

Boaters: Vessel Sewage Restrictions Protect Our Environment

Good water quality is essential to a healthy Florida Keys' marine ecosystem.

- Discharging treated or untreated sewage from your boat's marine head (Marine Sanitation Device [MSD]) into the waters of the Florida Keys National Marine Sanctuary is prohibited.
- To help prevent unintentional discharges of treated or untreated sewage into the marine environment, MSDs must be secured and locked at all times. Acceptable methods for securing MSDs include, but are not limited, to those approved by the U.S. Coast Guard. (33 CFR 159.7)

Pump-out facilities are located throughout the Keys to assist boat operators in adhering to these rules, which help protect people and marine life from potentially harmful vessel sewage discharges.

Mobile Pump-Out Services

From a vessel: Pumpout
USA 305-900-0263 or
www.po-keys.com
From land: All Keys
Portalet 305-664-2226

Tips:

- ✓ Check with marinas ahead of time on status of pump-out equipment.
- ✓ Fees may be charged for pump-out services.
- ✓ Navigate carefully in the shallow waters of the Keys.
- ✓ Follow all sanctuary, park and refuge rules.
- ✓ Bring your trash back to shore for proper disposal or recycling.

***Clean Marina** facilities certified by Florida Department of Environmental Protection (<http://www.floridadep.gov/rcp/clean-marina>)

Note: Florida Keys National Marine Sanctuary regulations restrict other types of discharges and other types of activities.

For more information about sanctuary regulations (15 CFR 922 Subpart P), visit floridakeys.noaa.gov. (11/2019)
