the service operated/contracted by the applicant.
- provides space to calculate a grant request. However, the grant request cannot be completed until Form B-2 is completed.

Form B-2:

- provides space for the applicant to show the sources of revenue proposed to pay for the expenses shown in Form B-1.

The budget line items shown on the forms were originally defined in the Transportation Accounting Consortium's Model Uniform Accounting System for Rural and Specialized Transportation Providers (TAC Manual). The account numbers in parentheses are the object code numbers for these line items in the TAC manual and in FTA National Transit Data Reports (NTD). Definitions for expense and revenue line items are included below.

## **9.2. INSTRUCTIONS FOR COMPLETING FORM B-1**

Applicants should complete both the “Total Expense” and “FTA Eligible Expense” columns of Form B-1. In completing the form, Community Transportation Coordinators (CTCs) may use expense information from the budget in their most current Transportation Disadvantaged Service Plan (TDSP). The “Total Expense” column should show all operating and administrative expenses associated with the proposed transit service. The definitions for each line item code, as provided in the Appendix of this manual, apply. The “FTA Eligible Expense” column should include only those expenses that are considered eligible expenses as outlined on page 2 of this manual.

After completing the expense columns on Form B-1, applicants should next complete Form B-2 (see instructions below.)

## **9.3. INSTRUCTIONS FOR COMPLETING THE GRANT REQUEST ON FORM B-1**

To calculate the grant request on Form B-1:

- Enter the total (a) from the FTA Eligible Expense column of Form B-1.
- Enter the rural passenger fare revenue (b) from the first row of Form B-2 (object Code 401- rural revenue).
- Subtract the passenger fare revenue (b) from the FTA Eligible Expense (a) to determine the operating deficit (c).
- Complete the Section 5310 request (d). Applicants may request no more than 50% of the operating deficit. Total revenues may not exceed total costs. Therefore, it may be necessary to adjust the Section 5310 request to an amount less than 50% of the deficit calculated.

Applicants for operating funds need to complete both the “Total Revenue” and “Revenue Used as FTA Match” columns of Form B-2.

- In completing Form B-2, CTCs may use revenue information from the budget in their most current TDSP.
- The “Total Revenue” column should show all revenues used to pay for the expenses shown in Form B-1, as noted previously. The definitions for each line item code that is provided in the Appendix of this manual apply.
- The “Revenue Used as FTA Match” column separates total revenues from revenues accepted by FTA as match. This includes revenues in object codes 410, 411, 412, and 430. It also includes revenues in object code 413 EXCEPT for any FTA or other USDOT funds. In other words, FTA or other USDOT revenues should be deducted from the amount shown in object code 413 in the “Total Revenue” column, and the balance should be shown in the “Revenue Used as FTA Match” column.
- Both columns should be totaled and the total of (b) “Total Rural Passenger Fares” (401) and (e) “Grand Total Revenues” transferred to the grant request section of Form B-1.

**9.7. FORM B-3: LOCAL MATCH FOR THIS APPLICATION**

The Section 5310 federal share of eligible operating expenses may not exceed 50%. Some combination of state, local, or private funding sources must be identified and committed to provide the required non-Federal share. The non-Federal share may be cash, or in kind. Funds may be local, private, state, or (up to one half) unrestricted Federal funds. Funds may not include any borrowed against the value of capital equipment funded in whole or in part by State and/or Federal sources.

The Section 5310 Program permits up to one half the required match to be derived from other unrestricted Federal funds. Federal funds are unrestricted when a Federal agency permits its funds to match Section 5310. Essentially, all Federal Social Service Programs using transit services are unrestricted, such as Medicaid, employment training, vocational rehabilitation services and Temporary Assistance for Needy Families; other U.S. DOT Programs are not considered unrestricted Federal funds.

Contract revenue from the provision of transportation services to social service agencies may also be used as local match. The costs associated with providing the contract revenue service must be included in the project budget if using contract revenue as match.

Non-cash, in-kind contributions such as donations of goods or services and volunteered services are eligible to be counted towards the local match only if the value of such is formally documented, supported and pre-approved by the District Office. Any funds committed as match to another Federal program may not be used to match Section 5310 funds. Operating assistance funds will be awarded through a joint participation agreement with FDOT.

## 9.8. FORM B-4: BREAKDOWN OF TRANSPORTATION COSTS

If operating funding is being requested the applicant must complete one of the two (2) requested sections within Form B-4. The applicant can elect to complete the form using

1) Hourly Rate or 2) Per Trip Rate (one or the other) calculation. Only one rate calculation (hourly operating rate or per trip rate) section must be provided with the grant application.

If the applicant has an approved rate by the Commission for Transportation Disadvantaged (TD) for reimbursable service to TD clients include this rate with your application.

### Hourly Rate Calculation

*Note: If you elect to use this (hourly rate) calculation do not complete the Per Trip Rate calculation section.*

**Estimate Farebox Revenues**

Use the yearly reported farebox recovery ratio to calculate the estimated farebox revenues. The farebox recovery ratio is the amount of operating expenses that are recovered by passenger fares. The farebox recovery ratio is calculated by dividing the farebox revenue by the total operating expenses.

Total Project Cost (f) x Farebox Recovery Ratio = **Estimated Farebox Revenue (g) Net Project Cost**

Total Project Cost (f) - Farebox Revenue (g) = **Net Project Cost (h)**

**Estimate Farebox Revenues**

Use the yearly reported farebox recovery ratio to calculate the estimated farebox revenues. The farebox recovery ratio is the amount of operating expenses that are recovered by passenger fares. The farebox recovery ratio is calculated by dividing the farebox revenue by the total operating expenses.

Total Project Cost (f) x Farebox Recovery Ratio = **Estimated Farebox Revenue (g) Net Project**

**Cost**

Total Project Cost (f) - Farebox Revenue (g) = **Net Project Cost (h)**

**FDOT or FTA Contribution (50% of Net Project Cost)**

Net Project Cost (h) x 50% (.50) = **FDOT or FTA Contribution (i)**

## 9.9. FORM B-5: CALCULATING SERVICE AREA PERCENTAGES

Note: Use this form only if your request is for operating costs in more than one service area type (i.e., Urban, Small Urban, and Rural).

### Step 1:

Based upon your proposed and current project description, you will need to calculate the percentage of service within the urban, small urban and/or rural parts of the service area. To do so, take the number of trips, revenue service hours or revenue service miles originating in each area (Urban, Small Urban and Rural) and divide them by the total number of trips, revenue service hours or revenue service miles. You will need your map, A-1 Fact Sheet and/or the Proposed Project Description to determine this.

| Urban = UZA | Small Urban = SUZA | Rural = Rural |
|-------------|--------------------|---------------|
|-------------|--------------------|---------------|

#### Example:

**If your agency makes 500 trips per year and 100 of those trips are urban then:**

100 UZA trips/ 500 total trips = .2 \* 100 = 20% UZA service area

**If your agency makes 500 trips per year and 200 of those trips are small urban then:**

200 SUZA trips/ 500 total trips = .4 \* 100 = 40% SUZA service area

**If your agency makes 500 trips per year and 200 of those trips are rural then:**

200 Rural/ 500 total trips = .4 \* 100 = 40% Rural service area

### Step 2:

Once you have determined how the service area is split between UZA, SUZA and Rural, you will need to calculate the funding split. To do so, you must separate your total amount requested into the designated funding split you calculated in step 3.

#### Example:

Total Requested: \$300,000.00

Funding Split: UZA: \$300,000 \* .2 = \$60,000.00

SUZA: \$300,000 \* .4 = \$120,000.00

Rural: \$300,000 \* .4 = \$120,000.00

\*Note: When invoicing for the project, you must use the above funding split on your invoice summary forms.

### Step 3:

Once you have determined the funding split between UZA, SUZA and Rural, you will need to calculate the match amount required to complete the Form 424. Use the amounts calculated in step 4 to complete this task.

#### Example:

*Operating Assistance (50% Federal and 50% Local):*

UZA:  $\$60,000.00 * .5 = \$30,000.00$  Federal and  $\$30,000.00$  Local

SUZA:  $\$120,000.00 * .5 = \$60,000.00$  Federal and  $\$60,000.00$  Local

Rural:  $\$120,000.00 * .5 = \$60,000.00$  Federal and  $\$60,000.00$  Local

***Capital Assistance (80% Federal, 10% State and 10% Local):***

UZA:  $\$60,000.00 * .8 = \$48,000$  Federal,  $\$6,000$  State and  $\$6,000$  Local

SUZA:  $\$120,000 * .8 = \$96,000$  Federal,  $\$12,000$  State and  $\$12,000$  Local

Rural:  $\$120,000 * .8 = \$96,000$  Federal,  $\$12,000$  State and  $\$12,000$  Local

## 10. APPLIES TO APPLICANTS FOR CAPITAL ASSISTANCE

### 10.1. TRANSIT-RELATED OPERATING & ADMINISTRATIVE EXPENSES/ REVENUES

Information regarding the applicant's **transit-related** operating and administrative expenses and revenues must be provided with the application. Forms C-1 and C-2 are included in this manual for that purpose. These forms should provide information about operating and administrative expenses of the vehicles or service operated/provided by the applicant, as described in Exhibits A and B of the application, and information about the sources of revenue used to pay for these expenses.

The budget line items shown on the forms were originally defined in the Transportation Accounting Consortium's Model Uniform Accounting System for Rural and Specialized Transportation Providers (TAC Manual). The account numbers in parentheses are the object code numbers for these line items in the TAC Manual and in FTA National Transit Data Reports (NTD). Definitions for expense and revenue line items are included below.

Applicants should show the transit-related operating and administrative expenses and revenues of their agency as projected for the year the Section 5310 Grant Award is requested. For example, the projected expense and revenue budgets for fiscal year 2016/2017 should be used if Section 5310 assistance is requested by the Agency for use in fiscal year 2016/2017.

The breakdown of funding for the Section 5310 grant program is 80% Federal/10% FDOT-State/10% Local for capital projects, meaning the Federal share of eligible capital costs may not exceed 80% of the total award. State funds may support up to 10% of eligible capital costs with the remaining 10% being supported by a local match. **At the time an order is placed for vehicles/equipment, the applicant is required to provide a purchase order for its 10% local match to be paid to the vendor. The required 10% local match must be paid at the time of delivery.**

## **10.5. FORM C- 4: CURRENT VEHICLE AND TRANSPORTATION EQUIPMENT INVENTORY FORM**

Applicants must complete the “Current Vehicle and Transportation Equipment Inventory” (Form C-4), see next page. All columns of the form must be completed. The form must include:

- A current list of all vehicles and equipment used by the applicant to transport individuals, including those bought in previous years with Federal funds;
- Those vehicles bought with other than Federal funds;
- Those vehicles now on order; and
- Those vehicles to be ordered with grant awards made in previous years.
- An asterisk (\*) should be placed next to the model year of vehicles to be replaced with the grant being applied for with this application.
- Vehicles can only be listed as “replacement” once. If a replacement award was previously given for a vehicle, that vehicle cannot be listed for replacement again.
- Vehicles operated by the applicant’s contractor or lessee should also be identified, and the name of the contractor/lessee shown in Exhibit B of the application.

## **10.6. FORM C-5: CAPITAL REQUEST FORM**

Applicants must complete the “Capital Request”, Form C-5, provided in this manual. The upper part of the form (vehicle requests) covers vehicles; the lower (equipment requests), covers other capital equipment such as radios, computer software, computer hardware, etc. Any bus options that are part of purchasing the bus itself should be part of the vehicle request and NOT separated out under equipment.

**If agency is requesting capital that is not a vehicle i.e. mobility manager, place the costs of the position under Equipment.**

**NOTE: In the case of vehicles, applicants should be sure to indicate whether the new vehicle is to replace (R) an older vehicle or expand (E) the fleet by buying a new vehicle. The length of the vehicle, the number of passenger seats & wheelchair positions, lift or ramp, and the type of fuel is also important because this affects the cost. The make of the vehicle should not be shown on the form.**

Applicants should refer to “What’s on the Market”, located in the Appendix, to identify the most appropriate vehicle type for its needs, and the estimated cost. The appropriate FDOT District Office or the Center for Urban Transportation Research (see “What’s on the Market”) may be contacted for assistance.

### **Eligible Expenses:**

Section 5310 funds may be used for the capital and/or operating expense of transit services to seniors and/or individuals with disabilities. Eligible expenses are limited to buses, vans or other vehicles (including sedans and station wagons), radios and communications equipment, wheelchair lifts and restraints, stretcher vehicles (excluding the cost of the stretcher seating and associated equipment), vehicle rehabilitation, vehicle overhaul, data processing hardware/software, other durable goods such as spare components with a useful life of more than one (1) year and a per unit cost over \$300, initial installation costs, vehicle procurement/testing, vehicle inspection and vehicle preventative maintenance, passenger facilities related to Section 5310-funded vehicles, support facilities and equipment for Section 5310-funded vehicles, operating costs associated with providing transit service, costs associated with transit service that exceeds the requirements of the Americans with Disabilities Act of 1990, projects that improve access to fixed route service and decrease reliance by individuals with disabilities on complementary paratransit, and alternative to public transportation that assist seniors and individuals with disabilities with transportation. An applicant applying for preventative maintenance costs must have a District approved preventative maintenance plan and a cost allocation if activities are performed in house. The Federal 5310 share for eligible capital expenses may not exceed eighty percent (80%).

## 10.8. EXHIBIT C: PUBLIC HEARING

An opportunity for a public hearing is required **ONLY** for public agencies requesting capital grants under Section 5310. An application for Section 5310 submitted by a public agency should contain a copy of the notice of public hearing (identified as Exhibit C) and an affidavit of publication.

A sample public notice is located in the Appendix of this manual. A public notice should contain all pertinent information relating to the project (such as number and types of vehicles as well as the estimated cost of the vehicles) and should be published at least one time in a newspaper of general circulation in the applicant's service area, no less than 15 or more than 30 days prior to the submission of an application. The notice should state that persons requesting a hearing must notify the applicant of the request, in writing, and send a copy of the request for a hearing to the FDOT District Office.

The deadline for hearing requests **must** be prior to the date applications are due at the District Office. If a hearing is requested:

1. A hearing **must be** conducted;
2. The FDOT District Office must be notified of the date, time, and location of the hearing; and
3. A copy of the minutes of the hearing (to include a discussion of issues raised and resolution of issues) must be submitted to the FDOT District Office, before a Section 5310 award can be made.

Such public entities not receiving FTA funds shall also file the certification with the appropriate state office program. Such public entities receiving FTA funds under any other section of the FTA Programs must file the certification with the appropriate FTA regional office. This certification is valid for no longer than one year from its date of filing. Non-public transportation systems that serve their own clients, such as social service agencies, are required to complete this form.

## **10.12. EXHIBIT H: PROTECTION OF THE ENVIRONMENT: IF THE PROPOSED PROJECT IS FOR CONSTRUCTION OF FACILITIES**

Most transit projects funded under Section 5339 will be classified by FTA as categorical exclusions. Examples of categorical exclusions include purchase of transit vehicles, and purchase of office equipment. If the proposed project is for construction or acquisition of facilities or other buildings, further evaluation may be required before a determination can be made that the project is a categorical exclusion. A Categorical Exclusion (CE) is described in 40 Code of Federal Regulations (CFR) 1508.4 and 23 CFR 771, as a project which, based upon past experience with similar actions, does not individually or cumulatively have a significant environmental effect, and is excluded from the requirement to prepare an Environmental Assessment (EA) or an Environmental Impact Statement (EIS). Therefore, a project that qualifies as a CE generally requires a lower level of documentation. These projects do not bring significant impacts to planned growth or land use for the area; do not require the relocation of significant numbers of people; do not have a significant impact on any natural, cultural, recreational, historic, or other resources; do not involve significant air, noise, or water quality impacts; do not have significant impacts on travel patterns; and do not otherwise individually or cumulatively have any significant environmental impacts.

Types of projects that have been determined by FTA to qualify as CEs, and normally do not require any further National Environmental Policy Act (NEPA) approvals by FTA, are listed in 23 CFR 771.118(c). Additional actions which meet the criteria for a CE but may be designated as CEs only after FTA approval are listed in 23 CFR 771.118 (d). In these cases, the applicant must submit documentation which demonstrates that the specific conditions or criteria for these CEs are satisfied and that significant environmental effects will not result.

To meet the requirements of a CE determination, a proposed project may not be impermissibly segmented from a larger project. This means that a project may be proposed to be implemented in phases or as part of a larger undertaking, but must still demonstrate independent utility, connect logical termini, and should not restrict consideration of alternatives. In order to meet a CE designation, a proposed project cannot have substantial controversy on environmental grounds, or significant impact to properties protected by Section 4(f) of the US DOT Act (public park and recreation lands, wildlife and waterfowl refuges, and historic sites) or Section 106 of the National Historic Preservation Act (cultural resources including historic and archaeological sites). The presence of features such as wetlands and floodplains within the project area would likely also require additional documentation.

- **The applicant should contact the Florida Department of Transportation (FDOT) District Office for assistance with determining the level of documentation required. The FDOT will use a description of the proposed project, along with any maps or figures to assist with determining if a proposed project is likely to meet FTA criteria for a CE.**

## *Single Audit Requirements*

The administration of resources awarded through the Florida Department of Transportation (Department) to the Subrecipient may be subject to audits and/or monitoring by the Department. The following requirements do not limit the authority of the Department to conduct or arrange for the conduct of additional audits or evaluations of Federal awards or limit the authority of any State agency inspector general, the State of Florida Auditor General or any other State official. The Subrecipient shall comply with all audit and audit reporting requirements as specified below.

- a. In addition to reviews of audits conducted in accordance with OMB Circular A-133, for fiscal years beginning before December 26, 2014, and in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, monitoring procedures may include but not be limited to on-site visits by Department staff and/or other procedures including, reviewing any required performance and financial reports, following up, ensuring corrective action, and issuing management decisions on weaknesses found through audits when those findings pertain to Federal awards provided through the Department by this Award. By accepting this Award, the Subrecipient agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by the Department. The Subrecipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Department, State of Florida Chief Financial Officer (CFO) or State of Florida Auditor General.
- b. The Subrecipient, a non-Federal entity as defined by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and as defined by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, as a subrecipient of a Federal award awarded through the Department, is subject to the following requirements:
  - i. In the event the Subrecipient expends a total amount of Federal awards equal to or in excess of the threshold established by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and established by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, the Subrecipient must have a Federal single or program-specific audit for such fiscal year conducted in accordance with the provisions of OMB Circular A-133, for fiscal years beginning before December 26, 2014, and in accordance with the provisions of 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014. **Exhibit 1** to this Agreement provides the required Federal award identification information needed by the Subrecipient to further comply with the requirements of OMB Circular A-133, for fiscal years beginning before December 26, 2014, and the requirements of 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014. In determining Federal awards expended in a fiscal year, the Subrecipient must consider all sources of Federal awards based on when the activity related to the Federal award occurs, including the Federal award provided as noncash assistance through the Department by this Award. The determination of amounts of

Federal awards expended should be in accordance with the guidelines established by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and established by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014. An audit conducted by the State of Florida Auditor General in accordance with the provisions of OMB Circular A-133, for fiscal years beginning before December 26, 2014, and in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, will meet the requirements of this part.

- ii. In connection with the audit requirements, the Subrecipient shall fulfill the requirements relative to the auditee responsibilities as provided in OMB Circular A-133, for fiscal years beginning before December 26, 2014, and as provided in 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014.
- iii. In the event the Subrecipient expends less than the threshold established by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and established by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, in Federal awards, the Subrecipient is exempt from Federal audit requirements for that fiscal year. However, the Subrecipient must provide a single audit exemption statement to the Department at [FDOTSingleAudit@dot.state.fl.us](mailto:FDOTSingleAudit@dot.state.fl.us) no later than nine months after the end of the Subrecipient’s audit period for each applicable audit year.
- iv. The Subrecipient must electronically submit to the Federal Audit Clearinghouse (FAC) at <https://harvester.census.gov/facweb/> the audit reporting package as required by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and as required by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, within the earlier of 30 calendar days after receipt of the auditor’s report(s) or nine months after the end of the audit period. The FAC is the repository of record for audits required by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and for audits required by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014, and this Award. However, the Department requires a copy of the audit reporting package also be submitted to [FDOTSingleAudit@dot.state.fl.us](mailto:FDOTSingleAudit@dot.state.fl.us) within the earlier of 30 calendar days after receipt of the auditor’s report(s) or nine months after the end of the audit period as required by OMB Circular A-133, for fiscal years beginning before December 26, 2014, and as required by 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or after December 26, 2014.
- v. Upon receipt, and within six months, the Department will review the Subrecipient’s audit reporting package, including corrective action plans and management letters, to the extent necessary to determine whether timely and appropriate action on all deficiencies has been taken pertaining to the Federal award provided through the Department by this Award. If the Subrecipient fails to have an audit conducted in accordance with OMB Circular A-133, for fiscal years beginning before December 26, 2014, and in accordance with 2 CFR Part 200, Subpart F – Audit Requirements, for fiscal years beginning on or

after December 26, 2014, the Department may impose additional conditions to remedy noncompliance. If the Department determines that noncompliance cannot be remedied by imposing additional conditions, the Department may take appropriate actions to enforce compliance.

- vi. As a condition of receiving this Federal award, the Subrecipient shall permit the Department, or its designee, the CFO or State of Florida Auditor General access to the Subrecipient's records including financial statements, the independent auditor's working papers and project records as necessary. Records related to unresolved audit findings, appeals or litigation shall be retained until the action is complete or the dispute is resolved.
  
- vii. The Department's contact information for requirements under this part is as follows:

The Subrecipient shall retain sufficient records demonstrating its compliance with the terms of this Agreement for a period of five years from the date the audit report is issued and shall allow the Department, or its designee, the CFO or State of Florida Auditor General access to such records upon request. The Subrecipient shall ensure that the audit working papers are made available to the Department, or its designee, the CFO, or State of Florida Auditor General upon request for a period of five years from the date the audit report is issued unless extended in writing by the Department.

43. **Condition Precedent to Contract: Appropriations**

The Parties agree that the Alliance's performance and obligation to pay under this contract is contingent upon an annual appropriation by the Legislature.

44. **Addition/Deletion**

The Parties agree that, notwithstanding the terms of the procurement documents and actions leading to this contract, the Alliance reserves the right to add or to delete any of the services required under this contract when deemed to be in the best interest of the elder population targeted by the Area Plan and reduced to a written amendment signed by both Parties. The Parties shall negotiate compensation for any additional services added.

45. **Waiver**

The delay or failure by the Alliance to exercise or enforce any of its rights under this contract shall not constitute or be deemed a waiver of the Alliance's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

46. **Compliance**

The Provider shall abide by all applicable current federal statutes, laws, rules and regulations as well as applicable current State statutes, laws, rules and regulations. The Parties agree that failure of the Provider to abide by these laws shall be deemed an event of default of the Provider, and subject the contract to immediate, unilateral cancellation of the contract at the discretion of the Alliance for Aging, Inc.

48. **Renegotiations or Modifications**

Modifications of the provisions of this contract shall be valid only when they have been reduced to writing and duly signed by both parties. The rate of payment and the total dollar amount may be adjusted retroactively to reflect price level increases and changes in the rate of payment when these have been established through the appropriations process and subsequently reflected in the Alliance's contract with DOEA pursuant to which the Alliance administers funding under this contract.

49. **Suspension of Work:**

The Alliance may in its sole discretion suspend any or all activities under this Contract and any Contract or agreement incorporating in this Contract, at any time, when in the best interests of the State to do so. **50.3 Termination for Cause**

This contract may be terminated for cause by the Alliance upon no less than twenty-four (24) hours' notice in writing to the Provider. Waiver of breach of any provisions of this contract shall not be deemed to be a waiver of any other breach and shall not be construed to be a modification of the terms and conditions of this contract. The provisions herein do not limit the Alliance's or the Provider's rights to remedies at law or in equity.

**50.4** Failure to have performed any contractual obligations with the Alliance in a manner satisfactory to the Alliance will be a sufficient cause for termination. In connection with the audit requirements addressed in Part I, paragraph 1, the provider shall fulfill the requirements relative to auditee responsibilities as provided in Subpart C of OMB Circular A-133, as revised.

If the provider expends less than \$500,000 in Federal awards in its fiscal year, an audit conducted in accordance with the provisions of OMB Circular A-133, as revised, is not required. ## **PART II: STATE FUNDED**

This part is applicable if the provider is a nonstate entity as defined by Section 215.97(2), Florida Statutes. In the event that the provider expends a total amount of state financial assistance equal to or in excess of \$500,000 in any fiscal year of such provider (for fiscal years ending September 30, 2004 or thereafter), the provider must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, Florida Statutes; applicable rules of the Department of Financial Services; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT I to this agreement indicates state financial assistance awarded through the Department of Elder Affairs or the Alliance for Aging, Inc. by this agreement. In determining the state financial assistance expended in its fiscal year, the provider shall consider all sources of state financial assistance, including state financial assistance received from the Department of Elder Affairs or the Alliance for Aging, Inc., other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and Chapter 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

If the provider expends less than \$500,000 in state financial assistance in its fiscal year (for fiscal years ending September 30, 2004 or thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the provider expends less than \$500,000 in state financial assistance in its fiscal year and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the nonstate entity's resources (i.e., the cost of such an audit must be paid from the provider resources obtained from other than State entities).

An audit conducted in accordance with this part shall cover the entire organization for the organization's fiscal year. Compliance findings related to agreements with the Department of Elder Affairs or the Alliance for Aging Inc. shall be based on the agreement's requirements, including any applicable rules, regulations, or statutes. The financial statements shall disclose whether or not the matching requirement was met for each applicable agreement. All questioned costs and liabilities due to the Department of Elder Affairs or the Alliance for Aging, Inc. shall be fully disclosed in the audit report with reference to the Department of Elder Affairs or the Alliance for Aging Inc. agreement involved. If not otherwise disclosed as required by Rule 691-5.003, Fla. Admin. Code, the schedule of expenditures of state financial assistance shall identify expenditures by agreement number for each agreement with the Department of Elder Affairs or the Alliance for Aging, Inc. in effect during the audit period. ## INSTRUCTIONS FOR THE CIVIL RIGHTS COMPLIANCE CHECKLIST

1. Describe the geographic service area such as a district, county, city or other locality. If the program/facility serves a specific target population such as adolescents, describe the target population. Also, define the type of service provided.
2. Enter the percent of the population served by race and sex. The population served includes persons in the geographical area for which services are provided such as a city, county or other regional area. Population statistics can be obtained from local chambers of commerce, libraries, or any publication from the 1980 Census containing Florida population statistics. Include the source of your population statistics. ("Other" races include Asian/Pacific Islanders and American Indian/Alaskan Natives.)
3. Enter the total number of full-time staff and their percent by race, sex and disability. Include the effective date of your summary.
4. Enter the total number of clients who are enrolled, registered or currently served by the program or facility, and list their percent by race, sex and disability. Include the date that enrollment was counted.
5. Enter the total number of advisory board members and their percent by race, sex, and disability. If there is no advisory or governing board, leave this section blank.
6. Each recipient of federal financial assistance must have on file an assurance that the program will be conducted in compliance with all nondiscriminatory provisions as required in 45 CFR 80. This is usually a standard part of the contract language for DOEA recipients and their sub-grantees, 45 CFR 80.4 (a).
7. Is the race, sex, and national origin of the staff reflective of the general population? For example, if 10% of the population is Hispanic, is there a comparable percentage of Hispanic staff?
8. Where there is a significant variation between the race, sex or ethnic composition of the clients and their availability in the population, the program/facility has the responsibility to determine the reasons for such variation and take whatever action may be necessary to correct any discrimination. Some legitimate disparities may exist when programs are sanctioned to serve target populations such as elderly or disabled persons, 45 CFR 80.3 (b) (6).
9. Do eligibility requirements unlawfully exclude persons in protected groups from the provision of services or employment? Evidence of such may be indicated in staff and client representation (Questions 3 and 4) and also through on-site record analysis of persons who applied but were denied services or employment, 45 CFR 80.3 (a) and 45 CFR 80.1 (b) (2).
10. Participants or clients must be provided services such as medical, nursing and dental care, laboratory services, physical and recreational therapies, counseling and social services without regard to race, sex, color, national origin, religion, age or disability. Courtesy titles, appointment scheduling and accuracy of record keeping must be applied uniformly and without regard to race, sex, color, national origin, religion, age or disability. Entrances, waiting rooms, reception areas, restrooms and other facilities must also be equally available to all clients, 45 CFR 80.3 (b).

11. For in-patient services, residents must be assigned to rooms, wards, etc., without regard to race, color, national origin or disability. Also, residents must not be asked whether they are willing to share accommodations with persons of a different race, color, national origin, or disability, 45 CFR 80.3 (a).
12. The program/facility and all services must be accessible to participants and applicants, including those persons who may not speak English. In geographic areas where a significant population of non-English speaking people live, program accessibility may include the employment of bilingual staff. In other areas, it is sufficient to have a policy or plan for service, such as a current list of names and telephone numbers of bilingual individuals who will assist in the provision of services, 45 CFR 80.3 (a).
13. Programs/facilities must make information regarding the nondiscriminatory provisions of Title VI available to their participants, beneficiaries or any other interested parties. This should include information on their right to file a complaint of discrimination with either the Florida Department of Elder Affairs or the U.S. Department of HHS. The information may be supplied verbally or in writing to every individual, or may be supplied through the use of an equal opportunity policy poster displayed in a public area of the facility, 45 CFR 80.6 (d).
14. Report number of discrimination complaints filed against the program/facility. Indicate the basis, e.g., race, color, creed, sex, age, national origin, disability, retaliation; the issues involved, e.g., services or employment, placement, termination, etc. Indicate the civil rights law or policy alleged to have been violated along with the name and address of the local, state or federal agency with whom the complaint has been filed. Indicate the current status, e.g., settled, no reasonable cause found, failure to conciliate, failure to cooperate, under review, etc.
15. The program/facility must be physically accessible to disabled individuals. Physical accessibility includes designated parking areas, curb cuts or level approaches, ramps and adequate widths to entrances. The lobby, public telephone, restroom facilities, water fountains, information and admissions offices should be accessible. Door widths and traffic areas of administrative offices, cafeterias, restrooms, recreation areas, counters and serving lines should be observed for accessibility. Elevators should be observed for door width, and Braille or raised numbers. Switches and controls for light, heat, ventilation, fire alarms, and other essentials should be installed at an appropriate height for mobility impaired individuals.
16. Section 504 of the Rehabilitation Act of 1973 requires that a recipient of federal financial assistance conduct a self-evaluation to identify any accessibility barriers. Self-evaluation is a four step process:
  - With the assistance of a disabled individual/organization, evaluate current practices and policies which do not comply with Section 504.
  - Modify policies and practices that do not meet Section 504 requirements.
  - Take remedial steps to eliminate any discrimination that has been identified.
  - Maintain self-evaluation on file. (This checklist may be used to satisfy this requirement if these four steps have been followed.), 45 CFR 84.6.
17. Programs or facilities that employ 15 or more persons must adopt grievance procedures that incorporate appropriate due process standards and provide for the prompt and equitable resolution of complaints alleging any action prohibited by Section 504.45 CFR 84.7 (b).
18. Programs or facilities that employ 15 or more persons must designate at least one person to

coordinate efforts to comply with Section 504.45 CFR 84.7 (a).

19. Continuing steps must be taken to notify employees and the public of the program/facility's policy of nondiscrimination on the basis of disability. This includes recruitment material, notices for hearings, newspaper ads, and other appropriate written communication, 45 CFR 84.8 (a).
20. Programs/facilities that employ 15 or more persons must provide appropriate auxiliary aids to persons with impaired sensory, manual or speaking skills where necessary. Auxiliary aids may include, but are not limited to, interpreters for hearing impaired individuals, taped or Braille materials, or any alternative resources that can be used to provide equally effective services, (45 CFR 84.52 (d)).
21. Programs/facilities with 50 or more employees and \$50,000 in federal contracts must develop, implement and maintain a written affirmative action compliance program in accordance with Executive Order 11246. 41 CFR 60 and Title VI of the Civil Rights Act of 1964, as amended.

**AGENDA ITEM WORDING:** Rescission of Item C-15 from December 9, 2015 regularly scheduled BOCC meeting due to a scrivener's error and Approval of Amendment #0001 to Contract #KG070, Community Care for Disabled Adults (CCDA) between the Florida Department of Children and Families (DCF) and Monroe County Board of County Commissioners (BOCC)/Monroe County Social Services/In Home Services.

**ITEM BACKGROUND:** Amendment #0001 was previously approved at the December 9, 2015 BOCC meeting as item C-15; however, DCF did not include the cover page summarizing the changes to the Contract which make up the Amendment. This summary page is the one page that DCF indicates needs to be signed by the Mayor, not the page that was actually signed by the Mayor after the December 9, 2015 meeting. Therefore, the Amendment #0001 page is being added to entire agreement, before Page 1, and brings the total number of pages to the contract to 47.

**PREVIOUS RELEVANT BOCC ACTION:** Prior approval granted by the BOCC on 12/11/2014 for the Florida Department of Children and Families Standard Grant Agreement #KG070, Community Care for the Disabled Adults (CCDA), contract year FY15. Prior approval granted on 12/9/2015 of Item C-15 of Amendment #0001 to Contract #KG070.

**CONTRACT/AGREEMENT CHANGES:** Adding summary page prior to Page 1 of agreement.

## 2. STATEMENT OF WORK.

The Provider shall perform all tasks and provide units of deliverables, including reports, findings, and drafts, as specified in this Contract. Except for advances, if any, provided for in this Contract, these deliverables must be received and accepted by the Contract Manager in writing prior to payment, subject to subsequent audit and review and to the satisfaction of the Department. The Department's determination of acceptable services shall be conclusive. Department receipt of reports and other submissions by the Provider does not constitute acceptance thereof, which occurs only through a separate and express act of the Contract Manager. Unless otherwise provided in the procurement document, if any, or governing law, the Department reserves the right to increase or decrease the volume of services and to add tasks that are incidental or complimentary to the original scope of services. Except where the method of payment is prescribed by law, compensation under Section 3 will be equitably adjusted by the Department to the extent that it prescribes a fixed price (previously called "fixed fee") payment method or does not provide a method of payment for added tasks.

### 2.1 Scope of Work.

The Scope of Work is described in Exhibit B.

### 2.2 Task List.

The Provider shall perform all tasks set forth in the Task List, found in Exhibit C, in the manner set forth therein.

CF Standard

Integrated Contract 2015

### 2.3 Deliverables.

Deliverables shall be as described in Exhibit D.

### 2.4 Performance Measures.

**2.4.1 Performance Measures for Acceptance of Deliverables.** The performance measures for acceptance of deliverables are set forth in Exhibit D, Section D-3.

**2.4.2 Minimum Performance Measures.** To avoid contract termination, Provider's performance must meet the minimum performance standards set forth in Exhibit E, Minimum Performance Measures, Section E-1, regardless of any other performance measures in this Contract. By execution of this Contract, the Provider hereby acknowledges and agrees that its performance under the Contract must meet these Minimum Performance Measures and that it will be bound by the conditions set forth therein. If the Provider fails to meet these standards, the Department, at its exclusive option, may allow a reasonable period, not to exceed six (6) months, for the Provider to correct performance deficiencies. If performance deficiencies are not resolved to the satisfaction of the Department within the prescribed time, and if no extenuating circumstances can be documented by the Provider to the Department's satisfaction, the Department must terminate the Contract. The Department has the sole authority to determine whether there are extenuating or mitigating circumstances. The Provider further acknowledges and agrees that during any period in which the Provider fails to meet these standards, regardless of any additional time allowed to correct performance deficiencies, payment for deliverables may be delayed or denied and financial consequences may apply.

## 3. PAYMENT, INVOICE AND RELATED TERMS.

The Department shall pay for services performed by the Provider during the service performance period of this Contract according to the terms and conditions of this Contract in an amount not to exceed that set forth in Section 1.1 hereof, subject to the availability of funds and satisfactory performance of all terms by the Provider. Except for advances, if any, provided for in this Contract, payment shall be made only upon written acceptance of all services by the Department and shall remain subject to subsequent audit or review to confirm contract compliance. The State of Florida's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the Legislature. Any costs or services paid for under any other contract or from any other source are not eligible for payment under this Contract.

### 3.1 Method of Payment.

The Provider shall be paid in accordance with Exhibit F, Method of Payment and Invoices.

### 3.2 Invoices.

**3.2.1 Generally.** The Provider shall submit bills for fees or other compensation for services or expenses in sufficient detail for proper pre-audit and post-audit. Where itemized payment for travel expenses is permitted in this Contract, the Provider shall submit bills for any travel expenses in accordance with section 112.061, F.S., or at such lower rates as may be provided in this Contract.

**3.2.2 Final Invoice.** The final invoice for payment shall be submitted to the Department no more than **45** days after the Contract ends or is terminated. If the Provider fails to do so, all rights to payment are forfeited and the Department will not honor any requests submitted after the aforesaid time period. Any payment due under the terms of this Contract may be withheld until performance of services and all reports due from the Provider and necessary adjustments thereto, have been approved by the Department.

### 3.3 Financial Consequences.

If the Provider fails to perform in accordance with this Contract or perform the minimum level of service required by this Contract, the Department will apply financial consequences as provided for in Section 6.1 hereof. The parties agree that the penalties provided for under Section 6.1 hereof constitute financial consequences under sections 287.058(1)(h) and 215.971(1)(c), F.S. The foregoing does not limit additional financial consequences, which may include but are not limited to refusing payment, withholding payments until deficiency is cured, tendering only partial payments, applying payment adjustments for additional financial consequences or for liquidated damages to the extent that this Contract so provides, or termination of this Contract per Section 6.2.3 hereof and requisition of services from an alternate source. Any payment made in reliance on the Provider's evidence of performance, which evidence is subsequently determined to be erroneous, will be immediately due as an overpayment in accordance with Section 3.4 hereof, to the extent of such error.

### **3.4 Overpayments and Offsets.**

The Provider shall return to the Department any overpayments due to unearned funds or funds disallowed that were disbursed to the Provider by the Department and any interest attributable to such funds. Should repayment not be made promptly upon discovery by the Provider or its auditor or upon written notice by the Department, the Provider will be charged interest at the lawful rate of interest on the outstanding balance until returned. Payments made for services subsequently determined by the Department to not be in full compliance with contract requirements shall be deemed overpayments. The Department shall have the right at any time to offset or deduct from any payment due under this or any other contract or agreement any amount due to the Department from the Provider under this or any other contract or agreement.

### **3.5 MyFloridaMarketPlace Transaction Fee.**

This Contract is exempt from the MyFloridaMarketPlace transaction fee.

## **4. GENERAL TERMS AND CONDITIONS GOVERNING PERFORMANCE.**

### **4.1 Compliance with Statutes, Rules and Regulations.**

In performing its obligations under this Contract, the Provider shall without exception be aware of and comply with all State and Federal laws, rules and regulations relating to its performance under this Contract as they may be enacted or amended from time-to-time, including but not limited to those described in Exhibit A1, as well as any court or administrative order, judgment, settlement or compliance agreement involving the Department which by its nature affects the services provided under this Contract.

### **4.2 Independent Contractor, Subcontracting and Assignments.**

4.2.1 In performing its obligations under this Contract, the Provider shall at all times be acting in the capacity of an independent contractor and not as an officer, employee, or agent of the State of Florida, except where the Provider is a State agency. Neither the Provider nor any of its agents, employees, subcontractors or assignees shall represent to others that it is an agent of or has the authority to bind the Department by virtue of this Contract, unless specifically authorized in writing to do so. This Contract does not create any right in any individual to State retirement, leave benefits or any other benefits of State employees as a result of performing the duties or obligations of this Contract.

4.2.2 The Provider shall take such actions as may be necessary to ensure that it and each subcontractor of the Provider will be deemed to be an independent contractor and will not be considered or permitted to be an officer, employee, or agent of the State of Florida. The Department will not furnish services of support (e.g., office space, office supplies, telephone service, secretarial or clerical support) to the Provider, or its subcontractor or assignee, unless specifically agreed to by the Department in this Contract. All deductions for social security, withholding taxes, income taxes, contributions to unemployment compensation funds and all necessary insurance for the Provider, the Provider's officers, employees, agents, subcontractors, or assignees shall be the sole responsibility of the Provider and its subcontractors. The parties agree that no joint employment is intended and that, regardless of any provision directing the manner of provision of services, the Provider and its subcontractors alone shall be responsible for the supervision, control, hiring and firing, rates of pay and terms and conditions of employment of their own employees.

4.2.3 The Provider shall not assign its responsibilities under this Contract to another party, in whole or part, without prior written approval of the Department, upon the Department's sole determination that such assignment will not adversely affect the public interest. No payment shall be made under this Contract to any factor or other person who has been assigned or transferred the right to receive payment in lieu of or on behalf of the Provider except upon full and faithful performance of the Provider's duties hereunder. Any assignment or transfer occurring without prior approval of the Department shall be null and void. The Provider shall not subcontract for any of the work contemplated under this Contract without prior written approval of the Department, which shall not be unreasonably withheld.

4.2.4 The State of Florida shall at all times be entitled to assign or transfer, in whole or part, its rights, duties, or obligations under this Contract to another governmental agency in the State of Florida or to a provider of the Department's selection, upon giving prior written notice to the Provider. In the event of assignment by either party, this Contract shall remain binding upon the lawful successors in interest of the Provider and the Department.

4.2.5 The Provider is responsible for all work performed and for all commodities produced pursuant to this Contract whether actually furnished by the Provider or by its subcontractors. Any subcontracts shall be evidenced by a written document. The Provider further agrees that the Department shall not be liable to the subcontractor in any way or for any reason relating to this Contract.

4.2.6 The Provider shall include, in all subcontracts (at any tier) the substance of all clauses contained in this Contract that mention or describe subcontract compliance, as well as all clauses applicable to that portion of the Provider's performance being performed by or through the subcontract.

#### 4.3 Provider Indemnity.

Section 19 of PUR 1000 Form shall apply per its terms, except that the phrase "arising from or relating to personal injury and damage to real or personal tangible property" in the first paragraph is replaced with "arising out of or by reason of the execution of this Contract or arising from or relating to any alleged act or omission by the Provider, its agents, employees, partners, or subcontractors in relation to this agreement," and the following additional terms will also apply:

4.3.1 If the Provider removes an infringing product because it is not reasonably able to modify that product or secure the Department the right to continue to use that product, the Provider shall immediately replace that product with a non-infringing product that the Department determines to be of equal or better functionality or be liable for the Department's cost in so doing.

4.3.2 Further, the Provider shall indemnify the Department for all costs and attorneys fees arising from or relating to Provider's claim that a record contains trade secret information that is exempt from disclosure or the scope of the Provider's redaction of the record, as provided for under Section 5.3. hereof, including litigation initiated by the Department.

The Provider's inability to evaluate liability or its evaluation of liability shall not excuse its duty to defend and indemnify after receipt of notice. Only an adjudication or judgment after the highest appeal is exhausted finding the Department negligent shall excuse the Provider of performance under this provision, in which case the Department shall have no obligation to reimburse the Provider for the cost of its defense. If the Provider is an agency or subdivision of the State, its obligation to indemnify, defend and hold harmless the Department shall be to the extent permitted by section 768.28, F.S. or other applicable law, and without waiving the limits of sovereign immunity.

#### 4.4 Insurance.

The Provider shall maintain continuous adequate liability insurance coverage during the existence of this Contract and any renewal(s) and extension(s) thereof. With the exception of a State agency or subdivision as defined by subsection 768.28(2), F.S., by execution of this Contract, the Provider accepts full responsibility for identifying and determining the type(s) and extent of liability insurance necessary to provide reasonable financial protections for the Provider and the clients to be served under this Contract. Upon the execution of this Contract, the Provider shall furnish the Department written verification supporting both the determination and existence of such insurance coverage and shall furnish verification of renewal or replacement thereof prior to the expiration or cancellation. The Department reserves the right to require additional insurance as specified in this Contract.

#### 4.5 Notice of Legal Actions.

The Provider shall notify the Department of potential or actual legal actions taken against the Provider related to services provided through this Contract or that may impact the Provider's ability to deliver the contractual services, or that may adversely impact the Department. The Department's Contract Manager will be notified within 10 days of Provider becoming aware of such actions or potential actions or from the day of the legal filing, whichever comes first.

#### 4.6 Intellectual Property.

It is agreed that all intellectual property, inventions, written or electronically created materials, including manuals, presentations, films, or other copyrightable materials, arising in relation to Provider's performance under this Contract, and the performance of all of its officers, agents and subcontractors in relation to this Contract, are works for hire for the benefit of the Department, fully compensated for by the contract amount, and that neither the Provider nor any of its officers, agents nor subcontractors may claim any interest in any intellectual property rights accruing under or in connection with the performance of this Contract. It is specifically agreed that the Department shall have exclusive rights to all data processing software falling within the terms of section 119.084, F.S., which arises or is developed in the course of or as a result of work or services performed under this Contract, or in any way connected herewith. Notwithstanding the foregoing provision, if the Provider is a university and a member of the State University System of Florida, then section 1004.23, F.S., shall apply.

4.6.1 If the Provider uses or delivers to the Department for its use or the use of its employees, agents or contractors, any design, device, or materials covered by letters, patent, or copyright, it is mutually agreed and understood that, except as to those items specifically listed in Exhibit A as having specific limitations, the compensation paid pursuant to this Contract includes all royalties or costs arising from the use of such design, device, or materials in any way involved in the work contemplated by this Contract. For purposes of this provision, the term "use" shall include use by the Provider during the term of this Contract and use by the Department its employees, agents or contractors during the term of this Contract and perpetually thereafter.

**4.6.2** All applicable subcontracts shall include a provision that the Federal awarding agency reserves all patent rights with respect to any discovery or invention that arises or is developed in the course of or under the subcontract. Notwithstanding the foregoing provision, if the Provider or one of its subcontractors is a university and a member of the State University System of Florida, then section 1004.23, F.S., shall apply, but the Department shall retain a perpetual, fully-paid, nonexclusive license for its use and the use of its contractors of any resulting patented, copyrighted or trademarked work products.

#### **4.7 Transition Activities.**

Continuity of service is critical when service under this Contract ends and service commences under a new contract. Accordingly, when service will continue through another provider upon the expiration or earlier termination of this Contract, the Provider shall, without additional compensation, complete all actions necessary to smoothly transition service to the new provider. This includes but is not limited to the transfer of relevant data and files, as well as property funded or provided pursuant to this Contract. The Provider shall be required to support an orderly transition to the next provider no later than the expiration or earlier termination of this Contract and shall support the requirements for transition as specified in a Department-approved Transition Plan, which shall be developed jointly with the new provider in consultation with the Department.

#### **4.8 Real Property.**

Any State funds provided for the purchase of or improvements to real property are contingent upon the Provider granting to the State a security interest in the property at least to the amount of the State funds provided for at least five (5) years from the date of purchase or the completion of the improvements or as further required by law. As a condition of receipt of State funding for this purpose, the Provider agrees that, if it disposes of the property before the Department's interest is vacated, the Provider will refund the proportionate share of the State's initial investment, as adjusted by depreciation.

#### **4.9 Publicity.**

Without limitation, the Provider and its employees, agents, and representatives will not, without prior Departmental written consent in each instance, use in advertising, publicity or any other promotional endeavor any State mark, the name of the State's mark, the name of the State or any State agency or affiliate or any officer or employee of the State, or any State program or service, or represent, directly or indirectly, that any product or service provided by the Provider has been approved or endorsed by the State, or refer to the existence of this Contract in press releases, advertising or materials distributed to the Provider's prospective customers.

#### **4.10 Sponsorship.**

As required by section 286.25, F.S., if the Provider is a non-governmental organization which sponsors a program financed wholly or in part by State funds, including any funds obtained through this Contract, it shall, in publicizing, advertising, or describing the sponsorship of the program state: "Sponsored by (Provider's name) and the State of Florida, Department of Children and Families". If the sponsorship reference is in written material, the words "State of Florida, Department of Children and Families" shall appear in at least the same size letters or type as the name of the organization.

#### **4.11 Employee Gifts.**

The Provider agrees that it will not offer to give or give any gift to any Department employee during the service performance period of this Contract and for a period of two years thereafter. In addition to any other remedies available to the Department, any violation of this provision will result in referral of the Provider's name and description of the violation of this term to the Department of Management Services for the potential inclusion of the Provider's name on the suspended vendors list for an appropriate period. The Provider will ensure that its subcontractors, if any, comply with these provisions.

#### 4.12 Mandatory Reporting Requirements.

The Provider and any subcontractor must comply with and inform its employees of the following mandatory reporting requirements. Each employee of the Provider, and of any subcontractor, providing services in connection with this Contract who has any knowledge of a reportable incident shall report such incident as follows: 1) reportable incidents that may involve an immediate or impending impact on the health or safety of a client shall be immediately reported to the Contract Manager; and 2) other reportable incidents shall be reported to the Department's Office of Inspector General through the Internet at <http://www.dcf.state.fl.us/admin/ig/rptfraud1.shtml> or by completing a Notification/Investigation Request (Form CF 1934) and emailing the request to the Office of Inspector General at [IG.Complaints@myflfamilies.com](mailto:IG.Complaints@myflfamilies.com). The Provider and subcontractor may also mail the completed form to the Office of Inspector General, 1317 Winewood Boulevard, Building 5, 2nd Floor, Tallahassee, Florida, 32399-0700; or via fax at (850) 488-1428. A reportable incident is defined in Children and Families Operating Procedure (CFOP) 180-4, which can be obtained from the Contract Manager.

### 5. RECORDS, AUDITS AND DATA SECURITY.

#### 5.1 Records, Retention, Audits, Inspections and Investigations.

5.1.1 The Provider shall establish and maintain books, records and documents (including electronic storage media) sufficient to reflect all income and expenditures of funds provided by the Department under this Contract.

5.1.2 Retention of all client records, financial records, supporting documents, statistical records, and any other documents (including electronic storage media) pertinent to this Contract shall be maintained by the Provider during the term of this Contract and retained for a period of six (6) years after completion of the Contract or longer when required by law. In the event an audit is required under this Contract, records shall be retained for a minimum period of six (6) years after the audit report is issued or until resolution of any audit findings or litigation based on the terms of this Contract, at no additional cost to the Department.

5.1.3 Upon demand, at no additional cost to the Department, the Provider will facilitate the duplication and transfer of any records or documents during the term of this Contract and the required retention period in Section 5.1.2 hereof.

5.1.4 These records shall be made available at all reasonable times for inspection, review, copying, or audit by Federal, State, or other personnel duly authorized by the Department.

5.1.5 At all reasonable times for as long as records are maintained, persons duly authorized by the Department and Federal auditors, pursuant to 45 Code of Federal Regulations (CFR) s. 92.36(i)(10), shall be allowed full access to and the right to examine any of the Provider's contracts and related records and documents, regardless of the form in which kept.

5.1.6 A financial and compliance audit shall be provided to the Department as specified in this Contract and in Attachment 1.

5.1.7 The Provider shall comply and cooperate immediately with any inspections, reviews, investigations, or audits deemed necessary by The Office of the Inspector General (section 20.055, F.S.).

No record may be withheld nor may the Provider attempt to limit the scope of any of the foregoing inspections, reviews, copying, transfers or audits based on any claim that any record is exempt from public inspection or is confidential, proprietary or trade secret in nature; provided, however, that this provision does not limit any exemption to public inspection or copying to any such record.

#### 5.2 Inspections and Corrective Action.

The Provider shall permit all persons who are duly authorized by the Department to inspect and copy any records, papers, documents, facilities, goods and services of the Provider which are relevant to this Contract, and to interview any clients, employees and subcontractor employees of the Provider to assure the Department of the satisfactory performance of the terms and conditions of this Contract. Following such review, the Department will deliver to the Provider a written report of its findings, and may direct the development, by the Provider, of a corrective action plan where appropriate. The Provider hereby agrees to timely correct all deficiencies identified in the Department's written report. This provision will not limit the Department's termination rights under Section 6.2.3 hereof.

#### 5.3 Provider's Confidential and Exempt Information.

5.3.1 By executing this Contract, the Provider acknowledges that, having been provided an opportunity to review all provisions hereof, all provisions of this Contract not specifically identified in writing by the Provider prior to execution hereof as "confidential" or "exempt" will be posted by the Department on the public website maintained by the Department of Financial Services pursuant to section 215.985, F.S. The Provider agrees that, upon written request of the Department, it shall promptly provide to the

Department a written statement of the basis for the exemption applicable to each provision identified by the Provider as "confidential" or "exempt", including the statutory citation to an exemption created or afforded by statute, and state with particularity the reasons for the conclusion that the provision is exempt or confidential.

5.3.2 Any claim by Provider of trade secret (proprietary) confidentiality for any information contained in Provider's documents (reports, deliverables or workpapers, etc., in paper or electronic form) submitted to the Department in connection with this Contract will be waived, unless the claimed confidential information is submitted in accordance with Section 5.3.2.a. hereof.

- a. The Provider must clearly label any portion of the documents, data, or records submitted that it considers exempt from public inspection or disclosure pursuant to Florida's Public Records Law as trade secret. The labeling will include a justification citing specific statutes and facts that authorize exemption of the information from public disclosure. If different exemptions are claimed to be applicable to different portions of the protected information, the Provider shall include information correlating the nature of the claims to the particular protected information.
- b. The Department, when required to comply with a public records request including documents submitted by the Provider, may require the Provider to expeditiously submit redacted copies of documents marked as trade secret in accordance with Section 5.3.2.a hereof. Accompanying the submission shall be an updated version of the justification under Section 5.3.2.a. hereof, correlated specifically to redacted information, either confirming that the statutory and factual basis originally asserted remain unchanged or indicating any changes affecting the basis for the asserted exemption from public inspection or disclosure. The redacted copy must exclude or obliterate only those exact portions that are claimed to be trade secret. If the Provider fails to promptly submit a redacted copy, the Department is authorized to produce the records sought without any redaction of proprietary or trade secret information.

The Provider shall be responsible for defending its claim that each and every portion of the redactions of trade secret information are exempt from inspection and copying under Florida's Public Records Law.

#### 5.4 Health Insurance Portability and Accountability Act.

The Provider certifies that neither it nor its subcontractors will have access to, receive or provide Protected Health Information within the meaning of the Health Insurance Portability and Accountability Act (42 U.S.C. s.1320d.) and the regulations promulgated thereunder (45 CFR Parts 160, 162, and 164) incidental to performance of this Contract.

In compliance with 45 CFR s.164.504(e), the Provider shall comply with the provisions of Attachment 2 to this Contract, governing the safeguarding, use and disclosure of Protected Health Information created, received, maintained, or transmitted by the Provider or its subcontractors incidental to the Provider's performance of this Contract.

5.5 Confidential Client and Other Information. Except as provided in this Contract, the Provider shall not use or disclose but shall protect and maintain the confidentiality of any client information and any other information made confidential by Florida law or Federal laws or regulations that is obtained or accessed by the Provider or its subcontractors incidental to performance under this Contract.

5.6 Data Security. The Provider shall comply with the following data security requirements whenever the Provider or its subcontractors have access to Department data systems or maintain any client or other confidential information in electronic form:

5.6.1 An appropriately skilled individual shall be identified by the Provider to function as its Data Security Officer. The Data Security Officer shall act as the liaison to the Department's security staff and will maintain an appropriate level of data security for the information the Provider is collecting or using in the performance of this Contract. An appropriate level of security includes approving and tracking all Provider employees that request or have access to any Departmental data system or information. The Data Security Officer will ensure that user access to the data system or information has been removed from all terminated Provider employees.

5.6.2 The Provider shall provide the latest Departmental security awareness training to its staff who have access to departmental information.

5.6.3 All Provider employees who have access to Departmental information shall comply with, and be provided a copy of CFOP 50-2, and shall sign the DCF Security Agreement form CF 0114 annually. A copy of CF 0114 may be obtained from the Contract Manager.

5.6.4 The Provider shall make every effort to protect and avoid unauthorized release of any personal or confidential information by ensuring both data and mobile storage devices are encrypted as prescribed in CFOP 50-2. If encryption of these devices is not possible, then the Provider shall assure that unencrypted personal and confidential Departmental data will not be stored on unencrypted storage devices.

5.6.5 The Provider agrees to notify the Contract Manager as soon as possible, but no later than five (5) business days following the determination of any breach or potential breach of personal and confidential Departmental data.

5.6.6 The Provider shall at its own cost provide notice to affected parties no later than 45 days following the determination of any potential breach of personal or confidential Departmental data as provided in section 817.5681, F.S. The Provider shall also at its own cost implement measures deemed appropriate by the Department to avoid or mitigate potential injury to any person due to a breach or potential breach of personal and confidential Departmental data.

The Provider shall cause each of its subcontractors having access to Department data systems or maintaining any client or other confidential information in electronic form to comply with the provisions of this Section 5.6 and the term "Provider" shall be deemed to mean the subcontractor for such purposes.

## **6. PENALTIES, TERMINATION AND DISPUTE RESOLUTION.**

### **6.1 Financial Penalties for Failure to Take Corrective Action.**

6.1.1 In accordance with the provisions of section 402.73(1), F.S., and Rule 65-29.001, F.A.C., corrective action plans may be required for noncompliance, nonperformance, or unacceptable performance under this Contract. Penalties may be imposed for failures to implement or to make acceptable progress on such corrective action plans.

6.1.2 The increments of penalty imposition that shall apply, unless the Department determines that extenuating circumstances exist, shall be based upon the severity of the noncompliance, nonperformance, or unacceptable performance that generated the need for corrective action plan. The penalty, if imposed, shall not exceed ten percent (10%) of the total contract payments during the period in which the corrective action plan has not been implemented or in which acceptable progress toward implementation has not been made. Noncompliance that is determined to have a direct effect on client health and safety shall result in the imposition of a ten percent (10%) penalty of the total contract payments during the period in which the corrective action plan has not been implemented or in which acceptable progress toward implementation has not been made.

6.1.3 Noncompliance involving the provision of service not having a direct effect on client health and safety shall result in the imposition of a five percent (5%) penalty. Noncompliance as a result of unacceptable performance of administrative tasks shall result in the imposition of a two percent (2%) penalty.

6.1.4 The deadline for payment shall be as stated in the Order imposing the financial penalties. In the event of nonpayment the Department may deduct the amount of the penalty from invoices submitted by the Provider.

### **6.2 Termination.**

6.2.1 In accordance with Section 22 of PUR 1000 Form, this Contract may be terminated by the Department without cause upon no less than thirty (30) calendar days notice in writing to the Provider unless a sooner time is mutually agreed upon in writing.

6.2.2 In the event funds for payment pursuant to this Contract become unavailable, the Department may terminate this Contract upon no less than twenty-four (24) hours notice in writing to the Provider. The Department shall be the final authority as to the availability and adequacy of funds.

6.2.3 In the event the Provider fails to fully comply with the terms and conditions of this Contract, the Department may terminate the Contract upon no less than twenty-four (24) hours (excluding Saturday, Sunday, and Holidays) notice in writing to the Provider. Such notice may be issued without providing an opportunity for cure if it specifies the nature of the noncompliance and states that provision for cure would adversely affect the interests of the State or is not permitted by law or regulation. Otherwise, notice of termination will be issued after the Provider's failure to fully cure such noncompliance within the time specified in a written notice of noncompliance issued by the Department specifying the nature of the noncompliance and the actions required to cure such noncompliance. In addition, the Department may employ the default provisions in Rule 60A-1.006(3), F.A.C., but is not required to do so in order to terminate the Contract. The Department's failure to demand performance of any provision of this Contract shall not be deemed a waiver of such performance. The Department's waiver of any one breach of any provision of this Contract shall not be deemed to be a waiver of any other breach and neither event shall be construed to be a modification of the terms and conditions of this Contract. The provisions herein do not limit the Department's right to remedies at law or in equity.

6.2.4 Failure to have performed any contractual obligations under any other contract with the Department in a manner satisfactory to the Department will be a sufficient cause for termination. To be terminated under this provision, the Provider must have: (1) previously failed to satisfactorily perform in a contract with the Department, been notified by the Department of the unsatisfactory performance, and failed to timely correct the unsatisfactory performance to the satisfaction of the Department; or (2) had a contract

terminated by the Department for cause. Termination shall be upon no less than twenty-four (24) hours notice in writing to the Provider.

In the event of termination under Sections 6.2.1 or 6.2.2 hereof, the Provider will be compensated for any work satisfactorily completed through the date of termination or an earlier date of suspension of work per Section 21 of the PUR 1000.

### **6.3 Dispute Resolution.**

**EXHIBIT B - SCOPE OF WORK**

**B-1 Scope of Service**

This is a forty-two month contract, pursuant to the Adult Protective Services Program established under the authority of sections 410.601-410.606, Florida Statutes, Chapter 65C-2, Florida Administrative Code (F.A.C.), and the annual appropriations act, with any proviso language or instructions to the Department, constituting the legal basis for services to be delivered through the Community Care for Disabled Adults Program. In addition, the Provider shall provide in-home services to all eligible permanently disabled adults ages 18-59 who are in need of assistance to maintain reasonably independent lives in the community in Monroe County.

**B-2 Major Contract Goals**

The goal of the Community Care for Disabled Adults (CCDA) Program is to prevent unnecessary institutionalization of disabled adults aged 18-59 through the provision of Case Management Services to coordinate such in-home community-based services as Homemaker Services, Personal Care Services and Home Delivered Meals. The program is designed to serve totally and permanently disabled persons who are not eligible for assistance from other programs and it fills the gap in the services for adults with disabilities.

**B-3 Service Area/Locations/Times**

The Provider for this service must be able to provide both coordination and delivery of in-home community-based services based on the identified days and times in the client care plan. If the Provider can only provide coordination, they must have the ability to coordinate with home health agencies to provide the delivery of in-home community-based services based on the days and times in the client care plan.

| SERVICE              | LOCATION                          | TIME                    |

| Personal Care        | Client's Home                     | Determined by care plan |

Details of the services to be provided under this contract and the negotiated parameters of those services are included in the descriptions and minimum requirements for each service listed in the "CFOP 140-8, Community Care for Disabled Adults Operating Procedures".

**B-3.1 Changes in Location**

The Provider must notify the Department of changes in the location of service delivery. Once the service delivery location is agreed upon, any proposed change must be presented in writing to the Contract Manager for approval, fifteen (15) working days prior to implementation of that proposed change. In the event of an emergency, temporary changes in location may necessitate waiver of this designated standard by the Region's program office. Such a waiver will take into consideration the continuity, safety, and welfare of the Department's clients, and is at the Department's sole discretion.

**B-4 Clients to be Served**

Adults with disabilities, age eighteen (18) through fifty-nine (59), who are no longer eligible to receive children's services and are not eligible for the Long Term Care Managed Care Program, may be served under the provisions of this contract.

**B-5 Client Eligibility**

**B-5.1** Applicants must have one or more permanent physical or mental limitations, that restrict the ability to perform normal activities of daily living, as determined through the initial functional assessment and medical documentation of disability. Determination of a permanent disability must be established and evidenced in one of the following manners:

- B.5.1.1** An applicant may present a check, award letter, or other proof showing receipt of Social Security Disability Income, or some other disability payment (e.g., Worker's Compensation); or
- B.5.1.2** An applicant may present a written statement from a licensed physician, licensed nurse practitioner, or mental health professional, which meets the Region's criteria for evidence of a disability. This written statement must, at a minimum, include the applicant's diagnosis, prognosis, a broad explanation of level of functioning, and the

interpretation of need for services based on identified functional barriers caused by the applicant's disabling condition.

**B5.2** Applicants must have an individual income at or below the prevailing MICP eligibility standard in order to receive free CCDA services.

**B-5.3** Applicants with incomes above the standard will be assessed a fee for a share of the costs, or may be required to provide volunteer services in lieu of payment.

**B-6 Client Determination**

**B-6.1** Clients will be assessed for eligibility determination, and prioritized for services by Department case management staff, in accordance with subsection 410.604 (2), Florida Statutes.

**B-6.2** The Adult Protective Services Program Office will make the final determination of client eligibility and service authorization.

**B-7 Equipment**

The Provider will be responsible for supplying, at its own expense, all equipment necessary to perform under, conduct and complete the contract, including but not limited to computers, telephones, copier and fax machines, including supplies and maintenance, as well as needed office supplies.

**B-8 Contract Limits**

**B-8.1** The total annual cost estimated or actual, for an individual receiving CCDA services, shall not exceed the average, annual general revenue portion of a Medicaid nursing home bed within the Regional area.

**B-8.2** Clients must not be receiving comparable services from any other entity. In order to prevent duplication of services, client files must contain documentation verifying that all comparable community services and funding sources have been explored and exhausted.

**B-8.3** To the extent that funds are available, the Provider will receive referrals for clients on whom the Human Service counselors have completed an Adult Services Screening for Consideration for Community Based Services.

**EXHIBIT E – MINIMUM PERFORMANCE MEASURES**

**E-1 Minimum Performance Measures**

- E-1.1 Ninety percent (90%) of active clients with disabilities receiving services will not be placed in a nursing home by the end of the contract period.
- E-1.2 One-hundred percent (100%) of active clients who are suspected of being a victim of abuse, neglect or exploitation will be reported to the Abuse Hotline and an incident report will be sent to the Case Manager and copied to the Adult Protective Services Specialist and Contract Manager.
- E-1.3 One-hundred percent (100%) of active clients served through this contract will be provided case management and at least one other CCDA in-home service each month.

**E-2 DESCRIPTION OF PERFORMANCE MEASUREMENT TERMS**

**Placed** - The result of an assessment of an individual who is no longer able to remain in their present place of residence. (To place a client involves preparation for and follow up of moving a client into a more restrictive alternative living environment).

**E-3 PERFORMANCE EVALUATION METHODOLOGY**

The calculation of the performance standards shall be determined annually for each Fiscal Year (FY) within the contract period. For any and all performance measures suggested in the proposal, the following format shall be used:

**E-3.1** For the measure in Section E-1.1, the percentage of completion that meets standards will be determined by dividing the number of active clients not admitted to a nursing home by the total number of active clients receiving services.

$$\frac{\text{Numerator} \quad \# \text{ of Active Clients Not Admitted to A Nursing Home}}{\text{Denominator} \quad \text{Total \# of Active Clients Receiving Services}} = 90\%$$

**E-3.2** For the measure in Section E-1.2, the percentage of completion that meets standards will be determined by dividing the number of active clients reported to the Abuse Hotline by the total number of active clients suspected of being abused, neglected or exploited.

$$\frac{\text{Numerator} \quad \# \text{ of Active Clients Reported to the Abuse Hotline}}{\text{Denominator} \quad \text{Total \# of Active Clients Suspected of Being Abused, Neglected or Exploited}} = 100\%$$

**E-3.3** For the measure in Section E-1.3, the percentage of completion that meets standards will be determined by dividing the number of active clients receiving case management and at least one other CCDA in-home service each month by the total number of active clients receiving services each month.

$$\frac{\text{Numerator} \quad \# \text{ of Active Clients Receiving Case Management And At Least One Other CCDA In-Home Service Each Month}}{\text{Denominator} \quad \text{Total \# of Active Clients Receiving Services Each Month}} = 100\%$$

**E-4 Performance Standards Statement**

**E-4.1** By execution of this contract the Provider hereby acknowledges and agrees that its performance under the contract must meet the standards as negotiated with the Department and shall be bound by the conditions set forth in the contract. If the Provider fails to meet these standards, the Department, at its exclusive option, may allow a reasonable period, not to exceed 6 months, for the Provider to correct performance deficiencies. If performance deficiencies are not resolved to the satisfaction of the Department within the prescribed time, and if no extenuating circumstances can be documented by the Provider to the Department's satisfaction, the Department must terminate the contract. The Department has the sole authority to determine whether there are extenuating or mitigating circumstances.

E-4.2 The Department may conduct random surveys or contract with an outside entity to conduct random or structured surveys during the term of the contract to gauge a variety of factors including client satisfaction, location, Provider responsiveness, professionalism, and cultural and linguistic accommodations.

## 2. STATEMENT OF WORK.

The Provider shall perform all tasks and provide units of deliverables, including reports, findings, and drafts, as specified in this Contract. Except for advances, if any, provided for in this Contract, these deliverables must be received and accepted by the Contract Manager in writing prior to payment, subject to subsequent audit and review and to the satisfaction of the Department. The Department's determination of acceptable services shall be conclusive. Department receipt of reports and other submissions by the Provider does not constitute acceptance thereof, which occurs only through a separate and express act of the Contract Manager. Unless otherwise provided in the procurement document, if any, or governing law, the Department reserves the right to increase or decrease the volume of services and to add tasks that are incidental or complimentary to the original scope of services. Except where the method of payment is prescribed by law, compensation under Section 3 will be equitably adjusted by the Department to the extent that it prescribes a fixed price (previously called "fixed fee") payment method or does not provide a method of payment for added tasks.

### 2.1 Scope of Work.

The Scope of Work is described in Exhibit B.

### 2.2 Task List.

The Provider shall perform all tasks set forth in the Task List, found in Exhibit C, in the manner set forth therein.

## 2.3 Deliverables.

Deliverables shall be as described in Exhibit D.

## 2.4 Performance Measures.

**2.4.1 Performance Measures for Acceptance of Deliverables.** The performance measures for acceptance of deliverables are set forth in Exhibit D, Section D-3.

**2.4.2 Minimum Performance Measures.** To avoid contract termination, Provider's performance must meet the minimum performance standards set forth in Exhibit E, Minimum Performance Measures, Section E-1, regardless of any other performance measures in this Contract. By execution of this Contract, the Provider hereby acknowledges and agrees that its performance under the Contract must meet these Minimum Performance Measures and that it will be bound by the conditions set forth therein. If the Provider fails to meet these standards, the Department, at its exclusive option, may allow a reasonable period, not to exceed six (6) months, for the Provider to correct performance deficiencies. If performance deficiencies are not resolved to the satisfaction of the Department within the prescribed time, and if no extenuating circumstances can be documented by the Provider to the Department's satisfaction, the Department must terminate the Contract. The Department has the sole authority to determine whether there are extenuating or mitigating circumstances. The Provider further acknowledges and agrees that during any period in which the Provider fails to meet these standards, regardless of any additional time allowed to correct performance deficiencies, payment for deliverables may be delayed or denied and financial consequences may apply.

## 3. PAYMENT, INVOICE AND RELATED TERMS.

The Department shall pay for services performed by the Provider during the service performance period of this Contract according to the terms and conditions of this Contract in an amount not to exceed that set forth in Section 1.1 hereof, subject to the availability of funds and satisfactory performance of all terms by the Provider. Except for advances, if any, provided for in this Contract, payment shall be made only upon written acceptance of all services by the Department and shall remain subject to subsequent audit or review to confirm contract compliance. The State of Florida's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the Legislature. Any costs or services paid for under any other contract or from any other source are not eligible for payment under this Contract.

### 3.1 Method of Payment.

The Provider shall be paid in accordance with Exhibit F, Method of Payment and Invoices.

### 3.2 Invoices.

**3.2.1 Generally.** The Provider shall submit bills for fees or other compensation for services or expenses in sufficient detail for proper pre-audit and post-audit. Where itemized payment for travel expenses is permitted in this Contract, the Provider shall submit bills for any travel expenses in accordance with section 112.061, F.S., or at such lower rates as may be provided in this Contract.

**3.2.2 Final Invoice.** The final invoice for payment shall be submitted to the Department no more than 45 days after the Contract ends or is terminated. If the Provider fails to do so, all rights to payment are forfeited and the Department will not honor any requests submitted after the aforesaid time period. Any payment due under the terms of this Contract may be withheld until performance of services and all reports due from the Provider and necessary adjustments thereto, have been approved by the Department.

### 3.3 Financial Consequences.

If the Provider fails to perform in accordance with this Contract or perform the minimum level of service required by this Contract, the Department will apply financial consequences as provided for in Section 6.1 hereof. The parties agree that the penalties provided for under Section 6.1 hereof constitute financial consequences under sections 287.058(1)(h) and 215.971(1)(c), F.S. The foregoing does not limit additional financial consequences, which may include but are not limited to refusing payment, withholding payments until deficiency is cured, tendering only partial payments, applying payment adjustments for additional financial consequences or for liquidated damages to the extent that this Contract so provides, or termination of this Contract per Section 6.2.3 hereof and requisition of services from an alternate source. Any payment made in reliance on the Provider's evidence of performance, which evidence is subsequently determined to be erroneous, will be immediately due as an overpayment in accordance with Section 3.4 hereof, to the extent of such error.

### **3.4 Overpayments and Offsets.**

The Provider shall return to the Department any overpayments due to unearned funds or funds disallowed that were disbursed to the Provider by the Department and any interest attributable to such funds. Should repayment not be made promptly upon discovery by the Provider or its auditor or upon written notice by the Department, the Provider will be charged interest at the lawful rate of interest on the outstanding balance until returned. Payments made for services subsequently determined by the Department to not be in full compliance with contract requirements shall be deemed overpayments. The Department shall have the right at any time to offset or deduct from any payment due under this or any other contract or agreement any amount due to the Department from the Provider under this or any other contract or agreement.

### **3.5 MyFloridaMarketPlace Transaction Fee.**

This Contract is exempt from the MyFloridaMarketPlace transaction fee.

## **4. GENERAL TERMS AND CONDITIONS GOVERNING PERFORMANCE.**

### **4.1 Compliance with Statutes, Rules and Regulations.**

In performing its obligations under this Contract, the Provider shall without exception be aware of and comply with all State and Federal laws, rules and regulations relating to its performance under this Contract as they may be enacted or amended from time-to-time, including but not limited to those described in Exhibit A1, as well as any court or administrative order, judgment, settlement or compliance agreement involving the Department which by its nature affects the services provided under this Contract.

### **4.2 Independent Contractor, Subcontracting and Assignments.**

4.2.1 In performing its obligations under this Contract, the Provider shall at all times be acting in the capacity of an independent contractor and not as an officer, employee, or agent of the State of Florida, except where the Provider is a State agency. Neither the Provider nor any of its agents, employees, subcontractors or assignees shall represent to others that it is an agent of or has the authority to bind the Department by virtue of this Contract, unless specifically authorized in writing to do so. This Contract does not create any right in any individual to State retirement, leave benefits or any other benefits of State employees as a result of performing the duties or obligations of this Contract.

4.2.2 The Provider shall take such actions as may be necessary to ensure that it and each subcontractor of the Provider will be deemed to be an independent contractor and will not be considered or permitted to be an officer, employee, or agent of the State of Florida. The Department will not furnish services of support (e.g., office space, office supplies, telephone service, secretarial or clerical support) to the Provider, or its subcontractor or assignee, unless specifically agreed to by the Department in this Contract. All deductions for social security, withholding taxes, income taxes, contributions to unemployment compensation funds and all necessary insurance for the Provider, the Provider's officers, employees, agents, subcontractors, or assignees shall be the sole responsibility of the Provider and its subcontractors. The parties agree that no joint employment is intended and that, regardless of any provision directing the manner of provision of services, the Provider and its subcontractors alone shall be responsible for the supervision, control, hiring and firing, rates of pay and terms and conditions of employment of their own employees.

4.2.3 The Provider shall not assign its responsibilities under this Contract to another party, in whole or part, without prior written approval of the Department, upon the Department's sole determination that such assignment will not adversely affect the public interest. No payment shall be made under this Contract to any factor or other person who has been assigned or transferred the right to receive payment in lieu of or on behalf of the Provider except upon full and faithful performance of the Provider's duties hereunder. Any assignment or transfer occurring without prior approval of the Department shall be null and void. The Provider shall not subcontract for any of the work contemplated under this Contract without prior written approval of the Department, which shall not be unreasonably withheld.

4.2.4 The State of Florida shall at all times be entitled to assign or transfer, in whole or part, its rights, duties, or obligations under this Contract to another governmental agency in the State of Florida or to a provider of the Department's selection, upon giving prior written notice to the Provider. In the event of assignment by either party, this Contract shall remain binding upon the lawful successors in interest of the Provider and the Department.

4.2.5 The Provider is responsible for all work performed and for all commodities produced pursuant to this Contract whether actually furnished by the Provider or by its subcontractors. Any subcontracts shall be evidenced by a written document. The Provider further agrees that the Department shall not be liable to the subcontractor in any way or for any reason relating to this Contract.

4.2.6 The Provider shall include, in all subcontracts (at any tier) the substance of all clauses contained in this Contract that mention or describe subcontract compliance, as well as all clauses applicable to that portion of the Provider's performance being performed by or through the subcontract.

#### 4.3 Provider Indemnity.

Section 19 of PUR 1000 Form shall apply per its terms, except that the phrase "arising from or relating to personal injury and damage to real or personal tangible property" in the first paragraph is replaced with "arising out of or by reason of the execution of this Contract or arising from or relating to any alleged act or omission by the Provider, its agents, employees, partners, or subcontractors in relation to this agreement," and the following additional terms will also apply:

4.3.1 If the Provider removes an infringing product because it is not reasonably able to modify that product or secure the Department the right to continue to use that product, the Provider shall immediately replace that product with a non-infringing product that the Department determines to be of equal or better functionality or be liable for the Department's cost in so doing.

4.3.2 Further, the Provider shall indemnify the Department for all costs and attorneys fees arising from or relating to Provider's claim that a record contains trade secret information that is exempt from disclosure or the scope of the Provider's redaction of the record, as provided for under Section 5.3. hereof, including litigation initiated by the Department.

The Provider's inability to evaluate liability or its evaluation of liability shall not excuse its duty to defend and indemnify after receipt of notice. Only an adjudication or judgment after the highest appeal is exhausted finding the Department negligent shall excuse the Provider of performance under this provision, in which case the Department shall have no obligation to reimburse the Provider for the cost of its defense. If the Provider is an agency or subdivision of the State, its obligation to indemnify, defend and hold harmless the Department shall be to the extent permitted by section 768.28, F.S. or other applicable law, and without waiving the limits of sovereign immunity.

#### 4.4 Insurance.

The Provider shall maintain continuous adequate liability insurance coverage during the existence of this Contract and any renewal(s) and extension(s) thereof. With the exception of a State agency or subdivision as defined by subsection 768.28(2), F.S., by execution of this Contract, the Provider accepts full responsibility for identifying and determining the type(s) and extent of liability insurance necessary to provide reasonable financial protections for the Provider and the clients to be served under this Contract. Upon the execution of this Contract, the Provider shall furnish the Department written verification supporting both the determination and existence of such insurance coverage and shall furnish verification of renewal or replacement thereof prior to the expiration or cancellation. The Department reserves the right to require additional insurance as specified in this Contract.

#### 4.5 Notice of Legal Actions.

The Provider shall notify the Department of potential or actual legal actions taken against the Provider related to services provided through this Contract or that may impact the Provider's ability to deliver the contractual services, or that may adversely impact the Department. The Department's Contract Manager will be notified within 10 days of Provider becoming aware of such actions or potential actions or from the day of the legal filing, whichever comes first.

#### 4.6 Intellectual Property.

It is agreed that all intellectual property, inventions, written or electronically created materials, including manuals, presentations, films, or other copyrightable materials, arising in relation to Provider's performance under this Contract, and the performance of all of its officers, agents and subcontractors in relation to this Contract, are works for hire for the benefit of the Department, fully compensated for by the contract amount, and that neither the Provider nor any of its officers, agents nor subcontractors may claim any interest in any intellectual property rights accruing under or in connection with the performance of this Contract. It is specifically agreed that the Department shall have exclusive rights to all data processing software falling within the terms of section 119.084, F.S., which arises or is developed in the course of or as a result of work or services performed under this Contract, or in any way connected herewith. Notwithstanding the foregoing provision, if the Provider is a university and a member of the State University System of Florida, then section 1004.23, F.S., shall apply.

4.6.1 If the Provider uses or delivers to the Department for its use or the use of its employees, agents or contractors, any design, device, or materials covered by letters, patent, or copyright, it is mutually agreed and understood that, except as to those items specifically listed in Exhibit A as having specific limitations, the compensation paid pursuant to this Contract includes all royalties or costs arising from the use of such design, device, or materials in any way involved in the work contemplated by this Contract. For purposes of this provision, the term "use" shall include use by the Provider during the term of this Contract and use by the Department its employees, agents or contractors during the term of this Contract and perpetually thereafter.

**4.6.2** All applicable subcontracts shall include a provision that the Federal awarding agency reserves all patent rights with respect to any discovery or invention that arises or is developed in the course of or under the subcontract. Notwithstanding the foregoing provision, if the Provider or one of its subcontractors is a university and a member of the State University System of Florida, then section 1004.23, F.S., shall apply, but the Department shall retain a perpetual, fully-paid, nonexclusive license for its use and the use of its contractors of any resulting patented, copyrighted or trademarked work products.

#### **4.7 Transition Activities.**

Continuity of service is critical when service under this Contract ends and service commences under a new contract. Accordingly, when service will continue through another provider upon the expiration or earlier termination of this Contract, the Provider shall, without additional compensation, complete all actions necessary to smoothly transition service to the new provider. This includes but is not limited to the transfer of relevant data and files, as well as property funded or provided pursuant to this Contract. The Provider shall be required to support an orderly transition to the next provider no later than the expiration or earlier termination of this Contract and shall support the requirements for transition as specified in a Department-approved Transition Plan, which shall be developed jointly with the new provider in consultation with the Department.

#### **4.8 Real Property.**

Any State funds provided for the purchase of or improvements to real property are contingent upon the Provider granting to the State a security interest in the property at least to the amount of the State funds provided for at least five (5) years from the date of purchase or the completion of the improvements or as further required by law. As a condition of receipt of State funding for this purpose, the Provider agrees that, if it disposes of the property before the Department's interest is vacated, the Provider will refund the proportionate share of the State's initial investment, as adjusted by depreciation.

#### **4.9 Publicity.**

Without limitation, the Provider and its employees, agents, and representatives will not, without prior Departmental written consent in each instance, use in advertising, publicity or any other promotional endeavor any State mark, the name of the State's mark, the name of the State or any State agency or affiliate or any officer or employee of the State, or any State program or service, or represent, directly or indirectly, that any product or service provided by the Provider has been approved or endorsed by the State, or refer to the existence of this Contract in press releases, advertising or materials distributed to the Provider's prospective customers.

#### **4.10 Sponsorship.**

As required by section 286.25, F.S., if the Provider is a non-governmental organization which sponsors a program financed wholly or in part by State funds, including any funds obtained through this Contract, it shall, in publicizing, advertising, or describing the sponsorship of the program state: "Sponsored by (Provider's name) and the State of Florida, Department of Children and Families". If the sponsorship reference is in written material, the words "State of Florida, Department of Children and Families" shall appear in at least the same size letters or type as the name of the organization.

#### **4.11 Employee Gifts.**

The Provider agrees that it will not offer to give or give any gift to any Department employee during the service performance period of this Contract and for a period of two years thereafter. In addition to any other remedies available to the Department, any violation of this provision will result in referral of the Provider's name and description of the violation of this term to the Department of Management Services for the potential inclusion of the Provider's name on the suspended vendors list for an appropriate period. The Provider will ensure that its subcontractors, if any, comply with these provisions.

#### **4.12 Mandatory Reporting Requirements.**

The Provider and any subcontractor must comply with and inform its employees of the following mandatory reporting requirements. Each employee of the Provider, and of any subcontractor, providing services in connection with this Contract who has any knowledge of a reportable incident shall report such incident as follows: 1) reportable incidents that may involve an immediate or impending impact on the health or safety of a client shall be immediately reported to the Contract Manager; and 2) other reportable incidents shall be reported to the Department's Office of Inspector General through the Internet at <http://www.dcf.state.fl.us/admin/ig/rptfraud1.shtml> or by completing a Notification/Investigation Request (Form CF 1934) and emailing the request to the Office of Inspector General at [IG.Complaints@myffamilies.com](mailto:IG.Complaints@myffamilies.com). The Provider and subcontractor may also mail the completed form to the Office of Inspector General, 1317 Winewood Boulevard, Building 5, 2nd Floor, Tallahassee, Florida, 32399-0700; or via fax at (850) 488-1428. A reportable incident is defined in Children and Families Operating Procedure (CFOP) 180-4, which can be obtained from the Contract Manager.

### **5. RECORDS, AUDITS AND DATA SECURITY.**

#### **5.1 Records, Retention, Audits, Inspections and Investigations.**

5.1.1 The Provider shall establish and maintain books, records and documents (including electronic storage media) sufficient to reflect all income and expenditures of funds provided by the Department under this Contract.

5.1.2 Retention of all client records, financial records, supporting documents, statistical records, and any other documents (including electronic storage media) pertinent to this Contract shall be maintained by the Provider during the term of this Contract and retained for a period of six (6) years after completion of the Contract or longer when required by law. In the event an audit is required under this Contract, records shall be retained for a minimum period of six (6) years after the audit report is issued or until resolution of any audit findings or litigation based on the terms of this Contract, at no additional cost to the Department.

5.1.3 Upon demand, at no additional cost to the Department, the Provider will facilitate the duplication and transfer of any records or documents during the term of this Contract and the required retention period in Section 5.1.2 hereof.

5.1.4 These records shall be made available at all reasonable times for inspection, review, copying, or audit by Federal, State, or other personnel duly authorized by the Department.

5.1.5 At all reasonable times for as long as records are maintained, persons duly authorized by the Department and Federal auditors, pursuant to 45 Code of Federal Regulations (CFR) s. 92.36(i)(10), shall be allowed full access to and the right to examine any of the Provider's contracts and related records and documents, regardless of the form in which kept.

5.1.6 A financial and compliance audit shall be provided to the Department as specified in this Contract and in Attachment 1.

5.1.7 The Provider shall comply and cooperate immediately with any inspections, reviews, investigations, or audits deemed necessary by The Office of the Inspector General (section 20.055, F.S.).

No record may be withheld nor may the Provider attempt to limit the scope of any of the foregoing inspections, reviews, copying, transfers or audits based on any claim that any record is exempt from public inspection or is confidential, proprietary or trade secret in nature; provided, however, that this provision does not limit any exemption to public inspection or copying to any such record.

#### **5.2 Inspections and Corrective Action.**

The Provider shall permit all persons who are duly authorized by the Department to inspect and copy any records, papers, documents, facilities, goods and services of the Provider which are relevant to this Contract, and to interview any clients, employees and subcontractor employees of the Provider to assure the Department of the satisfactory performance of the terms and conditions of this Contract. Following such review, the Department will deliver to the Provider a written report of its findings, and may direct the development, by the Provider, of a corrective action plan where appropriate. The Provider hereby agrees to timely correct all deficiencies identified in the Department's written report. This provision will not limit the Department's termination rights under Section 6.2.3 hereof.

#### **5.3 Provider's Confidential and Exempt Information.**

5.3.1 By executing this Contract, the Provider acknowledges that, having been provided an opportunity to review all provisions hereof, all provisions of this Contract not specifically identified in writing by the Provider prior to execution hereof as "confidential" or "exempt" will be posted by the Department on the public website maintained by the Department of Financial Services pursuant to section 215.985, F.S. The Provider agrees that, upon written request of the Department, it shall promptly provide to the

Department a written statement of the basis for the exemption applicable to each provision identified by the Provider as "confidential" or "exempt", including the statutory citation to an exemption created or afforded by statute, and state with particularity the reasons for the conclusion that the provision is exempt or confidential.

**5.3.2** Any claim by Provider of trade secret (proprietary) confidentiality for any information contained in Provider's documents (reports, deliverables or workpapers, etc., in paper or electronic form) submitted to the Department in connection with this Contract will be waived, unless the claimed confidential information is submitted in accordance with Section 5.3.2.a. hereof.

- a. The Provider must clearly label any portion of the documents, data, or records submitted that it considers exempt from public inspection or disclosure pursuant to Florida's Public Records Law as trade secret. The labeling will include a justification citing specific statutes and facts that authorize exemption of the information from public disclosure. If different exemptions are claimed to be applicable to different portions of the protected information, the Provider shall include information correlating the nature of the claims to the particular protected information.
- b. The Department, when required to comply with a public records request including documents submitted by the Provider, may require the Provider to expeditiously submit redacted copies of documents marked as trade secret in accordance with Section 5.3.2.a hereof. Accompanying the submission shall be an updated version of the justification under Section 5.3.2.a. hereof, correlated specifically to redacted information, either confirming that the statutory and factual basis originally asserted remain unchanged or indicating any changes affecting the basis for the asserted exemption from public inspection or disclosure. The redacted copy must exclude or obliterate only those exact portions that are claimed to be trade secret. If the Provider fails to promptly submit a redacted copy, the Department is authorized to produce the records sought without any redaction of proprietary or trade secret information.

The Provider shall be responsible for defending its claim that each and every portion of the redactions of trade secret information are exempt from inspection and copying under Florida's Public Records Law.

#### **5.4 Health Insurance Portability and Accountability Act.**

The Provider certifies that neither it nor its subcontractors will have access to, receive or provide Protected Health Information within the meaning of the Health Insurance Portability and Accountability Act (42 U.S.C. s.1320d.) and the regulations promulgated thereunder (45 CFR Parts 160, 162, and 164) incidental to performance of this Contract.

In compliance with 45 CFR s.164.504(e), the Provider shall comply with the provisions of Attachment 2 to this Contract, governing the safeguarding, use and disclosure of Protected Health Information created, received, maintained, or transmitted by the Provider or its subcontractors incidental to the Provider's performance of this Contract.

**5.5 Confidential Client and Other Information.** Except as provided in this Contract, the Provider shall not use or disclose but shall protect and maintain the confidentiality of any client information and any other information made confidential by Florida law or Federal laws or regulations that is obtained or accessed by the Provider or its subcontractors incidental to performance under this Contract.

**5.6 Data Security.** The Provider shall comply with the following data security requirements whenever the Provider or its subcontractors have access to Department data systems or maintain any client or other confidential information in electronic form:

**5.6.1** An appropriately skilled individual shall be identified by the Provider to function as its Data Security Officer. The Data Security Officer shall act as the liaison to the Department's security staff and will maintain an appropriate level of data security for the information the Provider is collecting or using in the performance of this Contract. An appropriate level of security includes approving and tracking all Provider employees that request or have access to any Departmental data system or information. The Data Security Officer will ensure that user access to the data system or information has been removed from all terminated Provider employees.

**5.6.2** The Provider shall provide the latest Departmental security awareness training to its staff who have access to departmental information.

**5.6.3** All Provider employees who have access to Departmental information shall comply with, and be provided a copy of CFOP 50-2, and shall sign the DCF Security Agreement form CF 0114 annually. A copy of CF 0114 may be obtained from the Contract Manager.

**5.6.4** The Provider shall make every effort to protect and avoid unauthorized release of any personal or confidential information by ensuring both data and mobile storage devices are encrypted as prescribed in CFOP 50-2. If encryption of these devices is not possible, then the Provider shall assure that unencrypted personal and confidential Departmental data will not be stored on unencrypted storage devices.

5.6.5 The Provider agrees to notify the Contract Manager as soon as possible, but no later than five (5) business days following the determination of any breach or potential breach of personal and confidential Departmental data.

5.6.6 The Provider shall at its own cost provide notice to affected parties no later than 45 days following the determination of any potential breach of personal or confidential Departmental data as provided in section 817.5681, F.S. The Provider shall also at its own cost implement measures deemed appropriate by the Department to avoid or mitigate potential injury to any person due to a breach or potential breach of personal and confidential Departmental data.

The Provider shall cause each of its subcontractors having access to Department data systems or maintaining any client or other confidential information in electronic form to comply with the provisions of this Section 5.6 and the term "Provider" shall be deemed to mean the subcontractor for such purposes.

## **6. PENALTIES, TERMINATION AND DISPUTE RESOLUTION.**

### **6.1 Financial Penalties for Failure to Take Corrective Action.**

6.1.1 In accordance with the provisions of section 402.73(1), F.S., and Rule 65-29.001, F.A.C., corrective action plans may be required for noncompliance, nonperformance, or unacceptable performance under this Contract. Penalties may be imposed for failures to implement or to make acceptable progress on such corrective action plans.

6.1.2 The increments of penalty imposition that shall apply, unless the Department determines that extenuating circumstances exist, shall be based upon the severity of the noncompliance, nonperformance, or unacceptable performance that generated the need for corrective action plan. The penalty, if imposed, shall not exceed ten percent (10%) of the total contract payments during the period in which the corrective action plan has not been implemented or in which acceptable progress toward implementation has not been made. Noncompliance that is determined to have a direct effect on client health and safety shall result in the imposition of a ten percent (10%) penalty of the total contract payments during the period in which the corrective action plan has not been implemented or in which acceptable progress toward implementation has not been made.

6.1.3 Noncompliance involving the provision of service not having a direct effect on client health and safety shall result in the imposition of a five percent (5%) penalty. Noncompliance as a result of unacceptable performance of administrative tasks shall result in the imposition of a two percent (2%) penalty.

6.1.4 The deadline for payment shall be as stated in the Order imposing the financial penalties. In the event of nonpayment the Department may deduct the amount of the penalty from invoices submitted by the Provider.

### **6.2 Termination.**

6.2.1 In accordance with Section 22 of PUR 1000 Form, this Contract may be terminated by the Department without cause upon no less than thirty (30) calendar days notice in writing to the Provider unless a sooner time is mutually agreed upon in writing.

6.2.2 In the event funds for payment pursuant to this Contract become unavailable, the Department may terminate this Contract upon no less than twenty-four (24) hours notice in writing to the Provider. The Department shall be the final authority as to the availability and adequacy of funds.

6.2.3 In the event the Provider fails to fully comply with the terms and conditions of this Contract, the Department may terminate the Contract upon no less than twenty-four (24) hours (excluding Saturday, Sunday, and Holidays) notice in writing to the Provider. Such notice may be issued without providing an opportunity for cure if it specifies the nature of the noncompliance and states that provision for cure would adversely affect the interests of the State or is not permitted by law or regulation. Otherwise, notice of termination will be issued after the Provider's failure to fully cure such noncompliance within the time specified in a written notice of noncompliance issued by the Department specifying the nature of the noncompliance and the actions required to cure such noncompliance. In addition, the Department may employ the default provisions in Rule 60A-1.006(3), F.A.C., but is not required to do so in order to terminate the Contract. The Department's failure to demand performance of any provision of this Contract shall not be deemed a waiver of such performance. The Department's waiver of any one breach of any provision of this Contract shall not be deemed to be a waiver of any other breach and neither event shall be construed to be a modification of the terms and conditions of this Contract. The provisions herein do not limit the Department's right to remedies at law or in equity.

6.2.4 Failure to have performed any contractual obligations under any other contract with the Department in a manner satisfactory to the Department will be a sufficient cause for termination. To be terminated under this provision, the Provider must have: (1) previously failed to satisfactorily perform in a contract with the Department, been notified by the Department of the unsatisfactory performance, and failed to timely correct the unsatisfactory performance to the satisfaction of the Department; or (2) had a contract

terminated by the Department for cause. Termination shall be upon no less than twenty-four (24) hours notice in writing to the Provider.

In the event of termination under Sections 6.2.1 or 6.2.2 hereof, the Provider will be compensated for any work satisfactorily completed through the date of termination or an earlier date of suspension of work per Section 21 of the PUR 1000.

### **6.3 Dispute Resolution.**

Any dispute concerning performance of this Contract or payment hereunder shall be decided by the Department's Contract Manager, who shall reduce the decision to writing and provide a copy to the Provider. The decision shall be final and conclusive unless within twenty-one (21) calendar days from the date of receipt of the Contract Manager's decision, the Provider delivers to the Contract Manager a petition for alternative dispute resolution. After receipt of a petition for alternative dispute resolution the Department and the Provider shall attempt to amicably resolve the dispute through negotiations. Timely delivery of a petition for alternative dispute resolution and completion of the negotiation process shall be a condition precedent to any legal action by the Provider concerning this Contract. After timely delivery of a petition for alternative dispute resolution, the parties may employ any dispute resolution procedures described in the exhibits or other attachments, or mutually agree to an alternative binding or nonbinding dispute resolution process, the terms of which shall be reduced to writing and executed by both parties. Completion of such agreed process shall be deemed to satisfy the requirement for completion of the negotiation process. This provision shall not limit the parties' rights of termination under Section 6.2 hereof.

All notices provided under Section 6 shall be in writing on paper, physically sent to the person identified in Section 1.2.d hereof by U.S. Postal Service or any other delivery service that provides verification of delivery, or by hand delivery.

There are no provisions, terms, conditions, or obligations other than those contained herein, and this Contract shall supersede all previous communications, representations, or agreements, either verbal or written between the parties.

### **7.3 Severability of Terms.**

If any term or provision of this Contract is legally determined unlawful or unenforceable, the remainder of the Contract shall remain in full force and effect and such term or provision shall be stricken.

### **7.4 Survival of Terms.**

The parties agree that, unless a provision of this Contract, its attachments or incorporated documents expressly states otherwise as to itself or a named provision, all provisions of this Contract concerning obligations of the Provider and remedies available to the Department are intended to survive the ending date or an earlier termination of this Contract. The Provider's performance pursuant to such surviving provisions shall be without further payment, as the contract payments received during the term of this Contract are consideration for such performance.

### **7.5 Modifications.**

Modifications of provisions of this Contract shall be valid only when they have been reduced to writing and duly signed by both parties. The rate of payment and the total dollar amount may be adjusted retroactively to reflect price level increases and changes in the rate of payment when these have been established through the appropriations process and subsequently identified in the Department's operating budget.

### **7.6 Preferred Pricing Affidavit.**

The Provider represents and warrants that the prices and terms for its services under this Contract are no less favorable to the Department than those for similar services under any existing contract with any other party. The Provider further agrees that, within 90

days of Provider entering into a contract or contract amendment or offering to any other party services similar to those under this Contract under prices or terms more favorable than those provided in this Contract, the Provider will report such prices and terms to the Department, which prices or terms shall be effective as an amendment to this Contract upon the Department's written acceptance thereof. Should the Department discover such other prices or terms, the same shall be effective as an amendment to this Contract retroactively to the earlier of the effective date of this Contract (for other contracts in effect as of that date) or the date they were first contracted or offered to the other party (for subsequent contracts, amendments or offers) and any payment in excess of such pricing shall be deemed overpayments. Provider shall submit an affidavit no later than July 31st of each year during the term of this Contract attesting that the Provider is in compliance with this provision, as required by section 216.0113, F.S.

#### **7.7 Anticompetitive Agreements.**

The Provider will not offer, enter into nor enforce any formal or informal agreement with any person, firm or entity under which the parties agree to refrain from competing for any future service contract or limit in any manner the ability of either party to obtain employment by or provide services to the Department or a provider of services to the Department.

#### **7.8 Communications.**

Except where otherwise provided in this Contract, communications between the parties regarding this Contract may be by any commercially reasonable means. Where this Contract calls for communication in writing, such communication includes email, and attachments thereto are deemed received when the email is received.

#### **7.9 Accreditation.**

The Department is committed to ensuring provision of the highest quality services to the persons we serve. Accordingly, the Department has expectations that where accreditation is generally accepted nationwide as a clear indicator of quality service, the majority of the Department's providers will either be accredited, have a plan to meet national accreditation standards, or will initiate a plan within a reasonable period of time.

#### **7.10 Transitioning Young Adults.**

The Provider understands the Department's interest in assisting young adults aging out of the dependency system. The Department encourages Provider participation with the local Community-Based Care Lead Agency Independent Living Program to offer gainful employment to youth in foster care and young adults transitioning from the foster care system.

#### **7.11 DEO and Workforce Florida.**

#### **7.12 Purchases by Other Agencies.**

The Department of Management Services may approve this Contract as an alternate contract source pursuant to Rule 60A-1.047, Florida Administrative Code, if requested by another agency. Other State agencies may purchase from the resulting contract, provided that the Department of Management Services has determined that the contract's use is cost-effective and in the best interest of the State. Upon such approval, the Provider may, at its discretion, sell these commodities or services to additional agencies, upon the terms and conditions contained herein.

#### **7.13 Client Risk Prevention.**

If services to clients are to be provided under this contract, the Provider and any subcontractors shall, in accordance with the client risk prevention system, report those reportable situations listed in CFOP 215-6 in the manner prescribed in CFOP 215-6. The Provider shall immediately report any knowledge or reasonable suspicion of abuse, neglect, or exploitation of a child, aged person, or disabled adult to the Florida Abuse Hotline on the statewide toll-free telephone number (1-800-96ABUSE). As required by Chapters 39 and 415, F.S., this provision is binding upon both the Provider and its employees.

#### **7.14 Emergency Preparedness Plan**

If the tasks to be performed pursuant to this contract include the physical care or supervision of clients, the Provider shall, within thirty (30) days of the execution of this contract, submit to the Contract Manager an emergency preparedness plan which shall include provisions for records protection, alternative accommodations for clients in substitute care, supplies, and a recovery plan that will allow the Provider to continue functioning in compliance with the executed contract in the event of an actual emergency. For the purpose of disaster planning, the term "supervision" includes a child who is under the jurisdiction of a dependency court. Children may remain in

their homes, be placed in a non-licensed relative/non-relative home, or be placed in a licensed foster care setting. No later than twelve months following the Department's original acceptance of a plan and every twelve (12) months thereafter, the Provider shall submit a written certification that it has reviewed its plan, along with any modifications to the plan, or a statement that no modifications were found necessary. The Department agrees to respond in writing within thirty (30) days of receipt of the original or updated plan, accepting, rejecting, or requesting modifications. By signing this Contract, the parties agree that they have read and agree to the entire Contract, as described in Section 1.4 hereof.

IN WITNESS THEREOF, the parties hereto have caused this Contract to be executed by their undersigned officials as duly authorized.

## 2. STATEMENT OF WORK.

The Provider shall perform all tasks and provide units of deliverables, including reports, findings, and drafts, as specified in this Contract. Except for advances, if any, provided for in this Contract, these deliverables must be received and accepted by the Contract Manager in writing prior to payment, subject to subsequent audit and review and to the satisfaction of the Department. The Department's determination of acceptable services shall be conclusive. Department receipt of reports and other submissions by the Provider does not constitute acceptance thereof, which occurs only through a separate and express act of the Contract Manager. Unless otherwise provided in the procurement document, if any, or governing law, the Department reserves the right to increase or decrease the volume of services and to add tasks that are incidental or complimentary to the original scope of services. Except where the method of payment is prescribed by law, compensation under Section 3 will be equitably adjusted by the Department to the extent that it prescribes a fixed price (previously called "fixed fee") payment method or does not provide a method of payment for added tasks.

### 2.1 Scope of Work.

The Scope of Work is described in Exhibit B.

### 2.2 Task List.

The Provider shall perform all tasks set forth in the Task List, found in Exhibit C, in the manner set forth therein.

### 2.3 Deliverables.

Deliverables shall be as described in Exhibit D.

### 2.4 Performance Measures.

2.4.1 **Performance Measures for Acceptance of Deliverables.** The performance measures for acceptance of deliverables are set forth in Exhibit D, Section D-2.

2.4.2 **Minimum Performance Measures.** To avoid contract termination, Provider's performance must meet the minimum performance standards set forth in Exhibit E, Minimum Performance Measures, Section E-1, regardless of any other performance measures in this Contract. By execution of this Contract the Provider hereby acknowledges and agrees that its performance under the Contract must meet these Minimum Performance Measures and that it will be bound by the conditions set forth therein. If the Provider fails to meet these standards, the Department, at its exclusive option, may allow a reasonable period, not to exceed 6 months, for the Provider to correct performance deficiencies. If performance deficiencies are not resolved to the satisfaction of the Department within the prescribed time, and if no extenuating circumstances can be documented by the Provider to the Department's satisfaction, the Department must terminate the Contract. The Department has the sole authority to determine whether there are extenuating or mitigating circumstances. The Provider further acknowledges and agrees that during any period in which the

Provider fails to meet these standards, regardless of any additional time allowed to correct performance deficiencies, payment for deliverables may be delayed or denied and financial consequences may apply.

### **3. PAYMENT, INVOICE AND RELATED TERMS.**

The Department shall pay for services performed by the Provider during the service performance period of this Contract according to the terms and conditions of this Contract in an amount not to exceed that set forth in Section 1.1 hereof, subject to the availability of funds and satisfactory performance of all terms by the Provider. Except for advances, if any, provided for in this Contract, payment shall be made only upon written acceptance of all services by the Department and shall remain subject to subsequent audit or review to confirm contract compliance. The State of Florida's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the Legislature. Any costs or services paid for under any other contract or from any other source are not eligible for payment under this Contract.

#### **3.1 Method of Payment.**

The Provider shall be paid in accordance with Exhibit F Method of Payment and Invoices.

#### **3.2 Invoices.**

**3.2.1 Generally.** The Provider shall submit bills for fees or other compensation for services or expenses in sufficient detail for proper pre-audit and post-audit. Where itemized payment for travel expenses is permitted in this Contract, the Provider shall submit bills for any travel expenses in accordance with section 112.061, F.S., or at such lower rates as may be provided in this Contract.

**3.2.2 Final Invoice.** The final invoice for payment shall be submitted to the Department no more than 45 days after the Contract ends or is terminated. If the Provider fails to do so, all rights to payment are forfeited and the Department will not honor any requests submitted after the aforesaid time period. Any payment due under the terms of this Contract may be withheld until performance of services and all reports due from the Provider and necessary adjustments thereto, have been approved by the Department.

#### **3.3 Financial Consequences.**

If the Provider fails to perform in accordance with this Contract or perform the minimum level of service required by this Contract, the Department will apply financial consequences as provided for in Section 6.1 hereof. The parties agree that the penalties provided for under Section 6.1 hereof constitute financial consequences under sections 287.058(1)(h) and 215.971(1)(c), F.S. The foregoing does not limit additional financial consequences, which may include but are not limited to refusing payment, withholding payments until deficiency is cured, tendering only partial payments, applying payment adjustments for additional financial consequences or for liquidated damages to the extent that this Contract so provides, or termination of this Contract per Section 6.2.3 hereof and requisition of services from an alternate source. Any payment made in reliance on the Provider's evidence of performance, which evidence is subsequently determined to be erroneous, will be immediately due as an overpayment in accordance with Section 3.4 hereof, to the extent of such error.

#### **3.4 Overpayments and Offsets.**

The Provider shall return to the Department any overpayments due to unearned funds or funds disallowed that were disbursed to the Provider by the Department and any interest attributable to such funds. Should repayment not be made promptly upon discovery by the Provider or its auditor or upon written notice by the Department, the Provider will be charged interest at the lawful rate of interest on the outstanding balance until returned. Payments made for services subsequently determined by the Department to not be in full compliance with contract requirements shall be deemed overpayments. The Department shall have the right at any time to offset or deduct from any payment due under this or any other contract or agreement any amount due to the Department from the Provider under this or any other contract or agreement.

#### **3.5 MyFloridaMarketPlace Transaction Fee.**

This Contract is exempt from the MyFloridaMarketPlace transaction fee.

### **4. GENERAL TERMS AND CONDITIONS GOVERNING PERFORMANCE.**

#### **4.1 Compliance with Statutes, Rules and Regulations.**

In performing its obligations under this Contract, the Provider shall without exception be aware of and comply with all State and Federal laws, rules and regulations relating to its performance under this Contract as they may be enacted or amended from time-to-time, including but not limited to those described in Exhibit A1, as well as any court or administrative order, judgment, settlement or compliance agreement involving the Department which by its nature affects the services provided under this Contract.

## 4.2 Independent Contractor, Subcontracting and Assignments.

4.2.1 In performing its obligations under this Contract, the Provider shall at all times be acting in the capacity of an independent contractor and not as an officer, employee, or agent of the State of Florida, except where the Provider is a State agency. Neither the Provider nor any of its agents, employees, subcontractors or assignees shall represent to others that it is an agent of or has the authority to bind the Department by virtue of this Contract, unless specifically authorized in writing to do so. This Contract does not create any right in any individual to State retirement, leave benefits or any other benefits of State employees as a result of performing the duties or obligations of this Contract.

4.2.2 The Provider shall take such actions as may be necessary to ensure that it and each subcontractor of the Provider will be deemed to be an independent contractor and will not be considered or permitted to be an officer, employee, or agent of the State of Florida. The Department will not furnish services of support (e.g., office space, office supplies, telephone service, secretarial or clerical support) to the Provider, or its subcontractor or assignee, unless specifically agreed to by the Department in this Contract. All deductions for social security, withholding taxes, income taxes, contributions to unemployment compensation funds and all necessary insurance for the Provider, the Provider's officers, employees, agents, subcontractors, or assignees shall be the sole responsibility of the Provider and its subcontractors. The parties agree that no joint employment is intended and that, regardless of any provision directing the manner of provision of services, the Provider and its subcontractors alone shall be responsible for the supervision, control, hiring and firing, rates of pay and terms and conditions of employment of their own employees.

4.2.3 The Provider shall not assign its responsibilities under this Contract to another party, in whole or part, without prior written approval of the Department, upon the Department's sole determination that such assignment will not adversely affect the public interest. No payment shall be made under this Contract to any factor or other person who has been assigned or transferred the right to receive payment in lieu of or on behalf of the Provider except upon full and faithful performance of the Provider's duties hereunder. Any assignment or transfer occurring without prior approval of the Department shall be null and void. The Provider shall not subcontract for any of the work contemplated under this Contract without prior written approval of the Department, which shall not be unreasonably withheld.

4.2.4 The State of Florida shall at all times be entitled to assign or transfer, in whole or part, its rights, duties, or obligations under this Contract to another governmental agency in the State of Florida or to a provider of the Department's selection, upon giving prior written notice to the Provider. In the event of assignment by either party, this Contract shall remain binding upon the lawful successors in interest of the Provider and the Department.

4.2.5 The Provider is responsible for all work performed and for all commodities produced pursuant to this Contract whether actually furnished by the Provider or by its subcontractors. Any subcontracts shall be evidenced by a written document. The Provider further agrees that the Department shall not be liable to the subcontractor in any way or for any reason relating to this Contract.

4.2.6 The Provider shall include, in all subcontracts (at any tier) the substance of all clauses contained in this Contract that mention or describe subcontract compliance, as well as all clauses applicable to that portion of the Provider's performance being performed by or through the subcontract.

## 4.3 Provider Indemnity.

Section 19 of PUR 1000 Form shall apply per its terms, except that the phrase "arising from or relating to personal injury and damage to real or personal tangible property" in the first paragraph is replaced with "arising out of or by reason of the execution of this Contract or arising from or relating to any alleged act or omission by the Provider, its agents, employees, partners, or subcontractors in relation to this agreement," and the following additional terms will also apply:

4.3.1 If the Provider removes an infringing product because it is not reasonably able to modify that product or secure the Department the right to continue to use that product, the Provider shall immediately replace that product with a non-infringing product that the Department determines to be of equal or better functionality or be liable for the Department's cost in so doing.

4.3.2 Further, the Provider shall indemnify the Department for all costs and attorneys fees arising from or relating to Provider's claim that a record contains trade secret information that is exempt from disclosure or the scope of the Provider's redaction of the record, as provided for under Section 5.3. hereof, including litigation initiated by the Department.

The Provider's inability to evaluate liability or its evaluation of liability shall not excuse its duty to defend and indemnify after receipt of notice. Only an adjudication or judgment after the highest appeal is exhausted finding the Department negligent shall excuse the Provider of performance under this provision, in which case the Department shall have no obligation to reimburse the Provider for the cost of its defense. If the Provider is an agency or subdivision of the State, its obligation to indemnify, defend and hold harmless the

Department shall be to the extent permitted by section 768.28, F.S. or other applicable law, and without waiving the limits of sovereign immunity.

#### **4.4 Insurance.**

The Provider shall maintain continuous adequate liability insurance coverage during the existence of this Contract and any renewal(s) and extension(s) thereof. With the exception of a State agency or subdivision as defined by subsection 768.28(2), F.S., by execution of this Contract, the Provider accepts full responsibility for identifying and determining the type(s) and extent of liability insurance necessary to provide reasonable financial protections for the Provider and the clients to be served under this Contract. Upon the execution of this Contract, the Provider shall furnish the Department written verification supporting both the determination and existence of such insurance coverage and shall furnish verification of renewal or replacement thereof prior to the expiration or cancellation. The Department reserves the right to require additional insurance as specified in this Contract.

#### **4.5 Notice of Legal Actions.**

The Provider shall notify the Department of potential or actual legal actions taken against the Provider related to services provided through this Contract or that may impact the Provider's ability to deliver the contractual services, or that may adversely impact the Department. The Department's Contract Manager will be notified within 10 days of Provider becoming aware of such actions or potential actions or from the day of the legal filing, whichever comes first.

#### **4.6 Intellectual Property.**

It is agreed that all intellectual property, inventions, written or electronically created materials, including manuals, presentations, films, or other copyrightable materials, arising in relation to Provider's performance under this Contract, and the performance of all of its officers, agents and subcontractors in relation to this Contract, are works for hire for the benefit of the Department, fully compensated for by the contract amount, and that neither the Provider nor any of its officers, agents nor subcontractors may claim any interest in any intellectual property rights accruing under or in connection with the performance of this Contract. It is specifically agreed that the Department shall have exclusive rights to all data processing software falling within the terms of section 119.084, F.S., which arises or is developed in the course of or as a result of work or services performed under this Contract, or in any way connected herewith. Notwithstanding the foregoing provision, if the Provider is a university and a member of the State University System of Florida, then section 1004.23, F.S., shall apply.

**4.6.1** If the Provider uses or delivers to the Department for its use or the use of its employees, agents or contractors, any design, device, or materials covered by letters, patent, or copyright, it is mutually agreed and understood that, except as to those items specifically listed in Exhibit A as having specific limitations, the compensation paid pursuant to this Contract includes all royalties or costs arising from the use of such design, device, or materials in any way involved in the work contemplated by this Contract. For purposes of this provision, the term "use" shall include use by the Provider during the term of this Contract and use by the Department its employees, agents or contractors during the term of this Contract and perpetually thereafter.

**4.6.2** All applicable subcontracts shall include a provision that the Federal awarding agency reserves all patent rights with respect to any discovery or invention that arises or is developed in the course of or under the subcontract. Notwithstanding the foregoing provision, if the Provider or one of its subcontractors is a university and a member of the State University System of Florida, then section 1004.23, F.S., shall apply, but the Department shall retain a perpetual, fully-paid, nonexclusive license for its use and the use of its contractors of any resulting patented, copyrighted or trademarked work products.

#### **4.7 Transition Activities.**

Continuity of service is critical when service under this Contract ends and service commences under a new contract. Accordingly, when service will continue through another provider upon the expiration or earlier termination of this Contract, the Provider shall, without additional compensation, complete all actions necessary to smoothly transition service to the new provider. This includes but is not limited to the transfer of relevant data and files, as well as property funded or provided pursuant to this Contract. The Provider shall be required to support an orderly transition to the next provider no later than the expiration or earlier termination of this Contract and shall support the requirements for transition as specified in a Department-approved Transition Plan, which shall be developed jointly with the new provider in consultation with the Department.

#### **4.8 Real Property.**

Any State funds provided for the purchase of or improvements to real property are contingent upon the Provider granting to the State a security interest in the property at least to the amount of the State funds provided for at least five (5) years from the date of purchase or the completion of the improvements or as further required by law. As a condition of receipt of State funding for this purpose, the Provider agrees that, if it disposes of the property before the Department's interest is vacated, the Provider will refund the proportionate share of the State's initial investment, as adjusted by depreciation.

#### **4.9 Publicity.**
