In addition to reviews of audits conducted in accordance with paragraph (6) above, monitoring procedures may include, but not be limited to, on-site visits by Division staff, limited scope audits, and/or other procedures. The Recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Division. In the event that the Division or the Department determines that a limited scope audit of the Recipient is appropriate, the Recipient agrees to comply with any additional instructions provided by the Division or the Department to the Recipient regarding such audit. The Recipient further agrees to comply and cooperate with any inspections, reviews, investigations or audits deemed necessary by the Florida Chief Financial Officer or Auditor General. In addition, the Division will monitor the performance and financial management by the Recipient throughout the contract term to ensure timely completion of all tasks.

(9) LIABILITY

(a) Unless Recipient is a State agency or subdivision, as defined in Section 768.28, Fla. Stat., and the Recipient is solely responsible to parties it deals with in carrying out the terms of this Agreement, and shall hold the Division harmless against all claims of whatever nature by third parties arising from the work performance under this Agreement. For purposes of this Agreement, Recipient agrees that it is not an employee or agent of the Division, but is an independent contractor.

(b) Any Recipient which is a state agency or subdivision, as defined in Section 768.28, Fla. Stat., agrees to be fully responsible for its negligent or tortious acts or omissions which result in claims or suits against the Division, and agrees to be liable for any damages proximately caused by the acts or omissions to the extent set forth in Section 768.28, Fla. Stat. Nothing herein is intended to serve as a waiver of sovereign immunity by any Recipient to which sovereign immunity applies. Nothing herein shall be construed as consent by a state agency or subdivision of the State of Florida to be sued by third parties in any matter arising out of any contract.

(10) DEFAULT.

If any of the following events occur ("Events of Default"), all obligations on the part of the Division to make further payment of funds shall, if the Division elects, terminate and the Division has the option to exercise any of its remedies set forth in Paragraph (11). However, the Division may make payments or partial payments after any Events of Default without waiving the right to exercise such remedies, and without becoming liable to make any further payment:

(a) If any warranty or representation made by the Recipient in this Agreement or any previous agreement with the Division is or becomes false or misleading in any respect, or if the Recipient fails to keep or perform any of the obligations, terms or covenants in this Agreement or any previous agreement with the Division and has not cured them in timely fashion, or is unable or unwilling to meet its obligations under this Agreement;

(b) If material adverse changes occur in the financial condition of the Recipient at any time during the term of this Agreement and the Recipient fails to cure this adverse change within thirty days from the date written notice is sent by the Division.

(c) If any reports required by this Agreement have not been submitted to the Division or have been submitted with incorrect, incomplete or insufficient information;

(d) If the Recipient has failed to perform and complete on time any of its obligations under this Agreement.

(11) REMEDIES.

If an Event of Default occurs, then the Division may, after thirty calendar days written notice to the Recipient and upon the Recipient's failure to cure within those thirty days, exercise any one or more of the following remedies, either concurrently or consecutively:

(a) Terminate this Agreement, provided that the Recipient is given at least thirty days prior written notice of the termination. The notice shall be effective when placed in the United States, first class mail, postage prepaid, by registered or certified mail-return receipt requested, to the address in paragraph (13) herein;

(b) Begin an appropriate legal or equitable action to enforce performance of this Agreement;

(c) Withhold or suspend payment of all or any part of a request for payment;

(d) Require that the Recipient refund to the Division any monies used for ineligible purposes under the laws, rules and regulations governing the use of these funds.

(e) Exercise any corrective or remedial actions, to include but not be limited to:

1. request additional information from the Recipient to determine the reasons for or the extent of non-compliance or lack of performance,

2. issue a written warning to advise that more serious measures may be taken if the situation is not corrected,

3. advise the Recipient to suspend, discontinue or refrain from incurring costs for any activities in question or

4. require the Recipient to reimburse the Division for the amount of costs incurred for any items determined to be ineligible;

(f) Exercise any other rights or remedies which may be available under law.

(g) Pursuing any of the above remedies will not stop the Division from pursuing any other remedies in this Agreement or provided at law or in equity. If the Division waives any right or remedy in this Agreement or fails to insist on strict performance by the Recipient, it will not affect, extend or waive any other right or remedy of the Division, or affect the later exercise of the same right or remedy by the Division for any other default by the Recipient.

(12) TERMINATION.

(a) The Division may terminate this Agreement for cause after thirty days written notice. Cause can include misuse of funds, fraud, lack of compliance with applicable rules, laws and regulations, failure to perform on time, and refusal by the Recipient to permit public access to any document, paper, letter, or other material subject to disclosure under Chapter 119, Fla. Stat., as amended.

(b) The Division may terminate this Agreement for convenience or when it determines, in its sole discretion that continuing the Agreement would not produce beneficial results in line with the further expenditure of funds, by providing the Recipient with thirty calendar day's prior written notice.

Overtime and backfill costs – Overtime expenses are defined as the result of personnel who worked over and above their normal scheduled daily or weekly worked time in the performance of FEMA – approved activities. Backfill Costs also called “Overtime as Backfill” are defined as expenses from the result of personnel who are working overtime in order to perform the duties of other personnel who are temporarily assigned to FEMA – approved activities outside their core responsibilities. Neither overtime nor backfill expenses are the result of an increase of Full – Time Equivalent (FTEs) employees. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the state or unit(s) of local government and has the approval of the state or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 pm to 5:00 pm), even though such work may benefit both activities. Fringe benefits on overtime hours are limited to Federal Insurance Contributions Act (FICA), Workers' Compensation and Unemployment Compensation.

B. Organizational Activities - Urban Areas are allowed up to 50 percent of their FY 2010 UASI funding for Organizational activities.

Section 2008 of the *Homeland Security Act of 2002*, as amended by the 9/11 Act, includes the following allowable activities:

- Responding to an increase in the threat level under the Homeland Security Advisory System, or needs resulting from a National Special Security Event
- Establishing, enhancing, and staffing State and Major Urban Area fusion centers
- Paying salaries and benefits for personnel to serve as qualified intelligence analysts

Overtime Costs – Overtime costs are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security and specifically requested by a Federal agency. Allowable costs are limited to overtime associated with Federally requested participation in eligible fusion activities including anti-terrorism task forces, Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (as required by the *Maritime Transportation Security Act of 2002*), DHS Border Enforcement Security Task Forces, and Integrated Border Enforcement Teams. Grant funding can only be used in proportion to the Federal man-hour estimate, and only after funding for these activities from other Federal sources (i.e. FBI JTTF payments to State and local agencies) has been exhausted. Under no circumstances should DHS grant funding be used to pay for costs already supported by funding from another Federal source.

Intelligence Analysts – Per the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE)* of *Homeland Security Act* (Public Law 110-412), SHSP and UASI funds may be used to hire new staff and/or contractor positions to serve as intelligence analysts to enable information/intelligence sharing capabilities, as well as support existing intelligence analysts previously covered by SHSP or UASI funding. In order to be hired as an intelligence analyst, staff and/or contractor personnel must meet at least one of the following criteria:

- Successfully complete training to ensure baseline proficiency in *intelligence analysis and production* within six months of being hired; and/or,
- Previously served as an intelligence analyst for a minimum of two years either in a Federal intelligence agency, the military, or State and/or local law enforcement intelligence unit

All intelligence analyst training should be in accordance with the Global Justice Information Sharing Initiative's (Global) *Minimum Criminal Intelligence Training Standards for Law Enforcement and Other Criminal Justice Agencies in the United States*, which outlines the minimum categories of training needed for intelligence analysts. These include subject-matter expertise, analytic methodologies, customer-service ethics, information handling and processing skills, critical thinking skills, computer literacy, and objectivity and intellectual honesty. A certificate of completion of such training must be on file with the SAA and must be made available to FEMA Program Analysts upon request.

Operational Overtime Costs – In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are allowable for increased security measures at critical infrastructure sites. FY 2010 SHSP or UASI funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructure sites in the following authorized categories:

- Backfill and overtime expenses (as defined in this Guidance) for staffing State or Major Urban Area fusion centers
- Hiring of contracted security for critical infrastructure sites
- Public safety overtime (as defined in this Guidance)
- Title 32 or State Active Duty National Guard deployments to protect critical infrastructure sites, including all resources that are part of the standard National Guard deployment package (Note: Consumable costs, such as fuel expenses, are not allowed except as part of the standard National Guard deployment package)
- Increased border security activities in coordination with CBP, as outlined in Information Bulletin #135

FY 2010 SHSP or UASI funds may only be spent for operational overtime costs upon prior approval provided in writing by the FEMA Administrator.

B. Personnel

Personnel hiring, overtime, and backfill expenses are permitted under this grant in order to perform allowable FY 2010 HSGP planning, training, exercise, and equipment activities.

- A personnel cost cap of up to 50 percent of total *SHSP and UASI* program funds may be used for personnel and personnel-related activities as directed by the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE)* of *Homeland Security Act* (Public Law 110-412). Grantees who wish to seek a waiver from the personnel cost cap must provide documentation explaining why the cap is unacceptable; waiver requests will be considered only under extreme circumstances. In general, the use of SHSP and UASI funding to pay for staff and/or contractor regular time or overtime/backfill is considered a personnel cost. Activities that are considered "personnel" and "personnel-related," and therefore count against the personnel cost cap of 50 percent, include, but are not limited to:
 - Operational overtime
 - Overtime/backfill to participate in approved training or exercise deliveries
 - Salaries and personnel costs of intelligence analysts
 - Overtime to participate in intelligence sharing activities
 - Salaries and personnel costs of planners, equipment managers, exercise coordinators, and/or training coordinators
 - Salaries and personnel costs under the M&A category
 - Contractor costs associated with performing the above activities

C. Equipment Acquisition

The 21 allowable prevention, protection, response, and recovery equipment categories and equipment standards for FY 2010 HSGP are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), at <https://www.rkb.us>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or DHS-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

D. Training

Allowable training-related costs include, but are not limited to, the following:

- **Developing, Delivering, and Evaluating Training** – Includes costs related to administering the training, planning, scheduling, facilities, materials and supplies, reproduction of materials, and equipment.
- **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of attendance at FEMA and/or approved training courses and programs, are allowable. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel** – Costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Payment of salaries and fringe benefits to full or part-time staff or contractors/consultants must be in accordance with the policies of the State or unit(s) of local government and have the approval of the State or awarding agency, whichever is applicable. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation as specified in section E.6. In no case is dual compensation allowable (see above).
- **Certification/Recertification of Instructors** – States are encouraged to follow the FEMA Instructor Quality Assurance Program to ensure a minimum level of competency and corresponding levels of evaluation of student learning. This is particularly important for those courses that involve training of trainers. This information is contained in Information Bulletin #193, issued October 20, 2005.

Training Activities

States, territories, and Urban Areas may use HSGP funds to develop a homeland security training program. Allowable training-related costs under HSGP include the establishment, support, conduct, and attendance of training specifically identified under the SHSP, UASI, MMRS, and CCP grant programs and/or in conjunction with emergency preparedness training by other Federal agencies (e.g., HHS, DOT). Allowable training topics include, but are not limited to, CBRNE terrorism, cyber/agriculture/food security, intelligence gathering and analysis, NIMS related training, citizen and community preparedness, interoperable and emergency communications, and training for

volunteers, infants and children and individuals with disabilities in disasters, pediatric medical surge, and evacuation and sheltering with particular emphasis on children, keeping children with parents or guardians, addressing needs of unaccompanied minors, and integrating the accessibility and functional needs of children and adults with disabilities (see *Comprehensive Preparedness Guide 301* [CPG-301]; *Interim Emergency Management Planning Guide for Special Needs Populations* and other resources for additional information).

Training conducted using HSGP funds should address a performance gap identified through an After Action Report/Improvement Plan (AAR/IP) or contribute to building a capability that will be evaluated through an exercise. Exercises should be used to provide the opportunity to demonstrate and validate skills learned in training, as well as to identify training gaps. Any training or training gaps should be identified in the AAR/IP and addressed in the State or Urban Area training cycle. All training and exercises conducted with HSGP funds should support the development and testing of the jurisdiction's EOP or specific annexes, where applicable.

E. Exercises

All Urban Areas are required to develop a Multi-Year Training and Exercise Plan (TEP) and submit to the FEMA Grants and Preparedness Community of Interest (COI) on the Homeland Security Information Network (HSIN). Further, Urban Areas are encouraged to develop a Multi-Year Plan and Schedule that takes into consideration anticipated training needs of the Urban Area for at least the immediate year, with exercises being timed to provide responders the opportunity to utilize training received. Further guidance concerning the Training and Exercise Plan and the Training and Exercise Plan Workshop can be found at <https://hseep.dhs.gov>.

Allowable exercise-related costs include:

- **Funds Used to Design, Develop, Conduct, and Evaluate an Exercise** – Includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation. Grantees are encouraged to use government facilities to conduct meetings and conferences whenever possible.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Full or parttime staff may be hired to support exercise-related activities. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation. The applicant's formal written procurement policy or the Federal Acquisition Regulations (FAR) – whichever is more stringent – must be followed. In no case is dual compensation allowable.
- **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development, and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel** – Travel costs are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of exercise project(s) or HSEEP programmatic requirements as described in the HSEEP website (e.g., Improvement Plan Workshops, Training and Exercise Plan).
- **Supplies** – Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise project(s) (e.g., copying paper, gloves, tape, non-sterile masks, and disposable protective equipment).
- **Other Items** – These costs include the rental of equipment (e.g., portable toilets, tents), food, gasoline, exercise signs, badges, etc.

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances).
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).

Exercise Requirements

Exercises conducted with FEMA support must be managed and executed in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP Guidance for exercise design, development, conduct, evaluation, and improvement planning is located at <https://hseep.dhs.gov>. The HSEEP Library provides sample exercise materials and templates.

All exercises using HSGP funding must be NIMS compliant. More information is available online at the NIMS Integration Center, <http://www.fema.gov/emergency/nims/index.shtml>.

Where applicable, the Training and Exercise Plans should include training and exercises that support specialized programs, such as the Regional Catastrophic Preparedness Grant Program.

States are encouraged to exercise their capabilities with regard to infants and children across all aspects of response and recovery, including pediatric medical surge capabilities and integrating the accessibility and functional needs of children and adults with disabilities.

- **Exercise Scenarios.** The scenarios used in HSGP-funded exercises must be based on the State/Urban Area's Homeland Security Strategy and plans. Acceptable scenarios for SHSP, UASI, MMRS, and CCP exercises include: chemical, biological, radiological, nuclear, explosive, cyber, agricultural and natural or technological disasters. Exercise scenarios must be catastrophic in scope and size as defined by the *National Response Framework*.

The scenarios used in HSGP-funded exercises must focus on validating existing capabilities and must be large enough in scope and size to exercise multiple tasks and warrant involvement from multiple jurisdictions and disciplines and nongovernmental organizations. Exercise scenarios should also be based on the Multiyear Training and Exercise Plan.

- **Special Event Planning.** If a State or Urban Area will be hosting a special event (e.g., Super Bowl, G-8 Summit) they are approved to participate in a Tier I or Tier II exercise as approved by the National Exercise Program (NEP) Executive Steering Committee per the NEP Implementation Plan. They should plan to use SHSP or UASI funding to finance training and exercise activities in preparation for those events. States and Urban Areas should also consider exercises at major venues (e.g., arenas, convention centers) that focus on evacuations, communications, and command and control. States should also anticipate participating in at least one Regional Exercise annually. States must include all confirmed or planned special events in the Multi-year Training and Exercise Plan.

- **Exercise Evaluation.** All exercises will be capabilities and performance-based and evaluated using Exercise Evaluation Guides (EEGs) found on the HSEEP website at <https://hseep.dhs.gov>. An After-Action Report/Improvement Plan (AAR/IP) will be prepared and submitted to the FEMA Grants and Preparedness Community of Interest (COI) on the Homeland Security Information Network (HSIN) within 90 days following completion of the exercise, regardless of type or scope. AAR/IPs must conform to the HSEEP format, should capture objective data pertaining to exercise conduct, and must be developed based on information gathered through EEGs found in HSEEP. All applicants are encouraged to use the Lessons Learned Information Sharing System as a source for lessons learned and to exchange best practices.

Role of Non-Governmental Entities in Exercises. Non-governmental participation in all levels of exercises is strongly encouraged. Leaders from nongovernmental entities should be included in the planning, conduct, and evaluation of an exercise. State, local, tribal, and territorial jurisdictions are encouraged to develop exercises that test the integration and use of non-governmental resources provided by non-governmental entities, defined as the private sector and private non-profit, faith-based, community, volunteer, and other non-governmental organizations. Non-governmental participation in exercises should be coordinated with the local Citizen Corps Council(s) and other partner agencies.

Unauthorized Exercise Costs

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances).
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).

- C. **Management and Administration** - no more than 3% of each sub-recipient's total award may be expended on Management and Administration costs.

Hiring of full-time or part-time staff or contractors/consultants:

Development of operating plans for information collection and processing necessary to respond to FEMA data calls

Overtime and backfill costs - Overtime expenses are defined as the result of personnel who worked over and above their normal scheduled daily or weekly worked time in the performance of FEMA - approved activities. Backfill Costs also called "Overtime as Backfill" are defined as expenses from the result of personnel who are working overtime in order to perform the duties of other personnel who are temporarily assigned to FEMA - approved activities outside their core responsibilities. Neither overtime nor backfill expenses are the result of an increase of Full - Time Equivalent (FTEs) employees. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the state or unit(s) of local government and has the approval of the state or the awarding agency, whichever is applicable.

In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 pm to 5:00 pm), even though such work may benefit both activities. Fringe benefits on overtime hours are limited to Federal Insurance Contributions Act (FICA), Workers' Compensation and Unemployment Compensation.

Travel expenses

Meeting-related expenses (For a complete list of allowable meeting-related expenses, please review the OJP Financial Guide at <http://www.olp.usdoj.gov/FinGuide>).

Acquisition of authorized office equipment, including:

- Personal computers
- Laptop computers
- Printers
- LCD projectors, and
- Other equipment or software which may be required to support the implementation of the homeland security strategy

The following are allowable only within the period of performance of the contract:

- Recurring fees/charges associated with certain equipment; such as cell phones, faxes, etc.
- Leasing and/or renting of space for newly hired personnel during the period of performance of the grant program

D. Unauthorized Expenditures

- Activities unrelated to the completion and implementation of the grant program
- Other items not in accordance with the Authorized Equipment List or previously listed as allowable costs
- Funding may not be used to supplant ongoing, routine public safety activities of state and local emergency responders, and may not be used to hire staff for operational activities or backfill. Funds cannot not replace (supplant) funds that have been appropriated for the same purpose.

E. Construction and Renovation

Use of HSGP funds for construction and renovation is generally prohibited except as outlined below. Such construction and renovation shall be strictly limited and allowable only when it is a necessary component of a security system at critical infrastructure facilities.

Project construction and renovation not exceeding \$1,000,000 is allowable, as deemed necessary. The following types of projects are considered to constitute construction or renovation, and must be submitted to FEMA for compliance review under Federal environmental planning and historic preservation (EHP) laws and requirements prior to initiation of the project:

- Construction and renovation of guard facilities
- Renovation of and modifications, including the installation of security and communication equipment, to buildings and structures that are 50 years old or older
- Any other construction or renovation efforts that change or expand the footprint of a facility or structure, including security enhancements to improve perimeter security.
- Physical security enhancements, including but not limited to:
 - Lighting
 - Fencing
 - Closed-circuit television (CCTV) systems
 - Motion detection systems
 - Barriers, doors, gates and related security enhancements
 -

In addition, the erection of communications towers that are included in a jurisdiction's interoperable communications plan is allowed, subject to all applicable laws, regulations, and licensing provisions. Communication tower projects must be submitted to FEMA for EHP review. Per the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009 (Public Law 110-329), communications towers are not subject to the \$1,000,000 construction and renovation cap.

Approval Process:

In order for grantees to drawdown funds for construction and renovation costs, the grantee must provide the Division with:

- A description of the asset or facility, asset location, whether the infrastructure is publicly or privately owned, and the construction or renovation project;
- Certification that a facility vulnerability assessment has been conducted
- An outline addressing how the construction or renovation project will address the identified vulnerabilities from the assessment
- Consequences of not implementing the construction or renovation project
- Any additional information requested by FEMA to ensure compliance with Federal environmental and historic preservation requirements

Additional information may also be found on the FEMA's website located at <http://www.fema.gov/plán/ehp/>.

Note: Written approval must be provided by FEMA prior to the use of any IAS1 funds for construction or renovation.

F. Overtime and Backfill Guidance

Overtime – These expenses are limited to the additional costs which result from personnel working over and above 40 hours of weekly work time as a direct result of their performance of FEMA-approved activities specified in this guidance. Overtime associated with any other activity is not eligible.

Backfill-related Overtime – Also called "Overtime as Backfill," these expenses are limited to overtime costs which result from personnel who are working overtime (as identified above) to perform the duties of other personnel who are temporarily assigned to FEMA-approved activities outside their core responsibilities. Neither overtime nor backfill expenses are the result of an increase of FTE employees.

J. National Incident Management System (NIMS) Compliance
 HSPD-5, "Management of Domestic Incidents," mandated the creation of NIMS and the National Response Plan (NRP). NIMS provides a consistent framework for entities at all jurisdictional levels to work together to manage domestic incidents, regardless of cause, size, or complexity. To promote interoperability and compatibility among Federal, State, local, and tribal capabilities, NIMS includes a core set of guidelines, standards, and protocols for command and management, preparedness, resource management, communications and information management, supporting technologies, and management and maintenance of NIMS. The NRP, using the template established by NIMS, is an all-discipline, all-hazards plan that provides the structure and mechanisms to coordinate operations for evolving or potential incidents of National Significance, which are major events that "require a coordinated and effective response by an appropriate combination of Federal, State, local, tribal, private sector, and nongovernmental entities." The NIMS Integration Center (NIC) recommends 38 NIMS Compliance Objectives for nongovernmental organizations that support NIMS implementation. These activities closely parallel the implementation activities that have been required of State, territorial, tribal, and local governments since 2004 and can be found at www.fema.gov/pdf/emergency/nims/geo_fs.pdf. To integrate nonprofit organizations into the broader national preparedness effort, DHS encourages grantees to consider pursuing these recommended activities. Additionally, nongovernmental organizations grantees and sub-grantees will be required to meet certain NIMS compliance requirements. This includes all emergency preparedness, response, and/or security personnel in the organization participating in the development, implementation, and/or operation of resources and/or activities awarded through this grant must complete training programs consistent with the NIMS National Standard Curriculum Development Guide. Minimum training includes IS-700 NIMS: An Introduction. In addition, IS-800, a NRP: An Introduction, Incident Command System (ICS-100), Incident Command System (ICS-200), Intermediate Incident Command System (G-300), and Advanced Incident Command System (G-400) are also recommended. For additional guidance on NIMS training, please refer to http://www.fema.gov/emergency/nims/nims_training.shm. Additional information about NIMS implementation and resources for achieving compliance are available through the NIMS Integration Center (NIC), at <http://www.fema.gov/emergency/nims/>.

3. Close-out Programmatic Reporting:

The Close-out Report is due to the Florida Division of Emergency Management no later than 60 calendar days after the agreement is either completed or the agreement has expired.

4. Monitoring:

**Florida Division of Emergency Management
US Department of Homeland Security Grants Program
Grant Monitoring Process**

Florida has enhanced state and local capability and capacity to prevent, prepare and respond to terrorist threats since 1999 through various funding sources including federal grant funds. The Florida Division of Emergency Management (FDEM) has a responsibility to track and monitor the status of grant activity and items purchased to ensure compliance with applicable SHSGP grant guidance and statutory regulations. The monitoring process is designed to assess a recipient agency's compliance with applicable state and federal guidelines.

Monitoring is accomplished utilizing various methods including desk monitoring and on-site visits. There are two primary areas reviewed during monitoring activities - financial and programmatic monitoring. Financial monitoring is the review of records associated with the purchase and disposition of property, projects and contracts. Programmatic monitoring is the observation of equipment purchased, protocols and other associated records. Various levels of financial and programmatic review may be accomplished during this process.

Desk monitoring is the review of projects, financial activity and technical assistance between FDEM and the applicant via e-mail and telephone. On-Site Monitoring are actual visits to the recipient agencies by a Division representative who examines records, procedures and equipment.

Frequency of annual monitoring activity:

Each year the FDEM will conduct monitoring for up to 50% of their sub-grantees. It is important to note that although a given grant has been closed, it is still subject to either desk or on-site monitoring for a five year period following closure.

Areas that will be examined include:

- Management and administrative procedures;
- Grant folder maintenance;
- Equipment accountability and sub-hand receipt procedures;
- Program for obsolescence;
- Status of equipment purchases;
- Status of training for purchased equipment;
- Status and number of response trainings conducted to include number trained;
- Status and number of exercises;

Status of planning activity;
Anticipated projected completion;
Difficulties encountered in completing projects;
Agency NIMS/ICS compliance documentation;
Equal Employment Opportunity (EEO Status);
Procurement Policy

FDEM may request additional monitoring/information if the activity, or lack thereof, generates questions from the region, the sponsoring agency or FDEM leadership. The method of gathering this information will be determined on a case-by-case basis.

Desk monitoring is an on-going process. Recipients will be required to participate in desk top monitoring on an annual basis and as determined by the FDEM. This contact will provide an opportunity to identify the need for technical assistance (TA) and/or a site visit if the FDEM determines that a recipient is having difficulty completing their project.

As difficulties/deficiencies are identified, the respective region or sponsoring agency will be notified by the program office via email. Information will include the grant recipient agency name, year and project description and the nature of the issue in question. Many of the issues that arise may be resolved at the regional or sponsoring agency level. Issues that require further TA will be referred to the FDEM for assistance. Examples of TA include but are not limited to:

- ↓ Equipment selection or available vendors
- ↓ Eligibility of items or services
- ↓ Coordination and partnership with other agencies within or outside the region or discipline
- ↓ Record Keeping
- ↓ Reporting Requirements
- ↓ Documentation in support of a Request for Reimbursement

On-Site Monitoring will be conducted by the FDEM or designated personnel. On-site Monitoring visits will be scheduled in advance with the recipient agency POC designated in the grant agreement.

The FDEM will also conduct coordinated financial and grant file monitoring. These monitoring visits will be coordinated with the capability review visits. Subject matter experts from other agencies within the region or state may be called upon to assist in the form of a peer review as needed.

All findings related to the capability review will be documented and maintained within the FDEM.

On-site Monitoring Protocol

On-site Monitoring Visits will begin with those grantees that are currently spending or have completed spending for that federal fiscal year (FFY). Site visits may be combined when geographically convenient. There is a financial and programmatic on-site monitoring checklist to assist in the completion of all required tasks.

Site Visit Preparation

A letter will be sent to the recipient agency Point of Contact (POC) outlining the date, time and purpose of the site visit before the planned arrival date.

The appointment should be confirmed with the grantee in writing (email is acceptable) and documented in the grantee folder.

The physical location of any equipment located at an alternate site should be confirmed with a representative from that location and the address should be documented in the grantee folder before the site visit.

On-Site Monitoring Visit

Once FDEM personnel have arrived at the site, an orientation conference will be conducted. During this time, the purpose of the site visit and the items FDEM intends to examine will be identified. If financial monitoring visit will be conducted, they will then explain their objectives and will proceed to perform the financial review.

FDEM personnel will review all files and supporting documentation. Once the supporting documentation has been reviewed, a tour/visual/spot inspection of equipment will be conducted.

Each item should be visually inspected whenever possible. Bigger items (computers, response vehicles, etc.) should have an asset decal (information/serial number) placed in a prominent location on each piece of equipment as per recipient agency requirements. The serial number should correspond with the appropriate receipt to confirm purchase. Photographs should be taken of the equipment (large capitol expenditures in excess of \$1,000. per item).

If an item is not available (being used during time of the site visit), the appropriate documentation must be provided to account for that particular piece of equipment. Once the tour/visual/spot inspection of equipment has been completed, the FDEM personnel will then conduct an exit conference with the grantee to review the findings.

Other programmatic issues can be discussed at this time, such as missing quarterly reports, payment voucher/reimbursement, equipment questions, etc.

Post Monitoring Visit

FDEM personnel will review the on-site monitoring review worksheets and backup documentation as a team and discuss the events of the on-site monitoring.

Within 30 calendar days of the site visit, a monitoring report will be generated and sent to the grantee explaining any issues and corrective actions required or recommendations. Should no issues or findings be identified, a monitoring report to that effect will be generated and sent to the grantee. The grantee will submit a Corrective Action Plan within a timeframe as determined by the FDEM. Noncompliance on behalf of sub-grantees is resolved by management under the terms of the Sub grant Agreement.

The On-Site Monitoring Worksheets, the monitoring report and all back up documentation will then be included in the grantee's file.
