I have read and accept the above.

I understand and agree that if for any reason my animal is left behind, it is thereby considered abandoned and I will be responsible for any and all fees, fines, or monetary remittance payable to ________________ under their adoption, reunification, or euthanasia policy.

Tentative Acceptance Letter

Dear Applicant:

This letter serves to acknowledge receipt of Part 1 of your application for the Monroe County Pet-Friendly Hurricane Evacuation Center (PHEC). For the registration process to be complete, you must fill out and return Part 2 of the application and return it to:

Pet-Friendly Shelter Application
C/O Monroe County Emergency Management
490 63rd Street, Suite 150
Marathon, FL 33050

Failure to return the form negates your application and hurricane evacuation center eligibility. It is your responsibility to contact the Monroe County Emergency Management at (305)289-6018 to assure that the form was received and that your registration is complete.

This PHEC is the first of its kind in Monroe County and we are working to assure a successful operation. However, the success of this pet-friendly hurricane evacuation center depends upon you. On Part 2 of the application you acknowledged and agreed to certain provisions regarding shelter management. You are expected to abide by these provisions. Any infraction can result in your removal from the registration database and denial of use of the PHEC for current and future storms. You should understand that this letter, your application, or your compliance with all PHEC requirements do not constitute a binding commitment or contract that you and your pets will be accepted at the PHEC. The purpose of this application process is to facilitate the accommodation of applicants. However, everyone should understand that even if they comply with all application requirements and receive this letter, there is no guarantee or contractual commitment that you and your pets will be accepted at the PHEC.

If you live in one of the County’s hurricane evacuation zones, mobile homes, or in a structure that has been deemed unsafe by the County, you must monitor the hurricane event and listen for the mandatory evacuation order. Upon issuance of a mandatory evacuation order for your area, you should report to the PHEC with all of the items listed in this letter. It is important to note that opening of this shelter is at the sole discretion of Monroe County and that you need to have a contingency plan for yourself and your pet(s) if this shelter is not opened for any reason, or if you and your pet are not accepted in the PHEC.

Upon arrival at the PHEC, all animals will be examined by a qualified shelter personnel / licensed veterinarian. The veterinarian will only examine the animal and will not vaccinate or offer medical treatment. This examination will determine if the animal presents a health or safety risk to any human or other animal. All proof of vaccinations must be presented at this time. Any animal deemed a risk to humans or other animals, due to illness or behavioral problems, will not be allowed to enter. It is imperative that your animal is clean, healthy, and that all vaccinations are up to date. It is within the County's sole discretion to determine whether any pet will be accepted at the PHEC.
Items you must bring to the PHEC:
• Valid photo identification and recent utility bill showing current address for adult registrant
• Proof of all current required vaccinations for each pre-registered pet (list appears on page)
• All personal hygiene items, medications, and bedding supplies for each member of your family
• A three (3) day supply of non-perishable food and water for each member of your family and each pet; any medications for each pet.
• Appropriate bowls or dishes for each pet’s food and water.
• Appropriate crate/cage for each pet; bedding (specifications are below).
• A sheet or other covering material for each crate to reduce the visual stimuli of the animal.
• A secure collar and sturdy leash for each dog.

Although we do not list numeric specifications for the size of any one crate or cage, the following criteria apply for dogs and cats:

Housing must be large enough to allow the animal to stand, turn around, and fully recline. It should be constructed of wire or heavy plastic and must be well ventilated. Crates/cages excessive in size and exercise pens are not allowed. Smaller dogs and cats may be housed together as a species as long as they are fully socialized and the provisions for movement are met for each animal.

All dogs must have the following current vaccinations:

Rabies  
Distemper/Parvo  
Bordetella  
Coronavirus

All cats must have the following current vaccinations:

Rabies  
Feline Leukemia  
Rhinotracheitis  
Calicivirus  
Panleukopenia (distemper)

Ferrets: Housing for ferrets must allow ample room for movement, constructed of wire or heavy plastic, and allow for the appropriate bedding material without spillage. Up to three (3) ferrets may be housed together as long as they are fully socialized and the provisions for movement are met for each animal.

All ferrets must have the following current vaccinations:

Rabies  
Distemper
Small mammals: Housing for small mammals (gerbils, guinea pigs, hamsters, mice, rabbits, rats) that provides space for ample movement. Cages must be chew-proof, such as wire or plastic, and have a base deep enough to hold appropriate bedding. Small mammals normally housed together may stay together as long as the aforementioned provisions for movement are met for each animal.

Birds: Cages must allow for adequate movement, minimal flight and be fully ventilated. Up to three (3) birds may be housed together as long as they are fully socialized. Food and water dishes must be easily accessible and not require the opening of main access. Covers need to be provided to deter noise and reduce stress.

Thank you for pre-registering your family and pets. Please review all of the criteria listed in this packet before submitting and address any questions to Emergency Management at 305-289-6018.

Sincerely,
