10 YEARS OF SERVICE AWARD
to
FRANCISCO PALOMARES

On December 7, 2005, Francisco Palomares began working at the Card Sound Toll Authority as a Maintenance Mechanic. His duties include maintaining the right-of-way along CR 905 and Card Sound Road, maintaining the equipment he uses and making repairs to the toll booth facility.

From the beginning of his employment, Francisco proved to be a most conscientious and reliable member of the Card Sound team. He is friendly, with a good sense of humor, and his cheerful and his positive attitude is an encouragement to his co-workers.

Francisco recently completed the week-long OSHA 30 training with other members of the Public Works staff. He has also completed bucket truck safety training and FDOT Maintenance of Traffic training.

Francisco takes special pride in his work, cutting the grass and trimming the trees along the right-of-way he helps maintain, knowing that for many visitors, traveling over the Card Sound Bridge and along Card Sound Road, this will form their first impression of Monroe County.

Francisco is an asset to the Monroe County Public Works Division and we thank him for his 10+ years of outstanding and dedicated service. We hope he'll be with us for at least another 10 years! Keep up the good work.

Don Crouch – 10 Years of Service
March 13, 2016

Don Crouch began his service with Monroe County on March 13, 2006 as the Superintendent of Card Sound Toll Facility.

Don supervises one on the most remote outposts in the County. It is, however, the first point of contact many travelers have with the County staff. Don and his staff ensure that the Toll Facility, which is a 24 hour, 7 days a week schedule, is staffed at all times. He even mans that toll booth himself when necessary. Under his leadership, we have received frequent compliments about how friendly and helpful the toll booth staff is. Don prides himself in keeping the staff at Card Sound well informed about any changes that may be happening within Monroe County government as well as in Monroe County as a whole. He must also deal with frequently changing traffic situations whether they be backups on holidays or increased traffic during US-1 shutdowns. He also sees more bicyclists coming through the toll plaza than any other single place in the County.

Through all of these challenges Don remains calm and always, a gentleman. We congratulate him on reaching ten years of service with Monroe County.

AGENDA ITEM WORDING: Approval of the 1st Amendment to the Customs Service Agreement between Monroe County and the Marathon Jet Center, the amendment delays the billing of operational costs from the County to Marathon Jet Center until the facility is open and operational. The total additional cost to the Marathon Airport fund 403 is estimated to be \$1253.

ITEM BACKGROUND: The County entered into a Customs Service Agreement with the Marathon Jet Center (FBO) at the Florida Keys Marathon International Airport on April 16, 2014. The Agreement set forth the operational and financial responsibilities of the County and the Marathon Jet Center. The Agreement also required that the Marathon Jet Center reimburse the County for operational costs.

The County and the Jet Center expected that the operational costs would begin to accrue concurrently with the actual start of the Customs Service Operation. The operational costs (mostly associated with the telephone utilities) have started but the facility is not yet open or operational. This amendment delays the billing of operational costs from the County to Marathon Jet Center until the facility is open and operational.

Electronic invoices shall be submitted to the agency through the Ariba Supplier Network (ASN) in one of three mechanisms as listed below:

- **cXML (commerce eXtensible Markup Language)**

This standard establishes the data contents required for invoicing via cXML within the context of an electronic environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog goods and services. *The cXML format is the Ariba preferred method for invoicing.*

- **EDI (Electronic Data Interchange)**

This standard establishes the data contents of the Invoice Transaction Set (810) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used for invoicing via the ASN for catalog and non-catalog goods and services.

- **PO Flip via ASN**

The online process allows suppliers to submit invoices via the ASN for catalog and non-catalog goods and services. Contractors have the ability to create an invoice directly from their Inbox in their ASN account by simply "flipping" the PO into an invoice. This option does not require any special software or technical capabilities.

For the purposes of this section, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider of MFMP, a state contractor, the right and license to use, reproduce, transmit, distribute, and publicly display within the system the information outlined above. In addition, the Contractor warrants and represents that it is authorized and empowered to and hereby grants the State and the third party provider the right and license to reproduce and display within the system the Contractor's trademarks, system marks, logos, trade dress, or other branding designation that identifies the products made available by the Contractor under the Alternate Contract Source.

The Contractor will work with the MFMP management team to obtain specific requirements for the electronic invoicing upon contract award.

14. Reporting Requirements:

Contractor shall submit a sales report on a Quarterly basis. Reporting periods coincide with the State Fiscal Year:

Failure to provide quarterly and annual sales reports, including no sales, within thirty (30) calendar days following the end of each quarter (January, April, July and October) and/or contract year may result in the Contractor being found in default and cancellation of the Alternate Contract Source by the Department. Upon request, the Contractor shall report to the Department, spend with certified and other minority business enterprises. Reports must include the period covered, the name, minority code and Federal Employer Identification Number of each minority vendor utilized during the period, commodities and services provided by the minority business enterprise, and the amount paid to each minority vendor on behalf of each purchasing agency ordering under the terms of this contract. 1. Definitions. The definitions contained in s. 60A-1.001, F.A.C. shall apply to this agreement. The following additional terms are also defined:

(a) "Contract" means the legally enforceable Alternate Contract Source that results from a successful solicitation. The parties to the Contract will be the Customer and Contractor.

(b) "Customer" means the State agency or other entity that will order products directly from the Contractor under the Contract.

(c) "Product" means any deliverable under the Contract, which may include commodities, services, technology or software.

(d) "Purchase order" means the form or format a Customer uses to make a purchase under the Contract (e.g., a formal written purchase order, electronic purchase order, procurement card, or other authorized means).

2. Purchase Orders. A Contractor shall not deliver or furnish products until a Customer transmits a purchase order. All purchase orders shall bear the Contract or solicitation number, shall be placed by the Customer directly with the Contractor, and shall be deemed to incorporate by reference the Contract and solicitation terms and conditions. Any discrepancy between the Contract terms and the terms stated on the Contractor's order form, confirmation, or acknowledgement shall be resolved in favor of terms most favorable to the Customer. A purchase order for services within the ambit of section 287.058(1) of the Florida Statutes shall be deemed to incorporate by reference the requirements of subparagraphs (a) through (f) thereof. Customers shall designate a contract manager and a contract administrator as required by subsections 287.057(15) and (16) of the Florida Statutes.

3. Product Version. Purchase orders shall be deemed to reference a manufacturer's most recently release model or version of the product at the time of the order, unless the Customer specifically requests in writing an earlier model or version and the contractor is willing to provide such model or version.

4. Price Changes Applicable only to Term Contracts. If this is a term contract for commodities or services, the following provisions apply.

(a) Quantity Discounts. Contractors are urged to offer additional discounts for one time delivery of large single orders. Customers should seek to negotiate additional price concessions on quantity purchases of any products offered under the Contract. State Customers shall document their files accordingly.

(b) Best Pricing Offer. During the Contract term, if the Customer becomes aware of better pricing offered by the Contractor for substantially the same or a smaller quantity of a product outside the Contract, but upon the same or similar terms of the Contract, then at the discretion of the Customer the price under the Contract shall be immediately reduced to the lower price.

(c) Sales Promotions. In addition to decreasing prices for the balance of the Contract term due to a change in market conditions, a Contractor may conduct sales promotions involving price reductions for a specified lesser period. A Contractor shall submit to the Contract Specialist documentation identifying the proposed (1) starting and ending dates of the promotion, (2) products involved, and (3) promotional prices compared to then-authorized prices. Promotional prices shall be available to all Customers. Upon approval, the Contractor shall provide conspicuous notice of the promotion.

(d) **Trade-In.** Customers may trade-in equipment when making purchases from the Contract. A trade-in shall be negotiated between the Customer and the Contractor. Customers are obligated to actively seek current fair market value when trading equipment, and to keep accurate records of the process. For State agencies, it may be necessary to provide documentation to the Department of Financial Services and to the agency property custodian pursuant to Chapter 273, F.S.

(e) **Equitable Adjustment.** The Customer may, in its sole discretion, make an equitable adjustment in the Contract terms or pricing if pricing or availability of supply is affected by extreme and unforeseen volatility in the marketplace, that is, by circumstances that satisfy all the following criteria: (1) the volatility is due to causes wholly beyond the Contractor's control, (2) the volatility affects the marketplace or industry, not just the particular Contract source of supply, (3) the effect on pricing or availability of supply is substantial, and (4) the volatility so affects the Contractor that continued performance of the Contract would result in a substantial loss.

5. Additional Quantities. For a period not exceeding ninety (90) days from the date of solicitation award, the Customer reserves the right to acquire additional quantities up to the amount shown on the solicitation but not to exceed the threshold for Category Two at the prices submitted in the response to the solicitation.

6. Packaging. Tangible product shall be securely and properly packed for shipment, storage, and stocking in appropriate, clearly labeled, shipping containers and according to accepted commercial practice, without extra charge for packing materials, cases, or other types of containers. All containers and packaging shall become and remain Customer's property.

7. Manufacturer's Name and Approved Equivalent. Unless otherwise specified, any manufacturers' names, trade names, brand names, information or catalog numbers listed in a specification are descriptive, not restrictive. With the Customer's prior approval, the Contractor may provide any product that meets or exceeds the applicable specifications. The Contractor shall demonstrate comparability, including appropriate catalog materials, literature, specifications, test data, etc. The Customer shall determine in its sole discretion whether a product is acceptable as an equivalent.

8. Inspection at Contractor's Site. The Customer reserves the right to inspect, at any reasonable time with prior notice, the equipment or product or plant or other facilities of a Contractor to assess conformity with Contract requirements and to determine whether they are adequate and suitable for proper and effective Contract performance.

9. Safety Standards. All manufactured items and fabricated assemblies subject to operation under pressure, operation by connection to an electric source, or operation involving connection to a manufactured, natural, or LP gas source shall be constructed and approved in a manner acceptable to the appropriate State inspector. Acceptability customarily requires, at a minimum, identification marking of the appropriate safety standard organization, where such approvals of listings have been established for the type of device offered and furnished, for example: the American Society of Mechanical Engineers for pressure vessels; the Underwriters Laboratories and/or National Electrical Manufacturers' Association for electrically operated assemblies; and the American Gas Association for gas-operated assemblies. In addition, all items furnished shall meet all applicable requirements of the Occupational Safety and Health Act and state and federal requirements relating to clean air and water pollution.

10. Americans with Disabilities Act. Contractors should identify any products that may be used or adapted for use by visually, hearing, or other physically impaired individuals.

11. Literature. Upon request, the Contractor shall furnish literature reasonably related to the product offered, for example, user manuals, price schedules, catalogs, descriptive brochures, etc.

12. Transportation and Delivery. Prices shall include all charges for packing, handling, freight, distribution, and inside delivery. Transportation of goods shall be FOB Destination to any point within thirty (30) days after the Customer places an Order. A Contractor, within five (5) days after receiving a purchase order, shall notify the Customer of any potential delivery delays. Evidence of inability or intentional delays shall be cause for Contract cancellation and Contractor suspension.

13. Installation. Where installation is required, Contractor shall be responsible for placing and installing the product in the required locations at no additional charge, unless otherwise designated on the purchase order. Contractor's authorized product and price list shall clearly and separately identify any additional installation charges. All materials used in the installation shall be of good quality and shall be free of defects that would diminish the appearance of the product or render it structurally or operationally unsound. Installation includes the furnishing of any equipment, rigging, and materials required to install or replace the product in the proper location. Contractor shall protect the site from damage and shall repair damages or injury caused during installation by Contractor or its employees or agents. If any alteration, dismantling, excavation, etc., is required to achieve installation, the Contractor shall promptly restore the structure or site to its original condition. Contractor shall perform installation work so as to cause the least inconvenience and interference with Customers and with proper consideration of others on site. Upon completion of the installation, the location and surrounding area of work shall be left clean and in a neat and unobstructed condition, with everything in satisfactory repair and order.

14. Risk of Loss. Matters of inspection and acceptance are addressed in s. 215.422, F.S. Until acceptance, risk of loss or damage shall remain with the Contractor. The Contractor shall be responsible for filing, processing, and collecting all damage claims. To assist the Contractor with damage claims, the Customer shall: record any evidence of visible damage on all copies of the delivering carrier's Bill of Lading; report damages to the carrier and the Contractor; and provide the Contractor with a copy of the carrier's Bill of Lading and damage inspection report. When a Customer rejects a product, Contractor shall remove it from the premises within ten days after notification or rejection. Upon rejection notification, the risk of loss of rejected or non-conforming product shall remain with the Contractor. Rejected product not removed by the Contractor within ten days shall be deemed abandoned by the Contractor, and the Customer shall have the right to dispose of it as its own property. Contractor shall reimburse the Customer for costs and expenses incurred in storing or effecting removal or disposition of rejected product.

15. Transaction Fee. The State of Florida has instituted MyFloridaMarketPlace, a statewide eProcurement System ("System"). Pursuant to section 287.057(23), Florida Statutes (2002), all payments shall be assessed a Transaction Fee of one percent (1.0%), which the Contractor shall pay to the State, unless exempt pursuant to 60A-1.032, F.A.C.

For payments within the State accounting system (FLAIR or its successor), the Transaction Fee shall, when possible, be automatically deducted from payments to the Contractor. If automatic deduction is not possible, the Contractor shall pay the Transaction Fee pursuant to Rule 60A-1.031(2), F.A.C. By submission of these reports and corresponding payments, Contractor certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee.

Contractor shall receive a credit for any Transaction Fee paid by the Contractor for the purchase of any item(s) if such item(s) are returned to the Contractor through no fault, act, or omission of the Contractor. Notwithstanding the foregoing, a Transaction Fee is non-refundable when an item is

rejected or returned, or declined, due to the Contractor's failure to perform or comply with specifications or requirements of the agreement.

Failure to comply with these requirements shall constitute grounds for declaring the Contractor in default and recovering procurement costs from the Contractor in addition to all outstanding fees. **CONTRACTORS DELINQUENT IN PAYING TRANSACTION FEES SHALL BE EXCLUDED FROM CONDUCTING FUTURE BUSINESS WITH THE STATE.**

16. Invoicing and Payment. Invoices shall contain the Contract number, purchase order number, and the appropriate vendor identification number. The State may require any other information from the Contractor that the State deems necessary to verify any purchase order placed under the Contract.

At the State's option, Contractors may be required to invoice electronically pursuant to guidelines of the Department of Management Services. Current guidelines require that Contractor supply electronic invoices in lieu of paper-based invoices for those transactions processed through the system. Electronic invoices shall be submitted to the Customer through the Ariba Supplier Network (ASN) in one of the following mechanisms – EDI 810, cXML, or web-based invoice entry within the ASN.

Payment shall be made in accordance with sections 215.422 and 287.0585 of the Florida Statutes, which govern time limits for payment of invoices. Invoices that must be returned to a Contractor due to preparation errors will result in a delay in payment. Contractors may call (850) 413-7269 Monday through Friday to inquire about the status of payments by State Agencies. The Customer is responsible for all payments under the Contract. A Customer's failure to pay, or delay in payment, shall not constitute a breach of the Contract and shall not relieve the Contractor of its obligations to the Department or to other Customers.

17. Taxes. The State does not pay Federal excise or sales taxes on direct purchases of tangible personal property. The State will not pay for any personal property taxes levied on the Contractor or for any taxes levied on employees' wages. Any exceptions to this paragraph shall be explicitly noted by the Customer on a purchase order or other special contract condition.

18. Governmental Restrictions. If the Contractor believes that any governmental restrictions have been imposed that require alteration of the material, quality, workmanship or performance of the products offered under the Contract, the Contractor shall immediately notify the Customer in writing, indicating the specific restriction. The Customer reserves the right and the complete discretion to accept any such alteration or to cancel the Contract at no further expense to the Customer.

19. Lobbying and Integrity. Customers shall ensure compliance with Section 11.062, FS and Section 216.347, FS. The Contractor shall not, in connection with this or any other agreement with the State, directly or indirectly (1) offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for any State officer or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (2) offer, give, or agree to give to anyone any gratuity for the benefit of, or at the direction or request of, any State officer or employee. For purposes of clause (2), "gratuity" means any payment of more than nominal monetary value in the form of cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind. Upon request of the Customer's Inspector General, or other authorized State official, the Contractor shall provide any type of information the Inspector General deems relevant to the Contractor's integrity or responsibility. Such information may include, but shall not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor shall retain such records for the longer of (1) three years after the expiration of the Contract or (2) the period required by the General Records Schedules maintained by the Florida

Department of State (available at: <http://dhis.dos.state.fl.us/barm/genschedules/gensched.htm>). The Contractor agrees to reimburse the State for the reasonable costs of investigation incurred by the Inspector General or other authorized State official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State which results in the suspension or debarment of the Contractor. Such costs shall include, but shall not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for any costs of investigations that do not result in the Contractor's suspension or debarment.

20. Indemnification. The Contractor shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless the State and Customers, and their officers, agents, and employees, from suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Contractor, its agents, employees, partners, or subcontractors, provided, however, that the Contractor shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of the State or a Customer.

Further, the Contractor shall fully indemnify, defend, and hold harmless the State and Customers from any suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to violation or infringement of a trademark, copyright, patent, trade secret or intellectual property right, provided, however, that the foregoing obligation shall not apply to a Customer's misuse or modification of Contractor's products or a Customer's operation or use of Contractor's products in a manner not contemplated by the Contract or the purchase order. If any product is the subject of an infringement suit, or in the Contractor's opinion is likely to become the subject of such a suit, the Contractor may at its sole expense procure for the Customer the right to continue using the product or to modify it to become non-infringing. If the Contractor is not reasonably able to modify or otherwise secure the Customer the right to continue using the product, the Contractor shall remove the product and refund the Customer the amounts paid in excess of a reasonable rental for past use. The customer shall not be liable for any royalties.

The Contractor's obligations under the preceding two paragraphs with respect to any legal action are contingent upon the State or Customer giving the Contractor (1) written notice of any action or threatened action, (2) the opportunity to take over and settle or defend any such action at Contractor's sole expense, and (3) assistance in defending the action at Contractor's sole expense. The Contractor shall not be liable for any cost, expense, or compromise incurred or made by the State or Customer in any legal action without the Contractor's prior written consent, which shall not be unreasonably withheld.

21. Limitation of Liability. For all claims against the Contractor under any individual purchase order, and regardless of the basis on which the claim is made, the Contractor's liability under a purchase order for direct damages shall be limited to the greater of \$100,000, the dollar amount of the purchase order, or two times the charges rendered by the Contractor under the purchase order. This limitation shall not apply to claims arising under the Indemnity paragraph contain in this agreement.

Unless otherwise specifically enumerated in the Contract or in the purchase order, no party shall be liable to another for special, indirect, punitive, or consequential damages, including lost data or records (unless the purchase order requires the Contractor to back-up data or records), even if the party has been advised that such damages are possible. No party shall be liable for lost profits, lost revenue, or lost institutional operating savings. The State and Customer may, in addition to other

remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them. The State may set off any liability or other obligation of the Contractor or its affiliates to the State against any payments due the Contractor under any contract with the State.

22. Suspension of Work. The Customer may in its sole discretion suspend any or all activities under the Contract, at any time, when in the best interests of the State to do so. The Customer shall provide the Contractor written notice outlining the particulars of suspension. Examples of the reason for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, the Contractor shall comply with the notice and shall not accept any purchase orders. Within ninety days, or any longer period agreed to by the Contractor, the Customer shall either (1) issue a notice authorizing resumption of work, at which time activity shall resume, or (2) terminate the Contract. Suspension of work shall not entitle the Contractor to any additional compensation.

23. Termination for Convenience. The Customer, by written notice to the Contractor, may terminate the Contract in whole or in part when the Customer determines in its sole discretion that it is in the State's interest to do so. The Contractor shall not furnish any product after it receives the notice of termination, except as necessary to complete the continued portion of the Contract, if any. The Contractor shall not be entitled to recover any cancellation charges or lost profits.

24. Termination for Cause. The Customer may terminate the Contract if the Contractor fails to (1) deliver the product within the time specified in the Contract or any extension, (2) maintain adequate progress, thus endangering performance of the Contract, (3) honor any term of the Contract, or (4) abide by any statutory, regulatory, or licensing requirement. Rule 60A-1.006(3), F.A.C., governs the procedure and consequences of default. The Contractor shall continue work on any work not terminated. Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the Contract arises from events completely beyond the control, and without the fault or negligence, of the Contractor. If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both the Contractor and the subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted products were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule. If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Customer. The rights and remedies of the Customer in this clause are in addition to any other rights and remedies provided by law or under the Contract.

25. Force Majeure, Notice of Delay, and No Damages for Delay. The Contractor shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Contractor's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to the Contractor. In case of any delay the Contractor believes is excusable, the Contractor shall notify the Customer in writing of the delay or potential delay and describe the cause of the delay either (1) within ten (10) days after the cause that creates or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five (5) days after the date the Contractor first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE**

CONTRACTOR'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against the Customer. The Contractor shall not be entitled to an increase in the Contract price or payment of any kind from the Customer for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor shall perform at no increased cost, unless the Customer determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the State or to Customers, in which case the Customer may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to Customers with respect to products subjected to allocation, or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the products that are the subject of the delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

26. Scope Changes. The Customer may unilaterally require, by written order, changes altering, adding to, or deducting from the Contract specifications, provided that such changes are within the general scope of the Contract. The Customer may make an equitable adjustment in the Contract price or delivery date if the change affects the cost or time of performance. Such equitable adjustments require the written consent of the Contractor, which shall not be unreasonably withheld. If unusual quantity requirements arise, the Customer may solicit separate bids to satisfy them.

27. Renewal. Upon mutual agreement, the Customer and the Contractor may renew the Contract, in whole or in part, for a period that may not exceed 3 years or the term of the contract, whichever period is longer. Any renewal shall specify the renewal price, as set forth in the solicitation response. The renewal must be in writing and signed by both parties, and is contingent upon satisfactory performance evaluations and subject to availability of funds.

28. Advertising. Subject to Chapter 119, Florida Statutes, the Contractor shall not publicly disseminate any information concerning the Contract without prior written approval from the Customer, including, but not limited to mentioning the Contract in a press release or other promotional material, identifying the Customer or the State as a reference, or otherwise linking the Contractor's name and either a description of the Contract or the name of the State or the Customer in any material published, either in print or electronically, to any entity that is not a party to Contract, except potential or actual authorized distributors, dealers, resellers, or service representative.

29. Assignment. The Contractor shall not sell, assign or transfer any of its rights, duties or obligations under the Contract, or under any purchase order issued pursuant to the Contract, without the prior written consent of the Customer; provided, the Contractor assigns to the State any and all claims it has with respect to the Contract under the antitrust laws of the United States and the State. In the event of any assignment, the Contractor remains secondarily liable for performance of the contract, unless the Customer expressly waives such secondary liability. The Customer may assign the Contract with prior written notice to Contractor of its intent to do so.

30. Dispute Resolution. Any dispute concerning performance of the Contract shall be decided by the Customer's designated contract manager, who shall reduce the decision to writing and serve a copy on the Contractor. The decision shall be final and conclusive unless within ten (10) days from the date of receipt, the Contractor files with the Customer a petition for administrative hearing. The

Customer's decision on the petition shall be final, subject to the Contractor's right to review pursuant to Chapter 120 of the Florida Statutes. Exhaustion of administrative remedies is an absolute condition precedent to the Contractor's ability to pursue any other form of dispute resolution; provided, however, that the parties may employ the alternative dispute resolution procedures outlined in Chapter 120.

Without limiting the foregoing, the exclusive venue of any legal or equitable action that arises out of or relates to the Contract shall be the appropriate state court in Leon County, Florida; in any such action, Florida law shall apply and the parties waive any right to jury trial.

31. Employees, Subcontractors, and Agents. All Contractor employees, subcontractors, or agents performing work under the Contract shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Contractor shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under the Contract must comply with all security and administrative requirements of the Customer. The State may conduct, and the Contractor shall cooperate in, a security background check or otherwise assess any employee, subcontractor, or agent furnished by the Contractor. The State may refuse access to, or require replacement of, any personnel for cause, including, but not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with a Customer's security or other requirements. Such approval shall not relieve the Contractor of its obligation to perform all work in compliance with the Contract. The State may reject and bar from any facility for cause any of the Contractor's employees, subcontractors, or agents.

32. Security and Confidentiality. The Contractor shall comply fully with all security procedures of the State and Customer in performance of the Contract. The Contractor shall not divulge to third parties any confidential information obtained by the Contractor or its agents, distributors, resellers, subcontractors, officers or employees in the course of performing Contract work, including, but not limited to, security procedures, business operations information, or commercial proprietary information in the possession of the State or Customer. The Contractor shall not be required to keep confidential information or material that is publicly available through no fault of the Contractor, material that the Contractor developed independently without relying on the State's or Customer's confidential information, or material that is otherwise obtainable under State law as a public record. To insure confidentiality, the Contractor shall take appropriate steps as to its personnel, agents, and subcontractors. The warranties of this paragraph shall survive the Contract.

33. Contractor Employees, Subcontractors, and Other Agents. The Customer and the State shall take all actions necessary to ensure that Contractor's employees, subcontractors and other agents are not employees of the State of Florida. Such actions include, but are not limited to, ensuring that Contractor's employees, subcontractors, and other agents receive benefits and necessary insurance (health, workers' compensations, and unemployment) from an employer other than the State of Florida.

34. Insurance Requirements. During the Contract term, the Contractor at its sole expense shall provide commercial insurance of such a type and with such terms and limits as may be reasonably associated with the Contract. Providing and maintaining adequate insurance coverage is a material obligation of the Contractor. Upon request, the Contractor shall provide certificate of insurance. The limits of coverage under each policy maintained by the Contractor shall not be interpreted as limiting the Contractor's liability and obligations under the Contract. All insurance policies shall be through insurers authorized or eligible to write policies in Florida.

35. Warranty of Authority. Each person signing the Contract warrants that he or she is duly authorized to do so and to bind the respective party to the Contract.

36. Warranty of Ability to Perform. The Contractor warrants that, to the best of its knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish the Contractor's ability to satisfy its Contract obligations. The Contractor warrants that neither it nor any affiliate is currently on the convicted vendor list maintained pursuant to section 287.133 of the Florida Statutes, or on any similar list maintained by any other state or the federal government. The Contractor shall immediately notify the Customer in writing if its ability to perform is compromised in any manner during the term of the Contract.

37. Notices. All notices required under the Contract shall be delivered by certified mail, return receipt requested, by reputable air courier service, or by personal delivery to the agency designee identified in the original solicitation, or as otherwise identified by the Customer. Notices to the Contractor shall be delivered to the person who signs the Contract. Either designated recipient may notify the other, in writing, if someone else is designated to receive notice.

38. Leases and Installment Purchases. Prior approval of the Chief Financial Officer (as defined in Section 17.001, F.S.) is required for State agencies to enter into or to extend any lease or installment-purchase agreement in excess of the Category Two amount established by section 287.017 of the Florida Statutes.

39. Prison Rehabilitative Industries and Diversified Enterprises, Inc. (PRIDE). Section 946.515(2), F.S. requires the following statement to be included in the solicitation: "It is expressly understood and agreed that any articles which are the subject of, or required to carry out, the Contract shall be purchased from the corporation identified under Chapter 946 of the Florida Statutes (PRIDE) in the same manner and under the same procedures set forth in section 946.515(2) and (4) of the Florida Statutes; and for purposes of the Contract the person, firm, or other business entity carrying out the provisions of the Contract shall be deemed to be substituted for the agency insofar as dealings with such corporation are concerned." Additional information about PRIDE and the products it offers is available at <http://www.pridefl.com>.

40. Products Available from the Blind or Other Handicapped. Section 413.036(3), F.S. requires the following statement to be included in the solicitation: "It is expressly understood and agreed that any articles that are the subject of, or required to carry out, this contract shall be purchased from a nonprofit agency for the Blind or for the Severely Handicapped that is qualified pursuant to Chapter 413, Florida Statutes, in the same manner and under the same procedures set forth in section 413.036(1) and (2), Florida Statutes; and for purposes of this contract the person, firm, or other business entity carrying out the provisions of this contract shall be deemed to be substituted for the State agency insofar as dealings with such qualified nonprofit agency are concerned." Additional information about the designated nonprofit agency and the products it offers is available at <http://www.respectofflorida.org>.

41. Modification of Terms. The Contract contains all the terms and conditions agreed upon by the parties, which terms and conditions shall govern all transactions between the Customer and the Contractor. The Contract may only be modified or amended upon mutual written agreement of the Customer and the Contractor. No oral agreements or representations shall be valid or binding upon the Customer or the Contractor. No alteration or modification of the Contract terms, including substitution of product, shall be valid or binding against the Customer. The Contractor may not unilaterally modify the terms of the Contract by affixing additional terms to product upon delivery (e.g., attachment or inclusion of standard preprinted forms, product literature, "shrink wrap" terms

accompanying or affixed to a product, whether written or electronic) or by incorporating such terms onto the Contractor's order or fiscal forms or other documents forwarded by the Contractor for payment. The Customer's acceptance of product or processing of documentation on forms furnished by the Contractor for approval or payment shall not constitute acceptance of the proposed modification to terms and conditions.

42. Cooperative Purchasing. Pursuant to their own governing laws, and subject to the agreement of the Contractor, other entities may be permitted to make purchases at the terms and conditions contained herein. Non-Customer purchases are independent of the agreement between Customer and Contractor, and Customer shall not be a party to any transaction between the Contractor and any other purchaser.

State agencies wishing to make purchases from this agreement are required to follow the provisions of s. 287.042(16)(a), F.S. This statute requires the Department of Management Services to determine that the requestor's use of the contract is cost-effective and in the best interest of the State.

43. Waiver. The delay or failure by the Customer to exercise or enforce any of its rights under this Contract shall not constitute or be deemed a waiver of the Customer's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

44. Annual Appropriations. The State's performance and obligation to pay under this contract are contingent upon an annual appropriation by the Legislature.

45. Execution in Counterparts. The Contract may be executed in counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

46. Severability. If a court deems any provision of the Contract void or unenforceable, that provision shall be enforced only to the extent that it is not in violation of law or is not otherwise unenforceable and all other provisions shall remain in full force and effect.

AGENDA ITEM SUMMARY**

Meeting Date: March 23, 2016

Department: Employee Services/Workers' Compensation

Bulk Item: Yes No

Staff Contact /Phone #: Meri-de J. Mercado x4451

AGENDA ITEM WORDING: Approval to the Third Amendment of the contract with Employers Mutual, Inc. (Administrator), to amend the fee charged by the Administrator for medical bill re-pricing from \$1.50 per line/\$5.50 per bill to a flat rate of \$3,500.00 to cover all re-pricing from January 1, 2016 through the end of the contract, September 30, 2016.

ITEM BACKGROUND: Attachment A to the 2009 Agreement stated that the Administrator's fee for "medical bill re-pricing" (to reduce the amounts charged on provider's bills to the maximum amounts allowed by workers' compensation statute) would be "\$1.50 per line." The First Amendment modified the language stating that the fee for medical bill re-pricing would be \$1.50 per line or \$5.50 per bill (flat rate excludes hospital bills). The parties agree that this pricing mechanism is complicated, and believe that it is easier to have a flat rate of \$3,500.00. Staff believes there will be no significant difference in contract price.

PREVIOUS RELEVANT BOCC ACTION: The original agreement to engage the services of Third Party Workers' Compensation Claim Administrator was entered into on September 16, 2009. The First Amendment extending the agreement for three years was entered into on June 12, 2012. The Second Amendment dated April 15, 2015 extended the agreement an additional year through September 30, 2016.

CONTRACT/AGREEMENT CHANGES: The cost for medical bill re-pricing changes from a per-line or per-bill charge of \$1.50/\$5.50 to a flat fee of \$3,500.00 to cover all medical bills that are re-priced by the Administrator during the remainder of the contract term.

**THIRD AMENDMENT TO
AGREEMENT FOR ADMINISTRATIVE SERVICES BETWEEN
MONROE COUNTY BOARD OF COUNTY COMMISSIONERS
AND
EMPLOYERS MUTUAL INC.**

THIS **THIRD AMENDMENT**, made and entered into this 18th day of February 2016, by and between Board of County Commissioners of Monroe County (“County”), and Employers Mutual, Inc., 700 Central Parkway, Stuart, FL 34994, a Florida Corporation (“Administrator”) (collectively, the “Parties”).

WHEREAS, on September 16, 2009, the Parties entered in an agreement to engage the services of Administrator to provide claim administration for workers’ compensation and liability claims; and

WHEREAS, Attachment A to the 2009 Agreement stated that the Administrator’s fee for “medical bill re-pricing” (to reduce the amounts stated on provider’s bills to the maximum amounts allowed by statute) would be “\$1.50 per line;” and

WHEREAS, on June 12, 2012, the Parties entered into a First Amendment to the agreement, to extend the term of the original agreement to run from October 1, 2012 through September 30, 2015; and

WHEREAS, Attachment A to the First Amendment modified the language on Attachment A by stating that the fee for medical bill re-pricing would be “\$1.50 per line or \$5.50 flat-rate per bill (flat-rate excludes hospital bills);” and

WHEREAS, on April 15, 2015, the Parties entered into a Second Amendment, to extend the agreement by one more year, through September 30, 2016; and

WHEREAS, the language regarding the fee for medical bill re-pricing on Attachment A to the Second Amendment was unchanged from the Third Amendment; and

WHEREAS, a question has now arisen between the Parties regarding the language on Attachment A describing the fee for medical bill re-pricing; and

WHEREAS, the Parties mutually desire to clarify the agreement between them with regard to the fee to be charged by the Administrator throughout the balance of the contract term, from January 1, 2016 through September 30, 2016; and

WHEREAS, in lieu of a per-line fee, the County has offered and the Administrator has agreed that Ascension will charge a flat fee for all medical bills that are re-priced by the Administrator during the remainder of the contract term.

NOW THEREFORE, in consideration of the mutual promises and considerations, Parties agree to amend the Agreement as follows:

1) The language in the second bullet point on Attachment A to Second Amendment describing the fee to be charged by the Administrator for medical bill re-pricing is removed in its entirety and replaced with the following:

The Parties agree that in lieu of a per-bill fee, the Administrator will charge a flat fee of three thousand five hundred dollars (\$3,500.00) for any and all medical bill re-pricing performed by the Administrator, beginning on January 1, 2016 and continuing through the expiration of the current term of the contract, as amended ("Flat Fee"). MONROE COUNTY
BOARD OF COUNTY COMMISSIONERS

REQUEST FOR PROPOSALS

FOR

WORKERS' COMPENSATION THIRD PARTY CLAIMS ADMINISTRATION SERVICES

Section I
Information and Instructions

GENERAL

The County is seeking competitive proposals from organizations that have the ability to administer workers' compensation claims that are within the County's self-insured retention (currently, \$500,000 per claim).

BACKGROUND INFORMATION

Monroe County ("County") is a non-chartered county established under the Constitution and the laws of the State of Florida. The Clerk of the Circuit Court serves as the fiscal agent.

The population of the County is estimated at approximately 73,090. The total number of individuals covered by the County's self-insured workers' compensation program (including persons employed by Monroe County Board of County Commissioners as well as those employed by the Monroe County Sheriff's Office and all Constitutional Officers) is approximately 1,260.

The Board of County Commissioners, constituted as the governing body, has all the powers of a body corporate, including the powers to contract; to sue and be sued; to acquire, purchase, hold, lease and convey real estate and personal property; to borrow money, and to generally exercise the powers of a public authority organized and existing for the purpose of providing community services to citizens within its territorial boundaries. In order to carry out this function, the County is empowered to levy taxes to pay the cost of operations.

The County has a full time Workers' Compensation Administrator who oversees its Self-Funded program. The County has contracted with an independent Third Party Administrator, which adjusts the claims on its behalf. The County also employs a full time safety Officer.

The program extends to all agencies of the County including but not limited to:

- Board of County Commissioners;
- Land Authority;
- Property Appraiser;
- Sheriff's Department;
- Supervisor of Elections;
- County Clerk's Office; and
- Tax Collector

In addition, coverage is extended to the County's volunteer fire fighters and reserve law enforcement officials.

GENERAL INFORMATION AND COVERAGES REQUESTED

Monroe County is requesting proposals for the following:

➤ **Workers' Compensation Third Party Claims Administration Services**

Because of the limited network of health care providers located in Monroe County, the County no longer participates in a managed care arrangement. It does take advantage of its current TPA's PPO network and assigns Medical Rehabilitation on a case by case basis.

The effective date of the programs will be October 1, 2016. It is the intent of the County to agree to an initial three (3) year term with rights to renew with the successful proposer(s) for two (2) additional one-year terms at the option of the County. Consideration may be given to longer-term agreements based on price, terms and conditions.

As a prerequisite of being selected, the Third Party Administrator must be acceptable to the County's Excess Workers' Compensation insurer. The County's current Excess insurer is the Florida Municipal Insurance Trust (FMIT).

Items contained in this Request For Proposals (RFP) are considered to be an integral part of the proposed program. Adherence to the items listed here is intended by the County unless specifically otherwise accepted by both the Proposer and the County. Acceptance of modification of any portion of the items contained herein will not serve to waive or modify any other portion of the proposed program.

CURRENT PROGRAM

Ascension Benefits & Insurance Solutions of Stuart, Florida currently administers all claims that fall within the County's self-insured retention. The agreement with Ascension requires Ascension to administer the claims for an annual fee as long as a contractual relation exists between the two organizations. As of January 31, 2016 the County had approximately 91 open claims. Depending on the cost, the successful proposer may be requested to assume the administration of all open claims. Proposers will be requested to provide separate pricing for the assumption of all open claims. The County has been self-insured since 1976.

DESIRED PROGRAM

The County prefers the successful Proposer to provide their pricing on a "Life of Contract" basis and agree to administer all claims until conclusion as long as the Proposer is retained as the County's TPA. The County will consider alternative pricing structures, such as administering the County's claims on a "Cradle to Grave" basis.

"Life of Contract" is defined to mean that the claims are administered until conclusion for the term of the contract.

"Cradle to Grave" is defined to mean that the claims are administered until conclusion regardless of the term of the contract.

Due to the limited number of quality healthcare networks located in Monroe County, the County has opted out of managed care in accordance with Florida Statutes. Medical rehabilitation services may be requested on a case by case basis.

The County utilizes the current claims administrator to reduce all medical bills to the State Fee Schedule. Proposers are therefore requested to include this service in their pricing structure. If a separate charge is required for this service, it should be clearly stated within the proposal.

It is anticipated that the successful proposer will assume the administration for all prior claims. All proposals should clearly state the cost associated with the assumption of all claims.

The successful proposer will be expected to provide the following services.

- Initial contact with claimant within 24 hours.
- Recorded statements of the claimant.
- Contact with the treating physician within 24 hours.
- Narrative summaries on major claims every 3 months.
- Medical bills reduced to State fee schedule.
- All subrogation and Second Injury Fund activities.
- Preparation of all State mandated reports.
- Notification of all potential excess claims to insurer(s).
- Quarterly meetings with the County.
- Provide monthly loss reports to the County.
- Provide monthly loss reports to the County's consultant.

RATING DATA

The following information has been included as attachments to assist in the underwriting of the account:

- Projected payrolls by workers' compensation classification codes;
- A copy of the County's Drug Free Work Place policy statement; and
- The County's most recent Experience Modification worksheets.

TERM OF AGREEMENT

The County wishes to enter into an Agreement with the successful proposer, whereby the initial term of the Agreement will be for three (3) years, from October 1, 2016 to September 30, 2019, with an option to renew at the County's option for two (2) additional years.

In order that a complete history of the County's program can be maintained, the successful proposer will be requested to capture all prior years' financial data within their claim data base. The County will work with the successful proposer to develop a system whereby older closed claims can be summarized. It is anticipated that claims for the most recent five years will be individually captured.

Insurance Requirements

The successful proposer will be required to maintain throughout the life of the contract, insurance protection as specified in the attached forms.

County Expectations

In addition to the requirements specified in other sections of this RFP, the County will have the following expectations regarding the administration of its claims:

1. One Lost Time adjuster and one Medical Only adjuster will be assigned to the County's account. These adjusters will be held responsible for all activities associated with the administration of the claims.
2. The County strongly believes that the number of claims assigned to individual adjusters will have a direct impact on the quality of attention given to issues as they arise. All proposals shall specify the maximum number of cases assigned for both the Lost Time adjuster and the Medical Only adjuster that will be used for the County's account.
3. If the administration of the County's claims must be re-assigned to a new adjuster, the County should be advised of the change 30 days prior to the change taking effect. Such notification should include the name of the new adjuster, the new adjuster's qualifications and the approach the new adjuster will take in becoming familiar with the County's claims.
4. The County currently utilizes Seltzer Associates for all Field Case Management activities. The County has been extremely pleased with the services Seltzer has provided and wants to continue using them for all Field Case Management needs. If the TPA does not have a business relationship with Seltzer, the County will expect that such a relationship will be developed.
5. The County has stringent protocols that must be followed when hiring outside legal services. While the County will consider recommendations for the hiring of defense counsel, the County will have to select and contract directly with the legal firm. In addition, the County will have to directly pay the legal firm's bills. The TPA will be notified when such payments are made and the TPA will be responsible for capturing these costs in the appropriate claim.
6. The County will expect the TPA to pay any and all fines and penalties imposed by the State caused by the negligence of the TPA. The County will remain responsible for all fines and penalties caused by the County's negligence.
7. The County currently has direct access to their TPA's computerized claim system. This permits the County to view the financial aspects of individual claims and to review the adjusters claim notes. The County will need similar access to the TPA's computerized claim system. The County expects that if a new TPA is selected, they will travel to Key West and conduct a training session for the County's Workers' Compensation Department on the effective use of the system. In addition, the TPA will be responsible for the production of a user manual on the use of their computerized claim system. The TPA will be held responsible for providing timely notification of any changes made to their computerized claim system and the implications of these changes on the operation of the system. In addition, the TPA will be held responsible for updating the user manual when changes are made. Access to the TPA's computerized claim system should be through the internet and access should be available 24 hours a day and 7 days a week. Any fees associated with access to the TPA's computerized claim system should be clearly stated in the proposals.
8. During the period of 10/1/14 through 9/30/15, the County's TPA processed 1,225 medical bills on behalf of the County. The total number of lines associated with these bills amounted to 3,517. The cumulative amount of the bills totaled \$1,456,100.59. The TPA reduced the bills by \$574,260.71 in accordance with State Fee Schedule. In addition, the bills were further discounted by \$77,151.85 in

accordance with PPO agreements the TPA has with various medical facilities. The County desires to continue taking advantage of PPO network discounts. Proposals should reflect the PPO networks the TPA has established reflecting the number of physicians, by major discipline (such as General Practitioner and Chiropractor) participating in the network. Specific information regarding the number of medical facilities located in Monroe County should also be provided. In addition, the average percentage of discounts being offered by these networks should be provided. All proposals should reflect other arrangements the TPA has arranged for ancillary medical services such as IMEs, MSAs and Medical Review experts.

9. The County has issued Monroe County Administrative Instruction 7400.4 (Workers' Compensation Third Party Administrator (TPA) Direct Payment System). A copy of the Administrative Instruction is included as an attachment to this RFP. The successful proposer must agree with the provisions of this Administrative Instruction.
10. The County would prefer to pay an annual fee, in monthly installments, for all bill reduction services to include reducing bills to the State Fee Schedule and all fee reductions associated with PPO networks that the TPA has established.

- B. Any ambiguity or uncertainty in the specifications shall be interpreted and construed by COUNTY, and its decision shall be final and binding upon all parties.

Each party to this Agreement or their authorized representatives shall have reasonable and timely access to such records of each other party to this Agreement for public records purposes during the term of the agreement and for five years following the termination of this Agreement. If an auditor employed by the COUNTY or Clerk determines that monies paid to CONTRACTOR pursuant to this Agreement were spent for purposes not authorized by this Agreement, the CONTRACTOR shall repay the monies together with interest calculated pursuant to Section 55.03 of the Florida Statutes, running from the date the monies were paid to CONTRACTOR.

For breach or violation of this provision the COUNTY may, in its discretion, terminate this agreement without liability and may also, in its discretion, deduct from the agreement or purchase price, or otherwise recover the full amount of any fee,

This Agreement shall be governed by and construed in accordance with the laws of the State of Florida applicable to Agreements made and to be performed entirely in the State.

In the event that any cause of action or administrative proceeding is instituted for the enforcement or interpretation of this Agreement, the COUNTY and CONTRACTOR agree that venue shall lie in the appropriate court or before the appropriate administrative body in Monroe County, Florida.

Section 13. SEVERABILITY

If any term, covenant, condition or provision of this Agreement (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions and provisions of this Agreement, shall not be affected thereby; and each remaining term, covenant, condition and provision of this Agreement shall be valid and shall be enforceable to the fullest extent permitted by law unless the enforcement of the remaining terms, covenants, conditions and provisions of this Agreement would prevent the accomplishment of the original intent of this Agreement. The COUNTY and CONTRACTOR agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

Section 14. ATTORNEY'S FEES AND COSTS

The COUNTY and CONTRACTOR agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this Agreement, the prevailing party shall be entitled to reasonable attorney's fees, and court costs, as an award against the non-prevailing party. This Agreement shall not be subject to arbitration.

Section 18. COOPERATION

In the event any administrative or legal proceeding is instituted against either party relating to the formation, execution, performance, or breach of this Agreement, COUNTY and CONTRACTOR agree to participate, to the extent required by the other party, in all proceedings, hearings, processes, meetings, and other activities related to the substance of this Agreement or provision of the services under this Agreement. COUNTY and CONTRACTOR specifically agree that no party to this Agreement shall be required to enter into any arbitration proceedings related to this Agreement.

Section 19. NONDISCRIMINATION

The parties agree that there will be no discrimination against any person, and it is expressly understood that upon a determination by a court of competent jurisdiction that discrimination has occurred, this Agreement automatically terminates without any further action on the part of any party, effective the date of the court order. The parties agree to comply with all Federal and Florida statutes, and all local ordinances, as applicable, relating to nondiscrimination. Section 20. COVENANT OF NO INTEREST

COUNTY agrees that officers and employees of the COUNTY recognize and will be required to comply with the standards of conduct for public officers and employees as delineated in Section 112.313, Florida Statutes, regarding, but not limited to, solicitation or acceptance of gifts; doing business with one's agency; unauthorized compensation; misuse of public position, conflicting employment or contractual relationship; and disclosure or use of certain information.

Section 22. NO SOLICITATION/PAYMENT

The COUNTY and CONTRACTOR warrant that, in respect to itself, it has neither employed nor retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for it, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of the provision, the CONTRACTOR agrees that the COUNTY shall have the right to terminate this Agreement without liability and, at its discretion, to offset from monies owed, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

Section 23. PUBLIC ACCESS

The COUNTY and CONTRACTOR shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the COUNTY and CONTRACTOR in conjunction with this Agreement; and the COUNTY shall have the right to unilaterally cancel this Agreement upon violation of this provision by CONTRACTOR.

Section 24. NON-WAIVER OF IMMUNITY

Notwithstanding the provisions of Sec. 768.28, Florida Statutes, the participation of the COUNTY and the CONTRACTOR in this Agreement and the acquisition of any commercial liability insurance coverage, self-insurance coverage, or local government liability insurance pool coverage shall not be deemed a waiver of immunity to the extent of liability coverage, nor shall any Agreement entered into by the COUNTY be required to contain any provision for waiver.

Section 25. PRIVILEGES AND IMMUNITIES

All of the privileges and immunities from liability, exemptions from laws, ordinances, and rules and pensions and relief, disability, workers' compensation, and other benefits which apply to the activity of officers, agents, or employees of any public agents or employees of the COUNTY, when performing their respective functions under this Agreement within the territorial limits of the COUNTY shall apply to the same degree and extent to the performance of such functions and duties of such officers, agents, volunteers, or employees outside the territorial limits of the COUNTY.

Section 26. LEGAL OBLIGATIONS AND RESPONSIBILITIES

Non-Delegation of Constitutional or Statutory Duties. This Agreement is not intended to, nor shall it be construed as, relieving any participating entity from any obligation or responsibility imposed upon the entity by law except to the extent of actual and timely performance thereof by any participating entity, in which case the performance may be offered in satisfaction of the obligation or responsibility. Further, this Agreement is not intended to, nor shall it be construed as, authorizing the delegation of the constitutional or statutory duties of the COUNTY, except to the extent permitted by the Florida constitution, state statute, and case law.

Section 27. NON-RELIANCE BY NON-PARTIES

No person or entity shall be entitled to rely upon the terms, or any of them, of this Agreement to enforce or attempt to enforce any third-party claim or entitlement to or benefit of any service or program contemplated hereunder, and the COUNTY and the CONTRACTOR agree that neither the COUNTY nor the CONTRACTOR or any agent, officer, or employee of either shall have the authority to inform, counsel, or otherwise indicate that any particular individual or group of individuals, entity or entities, have entitlements or benefits under this Agreement separate and apart, inferior to, or superior to the community in general or for the purposes contemplated in this Agreement.

Section 28. ATTESTATIONS

CONTRACTOR agrees to execute such documents as the COUNTY may reasonably require, including, but not being limited to, a Public Entity Crime Statement, an Ethics Statement, and a Drug-Free Workplace Statement, Lobbying and Conflict of Interest Clause, and Non-Collusion Agreement.

Section 29. NO PERSONAL LIABILITY

No covenant or agreement contained herein shall be deemed to be a covenant or agreement of any member, officer, agent or employee of Monroe County in his or her individual capacity, and no member, officer, agent or employee of Monroe County shall be liable personally on this Agreement or be subject to any personal liability or accountability by reason of the execution of this Agreement.

Section 30. EXECUTION IN COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which shall be regarded as an original, all of which taken together shall constitute one and the same instrument and any of the parties hereto may execute this Agreement by signing any such counterpart.

Section 31. SECTION HEADINGS

Section headings have been inserted in this Agreement as a matter of convenience of reference only, and it is agreed that such section headings are not a part of this Agreement and will not be used in the interpretation of any provision of this Agreement.

Section 32. INSURANCE POLICIES

32.1 General Insurance Requirements for Other Contractors and Subcontractors.

As a pre-requisite of the work governed, the CONTRACTOR shall obtain, at his/her own expense, insurance as specified in any attached schedules, which are made part of this contract. The CONTRACTOR will ensure that the insurance obtained will extend protection to all Subcontractors engaged by the CONTRACTOR. As an alternative, the CONTRACTOR may require all Subcontractors to obtain insurance consistent with the

attached schedules; however CONTRACTOR is solely responsible to ensure that said insurance is obtained and shall submit proof of insurance to COUNTY. Failure to provide proof of insurance shall be grounds for termination of this Agreement.

The CONTRACTOR will not be permitted to commence work governed by this contract until satisfactory evidence of the required insurance has been furnished to the COUNTY as specified below. Delays in the commencement of work, resulting from the failure of the CONTRACTOR to provide satisfactory evidence of the required insurance, shall not extend deadlines specified in this contract and any penalties and failure to perform assessments shall be imposed as if the work commenced on the specified date and time, except for the CONTRACTOR's failure to provide satisfactory evidence.

The CONTRACTOR shall maintain the required insurance throughout the entire term of this contract and any extensions specified in the attached schedules. Failure to comply with this provision may result in the immediate suspension of all work until the required insurance has been reinstated or replaced and/or termination of this Agreement and for damages to the COUNTY. Delays in the completion of work resulting from the failure of the CONTRACTOR to maintain the required insurance shall not extend deadlines specified in this contract and any penalties and failure to perform assessments shall be imposed as if the work had not been suspended, except for the CONTRACTOR's failure to maintain the required insurance.

The CONTRACTOR shall provide, to the COUNTY, as satisfactory evidence of the required insurance, either:

- Certificate of Insurance
or
- A Certified copy of the actual insurance policy.

The County, at its sole option, has the right to request a certified copy of any or all insurance policies required by this contract.

All insurance policies must specify that they are not subject to cancellation, non-renewal, material change, or reduction in coverage unless a minimum of thirty (30) days prior notification is given to the County by the insurer.

The acceptance and/or approval of the Contractor's insurance shall not be construed as relieving the Contractor from any liability or obligation assumed under this contract or imposed by law.

Monroe County Board of County Commissioners, its employees and officials will be included as "Additional Insured" on all policies, except for Workers' Compensation (including Employers' Liability and Professional Liability).

Section 33. INDEMNIFICATION

The CONTRACTOR does hereby consent and agree to indemnify and hold harmless the COUNTY, its Mayor, the Board of County Commissioners, appointed Boards and Commissions, Officers, and the Employees, and any other agents, individually and collectively, from all fines, suits, claims, demands, actions, costs, obligations, attorneys' fees, or liability of any kind arising out of the sole negligent actions of the CONTRACTOR or substantial and unnecessary delay caused by the willful nonperformance of the CONTRACTOR and shall be solely responsible and answerable for any and all accidents or injuries to persons or property arising out of its performance of this contract. The amount and type of insurance coverage requirements set forth hereunder shall in no way be construed as limiting the scope of indemnity set forth in this paragraph. Further the CONTRACTOR agrees to defend and pay all legal costs attendant to acts attributable to the sole negligent act of the CONTRACTOR.

At all times and for all purposes hereunder, the CONTRACTOR is an independent contractor and not an employee of the Board of County Commissioners. No statement contained in this agreement shall be construed so as to find the CONTRACTOR or any of his/her employees, contractors, servants or agents to be employees of the Board of County Commissioners for Monroe County. As an independent contractor the CONTRACTOR shall provide independent, professional judgment and comply with all federal, state, and local statutes, ordinances, rules and regulations applicable to the services to be provided.

The CONTRACTOR shall be responsible for the completeness and accuracy of its work, plan, supporting data, and other documents prepared or compiled under its obligation for this project, and shall correct at its expense all significant errors or omissions therein which may be disclosed. The cost of the work necessary to correct those errors attributable to the CONTRACTOR and any damage incurred by the COUNTY as a result of additional costs caused by such errors shall be chargeable to the CONTRACTOR. This provision shall not apply to any maps, official records, contracts, or other data that may be provided by the COUNTY or other public or semi-public agencies.

The CONTRACTOR agrees that no charges or claims for damages shall be made by it for any delays or hindrances attributable to the COUNTY during the progress of any portion of the services specified in this contract. Such delays or hindrances, if any, shall be compensated for by the COUNTY by an extension of time for a reasonable period for the CONTRACTOR to complete the work schedule. Such an agreement shall be made between the parties.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed on the _____ day of _____ 200_.

WORKERS' COMPENSATION THIRD PARTY ADMINISTRATOR
(TPA) DIRECT PAYMENT SYSTEM**

OFFICE OF THE COUNTY ADMINISTRATOR
Key West, Florida

MONROE COUNTY ADMINISTRATIVE INSTRUCTION 7400.4

Date: October 16, 2015

Subject: Workers' Compensation Third Party Administrator
(TPA) Direct Payment System

Reference: Monroe County Projected Claim Payment System

Attachments: (A.) Audit Reports
(B.) Payment Authorization Form

Effective Date: Immediately

- (1.) **Purpose:** In an effort to expedite the payment process of the Workers' Compensation Program, Monroe County has approved a direct claim payment system. This system will allow payments for services provided for workers' compensation to be directly mailed from the office of the TPA to the service provider in accordance with Florida Statutes.
- (2.) **Background:** On 04/17/1996, the Monroe County Board of County Commissioners approved the creation of an Escrow Banking Account and delegated limited payment authorization to the TPA for the processing of payment for the Workers' Compensation Program.
- (3.) **Rule of Governing Direct Payment Process for Claims:**
 - a. The County will establish an Escrow Account in a bank of its choice for use by the TPA for claims payments.
 - b. The Workers' Compensation Third Party Administrator (TPA) will email a copy of the payment register to the Workers' Compensation Office every Wednesday and Friday. Upon receipt, the Workers' Compensation (WC) Administrator or

designee will review the register and then notify the Finance Department's Staff Accountant via e-mail to deposit sufficient funds as needed to meet the claims payment processed.

- c. The Staff Accountant will notify the TPA and the Workers' Compensation Administrator or designee via e-mail that funding is complete and will record the deposit into the financial accounting system. The TPA will not issue checks or drafts until it receives confirmation from the County that there are sufficient funds available in the account.
- d. The TPA will have signatory privileges on the account up to \$5,000 requiring the signatures of two supervisory personnel of the TPA.
- e. Checks over \$5,000 are sent from the TPA to the Workers' Compensation Administrator for processing. Upon receipt of the checks, the Workers' Compensation Administrator or designee with the appropriate signature authority will complete the payment authorization form (Attachment B), attach a copy of the check(s) and file it with the correlating register in the Workers' Compensation office. The check is then immediately mailed out to the appropriate party.
- f. The TPA's payment authority is limited to the payment of satisfactorily proven claims for medical expenses and indemnity (wage loss) paid in accordance with the Florida Workers' Compensation Statute then applicable. In addition, the TPA is authorized to pay certain expenses of claims administration including medical case management, investigation expenses, transportation, and the costs of obtaining medical records and reports.
- g. All other expenses, particularly legal defense costs and any payments issued to the TPA or related entity will be paid by the County directly in accordance with the County's accounts payable procedures.
- h. Within five (5) days of receipt of the payment register (from the TPA), the Workers' Compensation office will provide the Staff Accountant a signed certified register which affirms that the Workers' Compensation Administrator has reviewed the register and that the payments are being made for persons covered under the Monroe County Workers' Compensation Program. The certification will detail which line items are to be debited in the workers' compensation fund.
- i. Should a void or stop payment request on a check that has been issued be required, the Finance Department's Administrative Assistant will gather and prepare the required documentation and present it to the Finance Department's authorized BANK SIGNER. Once the transaction has been voided or the stop payment request is processed, the Administrative Assistant will notify the appropriate parties (TPA, and WC Administrator).

- j. The Workers' Compensation Office will audit the TPA claims handling procedures and payments on a continuous basis. The actual claim files administered by the TPA will be audited no less than once a year. The Workers' Compensation Office will review the reports (Attachment A) on all open Workers' Compensation files provided at each audit by the TPA and provide a written report to the Department Head outlining audit findings upon request.

**INTERLOCAL AGREEMENT
BETWEEN THE
FLORIDA KEYS AQUEDUCT AUTHORITY
AND
MONROE COUNTY, FLORIDA**

THIS INTERLOCAL AGREEMENT is entered into by and between the Florida Keys Aqueduct Authority (the “Authority”) and Monroe County, Florida, each of which is an independent, existing entity serving as a public agency under the laws of the State of Florida.

WHEREAS, the Florida Keys Aqueduct Authority (Authority) was created by Special Legislation, Chapter 76-441, Laws of Florida, as amended; and

WHEREAS, Monroe County (County), is a political subdivision of the State of Florida;
and

WHEREAS, the Authority has contracted with J.A. LaRocco Inc. for water distribution pipeline upgrades within Ocean Bay Drive, Key Largo, Florida.

WHEREAS, the Authority and the County desire to enter into an Interlocal Agreement whereby the Authority will provide a full roadway-width asphalt overlay on the roadway Ocean Bay Drive within Key Largo, Florida.

NOW, THEREFORE, in consideration of the mutual covenants, representations and promises set forth in this Agreement and for other good and valuable consideration each to the other, receipt of which is hereby acknowledged by each party, the Authority and Monroe County hereby agree, stipulate, and covenant as follows:

**ARTICLE I
DEFINITIONS**

WORDS AND TERMS. Words and terms used herein shall have the meanings set forth below:

“**Agreement**” means this Interlocal Agreement.

“Authority” means the Florida Keys Aqueduct Authority.

“Authorized Representative” means the official of the Authority or the Monroe County authorized by ordinance or resolution to sign documents of the nature identified in this Agreement.

“County” means Monroe County, Florida.

“Contractor” shall mean J.A. LaRocco, Inc.

ARTICLE II

INTERLOCAL AGREEMENT

SECTION 2.01 PURPOSE OF INTERLOCAL AGREEMENT. The purpose of this Agreement is to establish a funding mechanism for the following described project:

The Authority shall provide a “Roadway Full Width Asphalt Overlay” and temporary and final striping of the roadway Ocean Bay Drive within Key Largo, Florida which is receiving Authority water distribution upgrades.

It is understood and agreed that both Authority and County representatives will participate in a visual inspection prior to the commencement of asphalt overlay operations to determine that all portions of the roadways listed above remain in acceptable condition for paving. Any noted deficiencies will be corrected by Contractor within fifteen (15) calendar days of the inspection date at no cost to Authority. The Authority will specify in its contract with its Contractor that the asphalt overlay will meet all of the applicable requirements imposed by law. Without limiting the generality of the foregoing, the contract will specify that the overlay will meet the requirements of the Monroe County Code of Ordinances, Part I, Chapter 19, Article II in effect at the time of the overlay. The Authority will direct the Contractor to perform the work, and will be responsible for monitoring the progress of the work and final inspection of the work upon completion. The Authority will notify the County at least seven (7) calendar days before commencement of the work, and at least seven days prior to final inspection. The County may have a representative present at the final inspection and approval of the work.

The County agrees to reimburse the Authority approximately \$83,750.00 (or ½ of total cost) of the estimated \$167,500.00 complete asphalt overlay. Approximately 10,700 square yards of

asphalt overlay is established in the Authority's contract with Contractor. It is understood and agreed to by the Authority and County that reimbursement for the completed work outlined above will be payable to the Authority within thirty (30) calendar days of receipt by the County of final invoicing by the Authority.

ARTICLE III GENERAL PROVISIONS

SECTION 3.01 ASSIGNMENT OF RIGHTS UNDER AGREEMENT. Neither the Authority nor the County shall have the power to assign rights or obligations created by this Agreement to any third party without the prior written consent of the other party.

SECTION 3.02 AMENDMENT OF AGREEMENT. This Agreement may be amended only in a writing signed by an Authorized Representative of each of the parties hereto.

SECTION 3.03 SEVERABILITY. If any term, covenant, condition or provision of this Agreement (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions and provisions of this Agreement shall not be affected thereby; and each remaining term, covenant, condition and provision of this Agreement shall be valid and shall be enforceable to the fullest extent permitted by law unless the enforcement of the remaining terms, covenants, conditions and provisions of this Agreement would prevent the accomplishment of the original intent of this Agreement. The Authority and County agree to reform the Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

The Authority and County agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees, court costs, investigative, and out-of-pocket expenses, as an award against the non-prevailing party, and shall include attorney's fees, court costs, investigative, and out-of-pocket expenses in appellate proceedings. Mediation proceedings initiated and conducted pursuant to this Agreement shall be in accordance with the Florida Rules

If the issue or issues are still not resolved to the satisfaction of both parties, then either shall have the right to seek such relief or remedy as may be provided by this Agreement or by Florida law; provided, however, the unresolved issue or issues shall be submitted to mediation prior to the institution of any administrative or legal proceeding.

SECTION 3.06 NONDISCRIMINATION. The parties agree that there will be no discrimination against any person, and it is expressly understood that upon a determination by a court of competent jurisdiction that discrimination has occurred, this Agreement automatically terminates without any further action on the part of any party, effective the date of the court order. provisions in any federal or state statutes or local ordinances which may apply to the parties to, or the subject matter of, this Agreement.

SECTION 3.07 COOPERATION. In the event any administrative or legal proceeding is instituted against either party relating to the formation, execution, performance, or breach of this Agreement, the parties agree to participate, to the extent reasonably required by the other party, in all proceedings, hearings, processes, meetings, and other activities related to the substance of this Agreement or provision of the services under this Agreement. The parties specifically agree that no party to this Agreement shall be required to enter into any arbitration proceedings related to this Agreement or any Attachment or Addendum to this Agreement.

Change Order Attachment per Ordinance No. 004-1999

- Change Order was not included in the original contract specifications. Yes No

If Yes, explanation:

Part of the Scope of Work Added by this change order includes unforeseeable conditions. Upon Evaluation of the lighthouse components by the metallurgist Alex Klahm and the Architect additional features are in need of repair on the lighthouse tower to protect the interior of the Lighthouse. These repairs include the replacement of the lighthouse vent ball and chimney vent.

- Change Order was included in the original specifications. Yes No

If Yes, explanation of increase in price:

In addition to the added repairs of unforeseeable conditions, this change order adds alternates that were not originally accepted due to the limited budget provided by the grant, the grant has been increased which allows the county to add to the scope of work for repairs including performing the alternates originally bid as part of the project. These alternates include the patching of slate roofing, new copper gutters and downspouts, and the patching and painting of interior masonry.

- Change Order exceeds \$25,000 or 5% of contract price(whichever is greater). Yes No

If Yes, explanation as to why it is not subject for a calling for bids:

Contractor included some of the scope of work in this change order as part of his original bid, as add alternates. To go out for Request for Proposal for these items would not be cost effective.

- Project architect approves the change order. Yes No

If no, explanation of why:

- Change Order is correcting an error or omission in design document. Yes No

Should a claim under the applicable professional liability policy be made? Yes No

Bert,

As requested the following is the additional cost to replace the rotten sill beam and replace the interior trim at the Lighthouse project.

Material for the beam and trim	\$150.00
Labor 32 man hours	\$1392.00
Contractors OH & profit	<u>\$231.00</u>
Total	\$1773.00

Additionally David requested a price to provide and install a new painted wood shutter matching the existing shutter exactly with a metal holdback. That cost is as follows.

Wood and metal holdback-	\$165.00
Labor	\$522.00
Paint	NC
Contractors OH & profit	<u>\$103.00</u>
Total	\$790.00

David also asked that if In the event that there was no funding for the above shutter repair that we provide a price to install a metal holdback for the damaged shutter. If that's the case we would provide the new hold back at no additional cost.

In one of the recent progress meeting minutes Johnnie mentioned that the County was due a credit for the perimeter fence work that the County had already completed. That credit would be \$9414.00 and is based on the numbers shown in the Schedule of Values. Please keep in mind that if you take that credit DL Porter would not have any work at all associated with the fence, i.e. concrete repair, fence repair or repainting.

Let me know if you have any questions.
Thanks

SECTION 00750 GENERAL CONDITIONS OF THE CONTRACT

1.0 GENERAL PROVISIONS

1.1 Basic Definitions

1.1.1 **The Contract Documents:** The Contract Documents consist of the Agreement between Owner and Contractor, Conditions of the Contract (General, Supplementary and other Conditions), Drawings, Specifications, addenda issued prior to execution of the Contract, Owners proposal documents, other documents listed in the Agreement and Modifications issued after execution of the Contract, and the Contractor's proposal and supporting documentation. A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, (3) a Construction Change Directive or (4) a written order for a minor change in the Work issued by Project Management.

1.1.2 **The Contract:** The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations or agreements, either written or oral. The Contract may be amended or modified only by a Modification. The Contract Documents shall not be construed to create a contractual relationship of any kind (1) between the Architect and Contractor, (2) between Project Management and Contractor, (3) between the Architect and Project Management, (4) between the Owner and a Subcontractor or (5) between any persons or entities other than the Owner and Contractor. The Owner shall, however, be entitled to enforce the obligations under the Contract intended to facilitate performance of the duties of Project Management and Architect.

1.1.3 **The Work:** The term "Work" means the construction and services required by the Contract Documents, whether completed or partially completed, and includes all other labor, materials, equipment and services provided or to be provided by the Contractor to fulfill the Contractor's obligations. The Work may constitute the whole or a part of the Project.

1.1.4 **The Project:** The Project is the total construction of which the Work performed under the Contract Documents may be the whole or a part and which may include construction by other Contractors and by the Owner's own forces including persons or entities under separate contracts not administered by Project Management.

1.1.5 **The Drawings:** The Drawings are the graphic and pictorial portions of the Contract Documents, wherever located and whenever issued, showing the design, location and dimensions of the Work, generally including plans, elevations, sections, details, schedules and diagrams.

1.1.6 **The Specifications:** The Specifications are that portion of the Contract Documents consisting of the written requirements for materials, equipment, construction systems, standards and workmanship for the Work, and performance of related services.

1.1.7 **The Project Manual:** The Project Manual is the volume usually assembled for the Work which may include the proposal requirements, sample forms, Conditions of the Contract and Specifications.

1.2 Execution, Correlation and Intent

1.2.2 Execution of the Contract by the Contractor is a representation that the Contractor has visited the site, become familiar with local conditions under which the Work is to be performed and correlated personal observations with requirements of the Contract Documents.

Key West Light Station Renovations

1.2.3 The intent of the Contract Document is to include all items necessary for the proper execution and completion of the Work by the contractor. The Contract Documents are complementary, and what is required by one shall be as binding as if required by all; performance by the Contractor shall be required only to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the intended results.

1.2.4 Organization of the Specifications into divisions, sections and articles, and arrangement of Drawings shall not control the Contractor in dividing the Work among Subcontractors or in establishing the extent of Work to be performed by any trade.

1.2.5 Unless otherwise stated in the Contract Documents, words which have well-known technical or construction industry meanings are used in the Contract Documents in accordance with such recognized meanings.

1.2.6 Where on any of the drawings a portion of the Work is drawn out and the remainder is indicated in outline, the parts drawn out shall also apply to all other like portions of the Work.

1.3 Ownership and Use of Architect's Drawings, Specifications and Other Documents

1.3.1 The Drawing, Specifications and other documents prepared by the Architect are instruments of the Architect's service through which the Work to be executed by the Contractor is described. The Contractor may retain one contract record set. Neither the Contractor nor any Subcontractor, Sub-subcontractor or material or equipment supplier shall own or claim a copyright in the Drawings, Specifications and other documents prepared by the Architect. All copies of them, except the Contractor's record set, shall be returned or suitably accounted for to Project Management, on request, upon completion of the Work. The Drawings, Specifications and other documents prepared by the Architect, and copies thereof furnished to the Contractor, are for use solely with respect to the Project. They are not to be used by the Contractor or any Subcontractor, Sub-subcontractor or material or equipment suppliers unless they are granted a limited license to use and reproduce applicable portions of the Drawings, Specifications and other documents prepared by the Architect appropriate to and for use in the execution of their Work under the Contract Documents. All copies made under this license shall bear the statutory copyright notice, if any, shown on the Drawings, Specifications and other documents prepared by the Architect. Submittal or distribution to meet official regulatory requirements or for other purposes in connection with this Project is not to be construed as publication in derogation of copyright or other reserved rights

1.3.2 Unless otherwise provided in the Contract Documents, the Contractor will be furnished, two (2) original sealed copies and one (1) electronic copy of Drawings, Specifications and the Project Manual free of charge for the execution of the Work. Additional copies may be obtained from Project Management at a fee of \$5.00 per page for full size drawings (.25 per page for written specifications or 11"x 17" drawings).

1.4 Capitalization

1.4.1 Terms capitalized in these General Conditions include those which are (1) specifically defined, (2) the titles of numbered articles and identified references to Paragraphs, Subparagraphs and Clauses in the document or (3) the titles of other documents published by the American Institute of Architects.

1.5 Interpretation

Key West Light Station Renovations

1.5.1 In the interest of brevity the Contract Documents frequently omit modifying words such as "all" and "any" and articles such as "the" and "an," but the fact that a modifier or an article is absent from one statement and appears in another is not intended to affect the interpretation of either statement.

2.0 OWNER

2.1 Definition

2.1.1 The Owner is Monroe County. The term "Owner" means the Owner or the Owner's authorized representative.

2.2 Information and Services Required of the Owner

2.2.2 The owner shall furnish initial site surveys describing physical characteristics, legal limitations and utility locations for the site of the Project, and a legal description of the site.

2.2.3 For existing facilities the Owner shall secure and pay for necessary approvals, easements, assessments and charges, required for construction, use or occupancy of permanent structures or for permanent changes in existing facilities except for permits and fees which are the responsibility of the Contractor under the Contract Documents. It is the Contractor's responsibility to secure and pay for the building permit(s) for the project.

2.2.4 Information or services under the Owner's control shall be furnished by the Owner with reasonable promptness to avoid delay in orderly progress of the Work.

2.2.5 Unless otherwise provided in the Contract Documents, the Contractor will be furnished two (2) original sealed copies and one (1) electronic copy of Drawings, Specifications and the Project Manual free of charge for the execution of the Work as provided in Subparagraph 1.3.2.

2.2.6 The Owner shall forward all communications to the Contractor through Project Management and may contemporaneously provide the same communications to the Architect.

2.2.7 The foregoing are in addition to other duties and responsibilities of the Owner enumerated herein and especially those in respect to Article 6 (Construction by Owner or by Other Contractors), Article 9 (Payments and Completion) and Article 11 (Insurance and Bonds).

2.3 Owner's Right to Stop the Work

2.3.1 If the Contractor fails to correct Work which is not in accordance with the requirements of the contract Documents as required by Paragraph 12.2 or persistently fails to carry out Work in accordance with the Contract Documents, the Owner, by written order signed personally or by an agent specifically so empowered by the Owner, may order the Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, the right of the Owner to stop the Work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity.

2.4 Owner's Right to Carry Out the Work

2.4.1 If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within a three-day period after receipt of written notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may after such three-day period give the Contractor a second written notice to correct such deficiencies within a three-day period. If the Contractor within such second three-day period after receipt of such second notice fails to commence and continue to

Key West Light Station Renovations

correct any deficiencies, the Owner may, without prejudice to other remedies the Owner may have, correct such deficiencies. In such case an appropriate Change Order shall be issued deducting from payments then or thereafter due the Contractor the cost of correcting such deficiencies, including compensation for another contractor or subcontractor or Project Management's and Architect's and their respective consultants' additional services and expenses made necessary by such default, neglect or failure. If payments then, or thereafter, due the Contractor are not sufficient to cover such amounts, the Contractor shall pay the difference to the Owner. In the event of clean-up issues, Owner has right to provide a minimum of 24 hours notice. In the event of safety issues determined to be of a serious nature, as determined by Project Management, notice will be given, and contractor is required to rectify deficiency immediately.

3.0 CONTRACTOR

The Contractor shall not be liable to the Owner, Project Management or Architect for damage resulting from errors, inconsistencies or omissions in the Contract Documents unless the Contractor recognized such error, inconsistency or omission and knowingly failed to report it to Project Management and Architect. If the Contractor performs any construction activity knowing it involves a recognized error, inconsistency or omission in the Contract Documents without such notice to Project Management and Architect, the Contractor shall assume appropriate responsibility for such performance and shall bear an appropriate amount of the attributable costs for correction.

3.2.2 The Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to the Contractor with the Contract Documents before commencing activities. Errors, inconsistencies or omissions discovered shall be reported to Project Management and Architect at once.

Key West Light Station Renovations

3.3.2 The Contractor shall be responsible to the Owner for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons performing portions of the Work under a contract with the Contractor.

3.3.3 The Contractor shall not be relieved of obligations to perform the Work in accordance with the Contract Documents either by activities or duties of Project Management in its administration of the Contract, or by test, inspections or approvals required or performed by persons other than the Contractor.

3.3.4 The Contractor shall inspect portions of the Project related to the Contractor's Work in order to determine that such portions are in proper condition to receive subsequent work.

3.3.5 The Contractor shall verify that the Construction Documents being worked with are the most recent and updated available, including all Addenda information. Also the Contractor will perform the work strictly in accordance with this contract.

3.4 Labor and Materials

3.4.1 Unless otherwise provided in the Contract Documents, the Contractor shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

3.4.2 The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Contract. The Contractor shall not permit employment of unfit persons or persons not skilled in tasks assigned to them.

3.4.3 The Contractor is responsible for the conduct of his employees at all times. Misconduct, destruction of property, unsafe practices, or violation of any Federal or State regulations including abuse of alcohol or drugs, will be cause for permanent dismissal from the project. If any Contractor's employee is determined to be detrimental to the Project, as deemed by Project Management, the Contractor will remove and/or replace the employee at the request of Project Management. Employees dismissed from the project will be transported from the job site at the Contractor's expense.

3.4.4 The Contractor shall be totally responsible for the security of his work, materials, equipment, supplies, tools, machinery, and construction equipment.

3.4.5 The Contractor shall be responsible for complete, timely and accurate field measurements as necessary for proper coordination, fabrication and installation of his materials and equipment. The Contractor agrees to cooperate with Project Management, if required, to accommodate any discovered variations or deviations from the Drawings and Specifications so that the progress of the Work is not adversely affected.

3.5 Warranty

3.5.1 The Contractor warrants to the Owner, Project Management and Architect that materials and equipment furnished under the Contract will be of good quality and new unless otherwise required or permitted by the Contract Documents, that the Work will be free from defects not inherent in the quality required or permitted, and that the Work will conform with the requirements of the Contract Documents. Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, modifications not executed by the Contractor, improper or insufficient maintenance, improper operation, or

normal wear and tear under normal usage. If required by Project Management, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

3.6 Taxes

3.6.1 The Contractor shall pay sales, consumer, use and similar taxes for the Work or portions thereof provided by the Contractor which are legally enacted when bids are received or negotiations concluded, whether or not yet effective or merely scheduled to go into effect.

3.7 Permits, Fees and Notices

3.7.1 The Contractor shall secure and pay for all permits, impact fees, governmental fees, licenses, inspections, testing, surveys and utility fees required by Federal, State, Municipal or Utility entities having jurisdiction over the project for the proper execution and completion of the Work which are customarily secured after execution of the Contract and which are legally required at the time bids are received. The Contractor will be responsible for all building permit costs or impact fees required for this project. The Contractor shall secure and pay for all building and specialty permits including plumbing, electrical, HVAC, etc.

3.7.2 The Contractor shall comply with and give notices required by laws, ordinances, rules, regulations and lawful orders of public authorities bearing on performance of the Work.

3.7.3 It is not the Contractor's responsibility to ascertain that the Contract Documents are in accordance with applicable laws, statutes, ordinances, building codes, and rules and regulations. However, if the Contractor observes that portions of the Contract Documents are at variance therewith, the Contractor shall promptly notify Project Management, Architect and Owner in writing, and necessary changes shall be accomplished by appropriate Modification.

3.7.4 If the Contractor performs Work knowing it to be contrary to laws, statutes, ordinances, building codes, and rules and regulations without such notice to Project Management, Architect and Owner, the Contractor shall assume full responsibility for such Work and shall bear the attributable costs.

3.9 Superintendent

3.9.1 The Contractor shall employ a competent superintendent and necessary assistants who shall be in attendance at the Project site during performance of the Work. The superintendent shall represent the Contractor, and communications given to the superintendent shall be as binding as if given to the Contractor. Important communications shall be confirmed in writing. Other communications shall be similarly confirmed on written request in each case. The superintendent shall be satisfactory to Project Management and shall not be changed except with the consent of Project Management, unless the superintendent proves to be unsatisfactory to the Contractor or ceases to be in his employ.

3.10 Contractor's Construction Schedule

3.10.1 The Contractor, promptly after being awarded the Contract, shall prepare and submit for the Owner's and Architect's information and Project Management's approval a Contractor's Construction Schedule for the Work. Such schedule shall not exceed time limits current under the Contract Documents, shall be revised at appropriate intervals as required by the conditions of the Work and Project, shall be related to the entire Project construction schedule to the extent required by the Contract Documents, and shall provide for expeditious and practicable execution of the Work. This schedule, to be submitted within fourteen (14) days after Contract Award, shall indicate the dates for the starting and completion of the various stages of

Key West Light Station Renovations

construction, shall be revised as required by the conditions of the Work, and shall be subject to Project Management's approval.

3.10.2 The Contractor shall cooperate with Project Management in scheduling and performing the Contractor's Work to avoid conflict, delay in or interference with the Work of other Contractors or the construction or operations of the Owner's own forces.

3.10.4 The Contractor shall conform to the most recent schedules.

3.10.5 Project Management will schedule and conduct a project meeting at a minimum of one meeting per month in each month which the Contractor shall attend. At this meeting, the parties can discuss jointly such matters as progress, scheduling, and problems.

3.11 Documents and Samples at the Site

3.11.1 The Contractor shall maintain at the site for the Owner one record copy of the Drawings, Specifications, addenda, Change Orders and other Modifications, in good order and marked currently to record changes and selections made during construction, and in addition approved Shop Drawings, Product Data, Samples and similar required submittals. These shall be available to Project Management and Architect and shall be delivered to Project Management for submittal to the Owner upon completion of the Work.

3.12 Shop Drawings, Product Data and Samples

3.12.3 Samples are physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

3.12.4 Shop Drawings, Product Data, Samples and similar submittals are not Contract Documents. The purpose of their submittal is to demonstrate for those portions of the Work for which submittals are required the way the Contractor proposes to conform to the information given and the design concept expressed in the Contract Documents. Review by Project Management is subject to the limitations of Subparagraph 4.6.12.

3.12.5 The Contractor shall review, approve and submit to Project Management, in accordance with the schedule and sequence approved by Project Management, Shop Drawings, Product Data, Samples and similar submittals required by the Contract Documents. The Contractor shall cooperate with Project Management in the coordination of the Contractor's Shop Drawings, Product Data, Samples and similar submittals with related documents submitted by other Contractors. Submittals made by the Contractor which are not required by the Contract Documents may be returned without action.

3.12.6 The Contractor shall perform no portion of the Work requiring submittal and review of Shop Drawings, Product Data, Samples or similar submittals until the respective submittal has been approved by Project Management. Such Work shall be in accordance with approved submittals.

3.12.7 By approving and submitting Shop Drawings, Product Data, Samples and similar submittals, the Contractor represents that the Contractor has determined and verified materials,

Key West Light Station Renovations

field measurements and field construction criteria related thereto, or will do so, and has checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

3.12.8 The Contractor shall not be relieved of responsibility for deviations from requirements of the Contract Documents by Project Management approval of Shop Drawings, Product Data, Samples or similar submittals unless the Contractor has specifically informed Project Management and Architect in writing of such deviation at the time of submittal and Project Management have given written approval to the specific deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples or similar submittals by Project Management's approval thereof.

3.12.9 The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples or similar submittals, to revisions other than those requested by Project Management and Architect on previous submittals.

3.12.10 Informational submittals upon which Project Management are not expected to take responsive action may be so identified in the Contract Documents.

3.12.11 When professional certification of performance criteria of materials, systems or equipment is required by the Contract Documents, Project Management and Architect shall be entitled to rely upon the accuracy and completeness of such calculations and certifications.

3.12.12 If materials specified in the Contract Documents are not available on the present market, the Contractor may submit data on substitute materials to Project Management for approval by the Owner.

3.13 Use of Site

3.13.1 The Contractor shall confine operations at the site to areas permitted by law, ordinances, permits and the Contract Documents and shall not unreasonably encumber the site with materials or equipment.

3.13.2 The Contractor shall coordinate the Contractor's operations with, and secure the approval of, Project Management before using any portion of the site.

3.14 Cutting and Patching

3.14.1 The Contractor shall be responsible for cutting, fitting or patching required to complete the Work or to make its parts fit together properly; He shall also provide protection of existing work as required.

3.14.2 The Contractor shall not damage or endanger a portion of the Work or fully or partially completed construction of the Owner's own forces or of other Contractors by cutting, patching, excavating or otherwise altering such construction. The Contractor shall not cut or otherwise alter such construction by other Contractors or by the Owner's own forces except with written consent of Project Management, Owner and such other contractors: such consent shall not be unreasonably withheld. The Contractor shall not unreasonably withhold from the other Contractors or the Owner the Contractor's consent to cutting or otherwise altering the Work. When structural members are involved, the written consent of Project Management shall also be required. The Contractor shall not unreasonably withhold from Project Management or any separate contractor his consent to cutting or otherwise altering the Work.

3.14.3 The Contractor shall arrange for any blockouts, cutouts, or openings required for the installation of his materials and equipment and the execution of his work, whether or not shown

Key West Light Station Renovations

or indicated on the Drawings. The Contractor shall be further responsible for sealing and/or finishing, in an acceptable fashion and meeting any applicable code requirements, and such block-out, cutout opening, or other hole in any fire-related floor, ceiling, wall, security wall, or any other finished surface.

3.15 Cleaning Up

3.15.1 The Contractor shall keep the premises and surrounding area free from accumulation of waste materials or rubbish caused by operations under the Contract. At completion of the Work the Contractor shall remove from and about the project waste materials rubbish, the Contractor's tools, construction equipment, machinery and surplus materials. Clean up shall be performed to the satisfaction of the Owner or Project Management.

3.15.2 If the Contractor fails to clean up as provided in the Contract Documents, Project Management may do so with the Owner's approval and the cost thereof shall be charged to the Contractor.

3.16 Access to Work

3.16.1 The Contractor shall provide the Owner, Project Management and Architect access to the Work in preparation and progress wherever located.

3.17 Royalties and Patents

3.17.1 The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of patent rights and shall hold the Owner, Project Management and Architect harmless from loss on account thereof, but shall not be responsible for such defense or loss when a particular design, process or product of a particular manufacturer or manufacturers is required by the Contract Documents. However, if the Contractor has reason to believe that the required design, process or product is an infringement of a patent, the Contractor shall be responsible for such loss unless such information is promptly furnished to the Architect and Project Management.

3.18 Indemnification and Hold Harmless

3.18.1 Notwithstanding any minimum insurance requirements prescribed elsewhere in this agreement, Contractor shall defend, indemnify and hold the COUNTY and the COUNTY's elected and appointed officers and employees harmless from and against (i) any claims, actions or causes of action, (ii) any litigation, administrative proceedings, appellate proceedings, or other proceedings relating to any type of injury (including death), loss, damage, fine, penalty or business interruption, and (iii) any costs or expenses that may be asserted against, initiated with respect to, or sustained by, any indemnified party by reason of, or in connection with, (A) any activity of Contractor or any of its employees, agents, contractors or other invitees during the term of this Agreement, (B) the negligence or recklessness, intentional wrongful misconduct, errors or other wrongful act or omission of Contractor or any of its employees, agents, sub-contractors or other invitees, or (C) Contractor's default in respect of any of the obligations that it undertakes under the terms of this Agreement, except to the extent the claims, actions, causes of action, litigation, proceedings, costs or expenses arise from the intentional or sole negligent acts or omissions of the COUNTY or any of its employees, agents, contractors or invitees (other than Contractor). Insofar as the claims, actions, causes of action, litigation, proceedings, costs or expenses relate to events or circumstances that occur during the term of this Agreement, this section will survive the expiration of the term of this Agreement or any earlier termination of this Agreement.

Key West Light Station Renovations

In the event that the completion of the project (to include the work of others) is delayed or suspended as a result of the Contractor's failure to purchase or maintain the required insurance, the Consultant shall indemnify the County from any and all increased expenses resulting from such delay. Should any claims be asserted against the County by virtue of any deficiency or ambiguity in the plans and specifications provided by the Contractor, the Contractor agrees and warrants that the Contractor shall hold the County harmless and shall indemnify it from all losses occurring thereby and shall further defend any claim or action on the County's behalf.

The first ten dollars (\$10.00) of remuneration paid to the Contractor is for the indemnification provided for the above.

4.6.1 Project Management and Engineer will provide administration of the Contract as described in the Contract Documents, and will be the Owner's representatives (1) during construction, (2) until final payment is due and (3) with the Owner's concurrence, from time to time during the correction period described in Paragraph 12.2. Project Management and Engineer will advise and consult with the Owner and will have authority to act on behalf of the Owner only to the extent provided in the Contract Document, unless otherwise modified by written instrument in accordance with other provision of the Contract.

4.6.2 Project Management and Engineer will determine in general that the Work is being performed in accordance with the requirements of the Contract Documents, will keep the Owner informed of the progress of the Work, and will endeavor to guard the Owner against defects and deficiencies in the Work.

4.6.3 Project Management will provide for coordination of the activities of other Contractors and of the Owner's own forces with the Work of the Contractor, who shall cooperate with them.

Key West Light Station Renovations

The Contractor shall participate with other Contractors and Project Management and Owner in reviewing their construction schedules when directed to do so. The Contractor shall make any revisions to the Construction schedule deemed necessary after a joint review and mutual agreement. The construction schedules shall constitute the schedules to be used by the Contractor, other Contractors, Project Management and the Owner until subsequently revised.

4.6.4 Not used.

4.6.5 Project Management will visit the site at intervals appropriate to the stage of construction to become generally familiar with the progress and quality of the completed Work and to determine in general if the Work is being performed in a manner indicating that the Work, when completed, will be in accordance with the Contract Documents. However, Project Management will not be required to make exhaustive or continuous onsite inspections to check quality or quantity of the Work. On the basis of on-site observations as an architect, Project Management will keep the Owner informed of progress of the Work, and will endeavor to guard the Owner against defects and deficiencies in the work.

4.6.6 Project Management will not have control over or charge of and will not be responsible for construction means, method, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's responsibility as provided in Paragraph 3.3, and neither will be responsible for the Contractor's failure to carry out the Work in accordance with the Contract Documents. Neither Project Management nor the Architect will have control over, or charge of, or be responsible for acts or omissions of the Contractor, Subcontractors, or their agents or employees, or of any other persons performing portions of the Work.

4.6.7 Communications Facilitating Contract Administration. Except as otherwise provided in the Contract Documents or when direct communications have been specially authorized, the Owner and Contractor shall communicate through Project Management, and shall contemporaneously provide the same communications to the Architect. Communications by and with the Architect's consultants shall be through the Architect. Communications by and with Subcontractors and material suppliers shall be through the Contractor. Communications by and with other Contractors shall be through Project Management and shall be contemporaneously provided to the Architect.

4.6.8 Project Management will review and certify all Applications for Payment by the Contractor, including final payment. Subject to review, Project Management will have the authority to reject Work which does not conform to the Contract Documents. Whenever Project Management considers it necessary or advisable for

Key West Light Station Renovations

implementation of the intent of the Contract Documents, Project Management will have authority to require additional inspection or testing of the work in accordance with Subparagraphs 13.5.2 and 13.5.3, whether or not such Work is fabricated, installed or completed. The foregoing authority of Project Management will be subject to the provisions of Subparagraphs 4.6.18 through 4.6.20 inclusive, with respect to interpretations and decisions of the Architect. However, neither the Architect's nor Project Management's authority to act under this Subparagraph 4.6.10 nor a decision made by either of them in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect or Project Management to the Contractor, Subcontractors, material and equipment suppliers, their agents or employees, or other persons performing any of the Work.

4.6.11 Project Management will receive from the Contractor and review and approve all Shop Drawings, Product Data and Samples, coordinate them with information received from other Contractors, and review those recommended for approval. Project Management actions will be taken with such reasonable promptness as to cause no delay in the Work of the Contractor or in the activities of other Contractors or the Owner.

4.6.12 Project Management will review and approve or take other appropriate action upon the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Project Management action will be taken with such promptness consistent with the constraints of the project schedule so as to cause no delay in the Work of the Contractor or in the activities of the other Contractors, the Owner, or Project Management, while allowing sufficient time to permit adequate review. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment or systems, all of which remain the responsibility of the Contractor as Contractor as required by the Contract Documents. Project Management review of the Contractor's submittals shall not relieve the Contractor of the obligations under Paragraphs 3.3, 3.5 and 3.12. Project Management's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by Project Management, of any construction means, methods, techniques, sequences or procedures. Project Management's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

4.6.13 Project Management will prepare Change Orders and Construction Change Directives.

4.6.14 Following consultation with the Owner, Project Management will take appropriate action on Change Orders or Construction Change Directives in accordance with Article 7 and will have authority to order minor changes in the Work as provided in Paragraph 7.4.

4.6.16 The Contractor will assist Project Management in conducting inspections to determine the dates of Substantial completion and final completion, and will receive and forward to Project Management written warranties and related documents required by the Contract and assembled by the Contractor. Project Management will review and approve a final Project Application for Payment upon compliance with the requirements of the Contract Documents.

4.6.17 Project Management will provide one or more project representatives to assist in carrying out his responsibilities at the site. The duties, responsibilities and limitations of authority of such project representatives shall be as set forth in an exhibit to be incorporated in the Contract Documents.

4.6.18 Project Management will interpret and decide matters concerning performance under and requirements of the Contract Documents on written request of the Owner or Contractor.

Key West Light Station Renovations

Project Management's response to such requests will be made with reasonable promptness and within any time limits agreed upon. If no agreement is made concerning the time within which interpretations required of Project Management shall be furnished in compliance with this Paragraph 4.6, then delay shall not be recognized on account of failure by Project Management to furnish such interpretations until 15 days after written request is made for them.

4.6.19 Interpretations and decisions of Project Management will be consistent with the intent of and reasonably inferable from the Contract Documents and will be in writing or in the form of drawings. When making such interpretations and decisions, Project Management will endeavor to secure faithful performance by both Owner and Contractor, will not show partiality to either and will not be liable for results of interpretations or decisions so rendered in good faith.

4.6.20 Project Management's decisions on matters relating to aesthetic effect will be final if consistent with the intent expressed in the Contract Documents.

4.7 Claims and Disputes

4.7.1 **Definition.** A Claim is a demand or assertion by one of the parties seeking, as a matter of right, adjustment or interpretation of Contract terms, payment of money, extension of time or other relief with respect to the terms of the Contract. The term "Claim" also includes other disputes and matters in question between the Owner and Contractor arising out of or relating to the Contract. Claims must be made by written notice. The responsibility to substantiate Claims shall rest with the party making the claim.

4.7.2 **Meet and Confer.** The Contractor and Project Management shall try to resolve the claim or dispute with meet and confer sessions to be commenced within 15 days of the dispute or claim. Any claim or dispute that the parties cannot resolve shall be decided by the Circuit Court, 16th Judicial Circuit, Monroe County, Florida.

4.7.3 **Time Limits on Claims.** Claims by either party must be made within 21 days after occurrence of the event giving rise to such Claim or within 21 days after the claimant first recognizes the condition giving rise to the Claim, whichever is later. Claims must be made by written notice. An additional Claim made after the initial Claim has been implemented by Change Order will not be considered unless submitted in a timely manner. This notice is not a condition precedent to any other legal action or suit.

4.7.4 **Continuing Contract Performance.** Pending final resolution of a Claim unless otherwise agreed in writing the Contractor shall proceed diligently with performance of the Contract and the Owner shall continue to make payments in accordance with the Contract Documents.

4.7.5 **Waiver of Claims: Final Payment.** The making of final payment shall constitute a waiver of Claim by the Owner except those arising from:

- .1 liens, Claims, security interests or encumbrances arising out of the Contract and unsettled;
- .2 failure of the Work to comply with the requirements of the Contract Documents; or
- .3 terms of special warranties required by the Contract Documents.

4.7.6 **Claims for Concealed or Unknown Conditions.** If conditions are encountered at the site which are (1) subsurface or otherwise concealed physical conditions which differ materially from those indicated in the Contract Documents or (2) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally

Key West Light Station Renovations

recognized as inherent in construction activities of the character provided for in the Contract Documents, then notice by the observing party shall be given to the other party promptly before conditions are disturbed and in no event later than 21 days after first observance of the conditions. Project Management will promptly investigate such conditions, and the parties will follow the procedure in paragraph 4.7.2.

4.7.7 Claims for Additional Cost. If the Contractor wishes to make Claim for an increase in the Contract Sum, written notice as provided herein shall be given before proceeding to execute the Work. Prior notice is not required for Claims relating to an emergency endangering life or property arising under Paragraph 10.3 If the Contractor believes additional cost is involved for reasons including but not limited to (1) a written interpretation from Project Management, (2) a written order for a minor change in the Work issued by Project Management, (3) failure of payment by the Owner, (4) termination of the Contract by the Owner, (5) Owner's suspension or (6) other reasonable grounds, Claim shall be filed in accordance with the procedure established herein.

4.7.8 Claims for Additional Time.

4.7.8.1. If the Contractor wishes to make Claim for an increase in the Contract Time, written notice as provided herein shall be given.

4.7.8.2 If adverse weather conditions are the basis for a Claim for additional time, such Claim shall be documented by data substantiating that weather conditions were abnormal for the period of time and could not have been reasonably anticipated, and that weather conditions had an adverse effect on the scheduled construction.

4.7.9 Injury or Damage to Person or Property. If either party to the Contract suffers injury or damage to person or property because of an act or omission of the other party, of any of the other party's employees or agents, or of others for whose acts such party is legally liable, written notice of such injury or damage, whether or not insured, shall be given to the other party within a reasonable time not exceeding 21 days after first observance. The notice shall provide sufficient detail to enable the other party to investigate the matter. If a Claim for additional cost or time related to this Claim is to be asserted, it shall be filed as provided in Subparagraphs 4.7.7 or 4.7.8.

5.0 SUBCONTRACTORS

5.1 Definitions

5.1.1 A Subcontractor is a person or entity who has a direct contract with the Contractor to perform a portion of the Work at the site. The term "Subcontractor" is referred to throughout the Contract Documents as if singular in number and means a Subcontractor or an authorized representative of the Subcontractor. The term "Subcontractor" does not include other Contractors or subcontractors of other Contractors.

5.1.2 A Sub-subcontractor is a person or entity who has a direct or indirect contract with a Subcontractor to perform a portion of the Work at the site. The term "Sub-subcontractor" is referred to throughout the Contract Documents as if singular in number and means a Sub-subcontractor or an authorized representative of the Sub-subcontractor.

5.2 Award of Subcontracts and Other Contracts for Portions of the Work

5.2.1 Unless otherwise stated in the Contract Documents or the bidding requirements, the Contractor, as soon as practicable after award of the Contract, shall furnish in writing to Project

Key West Light Station Renovations

Management for review by the Owner and Project Management the names of persons or entities (including those who are to furnish materials or equipment fabricated to a special design) proposed for each principal portion of the Work. Project Management will promptly reply to the Contractor in writing stating whether or not the Owner or Project Management, after due investigation, has reasonable objection to any such proposed person or entity. Failure of Project Management to reply promptly shall constitute notice of no reasonable objection.

5.2.2 The Contractor shall not contract with a proposed person or entity to which the Owner or Project Management has made reasonable and timely objection. The Contractor shall not be required to contract with anyone to whom the Owner or Project Management has made reasonable objection.

5.2.3 If the Owner or Project Management refuses to accept any person or entity on a list submitted by the Contractor in response to the requirements of the Contract Documents, the Contractor shall submit an acceptable substitute; however, no increase in the Contract Sum shall be allowed for any such substitution.

5.2.4 The Contractor shall not change a Subcontractor, person or entity previously selected if the Owner or Project Management makes reasonable objection to such change.

5.3 Subcontractual Relations

5.3.1 By appropriate written agreement, the Contractor shall require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities which the Contractor, by these Documents, assumes toward the Owner or Project Management. Each subcontract agreement shall preserve and protect the rights of the Owner or Project Management under the Contract Documents with respect to the Work to be performed by the Subcontractor so that subcontracting thereof will not prejudice such rights. When appropriate, the Contractor shall require each Subcontractor to enter into similar agreements with Sub-subcontractors. The Contractor shall make available to each proposed Subcontractor, copies of the Contract Documents which the Subcontractor will be bound, and, upon written request of the Subcontractor, identify to the Subcontractor terms and conditions of the proposed subcontract agreement which may be at variance with the Contract Documents. Subcontractors shall similarly make copies of applicable portions of such documents available to their respective proposed Sub-subcontractors.

5.4 Contingent Assignment of Subcontracts

5.4.1 Each subcontract agreement for a portion of the Work is assigned by the Contractor to the Owner provided that:

.1 assignment is effective only after termination of the Contract by the Owner for cause pursuant to Paragraph 14.2 and only for those subcontract agreements which the Owner accepts by notifying the Subcontractor in writing; and

.2 assignment is subject to the prior rights of the surety, if any, obligated under public construction bond covering the Contract.

i. If the work has been suspended for more than 30 days, the Subcontractor's compensation shall be equitably adjusted.

6.0 CONSTRUCTION BY OWNER OR BY OTHER CONTRACTORS

Key West Light Station Renovations

6.1 Owner's Right to Perform Construction with Own Forces and to Award Other Contracts

6.1.1 The Owner reserves the right to perform construction or operations released to the Project with the Owner's own forces, which include persons or entities under separate contracts not administered by Project Management. The Owner further reserves the right to award other contracts in connection with other portions of the Project or other construction or operations on the site under Conditions of the Contract identical or substantially similar to these including those portions related to insurance and waiver or subrogation.

6.1.2 When the Owner performs construction or operations with the Owner's own forces including persons or entities under separate contracts not administered by Project Management, the Owner shall provide for coordination of such forces with the Work of the Contractor who shall cooperate with them.

6.1.3 It shall be the responsibility of the Contractor to coordinate his work with the work of other contractors on the site. The Owner and Project Management shall be held harmless for any and all costs associated with improper coordination.

6.2 Mutual Responsibility

6.2.1 The Contractor shall afford the Owner's own forces, Project Management and other contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities, and shall connect and coordinate the Contractor's construction and operations with theirs as required by the Contract Documents.

6.2.2 If part of the Contractor's Work depends for proper execution or results upon construction or operations by the Owner's own forces or other contractors, the Contractor shall, prior to proceeding with that portion of the Work, promptly report to Project Management any apparent discrepancies or defects in such other construction that would render it unsuitable for such proper execution and results. Failure of the Contractor so to report shall constitute an acknowledgment that the Owner's own forces or other contractors' completed or partially completed construction is fit and proper to receive the Contractor's Work, except as to defects not then reasonably discoverable.

6.2.3 Costs caused by delays or by improperly timed activities or defective construction shall be borne by the Contractor. The Contractor's sole remedy as against the Owner for costs caused by delays or improperly timed activities or defective construction shall be an extension of time.

6.2.4 The Contractor shall promptly remedy damage wrongfully caused by the Contractor to completed or partially completed construction or to property of the Owner or other contractors as provided in Subparagraph 10.2.5.

6.2.5 Claims and other disputes and matters in question between the Contractor and other contractors shall be subject to the provisions of Paragraph 4.7 provided the other contractors have reciprocal obligations.

6.2.6 The Owner and other contractors shall have the same responsibilities for cutting and patching as are described for the Contractor in Paragraph 3.14.

6.2.7 Should the Contractor contend that he is entitled to an extension of time for completion of any portion or portions of the work, he shall, within (72) hours of the occurrence of the cause of the delay, notify Project Management in writing, of his contention: setting forth (A) the cause for the delay, (B) a description of the portion or portions of work affected thereby, and (C) all

Key West Light Station Renovations

details pertinent thereto. A subsequent written application for the specific number of days of extension of time requested shall be made by the Contractor to Project Management within (72) hours after the delay has ceased to exist.

.1 It is a condition precedent to the consideration or prosecution of any claim for an extension of time that the foregoing provisions be strictly adhered to in each instance and, if the Contractor fails to comply, he shall be deemed to have waived the claim.

.2 The Contractor agrees that whether or not any delay, regardless of cause, shall be the basis for an extension of time he shall have no claim against the Owner or Project Management for an increase in the Contract price, nor a claim against the Owner or Project Management for a payment or allowance of any kind for damage, loss or expense resulting from delays; nor shall the Contractor have any claim for damage, loss or expense resulting from interruptions to, or suspension of, his work to enable other contractors to perform their work. The only remedy available to the Contractor shall be an extension of time.

6.3 Owner's Right to Clean Up

6.3.1 If a dispute arises among the Contractor, other contractors and the Owner as to the responsibility under their respective contracts for maintaining the premises and surrounding area free from waste materials and rubbish as described in Paragraph 3.15, the Owner may clean up and allocate the cost among those responsible as Project Management determines to be just.

7.0 CHANGES IN THE WORK

7.1 Changes

7.1.1 Changes in the Work may be accomplished after execution of the Contract, and without invalidating the Contract, by Change Order, Construction Change Directive or order for a minor change in the Work, subject to the limitations stated in this Article 7 and elsewhere in the Contract Documents.

7.1.2 A Change Order shall be based upon agreement among the Owner, Project Management and Contractor; a Construction Change Directive require agreement by the Owner, Project Management and may or may not be agreed to by the Contractor; an order for a minor change in the Work may be issued by Project Management alone.

7.1.3 Changes in the Work shall be performed under applicable provisions of the Contract Documents, and the Contractor shall proceed promptly, unless otherwise provided in the Change Order, Construction Change Directive or order for a minor change in the Work.

7.1.4 If unit prices are stated in the Contract Documents or subsequently agreed upon, and if quantities originally contemplated are so changed in a proposed Change Order or Construction Change Directive that application of such unit prices to quantities of Work proposed will cause substantial inequity to the Owner or Contractor, the applicable unit prices shall be equitably adjusted.

7.2 Change Orders

7.2.1 A change Order is a written instrument prepared by Project Management and signed by the Owner, Project Management and Contractor stating their agreement upon all of the following:

- .1 a change in the Work;

Key West Light Station Renovations

- .2 the amount of the adjustment in the Contract Sum, if any; and
- .3 the extent of the adjustment in the Contract Time, if any.

7.2.2 The cost or credit to the Owner resulting from a change in the Work shall be determined in one or more of the following methods:

- .1 mutual acceptance of lump sum properly itemized and supported by sufficient substantiating data to permit evaluation and payment, and approved by the appropriate authority in writing;
- .2 unit prices stated in the Contract Documents or subsequently agreed upon, and approved by the appropriate authority in writing;
- .3 cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee;
- .4 or by method provided in subparagraph 7.2.3.

7.2.3 If none of the methods set forth in Clauses 7.2.1 or 7.2.2 is agreed upon, the Contractor, provided a written order signed by the Owner or Project Management is received, shall promptly proceed with the Work involved. The cost of such Work shall then be determined by daily force accounts in a form acceptable to the Owner and Project Management. The daily force account forms shall identify Contractor and /or Subcontractor personnel by name, total hours for each man, each piece of equipment and total hours for equipment and all material(s) by type for each extra Work activity claim. Each daily force account form shall be signed by the designated Project Management representative no later than the close of business on the day the Work is performed to verify the items and hours listed. Extended pricing of these forms shall be submitted to Project Management with all supporting documentation required by Project Management for inclusion into a change order. Unless otherwise provided in the Contract Documents, cost shall be limited to the following: cost of materials, including sales tax and cost of delivery; cost of labor, including social security, old age and unemployment insurance, and fringe benefits required by agreement or custom; works' or workmen's compensation insurance; and the rental value of equipment and machinery. Markups for overhead and profit will be in accordance with subparagraph 7.2.4. Pending final determination of cost, payments on account shall be made as determined by Project Management. The amount of credit to be allowed by the Contractor for any deletion or change, which results in a net decrease in the Contract Sum, will be the amount of the actual net cost to the Owner as confirmed by Project Management. When both additions and credits covering related Work or substitutions are involved in any one change, the allowance for overhead and profit shall be figured on the basis of the net increase, if any with respect to that change.

7.2.4 The actual cost of Changes in the Work may include all items of labor or material, power tools, and equipment actually used, utilities, pro rata charges for foreman, and all payroll charges such as Public Liability and Workmen's Compensation Insurance. No percentage for overhead and profit shall be allowed on items of Social Security and Sales Tax. If deductions are ordered the amount of credit shall be net cost to Owner as defined in section 5.6.1 of the Contract. Items considered as overhead shall include insurance other than that mentioned above, bond or bonds, superintendent, timekeeper, clerks, watchmen, use of small tools, miscellaneous supplies, incidental job costs, warranties, and all general home/field office expenses. The actual cost of Changes in the Work (other than those covered by unit prices set forth in the Contract Documents) shall be computed as follows:

Key West Light Station Renovations

.1 if the Contractor performs the actual Work, the maximum percentage mark-up for overhead shall be five percent (5%) and the maximum percentage for profit shall be five percent (5%);

.2 if the Subcontractor performs the actual Work, the subcontractor's percentage mark-up for overhead and profit shall be a maximum addition of ten percent (10%). If the Contractor does not perform the Work, the maximum mark-up for managing the Work will be five percent (5%);

3. If the Subcontractor performs part of the actual Work, his percentage mark-up for overhead and profit shall be a maximum addition of ten percent (10%) on his direct Work only. If the Contractor performs part of the actual Work, his percentage mark-up for overhead and profit shall be a maximum addition of ten percent (10%) on his direct Work only.

7.2.5 The Contractor shall furnish to the Owner through Project Management, an itemized breakdown of the quantities and prices used in computing the value of any change that might be ordered. Any additional supporting documentation requested by Project Management such as certified quotations or invoices shall be provided by the Contractor to Project Management at no additional cost to the Owner.

7.2.6 If the Contractor claims that any instructions given to him by Project Management, by drawings or otherwise, involve extra Work not covered by the Contract, he shall give Project Management written notice thereof within five (5) days after the receipt of such instructions and before proceeding to execute the work, except in emergencies endangering life or property, in which case the Contractor shall proceed in accordance with Paragraph 10.3.

.1 The written notice to Project Management for the Extra Work shall include a complete description of the extra Work, the total cost and a detailed cost breakdown by labor, material and equipment for each additional activity required to be performed. Mark-ups shall be limited as specified elsewhere in this Article.

.2 Except as otherwise specifically provided, no claim for additional cost shall be allowed unless the complete notice specified by this subparagraph is given by the Contractor.

7.2.7 Unless otherwise agreed in writing, the Contractor shall carry on the Work and maintain its progress during any dispute or claim proceeding, and Owner shall continue to make payments to the Contractor in accordance with the Contract Documents. Disputes unresolved shall be settled in accordance with subparagraph 4.7. The Contractor shall maintain completed daily force account forms in accordance with subparagraph 7.2.3 for any dispute or claim item.

7.3 Authority

7.3.1 Project Management will have authority to order minor changes in the Work not involving adjustment in the Contract sum or extension of the Contract Time and not inconsistent with the intent of the Contract Documents. Such changes shall be effected by written order issued through Project Management and shall be binding on the Owner and Contractor. The Contractor shall carry out such written order promptly.

8.0 TIME

8.1 Definitions

8.1.1 Unless otherwise provided, Contract Time is the period of time, including authorized adjustments, allotted in the Contract Documents for Substantial Completion of the Work.

Key West Light Station Renovations

8.1.2 The date of commencement of the Work is the date established in the Agreement. The date shall not be postponed by the failure to act of the Contractor or of persons or entities for which the Contractor is responsible.

8.1.3 The date of Substantial Completion is the date certified by Project Management in accordance with Paragraph 9.8.

8.1.4 The term "day" as used in the Contract Documents shall mean calendar day unless otherwise specifically defined.

8.1.5 The Owner/Project Management shall be the final judge as to whether Substantial Completion has been achieved and certifies the date to the Contractor.

8.2 Progress and Completion

8.2.1 Time limits stated in the Contract Documents are of the essence of the Contract. By executing the Agreement the Contractor confirms that the Contract Time is a reasonable period for performing the Work.

8.2.2 The Contractor shall not knowingly, except by agreement or instruction of the Owner in writing, prematurely commence operations on the site or elsewhere prior to the effective date of insurance required by Article 11 to be furnished by the Contractor. The date of commencement of the Work shall not be changed by the effective date of such insurance.

8.2.3 The Contractor shall proceed expeditiously with adequate forces and shall achieve Substantial Completion within the Contract Time.

8.3 Delays and Extensions of Time

8.3.1 If the Contractor is delayed, at any time, in the progress of the Work by any act or neglect of the Owner, Project Management, or the Architect/Engineer, or by any employee of either, or by any separate contractor employed by the Owner, or by changes ordered in the Work, or by fire, unusual delay in transportation, adverse weather conditions not reasonably anticipatable, unavoidable casualties or any causes beyond the Contractor's control, or by delay authorized by the Owner, Project Management, or by any other cause which Project Management determines may justify the delay, then the Contract Time shall be extended by no cost Change Order for such reasonable time as Project Management may determine, in accordance with subparagraph 6.2.7.

8.3.2 Any claim for extension of time shall be made in writing to Project Management not more than Seventy-two (72) hours after the commencement of the delay in accordance with paragraph 6.2.7; otherwise it shall be waived. Any claim for extension of time shall state the cause of the delay and the number of days of extension requested. If the cause of the delay is continuing, only one claim is necessary, but the Contractor shall report the termination of the cause for the delay within seventy-two (72) hours after such termination in accordance with paragraph 6.2.7; otherwise, any claim for extension of time based upon that cause shall be waived.

8.3.3 No claim for an increase in the Contract Sum for either acceleration or delay will be allowed for extensions of time pursuant to this Paragraph 8.3 or for other changes in the Construction Schedules.

8.3.4 If the Project is delayed as a result of the Contractor's refusal or failure to begin the Work on the date of commencement as defined in Paragraph 8.1.2, or his refusal or failure to

Key West Light Station Renovations

carry the Work forward expeditiously with adequate forces, the Contractor causing the delay shall be liable for, but not limited to, delay claims from other Contractors which are affected.

9.0 PAYMENTS AND COMPLETION

9.1 Contract Sum

9.1.1 The Contract Sum is stated in the Agreement and, including authorized adjustments, is the total amount payable by the Owner to the Contractor for performance of the Work under the Contract Documents.

9.2 Schedule of Values

9.2.1 Before submittal of the first Application for Payment, the Contractor shall submit to Project Management, a schedule of values allocated to various portions of the Work, prepared in such form and supported by such data to substantiate its accuracy as Project Management may require. This schedule, unless objected to by Project Management, shall be used as a basis for reviewing the Contractor's Applications for Payment.

9.3 Applications for Payment

9.3.1 At least fifteen days before the date established for each progress payment, the Contractor shall submit to Project Management an itemized Application for Payment for Work completed in accordance with the schedule of values. Such application shall be notarized and supported by such data substantiating the Contractor's right to payment as the Owner or Project Management may require, such as copies of requisitions from Subcontractors and material suppliers, and reflecting retainage if provided for elsewhere in the Contract Documents.

.1 Such applications may include request for payment on account of changes in the Work which have been properly authorized by Construction Change Directives but not yet included in Change Orders.

.2 Such applications may not include requests for payment of amounts the Contractor does not intend to pay to a Subcontractor or material supplier because of a dispute or other reason.

9.3.2 Unless otherwise provided in the Contract Documents, payments shall be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment suitably stored off the site at a location agreed upon in writing. Payment for materials and equipment stored on or off the site shall be conditioned upon compliance by the Contractor with procedures satisfactory to the Owner to establish the Owner's title to such materials and equipment or otherwise protect the Owner's interest, and shall include applicable insurance, storage and transportation to the site for such materials and equipment stored off the site.

9.3.3 The Contractor warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Contractor further warrants that upon submittal of an Application for Payment all Work for which approval for payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information and belief, be free and clear of liens, claims security interests or encumbrances in favor of the Contractor, Subcontractors, material suppliers, or other persons or

Key West Light Station Renovations

entities making a claim by reason of having provided labor, materials and equipment relating to the Work. All Subcontractors and Sub-subcontractors shall execute an agreement stating that title will so pass, upon their receipt of payment from the Contractor. The warranties are for the administrative convenience of the Owner only and do not create an obligation on the part of the Owner to pay directly any unpaid subcontractor, laborer or materialmen. Such persons must seek payment from the Contractor or his public construction bond surety only.

9.4 Approval for Payment

9.4.1 Project Management will assemble a Project Application for Payment by combining the Contractor's applications with similar applications for progress payments from other Contractors and certify the amounts due on such applications.

9.4.2 After the Project Management's receipt of the Project Application for Payment, Project Management will either approve the Application for Payment, with a copy to the Contractor, for such amount as Project Management determine is properly due, or notify the Contractor in writing of Project Management's reasons for withholding approval in whole or in part as provided in Subparagraph 9.5.1.

9.4.3 The issuance of a separate Approval for Payment will constitute representations made by Project Management to the Owner, based on their individual observations at the site and the data comprising the Application for Payment submitted by the Contractor, that the Work has progressed to the point indicated and that, to the best of Project Management's knowledge, information and belief, quality of the Work is in accordance with the Contract Documents. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to minor deviations from the Contract Documents correctable prior to completion and to specific qualifications expressed by Project Management. The issuance of a separate Approval for Payment will further constitute a representation that the Contractor is entitled to payment in the amount approved. However, the issuance of a separate Approval for Payment will not be a representation that Project Management has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed the Contractor's construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and material suppliers and other data requested by the Owner to substantiate the Contractor's right to payment or (4) made examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

9.5 Decisions to Withhold Approval

9.5.1 Project Management may decline to approve an Application for Payment if, in his opinion, the application is not adequately supported. If the Contractor and Project Management cannot agree on a revised amount, Project Management shall process the Application for the amount it deems appropriate. Project Management may also decline to approve any Application for Payment because of subsequently discovered evidence or subsequent inspections. It may nullify, in whole or part, any approval previously made to such extent as may be necessary in its opinion because of: (1) defective Work not remedied; (2) third party claims filed or reasonable evidence indicating probable filing of such claims; (3) failure of the Contractor to make payments properly to Subcontractors or for labor, materials, or equipment; (4) reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum; (5) damage to Project Management, the Owner, or another contractor working at

Key West Light Station Renovations

the project; (6) reasonable evidence that the Work will not be completed within the contract time; (7) persistent failure to carry out the Work in accordance with the Contract Documents.

No payment shall be made to the Contractor until certificates of insurance or other evidence of compliance by the Contractor, with all the requirements of Article 11, have been filed with the Owner and Project Management.

9.5.2 When the above reasons for withholding approval are removed, approval will be made for amounts previously withheld.

9.6 Progress Payments

9.6.1 After Project Management has issued an Approval for Payment, the Owner shall make payment in the manner and within the time provided in the Contract Documents, and shall so notify Project Management. From the total of the amount determined to be payable on a progress payment, a retainage in accordance with the Florida Local Government Prompt Payment Act, Chapter 218, Florida Statutes will be deducted and retained by the Owner until the final payment is made. The balance of the amount payable, less all previous payments, shall be approved for payment.

.1 It is understood and agreed that the Contractor shall not be entitled to demand or receive progress payment based on quantities of Work in excess of those provided in the proposal or covered by approved change orders, except when such excess quantities have been determined by Project Management to be a part of the final quantity for the item of Work in question.

.2 No progress payment shall bind the Owner to the acceptance of any materials or Work in place, as to quality or quantity. All progress payments are subject to correction at the time of final payments.

9.6.2 The Contractor shall promptly pay each Subcontractor, upon receipt of payment from the Owner, out of the amount paid to the Contractor on account of such Subcontractor's portion of the Work, the amount to which said Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of such Subcontractor's portion of the Work. The Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to Sub-subcontractors in similar manner.

9.6.3 Project Management will, on request, furnish to a Subcontractor, if practicable, information regarding percentages of completion or amounts applied for by the Contractor and action taken thereon by the Owner and Project Management on account of portions of the Work done by such Subcontractor.

9.6.4 Neither the Owner nor Project Management shall have an obligation to pay, or to see to, the payment of money to a Subcontractor except as may otherwise be required by law.

9.6.5 Payment to material suppliers shall be treated in a manner similar to that provided in Subparagraphs 9.6.2, 9.6.3 and 9.6.4.

9.6.6 A progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of Work not in accordance with the Contract Documents.

9.6.7 All material and work covered by partial payments made shall thereupon become the sole property of the Owner, and by this provision shall not be construed as relieving the Contractor from the sole responsibility for the materials and Work upon which payments have

Key West Light Station Renovations

been made or the restoration for any damaged material, or as a waiver of the right of the Owner or Project Management to require the fulfillment of all the terms of the Contract.

9.6.8 Except in case of bona fide disputes, or where the Contractor has some other justifiable reason for delay, the Contractor shall pay for all transportation and utility services not later than the end of the calendar month following that in which services are rendered and for all materials, tools, and other expendable equipment which are delivered at the site of the Project. The Contractor shall pay to each of his Subcontractors, not later than the end of the calendar month in which each payment is made to the Contractor, the representative amount allowed the Contractor on account of the Work performed by the Subcontractor. The Contractor shall, by an appropriate agreement with each Subcontractor, also require each Subcontractor to make payments to his suppliers and Sub-subcontractors in a similar manner.

9.8 Substantial Completion

9.8.1 Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so the Owner can occupy or utilize the Work for its intended use.

9.8.2 When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor and Project Management shall jointly prepare a comprehensive list of items to be completed or corrected. The Contractor shall proceed promptly to complete and correct items on the list. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents. Upon receipt of the list, Project Management will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the inspection discloses any item, whether or not included on the list, which is not in accordance with the requirements of the Contract Documents, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item upon notification by Project Management. The Contractor shall then submit a request for another inspection by Project Management, to determine Substantial Completion. When the Work or designated portion thereof is substantially complete, Project Management will prepare a Certificate of Substantial Completion, shall establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance, and shall fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion. The Certificate of Substantial Completion shall be submitted to the Owner and Contractor for their written acceptance of responsibilities assigned to them in such Certificate.

9.8.3 Upon Substantial Completion of the Work or designated portion thereof and upon application by the Contractor and certification by Project Management, the Owner shall make payment, reflecting adjustment in retainage, if any, for such Work or portion thereof as provided in the Contract Documents.

9.9 Partial Occupancy or Use

9.9.1 The Owner may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer as required under Subparagraph

Key West Light Station Renovations

11.3.1 and authorized by public authorities having jurisdiction over the Work. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Owner and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor and Project Management shall jointly prepare a list as provided under Subparagraph 9.8.2. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Owner and Contractor or, if no agreement is reached, by decision of Project Management.

9.9.2 Immediately prior to such partial occupancy or use, the Owner, Project Management and Contractor shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

9.9.3 Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute acceptance of Work not complying with the requirements of the Contract Documents.

9.10 Final Completion and Final Payment

9.10.1 Upon completion of the Work, the Contractor shall forward to Project Management a written Notice that the Work is ready for final inspection and acceptance and shall also forward to Project Management a final Contractor's Application for Payment. Upon receipt, Project Management will promptly make such inspection. When Project Management finds the Work acceptable under the Contract Documents and the Contract fully performed, Project Management will promptly issue a final Approval for Payment stating that to the best of their knowledge, information and belief, and on the basis of their observations and inspections, the Work has been completed in accordance with terms and conditions of the Contract Documents and that the entire balance found to be due the Contractor and noted in said final Approval is due and payable. Project Management's final Approval for Payment will constitute a further representation that conditions listed in Subparagraph 9.10.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.

9.10.2 Neither final payment nor any remaining retained percentage shall become due until the Contractor submits to Project Management (1) an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Owner or the Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied, (2) a certificate evidencing that insurance required by the Contract Documents to remain in force after final payment is made, is currently in effect and will not be canceled or allowed to expire until at least 30 days' prior written notice has been given to the Owner, (3) a written statement that the Contractor knows of no substantial reason that the insurance will not be renewable to cover the period required by the Contract Documents, (4) consent of surety, if any, to final payment and (5), if required by the Owner, other data establishing payment or satisfaction of obligations, such as receipts, releases and waivers of liens, claims, security interests or encumbrances arising out of the Contract. The following documents (samples included in section 1027) are required for Final Payment:

- (1) Application and Certificate for Payment

Key West Light Station Renovations

- (2) Continuation Sheet
- (3) Certificate of Substantial Completion
- (4) Contractor's Affidavit of Debts and Claims
- (5) Contractor's Affidavit of Release of Liens
- (6) Final Release of Lien
- (7) Contractor shall provide two (2) hard copies in tabulated divided binders and one (1) saved electronically tabbed and indexed in Adobe Acrobat file (.PDF) format delivered on a downloadable CD/DVD of all the following but not limited to:

- A. Project Record Documents (As Built Documents).
- B. Operating and maintenance data, instructions to the Owner's personnel.
- C. Warranties, bond and guarantees.
- D. Keys and keying schedule.
- E. Spare parts and maintenance materials.
- F. Electronic copies of approved submittals
- G. Evidence of payment and final release of liens and consent of surety to final release (includes final release from all utilities and utility companies).

9.10.3 Acceptance of final payment by the Contractor, a Subcontractor or material supplier shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment. Such waivers shall be in addition to the waiver described Subparagraph 4.7.5.

9.11 Payment of Subcontractors

9.11.1 Any requirement of this Article 9 that the Contractor furnish proof to the Owner or Project Management that the subcontractors and materialmen have been paid is for the protection and convenience of the Owner only. Unpaid subcontractors and materialmen may only seek payment from the Contractor and the surety that provided the Contractor's Public Construction Bond. **The Contractor must insert this paragraph 9.11 in all its contracts with subcontractors and materialmen.**

10.0 PROTECTION OF PERSONS AND PROPERTY

10.1 Safety Precautions and Programs

10.1.1 The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the performance of the Contract. The Contractor shall submit the Contractor's safety program to Project Management for review, approval and coordination with the safety programs of other Contractors.

10.1.2 In the event the Contractor encounters on the site material reasonably believed to be asbestos or polychlorinated biphenyl (PCB) which has not been rendered harmless, the Contractor shall immediately stop Work in the area affected and report the condition to the Owner and Project Management in writing. The Work in the affected area shall not thereafter

Key West Light Station Renovations

be resumed except by written agreement of the Owner and Contractor if in fact the material is asbestos or polychlorinated biphenyl (PCB) and has not been rendered harmless. The Work in the affected area shall be resumed in the absence of asbestos or polychlorinated biphenyl (PCB), or when it has been rendered harmless, by written agreement of the Owner and Contractor.

10.1.3 The Contractor shall not be required pursuant to Article 7 to perform without consent any Work relating to asbestos or polychlorinated biphenyl (PCB).

10.1.5 If reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance encountered on the site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop Work in the affected area and report the condition to Project Management in writing. The Owner, Contractor and Project Management shall then proceed in the same manner described in Subparagraph 10.1.2.

10.1.6 The Owner shall be responsible for obtaining the services of a licensed laboratory to verify a presence or absence of the material or substance reported by the Contractor and, in the event such material or substance is found to be present, to verify that it has been rendered harmless. Unless otherwise required by the Contract Documents, the Owner shall furnish in writing to the Contractor and Project Management the names and qualifications of persons or entities who are to perform tests verifying the presence or absence of such material or substance or who are to perform the task of removal or safe containment of such material or substance. The Contractor and Project Management will promptly reply to the Owner in writing stating whether or not any of them has reasonable objection to the persons or entities proposed by the Owner. If the Contractor or Project Management has an objection to a person or entity proposed by the Owner, the Owner shall propose another to whom the Contractor and Project Management have no reasonable objection.

10.2 Safety of Persons and Property

10.2.1 The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury or loss to:

- .1 employees on the Work and other persons who may be affected thereby;
- .2 the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody or control of the Contractor or the Contractor's Subcontractors or Sub-subcontractors;
- .3 other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction; and
- .4 construction or operations by the Owner or other Contractors.

10.2.2 The Contractor shall give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on safety of persons or property or their protection from damage, injury or loss.

10.2.3 The Contractor shall erect and maintain, as required by existing conditions and performance of the Contract, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying owners and users of adjacent sites and utilities.

Key West Light Station Renovations

10.2.4 When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the Work, the Contractor shall exercise utmost care and carry on such activities under supervision of properly qualified personnel.

10.2.5 The Contractor shall promptly remedy damage and loss to property referred to in Clauses 10.2.1.2, 10.2.1.3, 10.2.1.4 caused in whole or in part by the Contractor, a Subcontractor, a Sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible under Clauses 10.2.1.2, 10.2.1.3 and 10.2.1.4, except damage or loss attributable to acts or omissions of the Owner, Project Management or Architect or anyone directly or indirectly employed by any of them, or by anyone for whose acts any of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under Paragraph 3.18.

10.2.6 The Contractor shall designate a responsible member of the Contractor's organization at the site whose duty shall be the prevention of accidents. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Owner or Project Management.

10.2.7 The Contractor shall not load or permit any part of the construction or site to be loaded so as to endanger its safety.

10.3 Emergencies

10.3.1 In an emergency affecting safety of persons or property, the Contractor shall act, at the Contractor's discretion, to prevent threatened damage, injury or loss. Additional compensation or extension of time claimed by the Contractor on account of an emergency shall be determined as provided in Paragraph 4.7 and Article 7.

10.4 Site Specific Safety Plan

See Section 00970 for minimum requirements of job site safety plan.

11.0 INSURANCE AND BONDS

11.1.1 Prior to commencement of Work governed by this contract (including the pre-staging of personnel and material), the Contractor shall obtain, at its own expense, insurance as specified in the schedule set forth in Section 00110 Bid Form which are made part of this Agreement. The Contractor will ensure that the insurance obtained will extend protection to all subcontractors engaged by the Contractor. As an alternative the Contractor may require all subcontractors to obtain insurance consistent with the attached schedules.

11.1.2 The Contractor will not be permitted to commence Work governed by the Agreement (including pre-staging of personnel and material) until satisfactory evidence of the required insurance has been furnished to the County as specified below. Delays in the commencement of Work resulting from the failure of the Contractor to provide satisfactory evidence of the required insurance shall not extend deadlines specified in this Agreement and any penalties and failure to perform assessments shall be imposed as if the Work commenced on the specified date and time, except for the Contractor's failure to provide satisfactory evidence of insurance.

11.1.3 The Contractor shall maintain the required insurance throughout the entire term of this contract and any extensions specified in any attached schedules. Failure to comply with this provision may result in the immediate suspension of all Work until the required insurance has

Key West Light Station Renovations

been reinstated or replaced. Delays in the completion of Work resulting from the failure of the Contractor to maintain the required insurance shall not extend deadlines specified in this Agreement and any penalties and failure to perform assessments shall be imposed as if the Work commenced on the specified date and time, except for the Contractor's failure to provide satisfactory evidence of insurance.

11.1.4 The Contractor shall provide, to the County in care of Project Management as satisfactory evidence of the required insurance, either:

Certificate of Insurance

Or

A certified copy of the actual insurance policy

11.1.5 The County, at its sole option, has the right to request a certified copy of any or all insurance policies required by this Contract.

11.1.6 All insurance policies must specify that they are not subject to cancellation, nonrenewal, material change, or reduction in coverage unless a minimum of thirty (30) days prior notification is given to the County by the insurer.

11.1.7 The acceptance and/or approval of the Contractor's insurance shall not be construed as relieving the Contractor from any liability or obligation assumed under this contract or imposed by law.

11.1.8 The Monroe County Board of County Commissioners, its employees and officials will be included as "Additional Insured" on all policies, except for Worker's Compensation.

11.1.9 In addition, the County will be named as an additional insured and loss payee on all policies covering County-owned property.

11.1.10 Any deviations from these General Insurance Requirements must be requested in writing on the County prepared form entitled "Request for Waiver of Insurance Requirements" and approved by the Monroe County's Risk Manager.

11.2 Builder's Risk Insurance: Required

11.3 Public Construction Bond

11.3.1 A Public Construction Bond in the amount of the cost of construction is a requirement of this Contract. The bond must be from an A rated company doing business in the State of Florida.

12.0 UNCOVERING AND CORRECTION OF WORK

12.1 Uncovering of Work

12.1.1 If a portion of the Work is covered contrary to Project Management's request or to requirements specifically expressed in the Contract Documents, it must, if required in writing by Project Management, be uncovered for their observation and be replaced at the Contractor's expense without change in the Contract Time.

Key West Light Station Renovations

12.1.2 If a portion of the Work has been covered which Project Management has not specifically requested to observe prior to its being covered, Project Management may request to see such Work and it shall be uncovered by the Contractor, if such Work is in accordance with the Contract Documents, costs of uncovering and replacement shall, by appropriate Change Order, be charged to the Owner, if such Work is not in accordance with the Contract Documents, the Contractor shall pay such costs unless the condition was caused by the Owner or one of the other Contractors in which event the Owner shall be responsible for payment of such costs.

12.2 Correction of Work

12.2.1 The Contractor shall promptly correct Work rejected by Project Management or failing to conform to the requirements of the Contract Documents, whether observed before or after Substantial Completion and whether or not fabricated, installed or completed. The Contractor shall bear costs of correcting such rejected Work, including additional testing and inspections and compensation for Project Management's services and expenses made necessary thereby.

12.2.2 If, within one year after the date of Substantial Completion of the Work or designated portion thereof, or after the date for commencement of warranties established under Subparagraph 9.9, or by terms of an applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, the Contractor shall correct it promptly after receipt of written notice from the Owner to do so unless the Owner has previously given the Contractor a written acceptance of such condition. This period of one year shall be extended with respect to portions of Work first performed after Substantial Completion by the period of time between Substantial Completion and the actual performance of the Work. This obligation under this Subparagraph 12.2.2 shall survive acceptance of the Work under the Contract and termination of the Contract. The Owner shall give such notice promptly after discovery of the condition.

12.2.3 The Contractor shall remove from the site portions of the Work which are not in accordance with the requirements of the Contract Documents and are neither corrected by the Contractor nor accepted by the Owner.

12.2.4 If the Contractor fails to correct nonconforming Work within a reasonable time, the Owner may correct it in accordance with Paragraph 2.4. If the Contractor does not proceed with correction of such nonconforming Work within a reasonable time fixed by written notice from Project Management, the Owner may remove it and store the salvageable materials or equipment at the Contractor's expense. If the Contractor does not pay costs of such removal and storage within ten days after written notice, the Owner may upon ten additional days' written notice sell such materials and equipment at auction or at private sale and shall account for the proceeds thereof, after deducting costs and damages that should have been borne by the Contractor, including compensation for Project Management's services and expenses made necessary thereby. If such proceeds of sale do not cover costs which the Contractor should have borne, the Contract Sum shall be reduced by the deficiency. If payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference to the Owner.

12.2.5 The Contractor shall bear the cost of correcting destroyed or damaged construction, whether completed or partially completed, of the Owner or other Contractors caused by the Contractor's correction or removal of Work which is not in accordance with the requirements of the Contract Documents.

Key West Light Station Renovations

12.2.6 Nothing contained in this Paragraph 12.2 shall be construed to establish a period of limitation with respect to other obligations which the Contractor might have under the Contract Documents. Establishment of the time period of one year as described in Subparagraph 12.2.2, relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations other than specifically to correct the Work.

12.3 Acceptance of Nonconforming Work

12.3.1 If the Owner prefers to accept Work which is not in accordance with the requirements of the Contract Documents, the Owner may do so instead of requiring its removal and correction, in which case the Contract Sum will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

13.0 MISCELLANEOUS PROVISIONS

13.1 Governing Law

13.1.1 The contract shall be governed by the laws of the State of Florida. Venue for any claims or disputes arising under this contract shall be in the Circuit Court of the 16th Judicial Circuit of the State of Florida.

13.4 Rights and Remedies

13.4.1 Duties and obligations imposed by the Contract Documents and rights and remedies available thereunder shall be in addition to and not a limitation of duties, obligations, rights and remedies otherwise imposed or available by law.

13.4.2 No action or failure to act by the Owner, Project Management, Architect or Contractor shall constitute a waiver of a right or duty afforded them under the contract, nor shall such action or failure to act constitute approval of or acquiescence in a breach thereunder, except as may be specifically agreed in writing.

13.5 Tests and Inspections

13.5.1 Tests, inspections and approvals of portions of the Work required by the Contract Documents or by laws, ordinances, rules, regulations or orders of public authorities having jurisdiction shall be made at an appropriate time. Unless otherwise provided, the Contractor shall make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to the Owner, or with the appropriate public authority, and shall bear all related costs of tests, inspections and approvals. The Contractor shall give Project Management timely notice of when and where tests and inspections are to be made so Project Management may observe such procedures. The Owner shall bear costs of test, inspections or approvals which do not become requirements until after bids are received or negotiations concluded.

13.5.2 If Project Management, Owner or public authorities having jurisdiction determine that portions of the Work require additional testing, inspection or approval not included under Subparagraph 13.5.1, Project Management will, upon written authorization from the Owner, instruct the Contractor to make arrangements for such additional testing, inspection or approval by an entity acceptable to the Owner, and the Contractor shall give timely notice to Project Management of when and where tests and inspections are to be made so Project Management may observe such procedures. The Owner shall bear such costs except as provided in Subparagraph 13.5.3.

13.5.3 If such procedures for testing, inspection or approval under Subparagraphs 13.5.1 and 13.5.2 reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, the Contractor shall bear all costs made necessary by such failure including those of repeated procedures and compensation for Project Management's services and expenses.

13.5.4 Required certificates of testing, inspection or approval shall, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to Project Management.

13.5.5 If Project Management is to observe tests, inspections or approvals required by the Contract Documents, Project Management will do so promptly and, where practicable, at the normal place of testing.

13.5.6 Test or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

13.7 Commencement of Statutory Limitation Period

13.7.1 The statute of limitations applicable to this contract are as provided in Section 95.11 (3) (C), Florida Statutes.

Key West Light Station Renovations

14.0 TERMINATION OR SUSPENSION OF THE CONTRACT

14.1 Termination by the Owner for Cause

14.1.1 The Owner may terminate the Contract if the Contractor:

- .1 persistently or repeatedly refuses or fails to supply enough properly skilled workers or proper materials;
- .2 fails to make payment to Subcontractors for materials or labor in accordance with the respective agreements between the Contractor and the Subcontractors;
- .3 persistently disregards laws, ordinances, or rules, regulations or orders of a public authority having jurisdiction;
- .or
- .4 Otherwise is guilty of substantial breach of a provision of the Contract Documents.

14.1.2 When any of the above reasons exist, the Owner, after consultation with Project Management, and upon certification by Project Management that sufficient cause exists to justify such action, may without prejudice to any other rights or remedies of the Owner and after giving the Contractor and the Contractor's surety, if any, 72 hours written notice, terminate employment of the Contractor and may, subject to any prior rights of the surety:

- .1 take possession of the site and of all materials, equipment, tools, and construction equipment and machinery thereon owned by the Contractor;
- .2 accept assignment of subcontracts pursuant to Paragraph 5.4; and
- .3 finish the Work by whatever reasonable method the Owner may deem expedient.

14.1.3 When the Owner terminates the Contract for one of the reasons stated in Subparagraph

14.1.1, the Contractor shall not be entitled to receive further payment until the Work is finished.

14.2 Suspension or Termination by the Owner for Convenience

14.2.1 The Owner may, without cause, order the Contractor in writing to terminate, suspend, delay or interrupt the Work in whole or in part for such period of time as the Owner may determine.

WHEREAS, the AIPP Ordinance establishes an Arts in Public Places Committee to review responses to Requests for Proposals for art to be acquired, commissioned, installed, and maintained in public construction projects and to advise the BOCC on such responses; and

WHEREAS, the BOCC desires to promote understanding and awareness of the visual arts and to enrich the public environment for residents and visitors; and

WHEREAS, the BOCC desires to acquire public artwork to be installed, placed, and/or located at Marathon Courthouse; and

WHEREAS, in conformity with the AIPP Ordinance and MCC §2-233, the Artist was selected by the AIPP Committee to provide public artwork for this location; and

Such termination shall take place immediately upon receipt of written notice of said termination. Any waiver of any breach of covenants herein contained to be kept and performed by Artist shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent the County from declaring a forfeiture for any succeeding breach either of the same conditions or of any other conditions.
14. **ENTIRE AGREEMENT:** This agreement constitutes the entire agreement of the parties hereto with respect to the subject matter hereof and supersedes any and all prior agreements with respect to such subject matter between the County and the Artist.

Proposal for Marathon FL Courthouse Courtyard

Introduction to artist's work

I'm an eco-artist whose work is a synthesis of sculpture and sustainable design. My unique process is to upcycle salvage propane tanks into functional seating sculptures. I carefully dissect the tanks and reassemble the pieces, while doing no additional forming of the metal. The result is an object which is playful, comfortable, durable and ecologically responsible. I have been granted a series of patents for my designs, which have won national and International awards for their aesthetic, technical, and innovative qualities. My work has been installed in civic, commercial and residential locations across the US and in Europe.

My seats are ideal for public settings for multiple reasons. First of all, they are extremely durable because the steel tanks I repurpose have a substantial wall thickness of 1/4 inch. When the curved and spherical elements are welded together they create a very rigid structure. Secondly, they are very comfortable. After extensive research I've determined an ideal relative position of curved seat to curved backrest which provides good lumbar support for a wide range of body sizes, an ergonomic advancement over traditional benches with flat seats. Thirdly, my seats are incredibly green. I start with a sustainable material then use a manufacturing process which takes minimal energy to produce an object which contains 99% post consumer recycled content. Finally, my seats make an easily recognizable ecological statement. Because propane tanks are so common people from all walks of life are able to appreciate their transformation into functional works of art.

Description of proposed site specific artwork

The artwork I am proposing for the Marathon court house Courtyard Targeted Area is two pieces - a love seat and a bench. Because the material I use allows for a wide range of design options I would like to work with the selection committee and art council staff to arrive at two site specific designs for this location, based on my previous body of work. For example, it could be one symmetric and one asymmetric design. I suggest placing the two seats at right angles to one another. This arrangement would create a sense of place and be a comfortable spot where jurors, witnesses and employees could sit, talk, and relax. I would suggest coloring the seats in blues or greens to sync with the surrounding colors in the ocean and sky.

I have included in the sketch two different designs, and the included model represents a third design option. However these are just three possibilities. To get a better sense of the range of design options I strongly encourage committee members to look at my website where you can also get a better sense of what the pieces look like installed in the landscape: www.collinselg.com

Climate tolerant

My benches are extremely durable and able to withstand sub-tropical climate conditions including hurricanes. They are fabricated from 1/4 thick steel and have a very rigid structure and are substantial in weight (250-350 lbs each). There are no flat surfaces where water can collect. The curved forms allow high winds to pass through and around them. For this salt water adjacent location, once fabricated, the seats would be sandblasted and then coated in a zinc rich epoxy powder coat primer, followed by a top colored powder coat. Powder coat is an extremely durable, baking on coating for metal, similar to an enamel.

Fabrication & Installation

I would fabricate these seats at my workshop in California and then ship them by truck to the site in crates. A lift gate would lower them to the ground. The crates would be moved to the site on furniture dollies and then the crates removed. The seats are well balanced on their four feet and have a low center of gravity, so they would just need to be bolted or staked down with hardware I would supply. Installation is simple. I recently installed six benches in Orinda, CA, in only four hours, so I'm confident it would only take a couple of hours to install two seats. In consideration of the limited budget for this commission, it makes the most sense to hire someone local to install them. I have spoken with art council staff and was reassured that this would be possible. I have included an installation fee in the budget.

Budget options

The attached budget is for two benches, fabricated, delivered and installed. If the overall budget for this location was increased to include additional landscaping I would be glad to act as a consultant to help place the benches on site. In the event there is no additional funding for landscaping and the selection committee feels strongly about including it then another option would be to use only one of my benches, leaving enough money in the budget for this landscaping. This is represented as budget "B" on the attached budget I've submitted. Of course these benches would be easy to unbolt and moved to a different part of the courtyard in future if area was re-landscaped at a later date.

Timeframe

I will need 8-10 weeks for fabrication and shipping once a deposit has been received.

Maintenance

Powder coat is a very durable finish and the only maintenance required is keeping it clean by wiping it down occasionally with a damp cloth.

LESSEE shall be entitled to use the common areas of the DJJ Building, such as bathrooms, lobby and other common areas incidental to the purpose of their occupancy of the premises, including use of conference rooms.

5. **TAXES.** The LESSEE must pay all taxes and assessments, including any sales or use tax, levied by any government agency with respect to the LESSEE's operations on the premises. If at any time after any tax or assessment has become due or payable, the lessee, or its legal representative, neglects to pay the tax or assessment, LESSOR shall be entitled to pay the tax or assessment at any time after that and the amount paid by LESSOR shall be deemed to be additional rent for the leased premises, due and payable by the lessee.

6. **INSURANCE.** The Department of Health, State of Florida, provides General Liability Coverage for Monroe County Health Department Operations through the Division of Risk Management and the State Risk Management Trust Fund. Florida Chapter 284 and Section 768.24(16) authorize the State to administer a self-insurance program and F.S. Section 768.24(5) currently sets the general liability coverage limits as follows: \$100,000 each person; \$200,000 each occurrence.

7. **CONDITION OF PREMISES.** The LESSEE must keep the premises in good order and condition. The LESSEE must promptly repair damage to the premises. At the end of the term of this Agreement, the LESSEE must surrender the premises to the COUNTY in the same good order and condition as the premises were on the commencement of the term, normal wear and tear excepted. The LESSEE is solely responsible for any improvements to land and appurtenances placed on the premises.

8. **IMPROVEMENTS.** No structure or improvements of any kind shall be placed upon the land without prior approval in writing by the County Administrator, a building permit issued by the COUNTY and any other agency, federal or state, as required by law. Any such structure or improvements shall be constructed in a good and workmanlike manner at LESSEE's sole cost and expense. Subject to any landlord's lien, any structures or improvements constructed by LESSEE shall be removed by the LESSEE at LESSEE's sole cost and expense, by midnight on the day of termination of this Agreement or extension hereof, and the land restored as nearly as practical to its condition at the time this agreement is executed unless the Board of County Commissioners accepts in writing delivery of the premises together with any structures or improvements constructed by LESSEE. Portable or temporary advertising signs are prohibited.

LESSEE shall perform, at the sole expense of LESSEE, all work required in the preparation of the property or premises hereby leased for occupancy by LESSEE; and LESSEE does hereby accept the leased property or premises as now being in fit and tenantable condition for all purposes of LESSEE.

COUNTY reserves the right to inspect the leased area and to require whatever adjustment to structures or improvements as COUNTY, in its sole discretion, deems necessary. Any adjustments shall be done at LESSEE's sole costs and expense. Any building permits sought by LESSEE shall be subject to permit fees at LESSEE's sole cost and expense.

9. **IDEMNIFICATION/HOLD HARMLESS.** The LESSEE, as a state agency or subdivision as defined in Section 768.28, Florida Statutes, agrees to be fully responsible to the limits set forth in such statute for its own negligent acts or omissions, or intentional tortuous actions, which result in claims or suits against either the County or the LESSEE, and agrees to be liable to the statutory limits for any damages proximately caused by said acts or omissions, or intentional tortuous acts.

The County, as a political sub-division of the State of Florida, as defined in Section 768.28, Florida Statutes, agrees to be fully responsible to the limits set forth in such statute for its own negligent acts or omissions, or intentional tortuous acts, which result in claims or suits against either the LESSEE or the County, and agrees to be liable to the statutory limits for any damages proximately caused by said acts or omissions, or intentional tortuous acts.

Nothing contained in this Section shall be construed to be a waiver by either party of any protections under sovereign immunity, Section 768.28 Florida Statutes, or any other similar provision of law. Nothing contained herein shall be construed to be a consent by either party to be sued by third parties in any matter arising out of this or any other Agreement.

10. **NON-DISCRIMINATION.** LESSOR and LESSEE agree that there will be no discrimination against any person, and it is expressly understood that upon a determination by a court of competent jurisdiction that discrimination has occurred, this Lease Agreement automatically terminates without any further action on the part of any party, effective the date of the court order. LESSOR and LESSEE agree to comply with all Federal and Florida statutes, and all local ordinances, as applicable, relating to nondiscrimination. These include but are not limited to: 1) Title VI of the Civil Rights Act of 1964 (PL 88-352) which prohibits discrimination on the basis of race, color or national origin; 2) Title IX of the Education Amendment of 1972, as amended (20 USC ss. 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; 3) Section 504 of the Rehabilitation Act of 1973, as amended (20 USC s. 794), which prohibits discrimination on the basis of handicaps; 4) The Age Discrimination Act of 1975, as amended (42 USC ss. 6101-6107) which prohibits discrimination on the basis of age; 5) The Drug Abuse Office and Treatment Act of 1972 (PL 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; 6) The Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (PL 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; 7) The Public Health Service Act of 1912, ss. 523 and 527 (42 USC ss. 690dd-3 and 290ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; 8) Title VIII of the Civil Rights Act of 1968 (42 USC s. et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; 9) The Americans with Disabilities Act of 1990 (42 USC s. 1201 Note), as may be amended from time to time, relating to nondiscrimination on the basis of disability; 10) Sections 13-101, et seq., Monroe County Code, relating to discrimination based on race, color, sex, religion, disability, national origin, ancestry, sexual orientation, gender identity or expression, familial status or age; 11) Any other nondiscrimination provisions in any Federal or state statutes which may apply to the parties to, or the subject matter of, this Lease Agreement.

11. **TERMINATION.** This Agreement may be terminated at the discretion of the COUNTY in the following circumstances:

- a) Lessee fails to pay the rent when due;
- b) Lessee fails to obtain the insurance required under this lease or allows the required insurance coverage to lapse or fall below the minimum required;
- c) Lessee otherwise breaches the terms of this lease.

Unless the COUNTY has accepted in writing a delay in performance of duties, the failure to perform said duties shall constitute a default under the terms of this agreement. In the case of default/breach, the COUNTY shall first give LESSEE a written notification stating the default/breach and that Lessee has ten (10) days to correct the default/breach. If the Lessee has not commenced correction of the default/breach at the end of the 10 days, then the COUNTY may terminate the lease in its discretion. If it shall be necessary to employ the services of an attorney in order to enforce its rights under this Agreement, the COUNTY shall be entitled to reasonable attorney's fees. Waiver of a default in any particular month shall not bind the COUNTY to forego the provisions of this paragraph and any subsequent default shall be grounds for termination. The COUNTY may in its discretion treat the LESSEE in default and terminate this Agreement immediately, without prior notice, upon failure of LESSEE to comply with any provision of this Agreement. LESSEE

may terminate this Agreement upon giving thirty days prior written notice to COUNTY.

12. **DEFAULT.** LESSOR'S right to repossess, operate, or sublease: If the rental reserved by this lease or other charges to be paid under this lease by LESSEE, or any part of this lease, are not paid when due and remain unpaid for a period of 10 days after notice in writing, or if LESSEE fails to promptly perform any covenant, condition, or agreement by it to be performed under this lease and such failure shall continue for a period of ten (10) days after notice in writing specifying the nature of such failure, or if LESSEE abandons the demised premises, or if LESSEE breaches any obligation under this lease to be performed by it which cannot be cured, then , and in any such event, LESSEE shall be deemed to be in default and LESSOR, without further notice may at its option take possession of the leased premises, including all improvements and fixtures and equipment located at, in or about the premises.

By legal proceedings, LESSOR shall take, operate, or sublease the premises, in whole or in part, for the account of the LESSEE as the LESSOR in good faith may deem proper, for a term not exceeding the unexpired period of the full term of this lease. LESSOR shall receive all proceeds and rent accruing from such operation or subleasing of the leased premises or fixtures and equipment. LESSOR shall apply these proceeds first, to the payment of all costs and expenses incurred by the LESSOR in obtaining the possession of, and the operation or subleasing of the premises or fixtures and equipment, including reasonable attorney's fees, commissions, and collection fees, and any alteration or repairs reasonably necessary to enable the LESSOR to operate or sublease the premises or fixtures and equipment; and second, to the payment of all such amounts as may be due or become payable under the provisions of this lease. The remaining balance, if any, given by the LESSOR to the LESSEE, shall be paid over to the LESSEE at the expiration of the full term of this lease or on the sooner termination of the lease by written notice of termination.

Repossession or subleasing not a termination; LESSOR'S right to terminate not forfeited: No repossession, operation, or subleasing of the premises or of fixtures and equipment shall be construed as an election by the LESSOR to terminate this lease unless a written notice of such intention is given by the LESSOR to the LESSEE. Notwithstanding any such operation or subleasing without termination of this lease, the LESSOR may at any time after that elect to terminate the lease in the event that the LESSEE remains in default under this lease.

LESSEE'S obligation to pay deficiencies: In the event the proceeds of rentals received by the LESSOR under the provisions of this Section are insufficient to pay all costs and expenses and all amounts due and becoming due under this lease, the LESSEE shall pay to the LESSOR on demand such deficiency as may occur or exist.

LESSOR'S right to terminate lease: In the event of LESSEE'S default, LESSOR may, at its option without further notice, terminate this lease and all interest of LESSEE under this lease, and may then take possession of the leased premises by legal proceedings.

LESSOR'S right on termination to recover amount equal to rent reserved: If this lease is terminated by the LESSOR by reason of any default by LESSEE, LESSOR shall be entitled to recover from the LESSEE, at the time of such

termination the excess, if any, of the amount of rent reserved in this lease for the balance of the term of the lease.

LESSOR'S remedies are cumulative: Each and all of the remedies given to the LESSOR in this lease or by law are cumulative, and the exercise of one right of remedy shall not impair its right to exercise any other right or remedy.

13. **DEFAULT-WAIVER.** The waiver by the LESSEE or the COUNTY of an act or omission that constitutes a default of an obligation under this Agreement does not waive another default of that or any other obligation.

14. **ASSIGNMENT.** The LESSEE may not assign this Agreement or assign or subcontract any of its obligations under this Agreement without the approval of the COUNTY's Board of County Commissioners. All the obligations of this Agreement will extend to and bind the legal representatives, successors and assigns of the LESSEE and the COUNTY.

15. **SUBORDINATION.** This Agreement is subordinate to the laws and regulations of the United States, the State of Florida, and the COUNTY, whether in effect on commencement of this lease or adopted after that date.

16. **GOVERNING LAWS/VENUE.** This Agreement is governed by the laws of the State of Florida applicable to contracts made and to be performed entirely in the State. In the event that any cause of action or administrative proceeding is instituted for the enforcement or interpretation of this Lease Agreement, the LESSOR and LESSEE agree that venue will lie in the appropriate court or before the appropriate administrative body in Monroe County, Florida. The LESSOR AND LESSEE agree that, in the event of conflicting interpretations of the terms or a term of this Lease Agreement by or between any of them the issue shall be submitted to mediation prior to the institution of any other administrative or legal proceeding.

17. **CONSTRUCTION.** This Agreement has been carefully reviewed by the LESSEE and the COUNTY. Therefore, this Agreement is not to be construed against either party on the basis of authorship.

18. **NOTICES.** Notices in this Agreement, unless otherwise specified, must be sent by certified mail to the following:

19. **RELATIONSHIP OF PARTIES.** LESSEE is, and shall be, in the performance of all works, services, and activities under this Agreement, an independent agency, and not an employee, agent or servant of the BOCC. LESSEE shall exercise control, direction, and supervision over the personnel and volunteers who use the premises. LESSEE shall have no authority whatsoever to act on behalf and/or as agent for the BOCC in any promise, agreement or representation other than specifically provided for in this agreement. The BOCC shall at no time be legally responsible for any negligence on the part of LESSEE, its employees, agents or volunteers resulting in

either bodily or personal injury or property damage to any individual, property or corporation.

20. **FULL UNDERSTANDING.** This Agreement is the parties' final mutual understanding. It replaces any earlier agreements or understandings, whether written or oral. This Agreement cannot be modified or replaced except by another written and signed agreement.

21. **RIGHT OF INGRESS AND EGRESS.** LESSEE, its agent, employees, customers, suppliers, and patrons shall have the right of ingress and egress to and from the lease premises, which shall not be unreasonably restricted by the COUNTY.

22. **RIGHT OF INSPECTION AND REPAIRS.** LESSOR shall have access to the premises, and each and every part thereof, during LESSEE'S regular business hours for the purpose of inspecting the same, making repairs, and posting notices that LESSOR may deem to be for the protection of the LESSOR or the property.

23. **AMENDMENTS TO BE IN WRITING.** This lease may be modified or amended only by a writing duly authorized and executed by both LESSOR and LESSEE. It may not be amended or modified by oral agreements or understandings between the parties unless the same shall be reduced to writing duly authorized and executed by both LESSOR and LESSEE.

24. **HOLDING OVER.** No holding over and continuation of any business of the LESSEE after the expiration of the term hereof shall be considered to be a renewal or extension of this lease unless written approval of such holding over and a definite agreement to such effect is signed by the LESSOR defining the length of such additional term. Any holding over without consent of the LESSOR shall be considered to be a day-to-day tenancy at a rental of three times the daily rate of the fixed minimum monthly rental provided herein, computed on the basis of a 30-day month.

25. **ENTIRE AGREEMENT.** This writing embodies the entire agreement and understanding between the parties hereto, and there are no other agreements and understandings, oral or written, with reference to the subject matter hereof that are not merged herein and superseded hereby. Any amendment to this lease shall be in writing, approved by the Board of County Commissioners, and signed by both parties before it becomes effective.

26. **SEVERABILITY.** If any term, covenant, condition or provision of this Lease Agreement (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions and provisions of this Lease Agreement, shall not be affected thereby; and each remaining term, covenant, condition and provision of this Lease Agreement shall be valid and shall be enforceable to the fullest extent permitted by law unless the enforcement of the remaining terms, covenants, conditions and provisions of this Lease Agreement would prevent the accomplishment of the original intent of this Lease Agreement. The LESSOR and LESSEE agree to reform the Lease Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

27. **ATTORNEY'S FEES AND COSTS.** The LESSOR and LESSEE agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this Agreement, the prevailing party shall be entitled to reasonable attorney's fees, court costs, and out-of-pocket expenses, as an award against the non-prevailing party, and shall include attorney's fees, courts costs, and out-of-pocket expenses in appellate proceedings. Mediation proceedings initiated and conducted pursuant to this Lease Agreement shall be in accordance with the Florida Rules of Civil Procedure and usual and customary procedures required by the circuit court of Monroe County.

28. **BINDING EFFECT.** The terms, covenants, conditions, and provisions of this Lease Agreement shall bind and inure to the benefit of the LESSOR and LESSEE and their respective legal representatives, successors, and assigns.

29. **AUTHORITY.** Each party represents and warrants to the other that the execution, delivery and performance of this Lease Agreement have been duly authorized by all necessary County and corporate action, as required by law.

30. **ADJUDICATION OF DISPUTES OR DISAGREEMENTS.** LESSOR and LESSEE agree that all disputes and disagreements shall be attempted to be resolved by meet and confer sessions between representatives of each of the parties. If no resolution can be agreed upon within 30 days after the first meet and confer session, the issue or issues shall be discussed at a public meeting of the Board of County Commissioners. If the issue or issues are still not resolved to the satisfaction of the parties, then any party shall have the right to seek such relief or remedy as may be provided by this Lease Agreement or by Florida law.

31. **COOPERATION.** In the event any administrative or legal proceeding is instituted against either party relating to the formation, execution, performance, or breach of this Lease Agreement, LESSOR and LESSEE agree to participate, to the extent required by the other party, in all proceedings, hearings, processes, meetings, and other activities related to the substance of this Lease Agreement or provision of the services under this Lease Agreement. LESSOR and LESSEE specifically agree that no party to this Lease Agreement shall be required to enter into any arbitration proceedings related to this Lease Agreement.

32. **COVENANT OF NO INTEREST.** LESSOR and LESSEE covenant that neither presently has any interest, and shall not acquire any interest, which would conflict in any manner or degree with its performance under this Lease Agreement, and that the only interest of each is to perform and receive benefits as recited in this Lease Agreement.

33. **CODE OF ETHICS.** LESSOR agrees that officers and employees of the COUNTY recognize and will be required to comply with the standards of conduct for public officers and employees as delineated in Section 112.313, Florida Statutes, regarding, but not limited to, solicitation or acceptance of gifts; doing business with one's agency; unauthorized compensation; misuse of public position, conflicting employment or contractual relationship; and disclosure or use of certain information.

34. **NO SOLICITATION/PAYMENT.** The LESSOR and LESSEE warrant that, in respect to itself, it has neither employed nor retained any company or person, other

than a bona fide employee working solely for it, to solicit or secure this Lease Agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for it, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Lease Agreement. For the breach or violation of the provision, the LESSEE agrees that the LEESSOR shall have the right to terminate this Lease Agreement without liability and, at its discretion, to offset from monies owed, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

35. **PUBLIC ACCESS.** The LESSOR and LESSEE shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the LESSOR and LESSEE in conjunction with this Lease Agreement; and the LESSOR shall have the right to unilaterally cancel this Lease Agreement upon violation of this provision by Lessee.

36. **NON-WAIVER OF IMMUNITY.** Notwithstanding the provisions of Sec. 768.28, Florida Statutes, the participation of the LESSOR and LESSEE in this Lease Agreement and the acquisition of any commercial liability insurance coverage, self-insurance coverage, or local government liability insurance pool coverage shall not be deemed a waiver of immunity to the extent of liability coverage, nor shall any contract entered into by the LESSOR be required to contain any provision for waiver.

37. **PRIVILEGES AND IMMUNITIES.** All of the privileges and immunities from liability, exemptions from laws, ordinances, and rules and pensions and relief, disability, workers' compensation, and other benefits which apply to the activity of officers, agents, or employees of any public agents or employees of the LESSOR, when performing their respective functions under this Lease Agreement within the territorial limits of the County shall apply to the same degree and extent to the performance of such functions and duties of such officers, agents, volunteers, or employees outside the territorial limits of the County.

38. **NON-RELIANCE BY NON-PARTIES.** No person or entity shall be entitled to rely upon the terms, or any of them, of this Lease Agreement to enforce or attempt to enforce any third-party claim or entitlement to or benefit of any service or program contemplated hereunder, and the LESSOR and LESSEE agree that neither the LESSOR nor the LESSEE or any agent, officer, or employee of either shall have the authority to inform, counsel, or otherwise indicate that any particular individual or group of individuals, entity or entities, have entitlements or benefits under this Lease Agreement separate and apart, inferior to, or superior to the community in general or for the purposes contemplated in this Lease Agreement.

39. **ATTESTATIONS.** LESSEE agrees to execute such documents as the LESSOR may reasonably require, to include a Public Entity Crime Statement, an Ethics Statement, and a Drug-Free Workplace Statement.

40. **EXECUTION IN COUNTERPARTS.** This Lease Agreement may be executed in any number of counterparts, each of which shall be regarded as an original, all of which taken together shall constitute one and the same instrument

and any of the parties hereto may execute this Lease Agreement by signing any such counterpart.

41. **EFFECTIVE DATE.** This Agreement will take effect on November 1, 2015.

IN WITNESS WHEREOF, each party has caused this Agreement to be executed by its duly authorized representative.

AGREEMENT

THIS AGREEMENT, made this _____ day of _____, 2016 by and between the Board of County Commissioners of Monroe County, Florida (hereinafter referred to as BOCC), whose address is 1100 Simonton St., Key West, Fl. 33040 and the Monroe County Sheriffs Office, (hereinafter referred to as MCSO), whose address is 5525 College Rd., Key West, Florida 33040.

WHEREAS, the BOCC leases premises to other governmental agencies servicing the County community; and

WHEREAS, MCSO has requested the continued use of County office space; and

WHEREAS, the BOCC has determined that it is in the best interests of Monroe County to continue to provide approximately 320 square feet of office space at the Murray E. Nelson Government and Cultural Center, located at 102050 Overseas Highway in Key Largo, Florida;

NOW, THEREFORE, for and in consideration of the mutual covenants contained herein, the parties agree as follows:

1. Contract Term. This agreement is for the period commencing on March 17, 2016 and terminating on March 16, 2017 and is for zero dollars and no/100 cents (\$0.00) per year.
2. BOCC Responsibility. The BOCC shall direct its Administrator, Departments Directors, County Attorney, and staff to provide certain facilities and support to the MCSO as can be provided without requiring an increase in personnel or any purchase or lease of real property.
3. Relationship of Parties. The MCSO shall exercise control, direction, and supervision over the means, manner personnel and volunteers through which it performs its duties. Although

this Agreement is a cooperative agreement, similar in many respects (but not all) to a partnership, the MCSO shall have no authority whatsoever to act on behalf and/or as agent for the BOCC in any promise, agreement or representation other than specifically provided for in this agreement. The BOCC shall at no time be legally responsible for any negligence on the part of the MCSO, its employees, agents or volunteers resulting in either bodily or personal injury or property damage to any individual, property or corporation.

4. Modification. Additions to, modification to, or deletions from the provisions of this contract may be made only in writing and executed by the BOCC. No modification shall become effective without prior written approval of both parties.
5. Breach and Penalties. The parties agree to full performance of the covenants contained in this contract. Both parties reserve the right, at the discretion of each, to terminate the services in this contract for any misfeasance, malfeasance or nonperformance of the contract terms or negligent performance of the contract terms by the other party. Any waiver of any breach of covenants herein contained shall not be deemed to be a continuing waiver and shall not operate to bar either party from declaring a forfeiture for any succeeding breach either of the same conditions or covenants or otherwise.
6. Indemnification and Hold Harmless.
 - a) To the extent permitted by law, and as limited by section 768.28, Florida Statutes, the BOCC shall defend, indemnify and hold harmless MCSO and its officers, employees, or agents from any and all liability, losses or damages, including attorneys' fees and costs of defense, which MCSO or its officers, employees, or agents may incur as a result of any claim, demand, suit, or cause of action or proceeding of any kind or nature arising out of, relating to, or

resulting from the negligent performance of this contract by the BOCC, its employees, officers and agents. MCSO shall promptly notify the BOCC of each claim, cooperate with the BOCC in defense and resolution of each claim, and not settle or otherwise dispose of the claim without the BOCC's participation.

8. Taxes. The BOCC is exempt from Federal, Excise and State of Florida Sales Tax.
9. Finance Charges. The BOCC will not be responsible for any finance charges.
10. Severability. If any provision of this contract shall be held by a court of competent jurisdiction to be invalid or unenforceable, the remainder of this contract, or the application of such provision other than those as to which it is invalid or unenforceable, shall not be affected thereby; and each provision of this contract shall be valid and enforceable to the fullest extent permitted by law.
11. Assignment. The MCSO shall not assign, transfer, sublease, pledge, hypothecate, surrender, or otherwise encumber or dispose of this contract or any estate created by this contract or any interest in any portion of the same, or permit any other person or persons, company or corporation to perform services under this contract without first obtaining the written consent of the BOCC. In the event of such consent, this agreement shall be binding upon MCSO's successors and assigns.
12. Disclosure. The MCSO shall be required to list any or all potential conflicts of interest, as defined by Florida Statutes Chapter 112, Part III and the Monroe County Ethics Ordinance. The MCSO shall disclose to the BOCC all actual or proposed conflicts of interest, financial or

otherwise, direct or indirect, involving any client's interest which may constitute a conflict under said laws.

15. Termination. Termination of this Agreement shall occur at the Natural ending date, or earlier should either party determine that there has occurred any material breach of any covenants herein contained, or either party otherwise deems it in their best interest to terminate. Termination may be with or without cause, and shall require written notice to be given to the other party as follows:

The Lessee acknowledges that its continued occupancy of the Premises and the regular conduct of its business therein are of utmost importance to neighboring lessees and to the Lessor in the renting of space in the Building, the renewal of other leases in the building, and the efficient and economic supply of services and utilities. The Lessee acknowledges that the Lessor is executing this Lease in reliance on Lessee's continuous occupancy and that it is a material element inducing the Lessor to execute this Lease.

5.4. Lessee's Covenants as to Use and Occupancy. Lessee agrees after notice thereof to abide by such rules and regulations and to use its best efforts to cause its employees and invitees to conform thereto. Lessor may at anytime close or restrict for a reasonable period, any common area to make repairs, to prevent the acquisition of public rights in such areas, or to discourage non-customer parking; and Lessor may do such other acts in and to the common areas as in its judgment may be desirable to improve the convenience thereof. 13. **Alterations.** Lessee may make interior, non-structural alterations in the Premises, which do not affect building systems. Lessee may not make alterations which are not Permitted Alterations ("Other Alterations") without Lessor's prior written consent or approval, which consent or approval shall not be unreasonably withheld, conditioned or delayed. All materialmen, contractors, artisans, mechanics, workers, laborers and other persons contracting with Lessee in respect to the Premises or any part of the Premises are now charged with notice that they must look only to the Lessee and not to this Lease, the Lessor, or the Premises to secure or obtain payment of any bill for work done or material furnished or for any other purpose during the term of this Lease. In the event that any lien, judgment, claim, charge, or encumbrance is filed against the Premises for money that Lessee owes or contracts for, Lessee shall cause it to be released of record within 20 days after the filing of the lien, judgment, claim, charge, or encumbrance. 15.1 Lessee waives any claim of loss or damage to Lessee or right or claim to any part of the award as a result of the exercise of the power of eminent domain of any governmental agency, whether such loss or damage results from condemnation of part of all of the Premises or any part or portion of the parking area or of the entrances or exits of the Premises or any part of the Premises, and Lessee assigns to Lessor all such causes or claims. Should any power of eminent domain or condemnation be exercised against the Premises which measurably interferes with or diminishes the Lessee's actual occupancy of the Premises, the sole and exclusive remedy of Lessee is that the rentals otherwise due under this Lease shall be abated in an amount proportionate with the actual loss or diminishment of the occupancy of the Premises suffered by Lessee.

15.4 Reconstruction--Damages To Premises And Proceeds: In the event or occurrence of the destruction, damage, or loss of any kind to the Premises, or any part of the Premises, by reason of fire, rising water, floods, wind storm, or other casualty, the following provisions shall apply and control:

Lessee shall immediately take all steps necessary to protect and preserve the Premises and Lessee's own personal property.

16. **Entry, Inspection and Other Rights Reserved To Lessor.** Lessee will allow Lessor to enter the Premises for inspection or for any other purpose which Lessor deems necessary for the safety, comfort or preservation of the Premises or Building. During business operations, Lessor may close entrances, doors, corridors,

elevators or other facilities, all without liability to Lessee by reason of interference, inconvenience or annoyance. Lessee will permit Lessor at any time within the earlier of 90 days prior to the expiration of this Lease or (ii) failure of Lessee to cure a default within 72 hours of notice by Lessor to bring prospective lessees on the Premises for purposes of inspection and to put or keep on the doors or windows thereof a "For Rent" or "For Sale" notice. In furtherance of such rights, Lessor shall retain a key to the Premises and Lessee shall not install any new locks to the Premises without the prior written consent of Lessor, unless Lessee furnishes Lessor with a copy of such key. No entry pursuant to this Paragraph shall in any way be deemed a breach of the covenant of quiet enjoyment. Lessor reserves the right to change the name and/or street address of the Building without liability of Lessor to Lessee. In the event of an emergency, Lessee hereby grants to Lessor the right of enter the Premises at any time.

17. **Personal Property.** For purposes of this Lease, the term "Lessee's Property" shall mean all office furniture and equipment, movable partitions, communications equipment, inventory, and other articles of movable personal property owned or leased by Lessee and located in the Premises, but shall not include any permanently attached fixtures ("Lessor's FF&E"). All Lessee's Property shall be and remain the property of Lessee throughout the Term of this Lease and may be removed by Lessee at any time during the Term. All Lessor's FF&E shall be and remain the property of Lessor throughout the Term of this Lease, unless specifically purchased by and conveyed to Lessee after the Commencement Date, and may not be removed from the Premises without Lessor's prior consent. On or prior to the expiration of this Lease, Lessee shall remove all Lessee's Property from the Premises without leaving any noticeable damage to the Premises, but shall leave Lessor's FF&E in the Premises. If Lessee leaves noticeable damage to the Premises as a result of Lessee's removal of Lessee's Property, or if Lessee has noticeably damaged Lessor's FF&E (excluding reasonable wear and tear), Lessor shall give Lessee written notice and Lessee shall have 10 days after that to remove or repair the damage, after which time, Lessor may repair the damage and Lessee shall reimburse Lessor for all costs and expenses reasonably incurred by Lessor in repairing the damage. Notwithstanding the foregoing, any built-in items placed on the Premises by Lessee shall become a part of the Premises and the property of Lessor.

18. **Loss or Damage to Tenant's Property.** Lessor shall not be liable for any damage to property of Lessee or of others located on the Premises, nor for the loss of or damage to any property of Lessee or of others by theft or otherwise. Lessor shall not be liable for any injury or damage to persons or property resulting from fire, explosion, falling walls or ceilings, steam, gas, electricity, water, rain, or leaks from any part of the Premises or from the pipes, appliances, plumbing works, or from the roof, street, subsurface, or from any other place, by dampness, or by any other cause of whatsoever by nature. Lessor shall not be liable for any such damage caused by other Lessees or persons in the Premises, occupants of property adjacent to the Shopping Center or the public, or for damage caused by operations in construction of any private, public, or quasi public work. All property of Lessee, kept or stored on the premises, shall be at Lessee's risk, and Lessee shall hold Lessor harmless from all claims arising out of damage to

same, including subrogation claims by Lessee's insurance carriers, unless such damage shall be caused by the willful act or gross neglect of the Lessor. Lessee acknowledges and agrees that Lessor is not responsible for the security of the Premises or the Building in general. Nor shall Lessor be liable for any latent defect in the Premises or in the Building.

19 Intentionally deleted

20. Insurance.

20.1 Building Insurance. Throughout the Term, Lessee shall keep the buildings and improvements included in the Premises, as well as Lessee's personal property and Lessor's FF&E, insured for the "full replacement value" thereof against loss or damage by perils customarily included under standard policies with a deductible not in excess of \$10,000.00, together with extended coverage. Each such policy of insurance shall name Lessor as an additional insured and provide that the same will not be canceled without at least 30 days' prior written notice to Lessor. On or before the Commencement Date, Lessee shall deliver to Lessor certificates of insurance, showing that the insurance required to be maintained pursuant to the foregoing provisions of this Lease is in force and will not be modified or canceled without 30 days prior written notice being furnished to Lessor. Thereafter, not less than 30 days prior to the expiration or termination of each such policy, Lessee shall furnish to Lessor certificates showing renewal of, or substitution for, policies that expire or are terminated during the Term of the Lease. In the event of any casualty the insurance proceeds shall be made available for restoration purposes as provided in this Lease.

Lessee shall also reimburse Lessor for any and all amounts expended by Lessor in insuring the Premises, including but not limited to any and all premiums expended for wind, flood, or hazard insurance. It is however the intent of the parties that Lessee shall remain obligated to obtain all insurance for the premises and Lessor shall only be obligated to obtain same in the event that Lessee is unable to and only after written notice of such from Lessee. This paragraph does not however obligate Lessor to obtain any insurance whatsoever on the premises.

20.2 Lessee's Liability Insurance. Throughout the Term, Lessee shall maintain commercial general liability insurance, including a contractual liability endorsement, and personal injury liability coverage in respect of the Premises and the conduct or operation of its business in the Premises, naming Lessor as an additional insured, with a combined single limit for bodily injury and property damage liability of not less than \$500,000.00 in any one occurrence with a maximum aggregate coverage limit of \$1,000,000.00. Each policy of insurance shall provide that the same will not be canceled without at least 30 days' prior written notice to Lessor. On or before the Commencement Date, Lessee shall deliver to Lessor certificates of insurance, showing that the insurance required to be maintained pursuant to the foregoing provisions of this Section is in force and will not be modified or canceled without 30 days prior written notice being furnished to Lessor. After that, not less than 30 days prior to the expiration or termination of each such policy,

Lessee shall furnish to Lessor certificates showing renewal of, or substitution for, policies that expire or are terminated during the Term of the Lease.

20.3 Other Insurance. During the Term, Lessee shall, at its expense, also secure and maintain the following policies of insurance to wit: (i) workers' compensation insurance as required by law; (ii) during the course of construction of any improvements, including, but not limited to Alterations, and until completion of the improvements, builder's risk insurance for replacement value covering the interest of Lessor and Lessee (and their respective contractors, subcontractors and Lessor's mortgagees) and all work incorporated into the Premises and all materials and equipment in or about the Premises; (iii) business interruption insurance with respect to the Premises in an amount of coverage reasonably sufficient to pay, if necessary, the Rent and other charges under this Lease for the period of time not less than 1 year. Each policy of insurance shall have attached to it an endorsement that the policy shall not be cancelled or materially changed without at least 30 days' prior written notice to Lessor, and any mortgagee of the Premises, and that no act or thing done by Lessee shall invalidate the policy as against Lessor or any mortgagee of the Premises. Before the Commencement Date, the Lessee obtaining the insurance shall deliver certificates of insurance (with receipts or other evidence of full payment of the premiums and a copy of the policy) to the Lessor, and thereafter, not less than 30 days prior to the expiration of each insurance policy required to be furnished pursuant to this Lease, the party obtaining the same shall deliver to the other party a renewal certificate, together with receipts for it.

20.4 Lessee and Lessor shall cooperate with each other in expediting the obtaining of insurance recoveries. All such insurance shall also contain any other endorsements that any first mortgagee of the Premises shall reasonably request.

20.5 Subrogation. Lessor and Lessee each release each other from liability to the extent of insurance maintained or required to be maintained under this Lease. Lessor and Lessee shall each obtain from their respective insurers under all policies of insurance maintained by either of them at any time during the Term of this Lease insuring or covering the Premises, a waiver of all rights of subrogation which the insurer of the party might otherwise have, if at all, against the other party.

21. **Hold Harmless:**

Subject to the provisions of F.S. 768.28, Lessee shall indemnify and hold harmless Lessor, its agents, representatives, employees, assigns or successors: (1) against and from

22. **Negation of Personal Liability.** Notwithstanding anything to the contrary contained in this Lease, Lessee agrees that Lessor (and, in case Lessor is a joint venture, partnership, tenancy in common, association or other form of joint ownership, the partners, members and employees of any such joint venture, partnership, tenancy-in-common, association or other form of joint ownership) shall have absolutely no personal liability with respect to any of the provisions of this Lease, or any obligation or liability arising from or in connection with the provisions of this Lease. No covenant or agreement contained herein shall be deemed to be a covenant of any member, officer, agent, or employee of the County in his or her individual capacity and no member, officer, agent or employee of Monroe County shall be liable personally on this agreement or be subject to any personal liability or accountability by reason of the execution of this lease.

23. **Rules and Regulations.** Lessor shall have the right to establish, modify and/ or rescind reasonable rules and regulations governing the use and general management of the Shopping Center in its sole discretion. Lessor shall not be liable to Lessee for any interruption in the service of any utility. No interruption or failure of such utilities or services shall relieve Lessee from the obligation to pay the full amount of rent and other charges reserved in this Lease, nor shall the same constitute a constructive or other eviction of Lessee.

Lessee shall promptly pay for all public utilities rendered or furnished to the Premises from and after the date Lessee assumes possession of said Premises, including but not limited to, water, sewer, gas, electricity, heat and air conditioning. Lessor shall not be liable in damages or otherwise for any interruption in the supply of any utility to the Premises nor shall any such interruption constitute any ground for an abatement of any of the rents reserved hereunder. Lessee shall not at any time overburden or exceed the capacity of the mains, feeders, ducts, conduits, or other facilities by which such utilities are supplied to, distributed in, or serve the Premises. If Lessee desires to install any equipment which shall require additional utility facilities or utility facilities of a greater capacity than the facilities to be provided by Lessor, such installation shall be subject to Lessor's prior written approval of Lessee's plans and specifications therefore. If approved by Lessor, Lessee agrees to pay Lessor, on demand, the cost for providing such additional utility facilities or utility facilities of greater capacity.

If Lessor is furnishing tenant any utility or utilities hereunder, Lessor, at any time, at Lessor's option and upon not less than thirty (30) days prior notice to Lessee, may discontinue such furnishing of any such utility to the Premises, and in such case, Lessee shall contract with the public service company supplying such utility service for the purchase and obtaining by Lessee of such utility directly from such public service company.

A waiver of a particular breach or default shall not be deemed to be a waiver of the same or any other subsequent breach or default. The acceptance of rent shall not be, or be construed to be, a waiver of any breach of any term, covenant or condition of this Lease. The presentation of any rent or other charge under this Lease in the form of a check marked by Lessee to constitute a waiver of any default shall not constitute such waiver even though endorsed and cashed by Lessor unless Lessor expressly agrees to waive such default by separate written instrument No surrender of the Premises for the remainder of the term of this Lease shall operate to release Lessee from liability under this Lease.

This power of attorney is given and coupled with an interest and is irrevocable.

35.5 Notwithstanding any other provision herein, it is agreed that the failure or refusal of Lessee to execute, acknowledge and deliver to Lessor or mortgage holder a statement in accordance with the provisions herein within the 10 day period shall constitute an acknowledgment by Lessee, which may be relied on by any person holding or intending to acquire any interest whatsoever in the Premises, that this Lease had not been assigned, amended, changed, or modified, is in full force and effect and that the Basic Rent and additional rent have been duly and fully paid not beyond the respective due dates immediately preceding the date of the request, and shall constitute, as to any persons entitled to rely on the statements, a waiver of any defaults by Lessor or defenses or offsets of the written request, and Lessor at its option, may treat Lessee's failure as a deliberate Event of Default.

36. **Transferability By Lessor.** Lessor shall have the right to transfer and assign, in whole or in part, all and every feature of its rights and obligations under this Lease as part of a conveyance of the Building and underlying property, and at the time of the assignment of this Lease or conveyance of the Building, the Lessor named in this Lease shall be released from all subsequent obligations or liabilities under this Lease, and Lessor's successor in interest shall become the new Lessor under this Lease and responsible to Lessee for all obligations of Lessor.

If there is more than one Lessee, the obligations and liabilities imposed on Lessee by this Lease shall be joint and several. The words "Lessor" and "Lessee" shall also extend to and mean the successors in interest of the respective parties and their permitted assigns, although this shall not be construed as conferring on the Lessee the right to assign this Lease or sublet

Nothing in this Lease shall imply any obligation on the part of Lessor to make any payment or perform any act required of Lessee, and the exercise of the right to do so shall not constitute a release of any obligation, waiver of any default or obligation of Lessor to make any similar payment or perform any similar act in the future. All payments made, and all costs and expenses incurred in connection with Lessor's exercise of the right set forth in this Section, shall be reimbursed by Lessee within 5 days after receipt of a bill setting forth the amounts so expended, together with interest at the rate of 12 % per annum from the date the sums are incurred by Lessor. 64.5 The waiver or nonenforcement by Lessor of any terms, covenant or condition contained here shall not be deemed to be a waiver of that term, covenant or condition. Any subsequent acceptance of rent under this Lease by Lessor shall not be deemed to be a waiver of any preceding default by Lessee of any term, covenant or condition of this Lease, other than the failure of the Lessee to pay the particular rental so accepted, regardless of Lessor's knowledge of the preceding default at the time of the acceptance of the rent.

64.6 This Lease has been drafted by counsel for Lessor as a convenience to both parties, and both parties have read and negotiated all of the language used in this Lease. The parties acknowledge and agree that because all parties participated in negotiating and drafting this Lease, no rule of construction shall apply to this Lease which construes any language, whether ambiguous, unclear or otherwise in favor of or against any party by reason of that party's role in drafting this Lease.

Premises for the term of this Lease, subject to all the provisions of this Lease. Lessee's right of quiet enjoyment shall terminate on the occurrence of any Event of Default, or on the occurrence of any event, which would be an Event of Default on the giving of any notice required to be given.

64.11 Lessor shall not be required to perform any covenant or obligation under this Lease, or be liable for damages to Lessee, so long as the performance or non-performance of the covenant or obligation is delayed or caused by an act of God, force majeure, war, civil unrest, or Lessee. For purposes of this Lease, an act of God or force majeure is defined as strikes, lockouts, sit downs, material or labor restrictions by a governmental authority, unusual transportation delays, riots, floods, washouts, explosions, fires, storms, weather (including wet grounds or inclement weather which prevents construction), settlement of the soils, sink-holes, rising waters, lightning, electrical surges or brownouts, acts of the public enemy, wars, insurrections, and or any other cause not reasonably within the control of Lessor or by the exercise of due diligence Lessor is wholly or in part unable to prevent or overcome.

35. **Legal Obligations and Responsibilities:** Non-Delegation of Constitutional or Statutory Duties. This Lease Agreement is not intended to, nor shall it be construed as, relieving any participating entity from any obligation or responsibility imposed upon the entity by law except to the extent of actual and timely performance thereof by any participating entity, in which case the performance may be offered in satisfaction of the obligation or responsibility. AGENDA ITEM WORDING: Approval of Amendment #002 to Standard Contract AA-1629, Older Americans Act (OAA) between the Alliance For Aging, Inc. (AAA) and the Monroe County Board of County Commissioners (Monroe County Social Services/In Home and Nutrition Programs) for the current contract period of 1/1/2016 to 12/31/2016.

MEMORANDUM

NOTICE #: 092815-1-PC-SCBS

TO: Area Agencies on Aging (AAAs)
FROM: Samuel P. Verghese, Secretary
DATE: September 28, 2015
SUBJECT: Notice of Policy Clarification: Service Cost Reports

The purpose of this Notice is to provide clarification regarding language for “Service Cost Reports” in Sections 2.4.3 of the Older Americans Act (OAA) contract and 23.3 of the Master Contract. This guidance is effective immediately and provides the following updated language that will be amended into the above references.

Service Cost Reports – The Contractor shall require Subcontractors to annually submit to the Contractor service cost reports, which reflect actual costs of providing each service by program. Any multi-year contracts entered into with service providers on or after the effective date of this contract shall contain a provision requiring the contract’s parties to re-evaluate the contract’s reimbursement rates on an annual basis. The Contractor may annually renegotiate rates based on, including but not limited to, a review of sustainability, the respective consumer price index, or current market conditions. However, it is the intent of the Department that the quality of services provided to current program recipients not be reduced.

The AAA (Contractor) will annually review the appropriateness of its provider’s rates based on a board-approved policy that considers local factors like the provider’s sustainability, expected market fluctuations, or the consumer price index. Justification that evidences this review and considers the potential change in rates shall be made available upon annual monitoring or upon the Department’s request.

Thank you for your assistance and cooperation in ensuring compliance with the contract requirement as specified above. If you have any questions, please contact your contract manager.

REIMBURSEMENT RATE REVIEW POLICY

POLICY: The Alliance and a service provider shall re-evaluate reimbursement rates on an annual basis. Each provider's rates will be reviewed and approved by the Alliance as required by the Alliance's contract with the Florida Department of Elder Affairs ("DOEA") and in accordance with this policy adopted by the Alliance's Board. An adjustment to a provider's reimbursement rates pursuant to this policy will not necessarily result in a change in contracted funds allocated to the provider.

SERVICE COST REPORTS:

The Alliance shall require service providers to annually submit to the Alliance service cost reports, due no later than ninety (90) calendar days after the contract year ends. The service cost reports shall reflect actual costs of providing each service by program for the preceding contract year. If the service provider desires to renegotiate its reimbursement rates, the service provider shall make a request in writing to the Alliance identifying the specific unit rates the service provider seeks to change and the proposed adjustment to such rates. The request must be accompanied by:

- (a) a unit cost methodology report with line item budget projections for the current contract year showing any anticipated changes to the costs incurred as reflected in the service cost report; and
- (b) any other information the service provider believes should be considered in renegotiating rates including information relating to sustainability of services and current market conditions.

The service provider's written request for rate adjustment and all supporting information shall be submitted to the Alliance no later than the due date for the service cost reports.

The service provider's written request for rate adjustment shall also include information regarding the extent to which availability of services will be impacted (positively or negatively) by the requested rate adjustment so that the Alliance will have the information needed to respond to any questions from clients, family members, DOEA or other interested person should the requested rate adjustment be approved and implemented pursuant to this policy.

The Alliance shall use the service cost reports and any unit cost methodology report or other information submitted with a request for rate adjustment to re-evaluate the service provider's reimbursement rates based on relevant factors, including, but not limited to, sustainability, the respective consumer price index, and/or current market conditions. In evaluating any request for a rate adjustment, it is the intent of DOEA and the Alliance that the quality of services provided to current program recipients will not be reduced.

Within 30 calendar days following the deadline for receipt of service cost reports, the Alliance's President/CEO shall provide written notice to each service provider of the Alliance's determination regarding any requested rate adjustment. No adjustments shall be made to the rates of, and no notice shall be given to, any service provider who has not timely submitted to the Alliance a written request for a rate adjustment.

A service provider may appeal to the Alliance Board's Executive Committee the Alliance's decision as communicated by the Alliance's President/CEO by submitting a written appeal to the President/CEO within five (5) business days of receipt of the Alliance's determination on the service provider's request for rate adjustment. The Executive Committee shall meet to hear any timely submitted appeal and render a decision on the appeal within forty-five (45) calendar days of the receipt of an appeal. The information to be considered by the Executive Committee in any appeal shall be limited to that information timely submitted by the service provider to the Alliance with the service provider's request for a rate adjustment. The President/CEO's decision shall be

final with respect to any determination on a requested rate adjustment that is not timely appealed. The Executive Committee's decision shall be final with respect to any determination that is timely appealed.

All adjustments to rates made pursuant to this policy shall be memorialized in an amendment to the contract between the Alliance and the service provider. A contract amendment shall be prepared by Alliance staff and presented to the service provider for execution:

- (a) within ten (10) business days following the date of a final determination on a request for a rate adjustment as described in the preceding paragraph where all approved adjusted rates are at or below the maximum rates in the Alliance's contract with DOEA; or
- (b) within ten (10) business days of the Alliance receiving an executed contract amendment with DOEA where any approved adjusted rate exceeds the maximum rate in the Alliance's contract with DOEA as of the date of the Alliance's final determination on the request for a rate adjustment. In the event that DOEA does not amend its contract with the Alliance to increase the maximum rate to that approved by the Alliance in response to a request for a rate adjustment, the approved rate shall be further adjusted to reflect the maximum allowable rate in the contract between the Alliance and DOEA. In no event may the rate in a contract between a service provider and the Alliance exceed the maximum rate authorized by the contract between the Alliance and DOEA.

Any rate adjustment made pursuant to this policy shall be effective upon the date that a contract amendment is signed by both the Alliance and the service provider memorializing the rate adjustment.

To the extent that the last day within a time frame for providing written notice or performing a task pursuant to this policy falls on a Saturday, Sunday or legal holiday during which the Alliance's offices are closed, the last day to provide written notice or perform such task shall be extended to the next business day during which the Alliance's offices are open.

All existing contracts with service providers or new contracts entered into with service providers on or after the effective date of this policy shall contain a provision requiring the parties to re-evaluate the contract reimbursement rates pursuant to this policy on an annual basis and shall incorporate this policy by reference.

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF MONROE COUNTY, FLORIDA, AUTHORIZING THE SR. DIRECTOR OF SOCIAL SERVICES OR HER DESIGNEE TO SIGN AND EXECUTE ROUTINE AMENDMENTS AND MODIFICATIONS TO GRANT AGREEMENTS OR CONTRACTS THAT HAVE BEEN APPROVED AND EXECUTED BY THE BOARD OF COUNTY COMMISSIONERS.

WHEREAS, the Monroe County Social Services Department routinely applies for grant funds which allows the county to leverage its available funds and maximize the services the county can provide, and

WHEREAS, the county routinely receives amendments or modifications to said grants for the purposes of increasing or decreasing the amount of the grant awards, increasing or decreasing unit costs, updating language, extending the contract periods; and vendor agreements or memoranda of understanding within the limits set forth by the purchasing policies and procedures, and

WHEREAS, currently, the Board of County Commissioners (Board) must approve all such amendments and modifications to the grant agreements or contracts resulting in undue delays and unnecessarily adding to the Board agenda, and

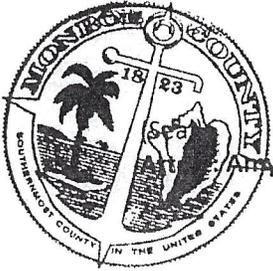

WHEREAS, the Board desires to eliminate the unnecessary delay and the added congestion to the Board agenda, now therefore,

BE IT RESOLVED THAT THE BOARD OF COUNTY COMMISSIONERS OF MONROE COUNTY, FLORIDA, HEREBY:

1. Finds that amendments or modifications to grant agreements or contracts previously approved and accepted by the Board for Monroe County Social Services that increase or decrease the grant awards, increase or decrease unit costs, update language, or extend the contract periods without requiring a matching funding commitment from the county; and vendor agreements or memoranda of understanding within the limits set forth by the purchasing policies and procedures, are indeed routine matters that do not need to go before the Board for approval prior to execution.
2. Authorizes the Sr. Director of Social Services, currently Sheryl Graham, or her designee to execute such documents as required following review by the County Attorney's office.

(ii) At any time that the Grantee: (a) elects to stop the project or otherwise decide not to place into service for tourist-related purposes the facility acquired, constructed, or renovated with tourist development tax funding, (b) demolishes the project facility or divests itself of ownership or possession of

the real property, or (c) ceases the use of the property with a primary purpose of promoting tourism, Grantee shall, pursuant to the formula set forth hereafter, refund to the County the Tourist Development funding. This provision shall survive the termination date of all other provisions of this contract for a period of ten years. Should the demolition, transfer of ownership, or change to a non-tourist related purpose occur, the amount of refund shall be pro-rated based on a useful life of ten (10) years.

(iii) The Grantee is responsible for the implementation of adequate maintenance procedures to keep the real and personal property in good operating condition.

If an audit determines that monies paid to the Grantee pursuant to this agreement were spent for purposes not authorized by this agreement, the Grantee shall repay the monies together with interest calculated pursuant to Sec. 55.03, F.S. running from the date the monies were paid to Grantee. In the event of an audit exception, the current fiscal year grant award or subsequent grant awards will be offset by the amount of the audit exception. In the event the grant is not renewed or supplemented in future years, the Grantee will be billed by the Grantor for the amount of the audit exception and shall promptly repay any audit exception.

Such termination shall take place immediately upon receipt of written notice of said termination. Any waiver of any breach of covenants herein contained to be kept and performed by Grantee shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent the Grantor from declaring a forfeiture for any succeeding breach either of the same conditions or of any other conditions. b.) If, and to the extent that, Grantee contracts for any of the work funded under this agreement to be performed or completed, Grantee shall give notice to County of the contractual relationship, provide County with a copy of any and all contracts and shall require the contractor(s) to comply with all the terms of this contract. Should Grantee contract the work and then decrease the scope of work to be performed by a contractor, Grantee shall provide County with an amended contract executed by Grantee and its contractor.

c.) At any time that the documentation requirement policies of Monroe County are revised, such as to require annual inventory reports for equipment purchased under a TDC capital project grant, Grantee shall comply thereafter with such increased requirements, or further funding under the agreement may be terminated by County.

the real property, or (c) ceases the use of the property with a primary purpose of promoting tourism, Grantee shall, pursuant to the formula set forth hereafter, refund to the County the Tourist Development funding. If an audit determines that monies paid to the Grantee pursuant to this agreement were spent for purposes not authorized by this agreement, the Grantee shall repay the monies together with interest calculated pursuant to Sec. 55.03, F.S. running from the date the monies were paid to Grantee. In the event of an audit exception, the current fiscal year grant award or subsequent grant awards will be offset by the amount of the audit exception. In the event the grant is not renewed or supplemented in future years, the Grantee will be billed by the Grantor for the amount of the audit exception and shall promptly repay any audit exception.

a.) **Public Access.** The County and Grantee shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Grantee in conjunction with this agreement; and the County shall have the right to unilaterally cancel this agreement upon violation of this provision by Grantee.

1. **GRANT AGREEMENT PERIOD.** This agreement is for the period of March 23, 2016 through to September 30, 2017. b.) If, and to the extent that, Grantee contracts for any of the work funded under this agreement to be performed or completed, Grantee shall give notice to County of the contractual relationship, provide County with a copy of any and all contracts and shall require the contractor(s) to comply with all the terms of this contract. Should Grantee contract the work and then decrease the scope of work to be performed by a contractor, Grantee shall provide County with an amended contract executed by Grantee and its contractor.

In the event of an audit exception, the current fiscal year grant award or subsequent grant awards will be offset by the amount of the audit exception. In the event the grant is not renewed or supplemented in future years, the Grantee will be billed by the Grantor for the amount of the audit exception and shall promptly repay any audit exception.

a.) **Public Access.** The County and Grantee shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Grantee in conjunction with this agreement; and the County shall have the right to unilaterally cancel this agreement upon violation of this provision by Grantee.

Said documentation should include invoices, bills of lading, etc., and be verified as received and applied to the project through a

notarized statement of the project manager and said documentation submitted to the TDC Administrative Office. All submissions shall identify the items included in Exhibit A and Grantee shall complete the Application for Payment form which is provided within the payment/reimbursement packet. This document should be signed by the project manager.

The following terms shall apply:

(i) The Grantee shall have the use of the property, including both real and personal, acquired with funding under this agreement, at the project site for so long as the facility is operated by Grantee, open to the public, and has a primary purpose of promoting tourism. At such time as any of the conditions in the preceding sentence shall cease to exist, the Grantee shall transfer ownership and possession of equipment and personal property to a local government or another not-for-profit organization which is a facility for which tourist development taxes may be used pursuant to Florida Statute 125.0104 with prior approval from TDC and BOCC.

(ii) At any time that the Grantee: (a) elects to stop the project or otherwise decide not to place into service for tourist-related purposes the facility acquired, constructed, or renovated with tourist development tax funding, (b) demolishes the project facility or divests itself of ownership or possession of the real property, or (c) ceases the use of the property with a primary

purpose of promoting tourism, Grantee shall, pursuant to the formula set forth hereafter, refund to the County the Tourist Development funding. This provision shall survive the termination date of all other provisions of this contract for a period of ten years. Should the demolition, transfer of ownership, or change to a non-tourist related purpose occur, the amount of refund shall be pro-rated based on a useful life of ten (10) years.

(iii) The Grantee is responsible for the implementation of adequate maintenance procedures to keep the real and personal property in good operating condition.

If an audit determines that monies paid to the Grantee pursuant to this agreement were spent for purposes not authorized by this agreement, the Grantee shall repay the monies together with interest calculated pursuant to Sec. 55.03, F.S. running from the date the monies were paid to Grantee. In the event of an audit exception, the current fiscal year grant award or subsequent grant awards will be offset by the amount of the audit exception. In the event the grant is not renewed or supplemented in future years, the Grantee will be billed by the Grantor for the amount of the audit exception and shall promptly repay any audit exception.

a.) **Public Access.** The County and Grantee shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Grantee in conjunction with this agreement; and the County shall have the right to unilaterally cancel this agreement upon violation of this provision by Grantee.

Such termination shall take place immediately upon receipt of written notice of said termination. Any waiver of any breach of covenants herein contained to be kept and performed by Grantee shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent the Grantor from declaring a forfeiture for any succeeding breach either of the same conditions or of any other conditions. Failure to provide Grantor with certification of use of matching funds or matching in-kind services at or above the rate of request for reimbursement or payment is a breach of agreement, for which the Grantor may terminate this agreement upon giving written notification of termination.

Monroe County Tourist Development Council
DAC V
1201 White St., Suite 102
Key West, FL 33040

Dear DAC V Members,

The Florida Keys Wild Bird Center would like to rescind the funding for the Wild Bird Center Parking Pavers project (project ID# 1528). We have come upon some unforeseen issues at the Laura Quinn Wild Bird Sanctuary that we need to deal with before we are able to proceed with the paver project. We want to ensure that everything is handled in its proper order and we need more time to make the appropriate plan.

We are very grateful for the opportunity that you have given us and greatly appreciate your past support. It is our intention to proceed with the paver project at some point and if we are able to do so by next year we would like to apply again for funding in 2017.

Warm regards,

Janeen Simon
Executive Director

WHEREAS, Grantee has applied to TDC District V for funding for the **Wild Bird Sanctuary Parking Pavers** project; and

WHEREAS, the Grantor and Tourist Development Council (TDC) have determined that it is in the best interest of the County, for purposes of promoting tourism and preserving the heritage of the community, to attract tourists, and improve the property for use as an Nature Center open to the public;

NOW, THEREFORE, in consideration of the mutual covenants and payments contained herein, the Grantee and the Grantor have entered into this agreement on the terms and conditions as set forth below.

1. **GRANT AGREEMENT PERIOD.** This agreement is for the period of October 21, 2015 through to September 30, 2016. This agreement shall remain in effect for the stated period unless one party gives to the other written notification of termination pursuant to and in compliance with paragraphs 7, 12 or 13 below. **The project work described in Exhibit A must commence within the fiscal year funded which is October 1, 2015 to September 30, 2016. reimbursed. All work for which grant funds are to be expended must be completed by the stated termination date of **September 30, 2016** and all invoices pertaining to this project shall be submitted to the Finance Department of Monroe County no later than **September 30, 2016** to be considered for payment. Acknowledgement: Grantee shall be required to permanently display and maintain at Grantee's expense, public acknowledgement of the support of the Monroe County Tourist Development Council in a publicly prominent area of their facility in the following form: "This project was made possible with the financial support of the Monroe County Tourist Development Council." If the Grantee has already complied with this requirement through previous funding, said acknowledgement fulfills this condition. A photograph of said acknowledgment shall be provided with the final request for reimbursement outlined in Exhibit A of this agreement.

a.) There shall be a project manager to acknowledge receipt of goods or work performed. This Project Manager shall be Janeen Simon (Telephone: 305-852-4486; Email: janeen@keepthemflying.com). Should there be a change in the project manager specified in the Grantee's application, a new project manager shall be designated, and notice with new contact information shall be provided in writing to the TDC administrative office.

b.) If, and to the extent that, Grantee contracts for any of the work funded under this agreement to be performed or completed, Grantee shall give notice to County of the contractual relationship, provide County with a copy of any and all contracts and shall require the contractor(s) to comply with all the terms of this contract. Should Grantee contract the work and then decrease the scope of work to be performed by a contractor, Grantee shall provide County with an amended contract executed by Grantee and its contractor.

(i) A Grantee which is a governmental entity shall comply with the procurement regulations and policies to which it is subject, and shall provide Grantor documentation of the procurement requirements applicable to the project and compliance therewith.

(ii) A Grantee which is a not-for-profit entity shall use procurement processes for those parts of the project to be contracted (not performed by the entity's employees) as follows. For work expected to be under \$50,000, the not-for-profit shall document in the file two written quotes or a notarized statement as to why such written quotes were not feasible for the goods or services. For work expected to be \$50,000 or more, a competitive bid process must be performed following Monroe County's procurement policies and procedures, unless the commodities or services will be provided by a "sole source" provider, in which case the not-for-profit must submit a notarized statement with its request for payment explaining why the vendor is the only source for the commodities or services.

c.) Grantee shall exercise good internal controls to assure that the project as described in the funding application shall be completed on a timely basis within the proposed budget and shall provide to County any certifications, including those by

the architect, engineer, contractor or an independent consultant if necessary, required to establish that materials which are purported to be applied to the project are in fact so applied. Further verification shall be required to show that equipment and other fixtures and personal property covered by this agreement are delivered to and installed in the project site. When any permit is required by any governmental agency, copies of plans and other documents which are submitted to the applicable agency shall be submitted to the County Engineering Division to enable verification that the scope of services under this agreement has been provided.

3. **AMOUNT OF AGREEMENT AND PAYMENT.** The Grantor shall provide an amount not to exceed **\$21,900 (Twenty One Thousand Nine Hundred Dollars-TDC District V funding)** for materials and services used to improve the property. Reimbursement request must show that Grantee has paid in full for materials and services relating to the segment prior to seeking the 50% (fifty percent) reimbursement from Grantor. Payment shall be 50% (fifty percent) reimbursement of the total cost of the segment, subject to the cap on expenditures for that segment as set forth in Exhibit A. Reimbursement can be sought after each segment of the agreement is completed and signed by the Monroe County Engineering Department as outlined in 3.a. The Board of County Commissioners and the Tourist Development Council assume no liability to fund this agreement for an amount in excess of this award. Monroe County's performance and obligation to pay under this agreement is contingent upon an annual appropriation by the BOCC.

a.) Payment shall be made upon the completion of a specific segment as outlined in the Scope of Services and Exhibit A. Payment for expenditures permissible by law and County policies shall be made through reimbursement to Grantee upon presentation of Application for Payment Summary, AIA Document G702 or similar certification as required below for governmental entities and not-for-profit entities, invoices, canceled checks and other documentation necessary to support a claim for reimbursement. Included in said documentation shall be proof that the Grantee has received the property, real or personal, for each segment of agreement as outlined in Exhibit A and paid an amount equal to or greater than the amount invoiced to the Grantor. It shall be necessary for the Grantee to contact the County Engineering Division and to arrange for inspection upon the completion of each segment. The documentation needed to support the payment request shall be in the form necessary for submission and available to the County Engineer at the time of inspection. All submissions for payment shall have a proposed schedule of values for segment(s) and indicate the percentage of completion of the overall project as of the submission. This document should be signed by the project architect, engineer, general contractor or project manager. Photos of the progress of the work shall also be submitted with the payment application. It shall be the responsibility of the project architect, engineer, general contractor or project manager to initiate the communication with the Monroe County Engineering Division to facilitate the inspection of the segment of the project. All submissions requesting payment shall be approved in writing, and signed, by the Monroe County Engineering Division as to the completion of the segment of the project for which payment is requested. The application for payment document must be certified through a statement signed by an officer of the organization and notarized,

declaring that representations in the invoice are true and factual. Grantee shall also provide partial releases of liens or certifications of non-lien if applicable. Grantor shall retain 10% of any payment on work in progress until the Grantee has provided a Final Release of Lien for each vendor/contractor for whom payment is requested. For projects exceeding \$50,000 in TDC funding under this agreement, final payment will not be made until the following documents are complete and submitted to the Grantor:

AIA Document	G-702	Application for Payment Summary
AIA Document	G-704	Certificate of Substantial Completion
AIA Document	G-706	Contractor's Affidavit of Debts & Claims
AIA Document	G-706A	Contractor's Affidavit of Release of Liens
AIA Document	G-707	Consent of Surety to Final Payment (when applicable)
Final Release of Lien or Affidavit and Partial Release of Lien		

For projects for which TDC funding under this agreement is \$50,000 or less, the AIA documentation is not required, but sufficient documentation must be submitted to County to provide similar assurances that the work has been completed and contractors/suppliers paid.

All payment requests must be submitted no later than **September 30, 2016**. Invoices received after **September 30, 2016** will not be considered for payment.

b.) If in-kind services were noted within your application, and you are applying them to this project, documentation shall be submitted to the TDC Administrative Office to show the receipt and application of in-kind donations of goods, professional services, and materials. Said documentation should include invoices, bills of lading, etc., and be verified as received and applied to the project through a notarized statement of the project architect, engineer, general contractor or project manager. The receipt and application to the project of volunteer labor are to be documented and verified by notarized signature of the project architect, engineer, general contractor, or project manager, and said documentation submitted to the TDC Administrative Office. All submissions shall identify the items included in Exhibit A and Grantee shall complete the Application for Payment form which is provided within the payment/reimbursement kit provided to the Grantee, listing the schedule of values which are sought to be reimbursed and shall indicate the percentage of completion of the overall project as of the submission. This document should be signed by the project architect, engineer, general contractor or project manager.

The Project Manager shall certify delivery to the project site and installation therein of any goods or services provided other than through an architect, engineer or contractor. All work performed and goods received on site and incorporated into the project shall be verified by one of the foregoing. Submission of any documentation which is untrue, falsified, or otherwise misrepresents the work which has been completed, paid, or donated shall constitute a breach of agreement, for which

breach the contract may be immediately terminated at the discretion of the County, whose decision shall be final.

c.) At any time that the documentation requirement policies of Monroe County are revised, such as to require annual inventory reports for equipment purchased under a TDC capital project grant, Grantee shall comply thereafter with such increased requirements, or further funding under the agreement may be terminated by County.

d.) Upon successful completion of this Grant agreement, the Grantee may retain ownership of the real and personal property acquired and/or improved with funding under this Grant agreement. However, the Grantee shall maintain, preserve, and operate the property which was acquired or improved under this agreement for the uses and purposes which qualified the Grantee for tourist development tax funding. Grantee shall complete and sign a Property Reporting Form upon request for personal property and forward said completed form to the TDC Administrative Office. Real property acquired or improved through funding under this agreement shall remain dedicated for the purposes set forth herein or for other purposes which promote tourism and ownership of said property shall be retained by the Grantee. The following terms shall apply:

(i) The Grantee shall have the use of the property, including both real and personal, acquired with funding under this agreement, at the project site for so long as the facility is operated by Grantee, open to the public, and has a primary purpose of promoting tourism. At such time as any of the conditions in the preceding sentence shall cease to exist, the Grantee shall transfer ownership and possession of equipment and personal property to a local government or another not-for-profit organization which is a facility for which tourist development taxes may be used pursuant to Florida Statute 125.0104 with prior approval from TDC and BOCC.

(ii) At any time that the Grantee: (a) elects to stop the project or otherwise decide not to place into service for tourist-related purposes the facility acquired, constructed, or renovated with tourist development tax funding, (b) demolishes the project facility or divests itself of ownership or possession of the real property, or (c) ceases the use of the property with a primary purpose of promoting tourism, Grantee shall, pursuant to the formula set forth hereafter, refund to the County the Tourist Development funding. This provision shall survive the termination date of all other provisions of this contract for a period of ten years. Should the demolition, transfer of ownership, or change to a non-tourist related purpose occur, the amount of refund shall be pro-rated based on a useful life of ten (10) years.

(iii) The Grantee is responsible for the implementation of adequate maintenance procedures to keep the real and personal property in good operating condition.

(iv) The Grantee is responsible for any loss, damage, or theft of, and any loss, damage or injury caused by the use of, real or personal property or equipment purchased through funding under this agreement.

The Grantee shall also provide such access to the personal Property and equipment purchased under this agreement. It is the responsibility of the Grantee to maintain appropriate records in accordance with generally accepted accounting principles consistently applied to insure a proper accounting of all funds and expenditures. The Grantee understands that it shall be responsible for repayment of any and all audit exceptions which are identified by the Auditor General for the State of Florida, the Clerk of Court for Monroe County, the Board of County Commissioners for Monroe County, or their agents and representatives. If an audit determines that monies paid to the Grantee pursuant to this agreement were spent for purposes not authorized by this agreement, the Grantee shall repay the monies together with interest calculated pursuant to Sec. 55.03, F.S. running from the date the monies were paid to Grantee. In the event of an audit exception, the current fiscal year grant award or subsequent grant awards will be offset by the amount of the audit exception. In the event the grant is not renewed or supplemented in future years, the Grantee will be billed by the Grantor for the amount of the audit exception and shall promptly repay any audit exception.

a.) **Public Access.** The County and Grantee shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the County and Grantee in conjunction with this agreement; and the County shall have the right to unilaterally cancel this agreement upon violation of this provision by Grantee.

5. **MODIFICATIONS AND AMENDMENTS.** Any and all modifications of the terms of this agreement shall be only amended in writing and approved by the Board of County Commissioners for Monroe County. The terms, covenants, conditions, and provisions of this agreement shall bind and inure to the benefit of the County and Grantee and their respective legal representatives, successors, and assigns.

6. **INDEPENDENT CONTRACTOR.** At all times and for all purposes hereunder, the Grantee is an independent contractor and not an employee of the Board of County Commissioners of Monroe County. No statement contained in this agreement shall be construed as to find the Grantee or any of its employees, contractors, servants or agents to the employees of the Board of County Commissioners of Monroe County, and they shall be entitled to none of the rights, privileges or benefits of employees of Monroe County.

a.) **No Personal Liability.** No covenant or agreement contained herein shall be deemed to be a covenant or agreement of any member, officer, agent or employee of Monroe County in his or her individual capacity, and no member, officer, agent or

For breach or violation of this warranty, the Grantor shall have the right to annul this agreement without liability or, in its discretion, to deduct from

the agreement price or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

12. **TERMINATION.** This agreement shall terminate on **September 30, 2016**. Termination prior thereto shall occur whenever funds cannot be obtained or cannot be continued at a level sufficient to allow for the continuation of this agreement pursuant to the terms herein. In the event that funds cannot be continued at a level sufficient to allow the continuation of this agreement pursuant to the terms specified herein, this agreement may then be terminated immediately by written notice of termination delivered in person or by mail to Grantee. The Grantor may terminate this agreement without cause upon giving written notice of termination to Grantee. The Grantor shall not be obligated to pay for any services or goods provided by Grantee after Grantee has received written notice of termination.

13. **TERMINATION FOR BREACH.** The Grantor may immediately terminate this agreement for any breach of the terms contained herein. Such termination shall take place immediately upon receipt of written notice of said termination. Any waiver of any breach of covenants herein contained to be kept and performed by Grantee shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent the Grantor from declaring a forfeiture for any succeeding breach either of the same conditions or of any other conditions. Failure to provide Grantor with certification of use of matching funds or matching in-kind services at or above the rate of request for reimbursement or payment is a breach of agreement, for which the Grantor may terminate this agreement upon giving written notification of termination.

14. **ENTIRE AGREEMENT.** This agreement constitutes the entire agreement of the parties hereto with respect to the subject matter hereof and supersedes any and all prior agreements with respect to such subject matter between the Grantee and the Grantor.

15. **GOVERNING LAW, VENUE, INTERPRETATION, COSTS, AND FEES.** This agreement shall be governed by and construed in accordance with the laws of the State of Florida applicable to contracts made and to be performed entirely in the state. a.) **Venue.** In the event that any cause of action or administrative proceeding is instituted for the enforcement or interpretation of this agreement, the County and Grantee agree that venue shall lie in the appropriate court or before the appropriate administrative body in Monroe County, Florida.

b.) **Severability.** If any term, covenant, condition or provision of this agreement (or the application thereof to any circumstance or person) shall be declared invalid or unenforceable to any extent by a court of competent jurisdiction, the remaining terms, covenants, conditions and provisions of this agreement, shall not be affected thereby; and each remaining term, covenant, condition and provision of this agreement shall be valid and shall be enforceable to the fullest extent permitted by

law unless the enforcement of the remaining terms, covenants, conditions and provisions of this agreement would prevent the accomplishment of the original intent of this agreement. The County and Grantee agree to reform the agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision.

c.) **Attorney's Fees and Costs.** The County and Grantee agree that in the event any cause of action or administrative proceeding is initiated or defended by any party relative to the enforcement or interpretation of this agreement, the prevailing party shall be entitled to reasonable attorney's fees, court costs, investigative, and out-of-pocket expenses, as an award against the non-prevailing party, and shall include attorney's fees, court costs, investigative, and out-of-pocket expenses in appellate proceedings.

d.) **Adjudication of Disputes or Disagreements.** County and Grantee agree that all disputes and disagreements shall be attempted to be resolved by meet and confer sessions between representatives of each of the parties. If the issue or issues are still not resolved to the satisfaction of the parties, then any party shall have the right to seek such relief or remedy as may be provided by this agreement or by Florida law. This agreement shall not be subject to arbitration.

e.) **Cooperation.** In the event any administrative or legal proceeding is instituted against either party relating to the formation, execution, performance, or breach of this agreement, County and Grantee agree to participate, to the extent required by the other party, in all proceedings, hearings, processes, meetings, and other activities related to the substance of this agreement or provision of the services under this agreement. For breach or violation of the provision the Grantor may, at its discretion terminate this agreement without liability and may also, at its discretion, deduct from the agreement or purchase price, or otherwise recover, the full amount of any fee, commission, percentage, gift, or consideration paid to the former or present County officer or employee. The County and Grantee warrant that, in respect to itself, it has neither employed nor retained any company or person, other than a bona fide employee working solely for it, to solicit or secure this agreement and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for it, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this agreement. For the breach or violation of the provision, the Grantee agrees that the County shall have the right to terminate this agreement without liability and, at its discretion, to offset from

monies owed, or otherwise recover, the full amount of such fee, commission, percentage, gift, or consideration.

KEY WEST

ART & HISTORICAL SOCIETY™

February 8, 2016

Maxine Pacini
Monroe County Tourist Development Council
1201 White Street
Key West, FL 33040

Dear Maxine,

The Society respectfully rescinds its Monroe County TDC Contract: #1547 for Custom House Mechanical Upgrades in the amount of \$189,816. The project was originally scheduled to be completed by September 30, 2016.

After we submitted and were awarded this grant three unexpected situations occurred, which detrimentally affected our available funds for this project. Firstly, sections of the Custom House roof deteriorated, causing leaks and requiring immediate action (The Society applied for matching TDC grants and was awarded funding for roof repairs, which will be completed by September 30, 2016). Secondly, the closure of the Lighthouse tower for renovations forced us to tap reserve funds. Thirdly, other construction projects exceeded budget, resulting in the Society further tapping its reserves.

While the Society's financial health is still positive, I feel it is prudent to rescind our contract and postpone the mechanical repairs until additional funds are acquired.

We thank the Monroe County TDC for its continued support.

Sincerely,

Michael F. Gieda

1. **GRANT AGREEMENT PERIOD.** This agreement is for the period of October 21, 2015 through to September 30, 2016 This agreement shall remain in effect for the stated period unless one party gives to the other written notification of termination pursuant to and in compliance with paragraphs 7, 12 or 13 below. **The project work described in Exhibit A must commence within the fiscal year funded which is October 1, 2015 to September 30, 2016. stated termination date of **September 30, 2016** and all invoices pertaining to this project shall be submitted to the Finance Department of Monroe County no later than **September 30, 2016** to be considered for payment. Acknowledgement: Grantee shall be required to permanently display and maintain at Grantee's expense, public acknowledgement of the support of the Monroe County Tourist Development Council in a publicly prominent area of their facility in the following form: "This project was made possible with the financial support of the Monroe County Tourist Development Council." If the Grantee has already complied with this requirement through previous funding, said acknowledgement fulfills this condition. A photograph of said acknowledgment shall be provided with the final request for reimbursement outlined in Exhibit A of this agreement.

a.) There shall be a project manager to acknowledge receipt of goods or work performed. This Project Manager shall be Christine Nottage (Telephone 305-295-6616; Email: cnottage@kwahs.org). Should there be a change in the project manager specified in the Grantee's application, a new project manager shall be designated, and notice with new contact information shall be provided in writing to the TDC administrative office.

b.) If, and to the extent that, Grantee contracts for any of the work funded under this agreement to be performed or completed, Grantee shall give notice to County of the contractual relationship, provide County with a copy of any and all contracts and shall require the contractor(s) to comply with all the terms of this contract. Should Grantee contract the work and then decrease the scope of work to be performed by a contractor, Grantee shall provide County with an amended contract executed by Grantee and its contractor.

(i) A Grantee which is a governmental entity shall comply with the procurement regulations and policies to which it is subject, and shall provide Grantor documentation of the procurement requirements applicable to the project and compliance therewith.

(ii) A Grantee which is a not-for-profit entity shall use procurement processes for those parts of the project to be contracted (not performed by the entity's employees) as follows. For work expected to be under \$50,000, the not-for-profit shall document in the file two written quotes or a notarized statement as to why such written quotes were not feasible for the goods or services. For work expected to be \$50,000 or more, a competitive bid process must be performed following Monroe County's procurement policies and procedures, unless the commodities or services will be provided by a "sole source" provider, in which case the not-for-profit must submit a notarized statement with its request for payment explaining why the vendor is the only source for the commodities or services.

c.) Grantee shall exercise good internal controls to assure that the project as described in the funding application shall be completed on a timely basis within the proposed budget and shall provide to County any certifications, including those by the architect, engineer, contractor or an independent consultant if necessary,

required to establish that materials which are purported to be applied to the project are in fact so applied. Further verification shall be required to show that equipment and other fixtures and personal property covered by this agreement are delivered to and installed in the project site. When any permit is required by any governmental agency, copies of plans and other documents which are submitted to the applicable agency shall be submitted to the County Engineering Division to enable verification that the scope of services under this agreement has been provided.

3. **AMOUNT OF AGREEMENT AND PAYMENT.** The Grantor shall provide an amount not to exceed **\$189,816 (One Hundred Eighty Nine Thousand Eight Hundred Sixteen Dollars-TDC District I funding)** for materials and services used to improve the property. Reimbursement request must show that Grantee has paid in full for materials and services relating to the segment prior to seeking the 50% (fifty percent) reimbursement from Grantor. Payment shall be 50% (fifty percent) reimbursement of the total cost of the segment, subject to the cap on expenditures for that segment as set forth in Exhibit A. Reimbursement can be sought after each segment of the agreement is completed and signed by the Monroe County Engineering Department as outlined in 3.a. The Board of County Commissioners and the Tourist Development Council assume no liability to fund this agreement for an amount in excess of this award. Monroe County's performance and obligation to pay under this agreement is contingent upon an annual appropriation by the BOCC.

a.) Payment shall be made upon the completion of a specific segment as outlined in the Scope of Services and Exhibit A. Payment for expenditures permissible by law and County policies shall be made through reimbursement to Grantee upon presentation of Application for Payment Summary, AIA Document G702 or similar certification as required below for governmental entities and not-for-profit entities, invoices, canceled checks and other documentation necessary to support a claim for reimbursement. Included in said documentation shall be proof that the Grantee has received the property, real or personal, for each segment of agreement as outlined in Exhibit A and paid an amount equal to or greater than the amount invoiced to the Grantor. It shall be necessary for the Grantee to contact the County Engineering Division and to arrange for inspection upon the completion of each segment. The documentation needed to support the payment request shall be in the form necessary for submission and available to the County Engineer at the time of inspection. All submissions for payment shall have a proposed schedule of values for segment(s) and indicate the percentage of completion of the overall project as of the submission. This document should be signed by the project architect, engineer, general contractor or project manager. Photos of the progress of the work shall also be submitted with the payment application. It shall be the responsibility of the project architect, engineer, general contractor or project manager to initiate the communication with the Monroe County Engineering Division to facilitate the inspection of the segment of the project. All submissions requesting payment shall be approved in writing, and signed, by the Monroe County Engineering Division as to the completion of the segment of the project for which payment is requested. The application for payment document must be certified through a statement signed by an officer of the organization and notarized,

declaring that representations in the invoice are true and factual. Grantee shall also provide partial releases of liens or certifications of non-lien if applicable. Grantor shall retain 10% of any payment on work in progress until the Grantee has provided a Final Release of Lien for each vendor/contractor for whom payment is requested. For projects exceeding \$50,000 in TDC funding under this agreement, final payment will not be made until the following documents are complete and submitted to the Grantor:

AIA Document	G-702	Application for Payment Summary
AIA Document	G-704	Certificate of Substantial Completion
AIA Document	G-706	Contractor's Affidavit of Debts & Claims
AIA Document	G-706A	Contractor's Affidavit of Release of Liens
AIA Document	G-707	Consent of Surety to Final Payment (when applicable)

Final Release of Lien or Affidavit and Partial Release of Lien

For projects for which TDC funding under this agreement is \$50,000 or less, the AIA documentation is not required, but sufficient documentation must be submitted to County to provide similar assurances that the work has been completed and contractors/suppliers paid.

All payment requests must be submitted no later than **September 30, 2016**. Invoices received after **September 30, 2016** will not be considered for payment.

b.) If in-kind services were noted within your application, and you are applying them to this project, documentation shall be submitted to the TDC Administrative Office to show the receipt and application of in-kind donations of goods, professional services, and materials. Said documentation should include invoices, bills of lading, etc., and be verified as received and applied to the project through a notarized statement of the project architect, engineer, general contractor or project manager. The receipt and application to the project of volunteer labor are to be documented and verified by notarized signature of the project architect, engineer, general contractor, or project manager, and said documentation submitted to the TDC Administrative Office. In the event of an audit exception, the current fiscal year grant award or subsequent grant awards will be offset by the amount of the audit exception. THIS AGREEMENT is made and entered into this _____ day of _____, 20____, is by and between

hereinafter style the Seller(s), for themselves, their heirs, executors, administrators, successors and assigns, and the MONROE COUNTY COMPREHENSIVE PLAN LAND AUTHORITY (hereinafter, "Land Authority") acting by and through the Executive Director of the LAND AUTHORITY.

WITNESSETH:

1. In consideration of Ten Dollars (\$10.00) in hand, paid by the LAND AUTHORITY, the receipt of which is hereby acknowledged, the Seller(s) agree to sell to the LAND AUTHORITY certain lands upon the terms and conditions hereinafter set forth, and for the price of **\$17,144.00** for all of the lands and other interests, which lands shall include all tenements, hereditaments, together with all water and other rights, easements, appurtenances, and any and all of the Seller's rights in or arising by reason of ownership thereunto belonging, owned by them, situate and lying in the County of Monroe, State of Florida, more particularly described as follows; to-wit:

**Block 16, Lot 9, Coco Plum Beach (PB 4-166)
RE# 00365710-000000**

2. The Seller(s) agree that they have full right, power and authority to convey, and that they will convey to the LAND AUTHORITY the fee simple title together with legal and practical access thereto clear, free and unencumbered, except subject to the following easements or reservations:

Existing easements for canals, ditches, flumes, pipelines, railroads, public highways and roads, telephone, telegraph, power transmission lines and public utilities.

The LAND AUTHORITY, at the LAND AUTHORITY'S expense, within the time allowed to deliver evidence of title and to examine same, may have the real property surveyed and certified by a registered Florida surveyor. If the survey discloses encroachments on the real property or that improvements located thereon encroach on setback lines, easements, lands of others, or violate any restrictions, contract covenants, or applicable governmental regulations, the same shall constitute a title defect.

Seller(s) shall convey a marketable title subject only to the aforementioned liens, encumbrances, exceptions or qualification set forth herein. Marketable title shall be determined according to applicable title standards adopted by authority of the Florida Bar and in accordance with law. The LAND AUTHORITY shall have sixty (60) days from the effective date of this Agreement in which to examine title. If title is found defective, the LAND AUTHORITY shall, within this specified time period, notify Seller(s) in writing specifying defect(s). If the defect(s) render title unmarketable the Seller(s) will have one hundred twenty (120) days from receipt of notice within which to remove the defect(s), failing which the LAND AUTHORITY shall have the option of either accepting the title as it then is or rescinding the Agreement herein; thereupon the LAND AUTHORITY and the Seller(s) shall release one another of all further obligations under this Agreement. The Seller(s) will, if title is found unmarketable, use diligent effort to correct defect(s) in title within the time provided therefore, including the bringing of necessary suits.

3. The Seller(s) further agree not to do, or suffer others to do, any act by which the value or title to said lands may be diminished or encumbered. It is further agreed that any loss or damage occurring prior to the vesting of satisfactory title in the LAND AUTHORITY by reasons of the unauthorized cutting or removal of products therefrom, or because of fire, shall be borne by the Seller(s); and that, in the event any such loss or damage occurs, the LAND AUTHORITY may refuse, without liability, to accept conveyance of said lands, or it may elect to accept conveyance upon an equitable adjustment of the purchase price.
4. The Seller(s) further agree that during the period covered by this instrument officers and accredited agents of the LAND AUTHORITY shall have at all proper times the unrestricted right and privilege to enter upon said lands for all proper and lawful purposes, including examination of said lands and the resources upon them. The Seller(s) hereby waive their rights to any and all claims against the LAND AUTHORITY or Monroe County associated with, or arising from ownership of, said lands and this waiver shall survive closing.
5. The Seller(s) will execute and deliver upon demand of the proper officials and agents of the LAND AUTHORITY a good and sufficient deed of warranty conveying to the LAND AUTHORITY a safe title to the said lands of such character as to be satisfactory to the legal counsel of the LAND AUTHORITY and said deed shall provide that the use, occupation and operation of the rights-of-way, easements and reservations retained therein, shall be subordinate to and subject to such rules and regulations as may be prescribed by the LAND AUTHORITY governing the use, occupation, protection and administration of lands.
6. In consideration whereof the LAND AUTHORITY agrees that it will purchase all of said lands and other interests at the price of **\$17,144.00**. The LAND AUTHORITY further agrees that, after the preparation, execution, delivery and recordation of the deed, and after the legal counsel of the LAND AUTHORITY shall have approved the title thus vested in the LAND AUTHORITY, it will cause to be paid to the Seller(s) the purchase price by a check drawn on the account of the LAND AUTHORITY. The LAND AUTHORITY shall pay the following expenses associated with the conveyance of the property: deed recording fees, settlement fees, abstract fees, title examination fees, the Buyer's attorney's fees, and title insurance, as well as the prorata share of prepaid real property taxes allocable to the period subsequent to the vesting of title in the LAND AUTHORITY, or the effective date of possession of such real property by the same, whichever is earlier. The Seller(s) shall pay the expenses of documentary stamps to be affixed to the deed and the removal of trash, debris, and structures from the property, if any, and real estate commissions, if any. Full possession of the premises shall pass to the LAND AUTHORITY as of the date payment is made to the Seller(s) subject only to the reservations stated in Section 2 above.
7. It is mutually agreed that an abstract, title insurance policy or other evidence of title to the property herein contracted to be sold, satisfactory to the legal counsel of the LAND AUTHORITY will be obtained by the LAND AUTHORITY at its expense. The Seller(s) expressly agree herein to furnish to the LAND AUTHORITY any documents in Seller(s)'s possession establishing evidence of title including, but not limited to, abstracts, title commitments, title policies and opinions of title.
8. It is mutually understood and agreed that the LAND AUTHORITY may assign this Agreement.
9. It shall be the obligation of the Seller(s) to pay all taxes and assessments outstanding as liens at the date title vests of record in the LAND AUTHORITY, whether or not such taxes and assessments are then due and payable.

10. It is mutually understood and agreed that notice of acceptance of this Agreement shall be given to the Seller(s) by mail addressed to the Seller(s) at the following address:

**3388 S. Leonard Road
New Palestine, IN 46163-9707**

with a copy to:

**Derrick Johnson
Coco Plum Real Estate
derrickinflorida@hotmail.com**

and shall be effective upon date of mailing and shall be binding upon all of the Seller(s) without sending a separate notice to each, except as such obligation may be affected by the provisions of paragraph 6 hereof.

11. The property shall be delivered at closing free of any tenant or occupancy whatsoever.
12. The effective date of this Agreement shall be that date when the last one of the Seller(s) and the LAND AUTHORITY has signed this Agreement.
13. If the Seller(s) wish to proceed with this transaction, the Seller(s) have until **January 8, 2016** to sign and return this Agreement to the LAND AUTHORITY. This Agreement may be executed in counterparts. Notwithstanding any provision of this Agreement to the contrary, the closing of this transaction is contingent upon approval by the Advisory Committee and Governing Board of the LAND AUTHORITY, failing which the LAND AUTHORITY and the Seller(s) shall release one another of all further obligations under this Agreement.

**BOARD OF COUNTY COMMISSIONERS
AGENDA ITEM SUMMARY**

Meeting Date: March 23, 2016

Department: Planning/Code/Building

Bulk Item: Yes X No

Staff Contact Person/Phone #: Christine Hurley, 289-2517

AGENDA ITEM WORDING: Approval of an exception to Section 2.02C of the personnel policies and approval to create a new Executive Administrator position (FTE) to be occupied for up to six months overlapping with the current Executive Administrator who is retiring by the end of 2016.

ITEM BACKGROUND: The Executive Administrator will be retiring by the end of 2016. This is a key position whose span of responsibilities is far reaching throughout the county organization. Personnel policies allow up to a 30 day overlap for replacements and require BOCC approval for any new position establishment greater than 30 days. With BOCC approval, a new Executive Administrator position will be established in lieu of waiting until the 30 days prior to replacement. A longer overlap period will allow sufficient time for training and familiarization of required duties and establishment of working relationships with other departments/agencies. Additional cost of the Additional FTE for 6 months is estimated to be \$34,391.00. There is adequate funding in the budget to cover this expense due to decreased expenses in 2016.

Following the Executive Administrator position's retirement, the new 6 month FTE position would be eliminated and the same Executive Administrator position would continue to be under Admin (50001-510120).

AGENDA ITEM WORDING: Approval of an exception to Section 2.02C of the personnel policies and approval to create a new Sr. Coordinator, Planning Commission position (FTE) to be occupied for up to six months overlapping with the current Sr. Coordinator, Planning Commission who is retiring at the beginning of 2017.

ITEM BACKGROUND: The Sr. Coordinator, Planning Commission will be retiring at the beginning of 2017. This is a key position with critical responsibilities which are essential to the department organization, file maintenance, scheduling, noticing and coordinating the Planning Commission and Development Review Committee. This position has responsibilities which are far reaching throughout the county organization. Personnel policies allow up to a 30 day overlap for replacements and require BOCC approval for any new position establishment greater than 30 days. With BOCC approval, a new Sr. Coordinator, Planning Commission position will be established in lieu of waiting until the 30 days prior to replacement. A longer overlap period will allow sufficient time for training and familiarization of required duties and establishment of working relationships with other departments/agencies. Additional cost of the Additional FTE for 6 months is estimated to be \$31,305.00. There is adequate funding in the budget to cover this expense due to vacancy savings and decreased expenses in 2016.

Following the Sr. Coordinator, Planning Commission position's retirement, the new 6 month FTE position would be eliminated and the same Sr. Coordinator, Planning Commission position would continue to be under Admin (50500-510120).

AGENDA ITEM SUMMARY**

Meeting Date: March 23, 2016

Department: Building

Bulk Item: Yes X No

Staff Contact Person/Phone #: Ed Koconis, 453-8727

AGENDA ITEM WORDING: Transfer \$571,364 to offset the cost of permitting waived by the BOCC into Fund 180 for development of new affordable housing.

ITEM BACKGROUND: The BOCC adopted the Employee Housing Fair Share Impact Fee through Ordinance 032-2001. It was amended through Ordinance 046-2003. The Land Development Code reads as follows:

Section 138-56. Employee housing fair share impact fee.

(d) *Proceeds.* Proceeds from the impact fees collected shall be deposited in the employee housing fair share impact fee account and used exclusively to offset the cost of required permitting and connection fees related to the development of new employee housing, in accordance with a schedule and procedures recommended by the Planning Commission and approved by the Board of County Commissioners.

The County has waived \$1,189,177 in affordable housing permit fees that are eligible for reimbursement from the employee housing fair share impact fee account the details of which are attached. The employee housing fair share impact fee fund balance is \$571,364. If this transfer is approved, then \$617,813 in affordable housing waived permitting fees would remain eligible for future transfer into the permitting Fund 180.

PREVIOUS RELEVANT BOCC ACTION: On March 19, 2008 the BOCC voted to transfer the remaining balance of \$116,593 from the Employee Housing Fair Share Impact Fee Fund to the Growth Management Division to reimburse past waiving of fees for affordable housing. However, the transfer never occurred.

CONTRACT/AGREEMENT CHANGES: N/A

STAFF RECOMMENDATION: Transfer \$570,970 from the Employee Housing Fair Share Impact Fee to Fund 180 in the Building Department to offset the cost of permitting work waived by the BOCC for development of affordable housing.

AGENDA ITEM SUMMARY**

Meeting Date: March 23, 2016 Department: Building _____

Bulk Item: Yes No Staff Contact /Phone #: Rick Griffin_x8729

AGENDA ITEM WORDING:

Approval of Second Amendment to Agreement between Selectron Technologies, Inc. and Monroe County, amount not to exceed \$4,945 for enhancements to the Interactive Voice Response (IVR) system for permit inspection scheduling, reporting, and providing inspection status to the public.

ITEM BACKGROUND:

Monroe County Code 122-3(e) requires that a certificate of elevation of the lowest floor is submitted within 21 days of passing the inspection establishing the lowest floor elevation. This is a crucial floodplain management workflow process which requires inspectors to initiate tracking for Certificate of Elevation by manually adding entry into CommunityPLUS in addition to using the IVR to do all other inspection resulting. However since this unique work process is performed separate from all other inspection workflow it is prone to human error and overlooked. The new feature would automate the entry for inspectors by incorporating it in their normal IVR workflow and thereby eliminate error.

Custom Limit Inspections Module **\$10,950**

VoicePermits™ will automatically limit the number of inspections that may be scheduled on a given day. Individual limits may be set for pre-defined inspection groups. To enhance the Limit Inspections module, the IVR will call a stored procedure which will provide current inspection counts for the defined groups. Grouping will be based on inspection type, location, and time slot.

Once the maximum number of inspections has been reached for a given day, the IVR system will offer the next available day during the scheduling routine.

Assumptions: Monroe County will create and maintain the stored procedure for current inspection counts for the defined group.

PROFESSIONAL SERVICES AGREEMENT

This Professional Services Agreement (the "Agreement") is entered into by and between Selectron Technologies, Inc., an Oregon corporation and its successors and assignees (collectively, "Company") and Monroe County, Florida, (the "Customer").

1. Engagement of Services.

Subject to the terms and conditions of this Agreement, Company will render the services set forth in the Scope of Work attached to this Agreement as Exhibit A and B (the "Project" or the "Services"). Exhibit A outlines the services to be provided, any associated products, and the prices. Exhibit B provides a detailed description of the services, and any associated products, to be provided under this Agreement. From time to time, the parties may enter into additional Scopes of Work, in substantially the same form as that set forth in Exhibits A and B, for additional Services. The manner and means by which Company chooses to complete the Project are in Company's sole discretion and control. Customer will, at its sole expense, make its facilities and equipment available to Company when necessary. Company, with written agreement from Customer which will not be unreasonably withheld, may have the Services performed by a third party/independent contractor, provided that any such third party/independent contractor agrees in writing to the terms of this Agreement.

2. Hardware.

Pursuant to this Agreement, and in combination with any Company software (which shall be licensed pursuant to a separate software license agreement), Company shall provide Customer with third-party hardware solely for use with Company Software (the "Hardware), as set forth in Exhibit A and/or B. As between Customer and Company, Company shall maintain ownership of the Hardware and all rights, titles, and interest therein, until Customer has paid the entire Fee, as described in Section 3.1 below. While the Fee is being paid, Customer shall have a limited, non-transferable, and revocable license to use the Hardware solely in connection with Customer's use of the software. Once Customer has paid the entire Fee, Customer shall own the Hardware (but Customer shall not own the Company software under any circumstances). Customer agrees that, until the entire Fee is paid, Customer shall be responsible for the cost of the Hardware if damaged (normal wear and tear excluded) while in Customer's possession or under its control. Customer acknowledges and agrees that nothing in this Agreement shall be interpreted or construed to affect the terms and conditions under which Customer uses the Company software.

Customer is entitled to all third-party manufacturer warranties as they apply to the specific Hardware provided. Manufacturer warranty dates are based solely on the specific

manufacturer terms and conditions. Customer acknowledges and agrees that Company shall have no obligations regarding the manufacturer warranties of the Hardware, and that Company expressly disclaims all warranties with respect to the Hardware, except for the warranty in Section 6.3 below.

3. Compensation.

3.1 Standard Compensation.

Customer will pay Company a fee for services rendered under this Agreement as set forth in the Project(s) undertaken by Company, which fee shall also cover use of the Company software (licensed under a separate software license agreement) and use of the Hardware (the "Fee"). Customer shall be responsible for all expenses incurred, that are set forth in Exhibit A of this Agreement. Customer will also be responsible for all expenses, with prior written approval, outside of those listed in Exhibit A of this Agreement. Upon termination of this Agreement for any reason, Company will be paid the Fee and expenses on a proportional basis as stated in the Scope of Work for work which is then in progress, to and including the effective date of such termination. Unless other terms are set forth in the Scope of Work for work which is in progress, Customer will pay Company for Services and will reimburse Company for previously approved expenses in accordance with the Florida Prompt Payment Act.

3.2 Change Requests.

Customer agrees to the Scope of Work as set forth in Exhibits A and B. If Customer requests a reduction in the scope, as set forth in Exhibit A or B, or any future Scopes of Work agreed upon by the parties, and such request is made after Company has committed resources to the Project under the given Scope of Work, Customer agrees to pay the full amount set forth in Exhibit A (or the applicable Scope of Work). However, if, during the course of a Project, Customer wishes to increase or modify the Scope of Work (other than a proposed reduction in the amount of Services to be provided), Company shall provide Customer with a modified fee estimate. If Customer accepts the modified estimate, Company will perform the Project according to the modified specifications after the parties sign a new Scope of Work or after Customer issues a purchase order for the modified Project (provided that the terms and conditions of such purchase order will not modify this Agreement or have any force or effect). If Customer rejects the modified estimate, Company shall have no obligation to perform the modified Project, and the parties agree that Company will continue to

provide the Services, as originally set forth in the Scope of Work, and Customer will continue to pay the Fee, as originally set forth in the Scope of Work.

4. Independent Contractor Relationship.

Company's relationship with Customer will be that of an independent Contractor and nothing in this Agreement should be construed to create a partnership, joint venture, or employer-employee relationship. Customer is not an agent of Company and is not authorized to make any representation, contract, or commitment on behalf of Company, or to bind Company in any way. Company is not an agent of Customer and is not authorized to make any representation, contract, or commitment on behalf of Customer, or to bind Customer in any way. Company will not be entitled to any of the benefits, which Customer may make available to its employees, such as group insurance, profit sharing or retirement benefits.

5. Proprietary Information.

During the Term of this Agreement and after the termination of this Agreement, the parties will take all steps reasonably necessary to hold the other party's Proprietary Information in confidence, will not use the other party's Proprietary Information in any manner or for any purpose not expressly set forth in this Agreement, and will not disclose any such Proprietary Information to any third party without the disclosing party's express prior written consent. "Proprietary Information" includes, but is not limited to (a) trade secrets, inventions, ideas, processes, formulas, source and object codes, data, other works of authorship, know-how, improvements, discoveries, developments, designs and techniques; and (b) information regarding plans for research, development, new products, marketing and selling, budgets and unpublished financial statements, licenses, prices and costs, suppliers and customers; and (c) information regarding the skills and compensation of employees. Nothing will be considered to be Proprietary Information if (1) it is readily available to the public other than by a breach of this Agreement; (2) it has been rightfully received by the receiving party from a third party without confidential limitations; (3) it has been independently developed by the receiving party without reference to or use of the disclosing party's Proprietary Information; or (4) it was rightfully known to the receiving party prior to its first receipt from the disclosing party. The receiving party shall be entitled to disclose the disclosing party's Proprietary Information if required by law or a judicial order; provided that the receiving party first provides prompt notice of the required disclosure to the disclosing party, and complies with any protective or similar order obtained by the disclosing party limiting the required disclosure.

6. Representations and Warranties; Warranty Disclaimer.

6.1 Customer represents and warrants that (a) it has full right and power to enter into and perform its obligations under this Agreement, and (b) it will take all reasonable precautions to prevent injury to any persons (including employees of Company) or damage to Company's property during the Term of this Agreement.

6.2 Company represents and warrants that (a) it has full right and power to enter into and perform its obligations under this Agreement, and (b) it will take all reasonable precautions to prevent injury to any persons (including employees of Customer) or damage to Customer's property during the Term of this Agreement.

6.3 Company warrants that any Hardware provided pursuant to this Agreement shall operate in good working order for a period of one (1) year from the date of the Installment Invoice, as that term is defined in Exhibit A. Any changes or modifications to the Hardware by any person other than Company, or any combination of the Hardware with other materials by any person other than Company, voids this limited warranty. This limited warranty is also void if failure of the Hardware results from transportation, neglect, misuse, or misapplication of the Hardware by any person other than Company; from any accident beyond Company's control; from use of the Hardware not in accordance with this Agreement or documentation provided in connection with the Hardware; or from Customer's failure to provide a suitable environment for the Hardware.

6.4 The express warranties in Sections 6.2 and 6.3 above are lieu of all other warranties, express, implied or statutory, arising from or related to this Agreement and any hardware provided to Customer hereunder, including, but not limited to, any implied warranties of merchantability, fitness for a particular purpose, title, and non-infringement of third party rights. Customer acknowledges that it has relied on no warranties other than the express warranties in Sections 6.2 and 6.3 of this Agreement. Except for the express warranty in Section 6.3 of this Agreement, Company provides the Services and Hardware to Customer "as is" and "as available," and Company does not warrant that the Services or Hardware will be uninterrupted or error free, and Company hereby disclaims any and all liability in connection therewith. This warranty disclaimer is made regardless of whether Company knows or has reason to know of Customer's particular needs. No Company employee, agent, dealer, or distributor of Company is authorized to modify this limited warranty, or make any additional warranties, whether orally, in writing, or otherwise. This Section 6.4 shall be enforceable to the fullest extent permitted by applicable law.

7. Customer Remedies; Limitation of Liability.

7.1 If Customer finds what it reasonably believes to be a failure of the Hardware to conform to the limited warranty in Section 6.3 of this Agreement, and provides Company with a written report that describes such failure in sufficient detail to enable Company to reproduce or understand such failure, Company and its suppliers' entire liability and Customer's exclusive remedy for breach of the limited warranty in Section 6.3 regarding the Hardware, is for Company to use commercially-reasonable efforts to correct or provide a workaround for the failure at no additional charge to Customer. If, in Company's sole discretion, it provides replacement Hardware, the replacement Hardware will be warranted in accordance with the provisions of this

Agreement for the remainder of the original warranty period or thirty (30) days, whichever is longer. Outside the United States, neither these remedies nor any product support services offered by Company are available without proof of purchase from an authorized non-U.S. source.

7.2 TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT WILL COMPANY BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, EXEMPLARY, PUNITIVE, SPECIAL, OR INCIDENTAL DAMAGES, INCLUDING BUT NOT LIMITED TO, ANY LOST DATA AND LOST PROFITS, ARISING FROM OR RELATING TO THIS AGREEMENT, THE SERVICES PROVIDED OR CONTEMPLATED HEREUNDER, AND THE HARDWARE AND RELATED DOCUMENTATION. COMPANY'S TOTAL CUMULATIVE LIABILITY IN CONNECTION WITH THIS AGREEMENT, THE SERVICES PROVIDED OR CONTEMPLATED HEREUNDER, AND THE HARDWARE AND RELATED DOCUMENTATION, WHETHER IN CONTRACT OR TORT OR OTHERWISE, WILL NOT EXCEED THE AMOUNT OF FEES ACTUALLY PAID TO COMPANY HEREUNDER IN THE TWELVE- (12-) MONTH PERIOD IMMEDIATELY PRECEDING THE ACTION THAT GAVE RISE TO THE CLAIM. CUSTOMER ACKNOWLEDGES THAT THE FEES REFLECT THE ALLOCATION OF RISK SET FORTH IN THIS AGREEMENT AND THAT COMPANY WOULD NOT ENTER INTO THIS AGREEMENT WITHOUT THESE LIMITATIONS ON ITS LIABILITY.

8. Indemnification.

To the extent allowed by law, each party will indemnify and hold harmless the other party, its officers, directors, employees, and agents from any and all claims, losses, liabilities, damages, expenses and costs (including reasonable attorneys' fees and court costs) which result from third-party claims or allegations that arise out of a breach or alleged breach of any representation, warranty, or covenant set forth in this Agreement.

9. Network Security Disclaimer

9.1 Internet Security.

Company's products may include software that connects to the Internet. The software is designed to operate within Customer's secure network environment, and the software does not provide any mechanism for security or privacy. Specifically, the software relies fully on the Customer's security measures and implements no further security infrastructure. Company makes no representations or warranties to Customer regarding (i) the security or privacy of Customer's network environment; or (ii) any third-party technologies' or services' ability to meet Customer's security or privacy needs. These third-party technologies and services may include, but are not limited to, operating systems, database management systems, web servers, and payment processing services. Customer is solely responsible for ensuring a secure network environment.

9.2 Remote Access Security.

In order to enable code development, and Customer support and maintenance of the software (if purchased by Customer pursuant to a separate support and maintenance agreement),

Company requires remote access capability. Remote access is normally provided by installing PC-Anywhere, ControlIT, or other industry standard remote access software. It may also be provided through a Customer solution such as VPN access. Regardless of what method is used to provide remote access, or which party provides remote access software, it is Customer's responsibility to ensure that the remote access method meets Customer's security requirements. Company makes no representations or warranties to Customer regarding the remote access software's ability to meet Customer's security or privacy needs. Company also makes no recommendation for any specific package or approach with regard to security. Customer is solely responsible for ensuring a secure network environment.

9.3 Outbound Services Disclaimer.

Outbound services are intended to create additional methods of communication to Customer's employees who use the Software in support of existing processes. These services are not intended to replace all interaction with Customer's employees or become critical path. While the outbound services have been created with the best available tools and practices, they are dependent on infrastructure that is inherently not fail-proof, including but not limited to infrastructure such as software, computer hardware, network services, telephone services, and e-mail. Examples of situations that could cause failure include but are not limited to: down phone lines, all lines busy, equipment failure, email address changes, internet service disruptions. For this reason, while outbound services are valuable in providing enhanced communication, they are specifically not designed to be used as the sole method to deliver critical messages. Customer acknowledges that it is aware of the potential hazards associated with relying on an automated outbound service feature, when using the Software, and Customer acknowledges and agrees that it is giving up in advance any right to sue or make any claim against Company, and that Customer forever releases Company from any and all liability, if Customer, or Customer's employees, suffer injury or damage due to the failure of outbound services to operate, even though Customer does not know what or how extensive those injuries or damages might be.

10. Term and Termination.

10.1 Term.

This Agreement shall commence on the date of last signature below and shall continue until terminated (the "Term").

10.2 Termination.

(a) Either party may terminate this Agreement at any time that there is no uncompleted Project in effect upon fifteen (15) days' prior written notice to other party. Upon such termination by either party, all amounts owed to Company shall become immediately due and payable.

(b) The parties agree that Customer's failure to pay any undisputed Fees is a material breach of this Agreement. In the event of Customer's failure to pay or other material breach of

this Agreement, Company may immediately terminate this Agreement, the Software License Agreement, and any other agreements between the parties, for cause, provided that Customer has failed to cure the breach within sixty (60) days' of receiving notice of such breach from Company. Upon such termination, Customer shall immediately cease all use of the software and Hardware, and Company may terminate Customer's access to the software. Company may require that Customer return the Hardware to Company and/or allow Company access to Customer's facility to retrieve the Hardware. Such termination shall not relieve Customer of its obligation to immediately pay all amounts then due to Company.

11. Government Contracts.

11.1 In the event that Company shall perform Services under this Agreement in connection with any government contract in which Customer may be the prime contractor or subcontractor for a government contract, Company agrees to abide by all laws, rules and regulations relating to said government contract; provided that Customer provides a copy of the contract to Company prior to execution of this Agreement.

11.2 Company advises that, to the extent allowed by law, the resultant contract terms and pricing may be extended to other State of Florida jurisdictions, public entities, political subdivisions and government cooperative purchasing group(s) whose processing requirements, applications, specifications and standards coincide with the processing requirements, applications, specifications and standards herewith. The extension of this contract to any entity is at the sole discretion of Company. A qualified entity choosing to join this contract shall execute a separate contract with the specifications, pricing, terms and rights provided herewith, directly between the entity and Company, and shall commit a separate purchase order and pay for supplies and services by means of their individual accounting and purchasing departments. Any processing requirements, applications, specifications and/or standards not covered herewith will be developed and priced separately, based on the entity's additional requirements and specifications, and appended to the new resultant contract. The entity shall deal directly with Company concerning the placement of orders, invoicing, contractual disputes and all other matters. Failure to extend this contract to any entity shall have no effect on the consideration of Company's current bids or agreements.

12. General Provisions.

12.1 Governing Law; Jurisdiction.

This Agreement will be governed by and construed in accordance with the laws of the State of Florida, without reference to its conflicts of law provisions. The United Nations Convention on Contracts for the International Sale of Goods does not apply to and shall not be used to interpret this Agreement. Any action or proceeding arising from or relating to this Agreement must be brought in the federal or state court located in Monroe County, Florida. This agreement is not subject to arbitration.

12.2 Severability.

If any provision of this Agreement is unenforceable, such provision will be changed and interpreted to accomplish the objectives of such provision to the greatest extent possible under applicable law and the remaining provisions will continue in full force and effect. Without limiting the generality of the foregoing, Customer agrees that Section 7 will remain in effect notwithstanding the unenforceability of any provision in Section 6.

12.3 Notices.

All notices, consents and approvals under this Agreement must be delivered in writing by courier, by electronic facsimile (fax), or by certified or registered mail (postage prepaid and return receipt requested) to the other party at the address set forth beneath such party's signature, and will be effective upon receipt or three (3) business days after being deposited in the mail as required above, whichever occurs sooner. Either party may change its address by giving notice of the new address to the other party.

12.4 Force Majeure.

Any delay in the performance of any duties or obligations of either party (except the payment of money owed) will not be considered a breach of this Agreement if such delay is caused by a labor dispute, shortage of materials, fire, earthquake, flood, or any other event beyond the reasonable control of such party, provided that such party uses reasonable efforts, under the circumstances, to notify the other party of the circumstances causing the delay, to mitigate the harm or damage caused by such delay, and to resume performance as soon as possible.

12.5 Attorneys' Fees.

In the event of a dispute between Customer and Company concerning this Agreement, the prevailing party in the litigation shall be entitled to recover its reasonable attorneys' fees and expenses from the other party.

12.6 Injunctive Relief.

A breach of any of the representations, warranties, or covenants contained in this Agreement will result in irreparable and continuing damage to Company for which there will be no adequate remedy at law, and Customer acknowledges and agrees that Company is therefore entitled to seek injunctive relief to restrain a breach or threatened breach of this Agreement or to specifically enforce this Agreement, without proving that any monetary damages have been sustained and without the requirement of posting a bond or other security. The foregoing equitable remedy will be deemed to be non-exclusive and in addition to all other remedies available at law or in equity. All rights and remedies are cumulative and may be exercised singularly or concurrently.

12.7 Survival.

Sections 5, 6.4, 7.2, 8, 9, 10, and 12 and the rights and obligations therein will survive termination of this Agreement for any reason.

12.8 Waiver.

All waivers must be in writing. Any waiver or failure to enforce any provision of this Agreement on one occasion will not be deemed a waiver of any other provision or of such provision on any other occasion.

12.9 Authority.

Any person executing this Agreement in a representative capacity in so signing this Agreement acknowledges his or her authority to do so and his or her authority to bind the entity on whose behalf the Agreement is signed.

12.10 Entire Agreement.

This Agreement and the attached Exhibits A and B, which are incorporated into and made a part of this Agreement by this reference, constitute the entire agreement between the parties regarding the subject hereof and supersedes all prior or contemporaneous agreements, understandings, and communication, whether written or oral. This Agreement may

be amended only by a written document signed by both parties. The terms on any purchase order or similar document submitted by Customer to Company will not modify the terms and conditions of this Agreement or have any force or effect.

12.11 Counterparts.

This Agreement may be signed in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and, when taken together, shall be deemed to constitute one and the same agreement. Each party agrees that the delivery of this Agreement by facsimile transmission or by PDF attachment to an e-mail transmission will be deemed to be an original of the Agreement so transmitted and, at the request of either party, the other party will confirm facsimile or e-mail transmitted signatures by providing the original document.

1.0 Overview

This Statement of Work (SOW) outlines the software, hardware, and implementation services included with the purchase of an interactive solution from Selectron Technologies. Additionally, this document describes the Customer's responsibilities in providing a suitable environment and facilitating a successful implementation of the Selectron Technologies' interactive solution.

1.1 Revision History

Version #	Details	Date
1.0	Initial Release	10/23/2012
1.1	Removed references to cancelling inspections after 'printing' and moving an inspection to a production table	12/12/2012

2.0 Functionality

This section details the functionality of each application included in the implementation of this interactive solution. All functions and features are dependent upon required permitting database availability. The interactive solution must be able to retrieve data from the permitting database either through direct access or through an indirect interface provided by the Customer and/or database vendor. In addition, the interactive solution is required to post data back to the permitting database. Normally, an indirect interface is provided to ensure system integrity for posted data.

The exact data required for retrieval and posting by the interactive solution is determined by final product definition including agreed upon call flow, business rules, and work process. Additionally, the call flow, business rules, and work process may be limited by the availability and access to data.

2.1 VoicePermits

The VoicePermits application interacts with the Customer's permitting database to deliver information and services over the phone to callers.

2.1.1 Standard Feature Set

This section details the standard features included with the VoicePermits application.

2.1.1.1 Inspection Scheduling

VoicePermits allows callers to schedule, reschedule, and cancel inspections. Additionally, callers can leave messages for inspectors; messages are stored on the interactive solution's server for 90 days. Once the caller has scheduled, rescheduled, or cancelled an inspection, they will receive a confirmation number. To access scheduling functionality, callers must enter a valid permit number.

2.1.1.2 Posting Inspection Results

Inspectors can use VoicePermits to post inspection results, hear messages left by the permit holder, and leave a message for the permit holder. To ensure security, inspectors must enter a PIN prior to recording results. The PIN can be determined by the Customer, but must be validated by the permitting database.

2.1.1.3 Obtain Inspection Results

Permit holders can call VoicePermits to listen to the results of their scheduled inspection and listen to any messages left by the inspector; messages are stored on the interactive solution's server for 90 days. To access inspection results, callers must enter a valid permit number.

2.1.2 Additional Features

This section details the optional, add-on modules included with the VoicePermits application.

2.1.2.1 Correction Codes

When posting results for a failed inspection, the inspector can enter a correction code. Correction codes detail the specific reason for inspection failure. The description of the correction code is available to callers requesting inspection results.

The permitting database must allow the input of correction codes, as well as access to the field storing the codes, to allow full functionality of this module. The Customer is responsible for maintaining correction code data ([section 3.1.12, Maintain Correction Codes](#)).

2.1.2.2 Inspection Prerequisites

System administrators can configure VoicePermits to disallow inspections from being scheduled until other, associated inspections have been scheduled or approved. Additionally, inspections cannot be scheduled until the following three requirements are fulfilled:

- Contractor License (county or state registration) is active
- Permit is active
- Check for Notice of Commencement

When callers attempt to schedule an inspection whose prerequisites have not been met, the system speaks back the specific unmet prerequisites. The Customer's business rules determine whether or not inspection prerequisites must be scheduled or approved prior to scheduling associated inspections.

2.1.2.3 Professional Voice Recording

All system prompts (including call flow), correction code descriptions, and street names are professionally recorded prior to installation. The following non-system prompt and message types are not included, and require Customer recording:

- Optional Greeting ([section 3.1.4, Append an Optional Greeting](#))

For more information regarding non-system prompt recording, refer to [section 3.1.7, Record Prompts and Responses](#).

The Customer must sign-off on all Professional Voice Recording scripts prior to prompt recording. All prompt change requests after recording has been completed may incur additional charges on a Time and Materials basis (street names will be updated on a quarterly basis as described in [section 3.1.6, Add New Streets](#)).

3.0 Administrative Tasks

This section details tasks that the Customer's system administrator can perform while maintaining and operating the interactive solution.

3.1 VoicePermits

The tasks listed below apply to the VoicePermits application.

3.1.1 Run System Reports

System administrators can generate, view, save, and print system usage reports using Microsoft Internet Explorer® 5.0, Mozilla Firefox 1.0, or newer, with access to the Customer's intranet. Reports can be saved as PDF files from the browser.

System administrators can also configure reports for automatic delivery to designated e-mail addresses. Auto-delivery frequency options include monthly, weekly, and daily.

Table 1 lists the reports available with this implementation.

Table 1 System Reports

Report	Definition
System Usage	Calls received by day for selected date range
System Line Usage	Calls received by line for selected date range
System Usage by Hour	Calls received by hour for selected date range
System Statistics	Displays consolidated usage information, including time in use and call time information
Call Activity Details	Displays all actions that a caller made during a call
Inspector Posting Activity	Lists all inspections posted by each inspector for a selected date range
Action Report	Number of times the application functions were selected for selected date range

3.1.2 Set Operator Transfer Extension

By setting the operator transfer extension, system administrators can determine where VoicePermits transfers calls. Calls can be transferred to different extensions depending on the time of day and what type of information the caller is requesting. Operator transfer settings are managed using the Administration Tool ([section 4.2, Software](#)).

3.1.3 Set Office Hours and Holidays

When office hours and holidays have been set, the system checks against the office hours and holiday schedule to determine the correct action when transferring calls.

3.1.4 Append an Optional Greeting

Appending an optional greeting instructs the system to play an additional greeting message when callers access VoicePermits. The optional greeting can be used to inform callers of changes in office hours or upcoming holidays. System administrators are responsible for recording the optional greeting. Training on how to record prompts and responses is provided during system installation ([section 4.3.2, Provide Administrative Training](#)).

3.1.5 Control Administrative Access

The system administrator is responsible for creating and deleting administrative accounts, editing account access levels, and changing the prompt recording access PIN for the interactive solution. Access levels can be set to only allow reporting capabilities or to allow full administrative access. Administrative access can be set using the Administration Tool ([section 4.2, Software](#)).

3.1.6 Add New Streets

As new streets are added to the Customer's jurisdiction, the system administrator should add them to VoicePermits; this ensures that appropriate responses are played to caller inquiries. Adding new street names and words requires two steps: creating the file in the Administration Tool ([section 4.2, Software](#)) and then recording the name or word using the telephone.

When Professional Voice Recording has been implemented, street name prompts are recorded prior to system delivery. Any new or updated prompts can be recorded for the Customer on a quarterly basis; prompts needing immediate recording, between quarterly updates, are the Customer's responsibility ([section 3.1.7, Record Prompts and Responses](#)). Note that, in order for Selectron Technologies to identify new streets, they must exist in the VoicePermits database. Access to quarterly voice updates is contingent upon an active Support and Maintenance plan; refer to the Contract for more details.

3.1.7 Record Prompts and Responses

New street words, codes, or system prompts need to be recorded. Recording prompts and responses creates an audio file for use by VoicePermits during a call. Each word or phrase has a unique identifying number that is used in recording. After a report is

generated showing the number of unrecorded prompts, a system administrator can call the system to record the missing prompts.

When purchasing Professional Voice Recording, all system prompts (including call flow), correction codes, and street names are recorded prior to system delivery. However, non-system prompt types and messages must be recorded by the Customer; refer to [section 2.1.2.3, Professional Voice Recording](#), for a list of non-system prompts. Training on how to record prompts and responses is provided during system installation ([section 4.3.2, Provide Administrative Training](#)).

3.1.8 Monitor System Status

Using the system monitor, the Customer's system administrator can view the status of the VoicePermits system. The status of each line is displayed, complete with the actions (if any) that are currently taking place.

3.1.9 Set Maximum Message Length

The VoicePermits application allows callers to leave messages for inspectors. By setting the maximum message length, the system administrator can determine a specific amount of time for messages. While messages can be any length, Selectron Technologies recommends that they be no longer than the automatic default of five minutes.

3.1.10 Define Schedule Days

The VoicePermits application offers callers a specific number of days ahead for inspection scheduling. The system administrator can set the number of available days using the Administration Tool ([section 4.2, Software](#)). The Customer's business rules determine how many days forward VoicePermits will offer callers.

3.1.11 Maintain Inspection Prerequisites

The System administrator is responsible for adding, editing, and deleting VoicePermits' inspection prerequisites using the Administration Tool ([section 4.2, Software](#)). When inspection prerequisites are added, the system administrator must also record corresponding system prompts ([section 3.1.7, Record Prompts and Responses](#)). Selectron Technologies assists the Customer with the initial prerequisite configuration.

3.1.12 Maintain Correction Codes

The system administrator is responsible for adding, editing, and deleting VoicePermits' correction codes using the Administration Tool ([section 4.2, Software](#)). When correction codes are added, the system administrator must also create a corresponding recording of the description to be played back to callers ([section 3.1.7, Record Prompts and Responses](#)). Selectron Technologies assists the Customer with the initial code configuration.

When Professional Voice Recording is implemented, prompt recording for correction codes is done prior to system delivery. The Customer is responsible for recording any subsequent correction code prompts. Selectron Technologies offers additional prompt recording of correction codes on a time and materials basis.

4.0 Deliverables

This section details the hardware, software, and services included in system implementation.

4.1 Hardware

Refer to Appendix A, **Hardware Specifications**, for details regarding hardware provided with the interactive solution.

4.2 Software

4.2.1 Selectron Technologies Software

The interactive solution's server (Appendix A, section B.1, Server) has the following Selectron Technologies' software installed:

- VoicePermits application software

In addition to the software listed above, the base system includes two licenses for the Administration Tool. The Customer uses this software to remotely define user-configurable settings in the interactive solution. One license is pre-installed on the server (Appendix A, section B.1, Server); the second license allows the Customer to install the Administration Tool on a workstation. Additional Administration Tool licenses can be purchased.

4.2.2 Third-Party Software

The interactive solution's server has the following third-party software installed:

- Microsoft® SQL® Server 2008
- Microsoft Visual C#®

4.3 Installation and Training

Selectron Technologies provides two days of on-site installation, testing, and training for the interactive solution.

4.3.1 Test and Install System Server

On the first on-site day, an Installation Specialist installs the interactive solution's server and performs any necessary configuration. Once installed, the Installation Specialist tests the interactive solution to ensure all included applications are functioning properly (refer to section 2.0, Functionality, for a list of all included applications).

4.3.2 Provide Administrative Training

Training for the system administrator occurs on the second day of the Installation Specialist's visit. Training also includes guidance on how system administrators can train additional staff.

Training for non-system prompt recording is also provided (refer to section 2.1.2.3, Professional Voice Recording, for a list of non-system, VoicePermits prompts)

4.3.3 Interface Upgrades

After the initial implementation of the interactive solution, the application database vendor may release new updates to their application or its interface that enable previ-

ously unavailable standard functionality described in this document. Implementing these features in a completed interactive solution with an upgraded application or interface will normally require professional services outside the scope of this document.

4.4 Documentation

A hard copy of the Administration Manual for each included application is delivered with the server. Additionally, an electronic version of each manual is provided in PDF format (refer to section 2.0, Functionality, for a list of included applications).

4.5 Support

Selectron Technologies' interactive solution has been thoroughly tested to ensure that the performance and functionality described in this document is accurate. The solution's software and hardware components are dependent on many services and applications within the Customer's operating environment that can impact system performance. While the interactive solution is designed to minimize performance interruptions, from time to time they will occur. Once notified of an interruption, Selectron's Customer Support Service begins troubleshooting the issue, with the objective of returning the system to full functionality as quickly as possible.

Refer to your Service Agreement, or section 5.1.3, On-going System Maintenance, of this document, for more information regarding services provided with the interactive solution.

5.0 Responsibilities and Requirements

5.1 Selectron Technologies, Inc.

This section outlines Selectron Technologies' responsibilities regarding system implementation and maintenance.

5.1.1 Pre-Installation

5.1.1.1 Provide Project Management

Selectron Technologies assigns a Project Manager to the system implementation. The Project Manager is the Customer's primary contact at Selectron Technologies and coordinates all necessary communication and resources.

5.1.1.2 Provide Documentation

The Project Manager provides the Customer with the following documents to help facilitate the implementation process:

- Implementation Questionnaire- identifies the Customer's functional needs and is used to create an implementation timetable. Each application included with this implementation has its own questionnaire (refer to section 2.0, Functionality, for a list of included applications).
- Remote Access Questionnaire- details information needed by Selectron Technologies to remotely access the Customer's network and permitting database, prior to system delivery and installation, to allow for com-

plete system testing. Refer to section 5.2.1.6, Provide Remote Network Access to Permitting Database, for more information.

- Implementation Timetable- details project schedule and details all project milestones.
- Pre-Install Checklist- prepares the Customer's staff for system installation. Once the checklist is completed and returned, the Project Manager schedules the on-site installation.
- Quality Assurance Test Plan- assists the Customer in determining that the interactive solution is functioning as specified in the Contract.
- System Acceptance Sign-off Form- indicates that the Customer has verified service functionality.

5.1.1.3 Develop Call Flow

The Project Manager works with the Customer to develop and complete the call flow design. Software development cannot begin until the call flow design is completed and approved by the Customer.

5.1.1.4 Provide Configuration Assistance

The Project Manager assists the Customer with the configuration of user-defined options.

5.1.1.5 Perform Quality Assurance Testing

Selectron Technologies thoroughly tests all applications and hardware prior to delivery, ensuring system functionality.

5.1.1.6 Provide Marketing Materials

Selectron Technologies provides marketing collateral that the Customer can use to promote the interactive solution to citizens. Marketing collateral includes a poster, tri-fold brochure, and business card; standard templates for each item are used. Collateral is developed using Adobe® InDesign® CS2 and is provided to the Customer in PDF format (original InDesign files are provided upon request).

Marketing collateral is adapted to the Customer's jurisdiction. Selectron Technologies' Project Manager assists the Customer in gathering the correct information to be displayed on the marketing collateral. Information displayed includes the following:

- Interactive solution's phone number
- Jurisdiction logo (preferably in EPS format)
- Jurisdiction address
- Name of the interactive solution, if Selectron branding is not utilized
- Included modules and functionality
- Additional contact/informational phone numbers
- Inspection codes

The templates are adapted to fit the Customer's jurisdiction using the information from the above list. The Customer is able to review the material to ensure information accuracy. If errors exist, the marketing materials are emended to

display the correct information. Any changes to the collateral that do not include the items listed above (e.g., design changes to the template) are billed on a time and materials basis. Any changes to the marketing materials after final delivery are also billed on a time and materials basis.

5.1.2 Installation

Selectron Technologies provides two days of on-site installation, testing, and training for the interactive solution. Refer to [section 4.3, Installation and Training](#), for additional information.

5.1.3 On-going System Maintenance

Selectron Technologies' support plan includes repair or replacement of any failed hardware or software component, a toll-free support line, and dial-in technical support for the solution. Refer to the Contract for more information.

5.2 Customer

This section outlines the Customer's system implementation and maintenance requirements.

5.2.1 Pre-Installation

5.2.1.1 Return Implementation Questionnaire

Selectron Technologies' Project Manager provides the Customer with an implementation questionnaire ([section 5.1.1.2, Provide Documentation](#)). The implementation questionnaire must be returned prior to developing the call flow design and the implementation timetable. Each application included in the interactive solution has a separate implementation questionnaire. Refer to [section 2.0, Functionality](#), for a list of all included applications.

5.2.1.2 Determine System Connection

Selectron implements using VoIP (Voice over Internet Protocol) by default if the Customer is set up for it. If the Customer is using analog lines, a T1 line, or ISDN (Integrated Digital Services Network), a Digital Media Gateway will be implemented. At times, these methods may incur differing costs (including such items as hardware, telephony professional services, or special installation services). The Project Manager will detail such special considerations as part of choosing the connection method. Once determined, and hardware has been purchased, changes to the connection configuration shall incur additional charges.

- **VoIP** Because VoIP is highly configurable, every VoIP deployment is unique. Even though SIP is growing to be the industry standard, it continues to evolve and different vendors can interpret said standards in different ways. Selectron has successfully implemented multiple IVR solutions in a variety of VoIP environments.
- The Customer is responsible for ensuring that the VoIP system is configured correctly to allow full functionality of the interactive solution. Full functionality may require additional third-party hardware and services, which are the responsibility of the Customer. Additional integration ser-

VICES are provided by Selectron Technologies' Project Manager and development team as part of the implementation process.

- If the Customer is upgrading a Selectron interactive solution to a VoIP environment, an additional license fee is required to upgrade to the latest version of the Syntellect CT ADE toolkit.
- **Media Gateway** A media gateway allows the interactive solution to run on VoIP, even if the Customer has t1 or analog lines. Depending on the type of line, an analog or T1 media gateway (or, in rare cases, multiple gateways) will be implemented. Typically, Selectron uses Dialogic media gateways, but may implement an alternative gateway device if the alternative is better suited to the Customer's environment and the interactive solution feature set.
- To ensure full functionality, analog lines are sometimes used to connect the interactive solution to the Customer's VoIP switch via a gateway device (which is not included with the interactive solution). This gateway device must support all necessary functions required of the switch (such as transfers).
- The IVR and Analog or T1 lines are plugged into the media gateway. Using a media gateway allows Selectron to configure the IVR as VoIP, meaning there is no need for voice boards on the IVR, and server HMP licenses are installed on the IVR.
- Having a media gateway minimizes the downtime necessary for switching to VoIP, if the Customer should choose to convert to VoIP in the future.

5.2.1.3 Provide Customer Specific Information

The following information should be supplied to Selectron Technologies, in conjunction with the Implementation Questionnaire, to help create a precisely integrated product. For further clarification on the format and detail of the following data, refer to the Implementation Questionnaire or contact your Selectron Technologies' Project Manager.

- Street names
- Observed holidays
- Extensions used for transfer functions
- Inspection result codes and descriptions
- Permit status codes and types
- Inspection types and descriptions
- Validations used for scheduling an inspection
- Correction codes and descriptions
- Permit numbering scheme

5.2.1.4 Define Permitting System and Interface Specifications

Selectron Technologies configures the interactive solution according to the Customer's completely defined permitting system and interface specifications. If the permitting system and interface are being developed in conjunction with the interactive solution, Selectron Technologies works with the Customer and permitting system vendor to define system specifications. The

specifications must be completely defined prior to starting development on the interactive solution. Any subsequent changes to the defined specifications during development are billable on a time and materials basis.

5.2.1.5 Approve Call Flow

The Customer is responsible for approving the call flow design developed by Selectron Technologies' Project Manager. Once the call flow design has been approved, software development begins.

5.2.1.6 Provide Remote Network Access to Permitting Database

In order to fully test the interactive solution, Selectron Technologies requires access to the permitting database prior to installation. Selectron Technologies' Project Manager provides a Remote Access Questionnaire to help the Customer identify the necessary requirements ([section 5.1.1.2, Provide Documentation](#)). If remote access is not granted, the Customer should inform the Project Manager immediately.

While system installation can be successful without prior access to the permitting database, additional, post-installation development and testing time will be necessary, delaying system activation by 1-2 weeks.

5.2.1.7 Confirm Pre-Install Tasks

Selectron Technologies' Project Manager provides the Customer with a pre-installation checklist (refer to [section 5.1.1.2, Provide Documentation](#)). Once the checklist is completed and returned, the Project Manager schedules the on-site installation.

5.2.2 Installation

5.2.2.1 Provide Installation Assistance

The Customer must ensure that telephony and network staff are available, or on stand-by, to assist with Selectron Technologies' Installation Specialist, if needed.

5.2.2.2 Provide Permitting Database Access

The interactive solution's server must have access to the permitting database and must be allowed access as a user on the database. The server may require additional licenses in order to have full access to the permitting database; these licenses are the Customer's responsibility. In addition, the Customer must purchase and implement the permitting database's interface.

5.2.2.3 Provide Network Access

The interactive solution's server must have network access via a 10/100 connection and a fixed IP address.

5.2.2.4 Provide Remote Access

Remote access to the interactive solution's server should be provided to Selectron Technologies' staff for development and technical support. There are multiple options for how to set up remote access—Selectron Technolo-

gies' Project Manager helps the Customer choose a solution that best fits the situation.

5.2.2.5 Install Phone Lines

Depending upon the telephony environment the Customer chooses, the process for connecting the interactive solution varies ([section 5.2.1.2, Determine System Connection](#)). The Customer (and, if necessary, the Customer's phone system provider) ensures that all necessary lines and/or components are installed and configured to allow integration with Selectron's interactive solution.

5.2.2.6 Confirm Service Functionality

The Customer has 30 calendar days after on-site installation to verify the functionality of the interactive solution. Within the 30-day system acceptance period the Customer should test system functionality using the provided Quality Assurance Test Plan ([section 5.1.1.2, Provide Documentation](#)). Additionally, the System Acceptance Sign-off form ([section 5.1.1.2, Provide Documentation](#)) must be sent to Selectron Technologies' Project Manager within this period.

5.2.3 On-going System Responsibilities and Requirements

5.2.3.1 Provide Remote Access

Remote access to the interactive solution's server must be provided to Selectron Technologies staff for development and technical support. Remote access can be set up using a VPN (Virtual Private Network) or IP (Internet Protocol) pinhole— Selectron Technologies' Project Manager assists the Customer in choosing a solution that best fits the situation.

Additionally, Selectron Technologies requires a variety of access accounts to the Customer's network and database/system. Changing or deleting access accounts could lead to disruption in service for the interactive solution and/or Selectron Technologies' ability to provide timely support. Please notify Selectron Technologies immediately if the following accounts are modified:

- VPN account and password (if applicable)
- Network account and password for the interactive solution
- Permitting database accounts and passwords for the interactive solution
- Permitting system accounts and passwords for the interactive solution
-
- IP address of the permitting database server
- Group user account and password (Cisco® users only)

5.2.3.2 Perform Regular System Backups

The Customer is responsible for including the interactive solution's server in regular system backup procedures.

5.2.3.3 Maintain Server Environment

The interactive solution's server should reside in an environment that meets acceptable, industry-standard hardware maintenance protocols. If adequate conditions are not maintained and/or the server sustains physical damage due to misuse, the Customer is responsible for server replacement.

5.2.3.4 Provide Security

The interactive solution is designed to operate within the Customer's secure network environment. Specifically, the software relies on the Customer's security measures; no further security infrastructure or anti-virus software is implemented.

5.2.3.5 Contact Customer Support

Anytime the Customer requests a significant change to their Selectron interactive solution, an authorized contact from the agency must provide acknowledgement to Selectron's Customer Support Department. A significant change is a modification that will A) change system behavior, B) allow users to change the system, or C) allow access to protected data.

Appendix A: Hardware Specifications

A. Overview

This addendum to the Statement of Work details the interactive solution's hardware specifications.

B. Hardware

B.1 Selectron Technologies Provided Server

The hardware delivered for this implementation is an HP Proliant DL380 G7 2U. This server has RAID 5 with SAS drives, four (4) GB RAM, redundant power supply, and redundant fans. A KVM (keyboard, video, mouse) switch can be requested, if required by the Customer. The server is ordered as a tower, but a tower to rack conversion kit is available if needed. Selectron Technologies reserves the right to select a different server at any point prior to system installation, provided that it is also optimized for the interactive solution.

B.1.1 Return of Hardware

In the event that replacement hardware is required, the original hardware must be returned to Selectron Technologies. Situations requiring the return of replaced hardware include but are not limited to: hardware upgrades, server exchanges, and installation of a single shared application server that replaces a multiple server, multiple application environment.

Pricing provided in the purchase of replacement or upgraded hardware reflects a discount for returning the current hardware. Following the go-live of the new interactive solution, the replaced hardware (including server(s) and all other replaced hardware components) must be returned to Selectron Technologies. Shipping costs for the return of the hardware are the responsibility of Selectron Technologies.

If the Customer chooses to retain the original hardware, the Customer is not eligible for the discount on replacement hardware listed in the Quote.

B.2 Customer Provided Server

If the Customer requires another server, other than the one provided with the interactive solution ([section B.1, Selectron Technologies Provided Server](#)), Selectron Technologies must be notified immediately during the initial phase of project implementation. It is the Customer's responsibility to provide an adequate replacement that meets Selectron Technologies' Customer Provided Server Policy requirements. If a dual-processor server is provided by the Customer, additional license fees are required due to third-party licensing agreements. A dual-processor server is not required for the system.

B.3 VoIP Ports

The interactive solution includes four (4) licensed VoIP ports.

PremierPro Support and Maintenance Agreement

This PremierPro Support and Maintenance Agreement (this "Agreement") is entered effective as of the Service Date (as set forth in Exhibit A to this Agreement), by and between Selectron Technologies, Inc., an Oregon corporation and its successors and assigns (collectively, "Company") and Monroe County, Florida, ("Customer").

Upon the terms and conditions of this Agreement and for the fees specified in this Agreement, Company will provide to Customer support and maintenance for the Products, as outlined below and set forth in Exhibit A to this Agreement, for the Term of the Agreement (defined below).

1. Initial Term:

The initial term of this Agreement shall commence upon the issuance of the Installment Invoice (as that term is defined in Exhibit A of that certain Professional Services Agreement between the parties), with respect to installment of the Company product(s) to which this Agreement relates (the "Products"), and shall continue for a period of 12 months (the "Initial Term"). A list of the Products is attached as Exhibit A to this Agreement.

2. Renewal:

a) This Agreement will automatically renew for successive terms of one (1) year each (each, a "Renewal Term") unless either party gives written notice of non-renewal at least thirty (30) days before the end of the Initial Term or then-current Renewal Term. The Initial Term and all Renewal Terms shall be collectively referred to in this Agreement as the "Term".

b) The Customer shall maintain continuous coverage of its support contracts in order to be eligible for telephone support, and other services provided hereunder. If Customer provides notice of its intent not to renew the Agreement for any given Renewal Term, under Section 2(a), and Customer later decides to reinstate support services, the Customer must pay all fees that would otherwise have been paid had this Agreement been renewed without interruption.

3. Termination:

This Agreement may be terminated by either party at any time and for any reason upon ninety (90) days' prior written notice to the other party. Upon termination of this Agreement by either party and for any reason, Customer shall immediately pay all amounts then due to Company, but Customer shall not be responsible for paying subsequent fees due for the remainder of the then-current Initial Term or Renewal Term.

4. Fees:

The Customer shall pay Company the service fee set forth in Exhibit A to this Agreement, for the support and maintenance services described in Section 5 of this Agreement (the "PremierPro Support").

5. Support and Maintenance:

The PremierPro Support includes:

- a. Telephone support for general use questions during normal business hours (6:00 a.m. to 5:00 p.m. Pacific Time, Monday through Friday)*
- b. Use of Company's toll free number for PremierPro Support inquiries
- c. On-Line technical diagnostic support
- d. Software correction updates that are made generally available to Company's customers
- e. 24 Hours, 7 days per week, 365 days per year support for emergency (system down or inoperable) calls
- g. Development work necessary to support standard version updates to Customer's host database (i.e. land management software, utility billing software) and back-end database. This requires two (2) weeks' notice prior to planned system update in order to accommodate scheduling of resources. Please contact support@STIgov.com to schedule.
- h. Quarterly Proactive System Review. Company will perform, on a quarterly basis, the following system diagnostics and create a history file and notify the primary Customer contact with the results of these actions:
 1. Assess the current machine resources including memory, processor, and disk-space utilization
 2. Examine log files including error logs to identify any anomalous entries
 3. Apply current validated software updates to the operating system, device drivers, and database server software.
- i. 'Out-of-cycle' critical updates. Updates that meet these criteria are intended to cure failures that might be likely to cause hardware damage, system unavailability, data corruption, or severe data vulnerability.

*Non-emergency calls made after normal business hours will be billed at an hourly rate of 1.5 times the current day labor rate, with a two hour minimum charge.

6. Support Services:

This Agreement does not include, and the fee set forth in Exhibit A to this Agreement does not cover, support services relating to the following items:

- a) Any support or maintenance services relating to Products that have been altered or modified by anyone other than Company or a third party on Company's behalf.
- b) Hardware replacement or software errors as a result of causes beyond Company's reasonable control.
- c) Version upgrades of host or backend database software.
- d) Direct support for the required application program interface either purchased or procured as part of the integrated solution.
- e) Enhancements, replacements, or modifications to current Product versions performed at the Customer's request and not intended to resolve a product failure.
- f) Services, support, and configuration of passive fail-over server (unless expressly purchased and listed in Exhibit A to this Agreement).

Upon Customer's request, Company may, in its discretion, agree to provide one or more of the above-listed services in this Section 6, at Company's then-current published hourly rates or for a fixed fee. If Customer's payments under this Agreement for PremierPro Support provided under Section 5 are current upon Customer's request for services described in this Section 6, and Company agrees to provide services described in this Section 6, Customer will receive preferred rates for both standard and after-hours services.

7. Hardware Maintenance:

Company, at its sole discretion, may use new or refurbished parts for the repair of any Company-provided hardware in connection with performance of PremierPro Support or services provided under Section 6 of this Agreement.

8. Customer Preventative Maintenance:

Customer shall perform all necessary preventative maintenance as outlined in Company's Administrative Guide, which may be updated from time to time by Company. Notwithstanding anything to the contrary in this Agreement, if Customer's failure to perform the required preventative maintenance is determined, in Company's reasonable discretion, to be the cause of any support call, Customer will be billed for the support call and the services required to service the Product, at Company's then-current hourly rate.

9. Response Times:

Non-emergency support calls will be responded to within one (1) business day, however most calls are handled within two (2) hours of receipt. For PremierPro Support

calls made during non-business hours, an answering service takes all support calls. Calls that are placed as an emergency (system down or inoperable) will be dispatched to the on-call support staff for response within four (4) hours. Non-emergency calls will be directed to support personnel, and will be responded to the next business day.

10. Customer Contacts:

Three (3) customer support contacts are allowed. Additional contacts may be added at any time for an additional \$500.00 per contact per Initial Term or then-current Renewal Term. Only Customer's customer support contacts may contact Company for support services.

Customer's customer support contacts are as set forth on Exhibit A to this Agreement. Customer may change its customer support contacts upon thirty (30) days' written notice to Company.

11. Representations and Warranties; Warranty Disclaimer:

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE PREMIERPRO SUPPORT SERVICES AND OTHER SERVICES PROVIDED HEREUNDER, AND ALL ASSOCIATED PRODUCTS, ARE PROVIDED TO CUSTOMER "AS IS" AND AS AVAILABLE, AND COMPANY AND ITS SUPPLIERS DISCLAIM ALL OTHER WARRANTIES, EITHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT OF THIRD PARTY RIGHTS. This warranty disclaimer is made regardless of whether Company knows or had a reason to know of Customer's particular needs. No employee, agent, dealer or distributor of Company is authorized to modify this warranty disclaimer, or to make any warranties, whether orally, in writing, or otherwise.

12. Limitation of Liability:

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT WILL COMPANY BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, PUNITIVE, EXEMPLARY, SPECIAL OR INCIDENTAL DAMAGES, INCLUDING BUT NOT LIMITED TO ANY LOST DATA AND LOST PROFITS, ARISING FROM OR RELATING TO THIS AGREEMENT, THE PRODUCTS, AND/OR THE PREMIERPRO SUPPORT OR OTHER SERVICES PROVIDED OR CONTEMPLATED UNDER THIS AGREEMENT. COMPANY'S TOTAL CUMULATIVE LIABILITY IN CONNECTION WITH THIS AGREEMENT, THE PRODUCTS, AND THE PREMIERPRO SUPPORT OR OTHER SERVICES PROVIDED OR CONTEMPLATED UNDER THIS AGREEMENT, WHETHER IN CONTRACT OR TORT OR OTHERWISE, WILL NOT EXCEED THE AMOUNT OF FEES ACTUALLY PAID TO COMPANY HEREUNDER IN THE TWELVE- (12-) MONTH PERIOD IMMEDIATELY PRECEDING THE ACTION THAT GAVE RISE TO THE CLAIM. CUSTOMER ACKNOWLEDGES THAT THE FEES REFLECT THE ALLOCATION OF RISK SET FORTH IN THIS AGREEMENT AND

THAT COMPANY WOULD NOT ENTER INTO THIS AGREEMENT WITHOUT THESE LIMITATIONS ON ITS LIABILITY.

13. Downtime Credit:

13.1 If Company materially fails to perform its obligations under this Agreement, and such failure results in downtime of the relevant Product that exceeds 48 hours, Customer's sole remedy, and Company's entire liability, shall be a pro rata refund of the fees paid, as prorated to equal the amount of downtime ("Downtime Credit"). In order to receive a Downtime Credit, Customer must notify Company in writing of its request for a Downtime Credit within seven (7) days from beginning of the downtime; provided, however, that Customer will not be entitled to any Downtime Credit unless Customer notified Company of the downtime within twenty-four (24) hours of beginning of the downtime. In no event shall any Downtime Credit or the total cumulative damages for a breach of this Agreement by Company be more than the amounts previously paid by Customer under this Agreement in the 12 month period immediately preceding the applicable downtime or breach.

13.2 As used in this Agreement, Customer acknowledges and agrees that "downtime" includes time when the applicable Product is not accessible, but downtime does not include regularly-scheduled maintenance or scheduled maintenance of which Customer is given at least three (3) days' advance notice. "Downtime" also does not include inaccessibility of the Products caused by third parties outside of Company's reasonable control, such as Internet Service Providers, electricity providers, and telecommunications service providers.

14. Network Security Disclaimer:

14.1 Internet Security.

Company's Products may include software that connects to the Internet. The software is designed to operate within Customer's secure network environment, and the software does not provide any mechanism for security or privacy. Specifically, the software relies fully on Customer's security measures and implements no further security infrastructure. Company makes no representations or warranties to Customer regarding (i) the security or privacy of Customer's network environment; or (ii) any third-party technologies' or services' ability to meet Customer's security or privacy needs. These third-party technologies and services may include, but are not limited to, operating systems, database management systems, web servers, and payment processing services. Customer is solely responsible for ensuring a secure network environment.

14.2 Remote Access Security.

In order to enable code development, and Customer support and maintenance of the Products, Company

requires remote access capability. Remote access is normally provided by installing PC-Anywhere, ControlIT, or other industry standard remote access software. It may also be provided through a Customer solution such as VPN access. Regardless of what method is used to provide remote access, or which party provides remote access software, it is Customer's responsibility to ensure that the remote access method meets Customer's security requirements. Company makes no representations or warranties to Customer regarding the remote access software's ability to meet Customer's security or privacy needs. Company also makes no recommendation for any specific package or approach with regard to security. Customer is solely responsible for ensuring a secure network environment.

14.3 Outbound Services Disclaimer.

Outbound services are intended to create additional methods of communication to Customer's employees who use the Products in support of existing processes. These services are not intended to replace all interaction with Customer's employees or become critical path. While the outbound services have been created with the best available tools and practices, they are dependent on infrastructure that is inherently not fail-proof, including but not limited to infrastructure such as software, computer hardware, network services, telephone services, and e-mail. Examples of situations that could cause failure include but are not limited to: down phone lines, all lines busy, equipment failure, email address changes, Internet service disruptions. For this reason, while outbound services are valuable in providing enhanced communication, they are specifically not designed to be used as the sole method to deliver critical messages. Customer acknowledges that it is aware of the potential hazards associated with relying on an automated outbound service feature, when using the Products, and Customer acknowledges and agrees that it is giving up in advance any right to sue or make any claim against Company, and that Customer forever releases Company from any and all liability, if Customer, or Customer's employees, suffer injury or damage due to the failure of outbound services to operate, even though Customer does not know what or how extensive those injuries or damages might be.

15. Government Contracts:

15.1 In the event that Company shall perform Services under this Agreement in connection with any government contract or in which Customer may be the prime contractor or subcontractor for a government contract, Company agrees to abide by all laws, rules, and regulations relating to said government contract; provided that Customer provides a copy of the contract to Company prior to execution of this Agreement.

15.2 Company advises that, to the extent allowed by law, the resultant contract terms and pricing may be extended

to other State of Florida jurisdictions, public entities, political subdivisions and government cooperative purchasing group(s) whose processing requirements, applications, specifications and standards coincide with the processing requirements, applications, specifications and standards herewith. The extension of this contract to any entity is at the sole discretion of Company. A qualified entity choosing to join this contract shall execute a separate contract with the specifications, pricing, terms and rights provided herewith, directly between the entity and Company, and shall commit a separate purchase order and pay for supplies and services by means of their individual accounting and purchasing departments. Any processing requirements, applications, specifications and/or standards not covered herewith will be developed and priced separately, based on the entity's additional requirements and specifications, and appended to the new resultant contract. The entity shall deal directly with Company concerning the placement of orders, invoicing, contractual disputes and all other matters. Failure to extend this contract to any entity shall have no effect on the consideration of Company's current bids or agreements.

16. Severability:

If any provision of this Agreement is unenforceable, such provision will be changed and interpreted to accomplish the objectives of such provision to the greatest extent possible under applicable law, and the remaining provisions will continue in full force and effect. Without limiting the generality of the foregoing, Customer agrees that Sections 12 and 13 will remain in effect notwithstanding the unenforceability of any provision in Section 11.

17. Force Majeure:

Any delay in the performance of any duties or obligations of either party (except the payment of money owed) will not be considered a breach of this Agreement if such delay is caused by a labor dispute, shortage of materials, fire, earthquake, flood, or any other event beyond the reasonable control of such party, provided that such party uses reasonable efforts, under the circumstances, to notify the other party of the circumstances causing the delay, to mitigate the harm or damage caused by such delay, and to resume performance as soon as possible.

18. Independent Contractor Relationship:

Company's relationship with Customer will be that of an independent Contractor and nothing in this Agreement should be construed to create a partnership, joint venture, or employer-employee relationship. Customer is not an agent of Company and is not authorized to make any representation, contract, or commitment on behalf of Company, or to bind Company in any way. Company is not an agent of Customer and is not authorized to make any representation, contract, or commitment on behalf of Customer, or to bind Customer in any way. Company will

not be entitled to any of the benefits, which Customer may make available to its employees, such as group insurance, profit sharing or retirement benefits.

19. Governing Law; Jurisdiction:

This Agreement will be governed by and construed in accordance with the laws of the State of Florida, without reference to its conflict of law provisions. The United Nations Convention on Contracts for the International Sale of Goods does not apply to and shall not be used to interpret this Agreement. Any action or proceeding arising from or relating to this Agreement must be brought in the federal or state court located in Monroe County, Florida. This agreement is not subject to arbitration.

20. Notice:

All notices, consents, and other communications under this Agreement must be delivered in writing by courier, by electronic facsimile (fax), or by certified or registered mail (postage prepaid and return receipt requested) to the other party at the address set forth beneath such party's signature, and will be effective upon receipt or three (3) business days after being deposited in the mail as required above, whichever is sooner. Either party may change its address by giving notice of the new address to the other party.

21. Attorney's Fees:

In the event of a dispute between Customer and Company concerning this Agreement, the prevailing party shall be entitled to recover its reasonable attorneys' fees and expenses from the other party.

22. Survival.

Sections 3, 11.3, 12, 14-25 and the rights and obligations therein will survive expiration or early termination of this Agreement.

23. Waiver:

All waivers must be in writing. Any waiver or failure to enforce any provision of this Agreement on one occasion will not be deemed a waiver of any other provision or of such provision on any other occasion.

24. Authority:

Any person executing this Agreement in a representative capacity in so signing this Agreement acknowledges his or her authority to do so and his or her authority to bind the entity on whose behalf the Agreement is signed.

25. Entire Agreement:

This Agreement and the attached Exhibit(s), which are incorporated into and made a part of this Agreement by this reference, constitute the entire agreement between the parties regarding the subject hereof and supersedes all prior or contemporaneous agreements, understandings, and communication, whether written or oral. This Agreement may be amended only by a written document

signed by both parties. The terms on any purchase order or similar document submitted by Customer to Company will not modify the terms and conditions of this Agreement or have any force or effect.

26. Counterparts:

This Agreement may be signed in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and, when taken together, shall be deemed to constitute one and the same

agreement. Each party agrees that the delivery of this Agreement by facsimile transmission or by PDF attachment to an e-mail transmission will be deemed to be an original of the Agreement so transmitted and, at the request of either party, the other party will confirm facsimile or e-mail transmitted signatures by providing the original document.

This Software License Agreement ("SLA" or this "Agreement") is entered into by and between Selectron Technologies, Inc. an Oregon corporation and its successors and assigns (collectively, "Company"), and Monroe County, Florida ("Customer"). Company agrees to allow Customer to use Company's computer software and associated media and printed materials, which may or may not include electronic documentation and documentation available via the Internet (collectively, the "Software"), under the terms and conditions of this SLA. By signing below, and/or by installing or otherwise using the Software with Company's permission, Customer agrees to be bound by the terms of this SLA.

1. Grant of License.

Subject to the terms and conditions of this SLA, Company grants to Customer a non-exclusive, non-sublicensable, non-transferable and non-assignable (except as specifically set forth herein), and limited license to install and use the Software solely during the Term of this Agreement (the "License"). The License entitles Customer to install and use the Software at its principal place of business solely on a single computer (unless Customer is authorized to install and use the Software on more than one computer, as set forth in that certain Professional Services Agreement between the parties), and solely for Customer's internal business use. A license for each active server, test server, or active fail-over server must be expressly purchased for the specific use of the Software on each server. Except as otherwise notified by Company, the Software may not be used in connection with any software not acquired from Company or recommended in writing by Company specifically for use with the Software. Except as expressly set forth in this Section 1, no other right or license is granted to Customer with respect to the Software.

Use of the Software requires that Customer use, as part of the Software, certain third-party Runtime-Restricted Use Software. By agreeing to this Agreement and installing and using the Software, Customer agrees to all terms and conditions set forth in the End User License Agreement(s).

2. License Fee.

Customer agrees to pay a license fee for the above-granted license, as set forth in accordance with the terms of that certain Professional Services Agreement between Company and Customer (the "License Fee"). The Professional Services Agreement sets forth a payment schedule and payment terms for the License Fee, which are incorporated into and made a part of this Agreement by this reference.

3. Other Rights and Limitations.

3.1 Transfer of Software. Customer may not rent, lease, distribute, sell, assign, pledge, sublicense, loan, timeshare, otherwise transfer, or otherwise use the Software for the commercial or other benefit of third parties, but Customer may transfer the use of the Software from Customer to a third party on a permanent basis, provided that (i) Customer

notifies Company of the transfer in advance of the transfer; (ii) Customer ceases all use of the Software and retains no copies of the Software after the transfer; and (iii) the third-party recipient expressly agrees in writing to the terms of this SLA and provides the signed SLA to Company. In the event of such a transfer, Customer agrees to pay any additional installation, set-up, or training fees arising out of the transfer of the Software to the third party (to the extent that the third party refuses or fails to pay such fees). Customer further agrees to allow Company or its representatives onto Customer's premises to ensure that Customer has ceased all use of the Software and not retained any copies of the Software.

3.2 Limitation on Reverse Engineering, Decompilation, and Disassembly. Customer may not, and may not permit any employee or third party to, reverse engineer, decompile, translate, or disassemble the Software, or otherwise determine or attempt to determine any source code, algorithms, methods, or techniques used or embodied in the Software, except and only to the extent that applicable law, notwithstanding this limitation, expressly permits such activity.

3.3 Other Use Restrictions. Customer may not use the Software for any purpose other than for use on Customer's own internal computer networks, as set forth in this SLA. Customer agrees to comply with all applicable laws, rules, and regulations in its use of the Software. Customer may not, and may not permit its employees or any third party to, (i) modify, translate, or create derivative works based on or derived from the Software; (ii) remove or alter any copyright, trademark, or other proprietary notices, legends, symbols, or labels appearing on or in the Software; (iii) perform, or release the results of, benchmark tests or other comparisons of the Software with other software, media, or materials; (iv) permit the Software to be used for or in connection with processing data or other information on behalf of any third party; or (v) incorporate the Software or any portion thereof into any other materials, products, or services.

3.4 Installation/Copy Limitation.

The Customer may install one extra copy of the Software on one (1) passive server for temporary fail-over support only and not for regular use under the License. That server must have the same number of, or fewer, processors as the active server on which the Software is installed.

3.5 Notice to Users.

Customer shall inform all Customer employees who use the Software under the License of all terms and conditions of the SLA, and Customer acknowledges and agrees that it is responsible for all such employee usage of the Software.

In the event of any violation of this Section 3, Licensor may immediately terminate this Agreement in accordance with Section 12, and shall be entitled to injunctive relief in accordance with Section 13.9.

4. Copyright.

The Software is licensed, not sold. Customer acknowledges and agrees that Company or its suppliers own title to the Software and all present and future copyrights, trade secret rights, patent rights, trademark rights, and all other intellectual property and proprietary rights in and to the Software (including without limitation, all source and object code, algorithms, techniques, methods, images, "applets," photographs, animations, video, audio, music, text, and other content comprising and/or incorporated into the Software), accompanying printed materials, the copy of the Software that Customer is permitted to make under Section 3.4, and all updates and upgrades to and versions and derivative works of the foregoing. Customer may not copy or transfer the Software, except as expressly provided in Section 3 of this Agreement. Customer may not copy the printed materials accompanying the Software without Company's prior written approval in each instance of such proposed copying.

5. Dual-Media Software.

Customer may receive the Software in more than one medium. Regardless of the type or size of media Customer receives, Customer may use only the single medium that is appropriate for Customer's single computer. Customer may not use or install the other media on another computer. Customer may not loan, rent, lease, distribute, sell, assign, pledge, sublicense, timeshare, or otherwise transfer the media to another user or use the media for the commercial or other benefit of any third party, except as part of the permanent transfer of the Software under Section 3.1 of this Agreement.

6. Export Restrictions.

The Software is subject to the export control laws of the United States and other countries. Customer may not export or re-export the Software, unless Customer has first obtained Company's prior written permission and the appropriate United States and foreign government licenses,

at Customer's sole expense. Customer must otherwise comply with, and contractually require that all of its employees comply with, all applicable export control laws and regulations in the use of the Software. The Software may not be downloaded or otherwise exported or re-exported (a) into any country for which the United States has a trade embargo, or (b) to anyone on the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Commerce Department's Denied Persons List. Customer represents and warrants that it is not located in, under the control of, or a national or resident of any such country or on any such list. Customer shall defend, indemnify and hold Company and all successors, assigns, affiliates, suppliers, and each of their officers, directors, employees, and agents harmless for, from, and against any and all claims, allegations, damages, liabilities, and costs and expenses (including without limitation attorneys' fees and costs) arising out of Customer's violation of such export control laws. Customer further agrees to comply with the United States Foreign Corrupt Practices Act, as amended.

7. Representations and Warranties; Warranty Disclaimer

7.1 Customer represents and warrants that (a) it has full right and power to enter into and perform its obligations under this Agreement, and (b) it will take all reasonable precautions to prevent injury to any persons (including employees of Company) or damage to Company's property during the Term of this Agreement.

7.2 Company represents and warrants that (a) it has full right and power to enter into and perform its obligations under this Agreement, and (b) it will take all reasonable precautions to prevent injury to any persons (including employees of Customer) or damage to Customer's property during the Term of this Agreement.

7.3 Company warrants that the Software will perform substantially in accordance with the specifications set forth in the Scope of Work to the Professional Services Agreement, for a period of one (1) year from the date of the installation, as that term is defined in the Professional Services Agreement, Exhibit A. Any changes or modifications to the Software by any person other than Company, or any combination of the Software with any other materials by any person other than Company, voids this limited warranty. This limited warranty is also void if failure of the Software results from transportation, neglect, misuse, or misapplication of the Software by any person other than Company; from any accident beyond Company's control; from use of the Software not in accordance with this Agreement or documentation provided in connection with the Software; or from Customer's failure to provide a suitable installation or use environment for the Software.

7.4 The express warranties in Section 7.2 and 7.3 set forth above are in lieu of all other warranties, express, implied or statutory, arising from or related to this agreement and the Software provided to customer hereunder, including,

but not limited to, any implied warranties of merchantability, fitness for a particular purpose, title, and non-infringement of third party rights. Customer acknowledges that it has relied on no warranties other than the express warranties in Section 7.2 and 7.3 of this agreement. Except for the express warranty in Section 7.3 of this Agreement, Company provides the software to customer "as is" and "as available," and does not warrant that the Software will be uninterrupted or error free, and hereby disclaims any and all liability in connection therewith. This warranty disclaimer is made regardless of whether Company knows or had a reason to know of Customer's particular needs. No employee, agent, dealer or distributor of Company is authorized to modify this limited warranty, or make any additional warranties, whether orally, in writing, or otherwise. This Section 7.4 shall be enforceable to the fullest extent permitted by applicable law.

8. Customer Remedies; Limitation of Liability.

8.1 If Customer finds what it reasonably believes to be a failure of the Software to substantially conform to the functional specifications in the Scope of Work, and provides Company with a written report that describes such failure in sufficient detail to enable Company to reproduce such failure, Company's and its suppliers' entire liability and Customer's exclusive remedy is for Company to use commercially-reasonable efforts to correct or provide a workaround for such failure at no additional charge to Customer. If, in Company's sole discretion, it provides Customer with replacement Software, the replacement Software will be warranted in accordance with the provisions of this Agreement for the remainder of the original warranty period or thirty (30) days, whichever is longer. Outside the United States, neither these remedies nor any product support services offered by Company are available without proof of purchase from an authorized non-U.S. source.

8.2 TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT WILL COMPANY BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, EXEMPLARY, PUNITIVE, SPECIAL, OR INCIDENTAL DAMAGES, INCLUDING BUT NOT LIMITED TO ANY LOST DATA AND LOST PROFITS, ARISING FROM OR RELATING TO THIS SLA, THE SOFTWARE, AND RELATED DOCUMENTATION. COMPANY'S TOTAL CUMULATIVE LIABILITY IN CONNECTION WITH THIS SLA, THE SOFTWARE, AND RELATED DOCUMENTATION, WHETHER IN CONTRACT OR TORT OR OTHERWISE, WILL NOT EXCEED THE AMOUNT OF THE LICENSE FEE ACTUALLY PAID TO COMPANY HEREUNDER IN THE TWELVE- (12-) MONTH PERIOD IMMEDIATELY PRECEDING THE ACTION THAT GAVE RISE TO THE CLAIM. CUSTOMER ACKNOWLEDGES THAT THE LICENSE FEE REFLECTS THE ALLOCATION OF RISK SET FORTH IN THIS SLA AND THAT COMPANY WOULD NOT ENTER INTO THIS SLA WITHOUT THESE LIMITATIONS ON ITS LIABILITY.

9. Network Security Disclaimer

9.1 Internet Security.

Company's Software may have the ability to connect to the Internet. The Software is designed to operate within Customer's secure network environment, and the Software does not provide any mechanism for security or privacy. Specifically, the Software relies fully on Customer's security measures and implements no further security infrastructure. Company makes no representations or warranties to Customer regarding (i) the security or privacy of Customer's network environment; or (ii) any third-party technologies' or services' ability to meet Customer's security or privacy needs. These third-party technologies and services may include, but are not limited to, operating systems, database management systems, web servers, and payment processing services. Customer is solely responsible for ensuring a secure network environment.

9.2 Remote Access Security.

In order to enable code development, and Customer support and maintenance of the Software (if purchased by Customer pursuant to a separate support and maintenance agreement), Company requires remote access capability. Remote access is normally provided by installing PC-Anywhere, ControlIT, or other industry standard remote access software. It may also be provided through a Customer solution such as VPN access. Regardless of what method is used to provide remote access, or which party provides remote access software, it is Customer's responsibility to ensure that the remote access method meets Customer's security requirements. Company makes no representations or warranties to Customer regarding the remote access software's ability to meet Customer's security or privacy needs. Company also makes no recommendation for any specific package or approach with regard to security. Customer is solely responsible for ensuring a secure network environment.

9.3 Outbound Services Disclaimer.

Outbound services are intended to create additional methods of communication to Customer's employees who use the Software in support of existing processes. These services are not intended to replace all interaction with Customer's employees or become critical path. While the outbound services have been created with the best available tools and practices, they are dependent on infrastructure that is inherently not fail-proof, including but not limited to infrastructure such as software, computer hardware, network services, telephone services, and e-mail. Examples of situations that could cause failure include but are not limited to: down phone lines, all lines busy, equipment failure, email address changes, internet service disruptions. For this reason, while outbound services are valuable in providing enhanced communication, they are specifically not designed to be used as the sole method to deliver critical messages. Customer acknowledges that it is aware of the potential hazards associated with relying on an automated outbound service feature, when using the Software, and Customer acknowledges and agrees that it is

giving up in advance any right to sue or make any claim against Company, and that Customer forever releases Company from any and all liability, if Customer, or Customer's employees, suffer injury or damage due to the failure of outbound services to operate, even though Customer does not know what or how extensive those injuries or damages might be.

10. U.S. Government End Users.

10.1 The Software is a "commercial item", as that term is defined at 48 C.F.R. 2.101, consisting of "commercial computer software" and "commercial computer software documentation", as such terms are used in 48 C.F.R. 12.212 or 48 C.F.R. 227.7202, as applicable. Consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4, the Software is licensed to any U.S. Government end users (i) only as a commercial end item and (ii) with only those rights as are granted to all other end users pursuant to the terms and conditions herein. Company and licensor of the Software is Selectron Technologies, Inc., 7405 SW Tech Center Drive, Suite 140, Portland, Oregon 97223, USA. This Section 10.1, consistent with 48 C.F.R. § 12.212 and 48 C.F.R. § 227.7202 is in lieu of, and supersedes, any other Federal Acquisition Regulation, Defense Federal Acquisition Regulation Supplement, or other clause or provision that addresses United States Government rights in computer software, technical data, or computer software documentation.

10.2 Company advises that, to the extent allowed by law, the resultant contract terms and pricing may be extended to other State of Florida jurisdictions, public entities, political subdivisions and government cooperative purchasing group(s) whose processing requirements, applications, specifications and standards coincide with the processing requirements, applications, specifications and standards herewith. The extension of this contract to any entity is at the sole discretion of Company. A qualified entity choosing to join this contract shall execute a separate contract with the specifications, pricing, terms and rights provided herewith, directly between the entity and Company, and shall commit a separate purchase order and pay for supplies and services by means of their individual accounting and purchasing departments. Any processing requirements, applications, specifications and/or standards not covered herewith will be developed and priced separately, based on the entity's additional requirements and specifications, and appended to the new resultant contract. The entity shall deal directly with Company concerning the placement of orders, invoicing, contractual disputes and all other matters. Failure to extend this contract to any entity shall have no effect on the consideration of Company's current bids or agreements.

11. Support and Maintenance.

Customer may purchase support for and maintenance of the Software from Company by entering into a separate

PremierPro Support and Maintenance Agreement with Company.

12. Term and Termination.

12.1 This SLA shall continue indefinitely, unless terminated earlier in accordance with this Section 12 (the "Term").

12.2 Customer may terminate this SLA at any time by returning or deleting all copies of the Software in Customer's possession and providing Company written notice that Customer has done so. Under no circumstances will Company provide a refund of paid fees to Customer.

12.3 Company may terminate this SLA, all other agreements between the parties, if any, and Customer's right to continue to use the Software hereunder, immediately upon written notice if Customer breaches a material term or condition of this SLA, including Customer's failure to pay the License Fee when due, and fails to cure such breach within sixty (60) days of being notified of the breach by Company. Upon such termination, Customer shall immediately cease all use of the Software, and Company may terminate Customer's access to the Software. Further, upon such termination, Customer must promptly return all copies of the Software and related documentation in its possession or under its control to Company and provide Company with written notice that it has done so.

12.4 Sections 4, 7.4, 8.2, 9, 12, 13 and the rights and obligations therein shall survive any termination of this SLA.

13. General Provisions.

13.1 Independent Contractor Relationship.

Company's relationship with Customer will be that of an independent Contractor and nothing in this Agreement should be construed to create a partnership, joint venture, or employer-employee relationship. Customer is not an agent of Company and is not authorized to make any representation, contract, or commitment on behalf of Company, or to bind Company in any way. Company is not an agent of Customer and is not authorized to make any representation, contract, or commitment on behalf of Customer, or to bind Customer in any way. Company will not be entitled to any of the benefits, which Customer may make available to its employees, such as group insurance, profit sharing or retirement benefits.

13.2 Governing Law; Jurisdiction.

This Agreement will be governed by and construed in accordance with the laws of the State of Florida, without reference to its conflict of law provisions. The United Nations Convention on Contracts for the International Sale of Goods does not apply to and shall not be used to interpret this Agreement. Any action or proceeding arising from or relating to this Agreement must be brought in the federal or state court located in Monroe County, Florida. This agreement is not subject to arbitration.

13.3 Severability.

If any provision of this SLA is unenforceable, such provision will be changed and interpreted to accomplish the objectives of such provision to the greatest extent possible under applicable law, and the remaining provisions will continue in full force and effect. Without limiting the generality of the foregoing, Customer agrees that Section 8 will remain in effect notwithstanding the unenforceability of any provision in Section 7.

13.4 Contact Information.

Should Customer have any questions concerning this SLA, or if Customer desires to contact Selectron Technologies, Inc. for any reason, please contact us at: Selectron Technologies, Inc., 7405 SW Tech Center Drive, Suite 140, Portland, Oregon 97223, USA; www.stigov.com.

13.5 Notice.

All notices, consents, and other communications under this Agreement must be delivered in writing by courier, by electronic facsimile (fax), or by certified or registered mail (postage prepaid and return receipt requested) to the other party at the address set forth in Section 13.4 or beneath such party's signature, and will be effective upon receipt or three (3) business days after being deposited in the mail as required above, whichever is sooner. Either party may change its address by giving notice of the new address to the other party.

13.6 Public Announcements.

Customer shall cooperate with Company so that Company may issue a press release concerning this Agreement; provided, however, Company may not release any such press release without the prior approval of Customer (which shall not be unreasonably withheld, delayed, or conditioned). However, without seeking prior approval in each instance, Company shall have the right to use Customer's name as a customer reference, and to use Customer's trade name on Company's customer lists.

13.7 Attorneys' Fees.

In the event of a dispute between Customer and Company concerning the Software or this SLA, the prevailing party in the litigation shall be entitled to recover its reasonable attorneys' fees and expenses from the other party.

13.8 Confidentiality.

The Software and all related documentation and materials provided to Customer under this Agreement contain valuable trade secrets, copyrights, proprietary know-how, information, algorithms, techniques, methods, processes, and content (collectively for purposes of this Section 13.8, "Proprietary Information and Materials") that belong to Company or its suppliers, and the Proprietary Information and Materials are being made available to Customer in strict confidence. ANY USE OR DISCLOSURE OF THE PROPRIETARY INFORMATION AND MATERIALS, OTHER THAN IN STRICT

ACCORDANCE WITH THIS SLA, IS STRICTLY PROHIBITED AND IS ACTIONABLE AS A VIOLATION OF COMPANY'S AND/OR ITS SUPPLIERS' TRADE SECRETS, COPYRIGHTS, AND OTHER INTELLECTUAL PROPERTY AND PROPRIETARY RIGHTS, AS WELL AS A MATERIAL BREACH OF THIS AGREEMENT.

13.9 Injunctive Relief.

In the event that Customer breaches any provision of Section 3, Section 4, Section 13.8, or any other material provision of this Agreement, Customer acknowledges and agrees that there can be no adequate remedy at law to compensate Company for such breach; that any such breach will allow Customer or third parties to compete unfairly with Company resulting in irreparable harm to Company that would be difficult to measure; and, therefore, that upon any such breach or threat thereof, Company shall be entitled to injunctive and other appropriate equitable relief (without the necessity of proving actual damages or of posting a bond or other security), in addition to whatever remedies Company may have at law, in equity, under this Agreement, or otherwise.

13.10 Waiver.

All waivers must be in writing. Any waiver or failure to enforce any provision of this Agreement on one occasion will not be deemed a waiver of any other provision or of such provision on any other occasion.

13.11 Authority.

Any person executing this Agreement in a representative capacity in so signing this Agreement acknowledges his or her authority to do so and his or her authority to bind the entity on whose behalf the Agreement is signed.

13.12 Entire Agreement.

This SLA constitutes the entire agreement between the parties regarding the subject hereof and supersedes all prior or contemporaneous agreements, understandings, and communication, whether written or oral. This SLA may be amended only by a written document signed by both parties. The terms on any purchase order or similar document submitted by Customer to Company will not modify the terms and conditions of this Agreement or have any force or effect.

13.13 Counterparts.

This Agreement may be signed in one or more counterparts, each of which will be deemed to be an original copy of this Agreement, and, when taken together, shall be deemed to constitute one and the same agreement. Each party agrees that the delivery of this Agreement by facsimile transmission or by PDF attachment to an e-mail transmission will be deemed to be an original of the Agreement so transmitted and, at the request of either party, the other party will confirm facsimile or e-mail transmitted signatures by providing the original document.

OBJECTIVES

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; and for transportation improvements to most other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, the Northern Mariana Islands, and the Alaska Highway. The Federal Lands Highway Program (FLHP), as an adjunct to the Federal Aid Highway Program, provides assistance to the Federal Land Management Agencies (FLMAs) for Federally owned roads. It provides transportation engineering services for planning, design, construction, and rehabilitation of the highways and bridges providing access to federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

USES AND USE RESTRICTIONS

Federal-aid highway funds are generally apportioned by statutory formulas to the States. They are generally restricted to roads open to the public and not functionally classified as rural minor collectors or local. Exceptions to this highway functional classification restriction include: planning and research activities; bridge, bicycle and pedestrian, and safety improvements that may be on any public road; transportation enhancement activities; the recreational trails program (see program 20.219); safe routes to school, non-motorized transportation, the FLHP, and public transportation improvement. The FLHP is not a grant program. For highway projects, funds may be used for environmental studies, engineering and design services, right-of-way acquisition and relocation assistance, and construction for capital improvement projects classified as new construction, reconstruction, restoration, rehabilitation, and resurfacing, or for functional, geometric, or safety reasons. Funds may also be used for planning; research, development, and technology transfer; intelligent transportation systems projects; roadside

beautification; wetland and natural habitat mitigation, traffic management and control improvements; improvements necessary to accommodate other transportation modes, development and establishment of transportation management systems; billboard removal; construction of bicycle facilities and pedestrian walkways; fringe and corridor parking; car pool and van pool projects; transportation enhancements such as scenic and historic highway improvements; and recreational trails. Funds generally cannot be used for routine highway operational activities, such as police patrols, mowing, snow plowing, or maintenance, unless it is preventative maintenance. Also, funds authorized for the NHS, Surface Transportation Program (STP), Congestion Mitigation and Air Quality (CMAQ) Improvement Program, Equity Bonus (BE) program, and some additional programs may be used for mass transportation improvements; CMAQ funds are limited to projects and programs in air quality, non-attainment and maintenance areas for ozone, carbon monoxide, and small particulate matter that reduce transportation related emissions. Eligibility criteria for the programs differ, so program guidance should be consulted. Projects in urban areas of 50,000 or more population must be based on a transportation planning process carried out by a Metropolitan Planning Organization (MPO) in cooperation with the State and transit operators, and the projects must be included in metropolitan transportation plans and improvement programs. Projects in non-metropolitan areas of a State must be consistent with a statewide transportation plan. Projects in both metropolitan and non-metropolitan areas must also be included in a fiscally constrained Statewide Transportation Improvement Program (STIP) developed as part of the required statewide transportation planning process. The FHWA and the Federal Transit Administration (FTA) must approve the STIP jointly.

APPLICANT ELIGIBILITY

By law, the Federal-aid highway program is a federally assisted State program that requires each State to have a suitably equipped and organized transportation department. Therefore, most projects are administered by or through State transportation departments (State DOTs). Projects to be funded under the Federal-aid highway program are generally selected by State DOTs or MPOs, in cooperation with appropriate local officials, as specified in 23 U.S.C. and implementing regulations. Territorial highway projects are funded in the same manner as other Federal aid highway projects, with the territorial transportation agency functioning in a manner similar to a State transportation department. Most FLHP projects are administered by the FHWA Office of Federal Lands Highway and its Divisions or by the various FLMAs. Under the FLHP, projects in the Indian Reservation Road (IRR) Program are selected by Tribal governments and are approved by the Bureau of Indian Affairs (BIA) and the Federal Highway Administration. Due to recent legislation, Tribal governments meeting certain requirements may now administer various IRR projects on behalf of the BIA and FHWA. The Fish and Wildlife Service (FWS) and the National Park Service (NPS) select projects in the Refuge Road and Park Roads and Parkways programs, respectively. For the Forest Highway Program, the Forest Service, the States and the Federal Highway Administration jointly select projects.

FORMULA AND MATCHING REQUIREMENTS

Most Federal-aid highway funds are distributed by statutory formula. Eligibility requirements for most programs are also determined by legislative criteria. Some categories, including part of the bridge and Interstate Maintenance funds, are distributed on a discretionary basis. The normal maximum Federal share is 90 percent for the EIS projects, and 80 percent for most other projects. The Federal share for some programs may be increased in the case of States with large areas of Federal lands. Some projects, including territorial highway projects, FLHP projects, certain safety improvements, and emergency relief projects require no matching of Federal funds.

AUDITS

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), Audits of States, Local Governments, and Nonprofit Organizations, nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards from all sources during their fiscal year must have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

**BOARD OF COUNTY COMMISSIONERS
AGENDA ITEM SUMMARY**

Meeting Date: March 23, 2016
Bulk Item: Yes X No

Department: Planning & Environmental Resources
Staff Contact Person/Phone #: Mayté Santamaria 289-2562

AGENDA ITEM WORDING: Reject the request by TD Group Holdings I, LLC, to remove a Lot Aggregation Restrictive Covenant recorded in the Monroe County Public Records File #1459136, Book #2028, Page #750 on July 23, 2004, by Rosie Perez for four (4) properties in Key Largo, having real estate number 00527340-0000000.

ITEM BACKGROUND: On March 10 2004, the Planning Commission approved an allocation award for Rosie Perez for building permit application #03302510, subject to the cesspit replacement/elimination program per Administrative Commission Rule No. 28-20.100 and provided the applicants' Lot Aggregation Restrictive Covenant was approved by the Board of County Commissioners (BOCC). The Lot Aggregation Restrictive Covenant was approved by the BOCC on July 14, 2004 and subsequently recorded in the Monroe County Public Records on July 23, 2004, prior to the issuance of the building permit on September 22, 2004. Based on the Building Department records, the permit received a passed inspection for a temporary power pole March 22, 2005, and no other inspections.

The new property owner is requesting to remove and release the Lot Aggregation Restrictive Covenant recorded in the Monroe County Official Records File #1459136, Book #2028, Page #750 for Lots 1, 2, 25 and 26 of Block 19 of the Amended Plat of Key Largo Park (PB 3-62). The applicant will be required to submit new applications for building permits, ROGO allocations and be subject to the regulations in effect at that time. The applicant could potentially receive buildings permits and ROGO allocations for four (4) dwelling units, if the BOCC releases the restrictive covenant, verses one (1) dwelling unit with the existing restrictive covenant. The applicant states if the existing restrictive covenant is removed, that the resulting dwelling units would be deed restricted as affordable housing.

In 2013, the BOCC denied a request to remove a Lot Aggregation Restrictive Covenant recorded in the Monroe County Public Records Documents #1758868, Book #2431, Page #1092 on September 15, 2009, by Steven L. and Marni Caputo. After further discussion, BOCC directed staff to process amendments to put policy into place related to the restrictions required for aggregation and other restricted covenants and to retain the ROGO points for future applicants.

With the Comprehensive Plan Update project, the BOCC directed the addition of policy and land development code provisions to specifically: *not allow the reversal of any lot aggregation used to assign extra points to a ROGO application, whether executed by unity of title and/or restrictive covenant, and regardless of the status of the ROGO allocation award or associated building permit. In the event the dwelling unit was not constructed and the ROGO allocation award has expired, a subsequent ROGO allocation application on the same aggregated parcels will be assigned the same number of extra points originally assigned for the lot aggregation*

PREVIOUS RELEVANT BOCC ACTION:

On July 14, 2004, the BOCC approved Lot Aggregation Restrictive Covenant.

Re: Request for Release of Lot Aggregation

Dear Mayte,

Per our previous conversation, please allow this letter to serve as a request by my client, TD Group Holdings I, LLC ("TD"), to release the Lot Aggregation Restrictive Covenant ("Restrictive Covenant") granted in favor of Monroe County by TD's predecessor in interest, Rosario Perez. I have included a copy of the Restrictive Covenant for your convenience. In exchange for the release of the Restrictive Covenant, TD would restrict each lot to affordable housing pursuant to Monroe County Code Section 130-161, as amended.

My client acquired the property located at Lot 1, 2, 25 & 26, Block 19 AMENDED PLAT KEY LARGO PARK, according to the Plat thereof, as recorded in Plat Book 3, at Page 62 of the Public Records of Monroe County, Florida ("Property") through a tax deed issued to it by the Monroe County Tax Collector (Tax Deed enclosed). The Property currently consists of four (4) vacant scarified Tier III lots in Key Largo. Based on the provisions contained in the Restrictive Covenant, Perez agreed to the Lot Aggregation in order to obtain additional ROGO points under the prior ROGO allocation system. Since the Lot Aggregation, no residential dwelling unit has ever been developed on the Property and the Tier system has been adopted, amending the point system the Property would be subject to in determining its ROGO points.

Moreover, the County is currently in desperate need of additional affordable housing. These vacant Tier III Lots are zoned Improved Subdivision and represent an excellent opportunity to

add to the much needed affordable housing stock in the upper keys. As Monroe County is aware, affordable housing is one of the immediate issues that must be addressed. The release of the Property from the Restrictive Covenant and subsequent placement of an affordable housing restriction on the Property would assist in addressing this concern.

I would request to have the release of the Restrictive Covenant placed on the next available Monroe County Board of County Commissioner's agenda, preferably in December in Key Largo. Please contact me with any questions.

Re: Allocation award for the issuance of building permit 03-03-2510 under the Dwelling Unit Allocation System

Dear Ms. Perez:

The Planning Department has been informed by the Monroe County Health Department that Cesspit Credit Voucher No. TNC02804 is available for your ROGO Allocation Award. The requirement established by Florida Administrative Commission Rule #28-10.100 for the cesspit replacement/elimination program has now been completed.

On 6/9/2004, the Planning Department forwarded a report to the Monroe County Planning Commission that included available Cesspit Credits for ROGO applications ranked pursuant to Resolution No. 12-04. On 6/9/2004, the Planning Commission met in public hearing to review the report. **The Commission approved your application for an allocation award subject to the Monroe County Board of County Commissioners approval of the restrictive covenant limiting the number of dwelling units on the aggregated property submitted. On 7/14/2004 the Monroe County Board of Commissioners confirmed the Planning Commissions recommendation approving the restrictive covenant combining contiguous lots for voluntary density reduction.**

Consequently, and pursuant to Section 9.5-122(c), of the Monroe County Land Development Regulations (LDR's), this letter constitutes an Allocation Award, entitling you to a building permit for a residential dwelling unit. As per Section 9.5-121.2(g) of the Code, this award shall expire when its corresponding building permit is deemed to expire according to Section 9.5-115 of the LDR's, or on **September 14, 2004**. The building permit can not be issued until the Planning Department has received the approved, recorded Restrictive Covenant combining contiguous lots.

Once you have secured your HRS permit, you may then **make an appointment with the Building Department to pick up your permit**. If in the Upper Keys, please call (305) 852-7100; if in the Middle or Lower Keys, please call (305) 289-2501.

Motion carried unanimously.

After further discussion, another motion was made by Commissioner Kolhage and seconded by Commissioner Carruthers to direct staff to process a land development code amendment to put policy into place related to people and the deed restrictions that we require for aggregation and other restricted covenants; analyze the FEMA injunction list and those expiration dates to determine where the majority of the people are within those time limits and how those are proceding and also find a way to retain the ROGO points and cases like this. Motion carried unanimously.

BOCC Agenda 08/21/2013

Item I3: Approval for the removal of a Lot Aggregation Restrictive Covenant recorded in the Monroe County Public Records Documents #1758868, Book #2431, Page #1092 on September 15, 2009, by Steven L. and Marni Caputo, applicant.

Commissioner Kolhage: Mr. Mayor, I asked this item to be held. I have an issue with this in that what we're doing here is actually increasing density. It really goes in the opposite direction that I think we want to go in. I understand, I mean I guess that the reason that the owners want to do this I suppose is that is to increase the marketability to be able to sell two lots instead of one. But I have a problem with that because... and there may be a way to give them...not just this owner, I'm thinking about should this come forward in the future but to provide an incentive that when we aggregate, we agreed to aggregate for the purpose of granting points in the ROGO process, that we actually extend that benefit to the subsequent purchaser of the combined lots to try to make it more attractive for them to want to retain the aggregation and therefore keep, not ask us to do something that increases density. Did I say that clearly enough for anyone to understand?

Commissioner Rice: I understand.

Commissioner Kolhage: You got any comments on this Christine?

Christine Hurley: Just that this is a little bit unique request. We in the code did not really anticipate what happened in the real estate market and the fact that people have been holding on to their ROGO allocations because the state has given so many permit extensions for several years now and we can feel the clients that have been holding on now trying to undo their situations. So I don't think that this is like a fluke, I think that as these expirations happen you're going to see more requests to undo things people did in the real estate market. That being said, because the code did not anticipate this ever happening, we don't have any provisions to go by so if the Commission wants us to evaluate under which circumstances we would recommend something like this, we could do a land development code amendment to address that. Because the next item is related to taking off an affordable housing restriction because they can't build the house that they originally wanted to build. So over the next couple years I do think you are going to see more of this happening.

Commissioner Kolhage: Another part of that Mr. Mayor is that for those people who are struggling, who are caught up in the FEMA injunction process, there hasn't been enough time. I can see that they're struggling to get things done within a limited time span and it all has to do with being held up in the FEMA injunction process of which we just resolved. I think we should consider an extension. Perhaps you could come back with a recommendation because maybe we have not allowed them enough time to get everything together, to go out, try to get the finances and so forth and that might place people into a posture ...well I'm just going to give up, ya know throw it on the market rather than try to deal with it in a short period of time. I don't know how you feel about that but I think some people are being penalized because there is a short window here following the resolution of the FEMA injunction process.

Commissioner Murphy: Well number one I always thought that when we aggregated lots it was forever. I didn't know you could go back and de-aggregate. And this is a case, I'm going to vote for this but in the future, I

don't know what we are going to do about it. Danny had some good suggestions. But you can't...I don't see how we can put Growth Management through all of the hoops...the jumps and hoops to give people what they want at a given time to serve their financial or living needs. And then a few years later when things change, either their life, our life, the state rules whatever, then they want to undo all of that because it's no longer to their advantage. That's not the way life works. You make your decisions and you stay with them. Go to bed and adapt to it, whatever. I'll vote for this one but I wouldn't want to see several show up every month.

Commissioner Carruthers: I have other concerns about the implications for this. Commissioner Kolhage touched on it in terms of increasing density. Same with the next item about affordable housing I mean are we now going to start to back pedal on what our goals in our comprehensive plan have been. To try to adjust for changes in the market that were completely outside of our control. And then are we going to end up backing ourselves into a position where we have increased competition, made more people angry...and also diminish the amount of the second case, available affordable housing. I'm a little concerned about precedents that are set by these one off situations. I feel like we need to take a more comprehensive look at dealing with situations like this. And in the meantime you don't want to penalize particular property owners for the situations that they are in right now. They've gone through the process that has been outlined for them in our plan but I think I'd like to ask Growth Management to take a look at these issues from a more comprehensive perspective.

Christine Hurley: We'd be glad to do that.

Mayor Neugent: Well here is my two cents. We had a discussion in a previous County Commission meetings in the last one and maybe two or three before and I brought up something as far as...and Commissioner Kolhage's comments triggered my thinking here that the proposal that I brought up for discussion purposes was that we pay people to aggregate lots to reduce that density situation and all of a sudden I'm thinking, "man if I had some aggregated lots and if the County chose to do that, I would go un-aggregate them...and un-aggregate them and say okay pay me to aggregate them now." (laughs)... So that is one of those unintended consequences that also is wrapped up in what you just brought to our attention, Danny. Because I do think that paying to reduce development is something that we need to be doing. So I can't vote for this because I think that that is something that I want to see more of is people aggregating lots and it's in our best interest to pay people to aggregate those lots.

Christine Hurley: I would like to say this person had written their letter before that idea was ever put on the table, just as an informational item, but I totally agree with the fact that this, while not against our code our comp plan because we never addressed it, it is not one hundred percent consistent with all of our overall policies that we are trying to achieve.

Mayor Neugent: I'm not saying in any way, shape, or form that's what this person was thinking. I wish he were that smart but I do think that if in fact we are going to consider that proposal, we need to think long and hard about anybody breaking properties apart to increase density or for whatever reason. I am not saying there is not a reason out there that we would not support someone doing that but I think that Commissioner Kolhage and the comments that are made are certainly worthy of documenting.

Commissioner Kolhage: Christine, do we have a way now under the current code of allowing a subsequent purchaser of the combined lots to get the benefit of ROGO point enhancement?

Christine Hurley: Only if you approve removing the aggregation that's in the chain of title right now could we then consider it two separate lots and let the new ROGO applicant re-aggregate. You and I talked about that but there is nothing in the code that really addresses that and once the deed restriction is recorded, it's considered one lot. If you approve this item then they'll have two lots and if they decide to apply for one and then they use the other one, the same owner, they could re-get the points for aggregation. But worst case scenario, they'd apply for two ROGOS.

Commissioner Kolhage: But I mean we have no guarantee that that's what is going to happen.

Christine Hurley: Exactly.

Commissioner Kolhage: I really can't support this because I don't like the precedent. This is leading us down a path that could undo what has been done over a long period of time.

Commissioner Carruthers: What's the reason that staff is supporting it?

Christine Hurley: Because we have no provisions in our regulations that address what happens under this situation. No one anticipated this kind of thing. Their ROGO is going to expire, they can't build it, it's a Tier three ...that was part of our review and without of any kind of regulation that says, "thou shalt not ever undo a lot aggregation even if you don't have your ROGO allocation fulfilled," we felt that it needed discussion by the Commission.

Commissioner Kolhage: So you're neutral?

Christine Hurley: Yeah, we struggled internally on what our staff recommendation was going to be. If this was not a Tier three we would not have even went down this path.

Commissioner Carruthers: It's an interesting ...that's an interesting aspect of this because you know, in a sense, I could see increasing density in Tier three and not allowing it in Tier one.

Christine Hurley: Yeah and also we didn't, let me just say we didn't view it as an increase we viewed it as giving them back what they originally had before they obtained the ROGO allocation because it is two platted lots that they then combined so they could get points so they could get one ROGO. But in reality it increases the potential number of ROGO demands.

Commissioner Kolhage: Sure, the reason why the points were given in the first place was because of the reduction in density. That's why there is a bonus.

Christine Hurley: Absolutely.

Commissioner Carruthers: So then you take the points away?

Christine Hurley: If you would approve this item there would just be again two vacant lots with no ROGO allocation and no aggregation they would just go back to their status.

Commissioner Carruthers: So then we are back to square one. So basically we are just turning back the clock here.

Mayor Neugent: So Christine, is this something that we need to do some more thinking on before we establish a precedence and you bring this back to us and say, "this is why we're doing it or this is why we're not doing it because of things that we have discussed at previous County Commissions and are in the works."

Commissioner Carruthers: Or do we have to make a decision on this particular case today given what code exists or does not exist today and craft code going forward?

Christine Hurley: That's more along the lines of what I was thinking.

Commissioner Kolhage: But it's still discretionary?

Christine Hurley: Absolutely the board can vote no and you can vote no and still tell us, "go write some code to make sure this doesn't happen again."

Commissioner Kolhage: I'd like to see you do two things, this is my opinion. I'd like the staff to look at two things. First of all, do we need to do something with an extension of time for those people who are caught up in the FEMA injunction process to be fair? And secondly, what can we do in a case like this where we can allow a subsequent purchaser to retain the ROGO bonus points in an effort to make it more desirable to keep the aggregation?

Christine Hurley: Can I ask the attorney something relative to that idea?

Commissioner Kolhage: Sure.

Christine Hurley: (faces attorneys) With the owner, of course, in agreement, could we revise the deed restriction to keep the aggregation but within that instrument since we don't have this in the code allow the County for the subsequent purchaser to reuse the points because that's the problem we have right now when they would reapply. So if we amended the restriction...

Bob Shillinger: You would essentially vest the owner of the property, whoever that is, and the subsequent owners to those points in the ROGO allocation. Yes, we could work up something on that.

Commissioner Carruthers: So in other words, you're talking about addressing the real problem with this property without de-aggregating the lots?

Christine Hurley: That's what Commissioner Kolhage is asking and I think that's what we would do if that's where the Commission wants to head today. You could table this item; we could communicate with that buyer and see if they would be willing to do that. You know if they're not, then I think you guys are being a little clear that you're not really in favor of this.

Commissioner Murphy: Move it to be tabled.

Mayor Neugent: Second.

Christine Hurley: For staff to work on?

Commissioner Kolhage: Yes.

Commissioner Murphy: Whatever Danny said.

Commissioner Carruthers: But also to work on a more comprehensive ...

Christine Hurley: So I think the motion is table this item, direct staff to communicate with the owner to see if they would be willing to amend the lot aggregation restrictive covenant, to include a provision that would allow the county to give a future buyer the aggregation points in ROGO, staff to evaluate and bring to Commission an analysis of the FEMA injunction timelines and see where most of those properties are with their expiration dates, and direct staff to work on land development code amendments to address this in policy for other ROGO allocation holders.

Mayor Neugent: This gentleman had something to say.

Steve Caputo: Hi, I'm Steve Caputo. On that lot, there's not a buyer...we're wanting to separate them and not pass on points. We have a permit now for the lots. We want to separate them.

Commissioner Murphy: What do you mean you have permits? For what?

Steve Caputo: A permit for a house with two lots.

Christine Hurley: That you're willing to give up...

Steve Caputo: We're willing to give up and go back to square one, the way they originally were.

Mayor Neugent: So you have a permit to build a house on one of those lots?

Steve Caputo: On both together.

Mayor Neugent: So did you benefit from the additional points to get the permit?

Steve Caputo: We did benefit but when we de-aggregate them we're going to lose our points and we're going to start from square one with what we originally had. Two lots, no points and go back through ROGO.

Commissioner Kolhage: But is it your intention to sell both of the individual lots?

Steve Caputo: At some point in the future, yes.

Commissioner Kolhage: See that's the problem.

Steve Caputo: That's what we had originally was two lots, cleared lots in a neighborhood and we would like to build two houses now. Originally we wanted to build one but things have changed and now we want to build two.

Commissioner Kolhage: That's the issue for us with density. Now let me ask you a question. Do you think it would be easier for you to sell the combined lot if you could tell a potential purchaser that you're going to get kicked up in the ROGO process because you've got these points?

Steve Caputo: We have a permit. We have a permit now.

Commissioner Kolhage: Your seller or your buyer won't have a permit.

Steve Caputo: Why? We can build now.

Commissioner Carruthers: Why wouldn't they?

Commissioner Kolhage: For the combined lots. But if you sell them individually to two different...

Steve Caputo: We can't sell them individually.

Commissioner Carruthers: But if you separate them and sell them individually neither buyer is going to have a permit.

Steve Caputo: We understand that. They're not going to have a permit.

Commissioner Carruthers: But why would that be more of a benefit to potential buyers?

Steve Caputo: They're going to go back through ROGO.

Commissioner Kolhage: I don't see that's beneficial.

Commissioner Carruthers: I would think that would be more of a detriment.

Commissioner Murphy: I also see where somebody is using the system to get whatever benefit they want.

Steve Caputo: That's not true. We go back through ROGO and then we'll have two houses in the future, in the future.

Commissioner Murphy: You'll have two houses on two lots to sell as opposed to one.

Mayor Neugent: I would like to say I am giving you an opportunity to speak to this issue.

Steve Caputo: I don't think that's right about the points because I don't think you understood we already have a permit to build now if we would like to.

Mayor Neugent: Any further questions for Steve?... (no questions) Thanks Steve.

Christine Hurley: Well in light of the fact that I think he just said that he doesn't want to do the point... we need a revised motion I think.

Commissioner Murphy: I think so too. I made the motion to table. I'll rescind that motion.

Commissioner Carruthers: Do you need the second to be rescinded?

Commissioner Kolhage: We didn't pass that motion.

Mayor Neugent: No we have nothing at this point in time so...

Commissioner Murphy: I'll just take it back.

Mayor Neugent: Why do you take it back?

Commissioner Murphy: Because I don't think we need to table it. The information has changed.

Commissioner Carruthers: Because the solution or the problem that we thought we were solving with that tabling with that solution is not a problem to the property owner.

Commissioner Murphy: Make a motion to deny.

Commissioner Kolhage: I'm still going to make a motion to direct you to add up the other things we need you to do but that doesn't help this here.

Mayor Neugent: Okay let's deal with the item that's before us and do we have a motion...

Commissioner Murphy: I'll move to deny.

Commissioner Kolhage: Second.

Mayor Neugent: Motion and a second to deny and for discussion purposes I have to ask the question; is that preferable to tabling this until we get more information from Growth Management.

Christine Hurley: We don't really have any more information if the owner is not willing to do what was proposed. I mean the facts are still the same.

Mayor Neugent: Okay. I have a motion and a second. Is there any opposition?

Commissioner Kolhage: The other part of that motion, I'd like to remake that. You can say it again if you want to.

Christine Hurley: So the rest of the motion is for staff to process a land development code amendment to put policy into place related to people and the deed restrictions that we require for aggregation and other restrictive covenants, I think we should look at all of them and I know you do too, and that we also analyze the

FEMA injunction list and those expiration dates to determine where the people are within those time limits and how those are proceeding.

Commissioner Carruthers: That's just direction. You don't need a motion.

Commissioner Kolhage: Also do you want to think about a potential... in situations like this, although these people are not interested in it, a way to retain bonus points.

Christine Hurley: Oh the bonus points, yes. We can include that in our evaluation.

Commissioner Kolhage: I submit a motion Mr. Mayor.

Commissioner Carruthers: Second.

Mayor Neugent: Motion and a second. Any opposition, discussion? All done.

Date: February 29, 2016

Subject: *A public hearing to consider the approval of a resolution renouncing and disclaiming any right of the County and the public in and to a portion of the right-of-way of Spanish Main Drive on Cudjoe Key that is adjacent to Lots 5, 6, & 7, Block 19 of in Cutthroat Harbor Estates First Addition, as recorded in Plat Book 5, Page 60, of the Public Records of Monroe County, Florida (File #2015-029)*

BOCC Meeting: March 23, 2016 (set public hearing)
April 20, 2016 (public hearing)

REQUEST:

The applicant, Richard E. Deegan, requests an abandonment of a portion of Spanish Main Drive, CUTTHROAT HARBOR ESTATES FIRST ADDITION, according to the Plat thereof as recorded in Plat Book 5, Page 60, of the Public Records of Monroe County, Florida, adjacent to Lots 5, 6, & 7, Block 19 of the aforementioned plat.

The applicant requests an abandonment of a portion of the right-of-way at the terminus of Spanish Main Drive, as described above, in order maintain the property. The terminus of platted right-of-way for Spanish Main Drive ends at an L shape, bisecting the petitioner's property. The applicant states the subject area frequently floods and is not used as a safe turn around. The petitioner requests the portion of a platted right-of-way for Spanish Main Drive, approximately .04 acres, be vacated to unify the petitioner's property.

The applicant has provided written agreements to construct a T-turnaround per Monroe County engineering standards and relocate all Florida Keys Aqueduct Authority utilities within the right of way at his expense.

Affected Property (outlined in yellow)
Proposed Abandonment 

REVIEW OF APPLICATION:

The proposed abandonment portion is described as follows:

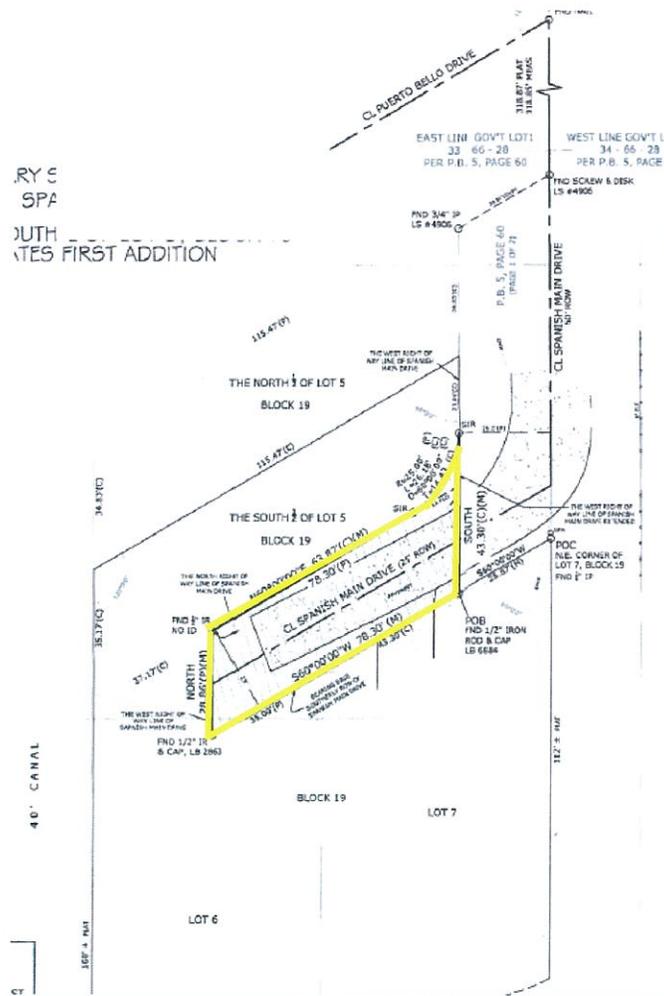

“A portion of Spanish Main Drive, Cutthroat Harbor Estates First Addition, according to the Plat thereof as recorded in Plat Book 5, Page 60, of the Public Records of Monroe County, Florida, adjacent to Lots 5, 6, & 7, Block 19 of the aforementioned Plat, more particularly described by metes and bounds as follows:

Commencing at the Northeast corner of Lot 7, Block 19 of Cutthroat Harbor Estates First Addition, according to the Plat thereof as recorded in Plat Book 5, Page 60, of the Public Records of Monroe County, Florida, thence bear S60°00' 00" W along the Southerly right of way line of Spanish Main Drive, a 25' total right of way width per said Plat, for a distance of 28.87 feet to a point, said point being the Point of Beginning; thence continue along said Southerly right of way line S60°00'00" W for a distance of 78.30 to a point, said point being on the West right of way line of Spanish Main Drive per said plat; thence departing the said South right of way line, along said West right of way line North for a distance of 28.86 feet to a point, said point being on the North right of way line of Spanish Main Drive per said plat; thence departing said West right of way line along said North right of way line N60°00' 00"E for a distance of 63.87 feet to the point of curvature of a curve concave Northwesterly, with a radius of 25.00 feet, and a delta of 60°00'00'; thence along said curve in a Northeasterly direction, for an arc length of 26.18 feet to the point of tangency, said point of tangency being on the West right of way line of Spanish Main Drive per said plat; thence departing said curve, along said West right of way line extended to the South right of way line, South 43.30 feet back to the Point of Beginning, containing 1,991 square feet (0.04 acres), more or less.”

The petitioner, Richard Deegan, is the owner of the only affected property (RE No. 00186840-000000). The portion of platted right-of-way for Spanish Main Drive ends at an L shape bisecting the petitioner’s property. The petitioner has submitted a road abandonment petition in

1 order to eliminate a gap of ownership in the parcel and to maintain the area as his property. The
2 petitioner has stated the area is prone to flooding as it is constructed does not provide a safe turn
3 around as it requires people to back out into the main road.

4
5 The petitioner is the owner of the adjacent property (RE No. 00186840-000000) therefore a letter
6 of no objection is required. The entirety of the proposed abandonment will revert to parcel RE
7 No. 00186840-000000, as it is the only parcel abutting the subject right of way.

11 Construction attached as part of this report. The agreement will be recorded and accepted by
12 Monroe County as part of the abandonment resolution. The applicant has agreed to have plans

21 Right of Way Abandonment Agreement for Utility Relocation attached as part of this report. The
22 applicant will coordinate with Monroe County for a permit to work within the right of way and
23 with FKAA for the required utility permit within 180 days of the approval of the right of way
24 abandonment. The agreement will be recorded and accepted by Monroe County and FKAA as
25 part of the abandonment resolution. Should the applicant fail to complete the utility relocation as

30 (b) No dedicated and accepted right-of-way in the county shall be abandoned where:

32 • **The platted, undeveloped right-of-way does not terminate on a**
33 **body of open water.**
34 (2) the right-of-way provides access to the public to land on open water; or
