

BUSINESS EMERGENCY PLAN

The questions below are formulated to define your emergency preparedness plan. **YOU are responsible** for providing all necessities for employees permitted into the County during a declared State of Emergency where roads may be impassable, traditional resources such as power, water, communications, gas stations, grocery stores, and hotels unavailable. Please **be specific** in explaining exactly how you are prepared to provide for your team when these commodities are **NOT** readily available.

How will you provide for those you bring in? Plan for a minimum of 14 days.

How will you provide toilet and sanitation facilities where there is a loss of water?

How will you provide for all of your fuel needs, including generators and vehicles, in a post-storm environment where fuel is scarce?

The loss of power is likely. How will you provide electrical needs of your business and those you bring in?

How will you provide shelter for those you bring in where homes and hotels are inaccessible or uninhabitable?

Road debris and unsafe driving conditions are expected after storms, flat tires are common. Explain **in detail** how you will handle flat tires or a disabled vehicle and continue your mission essential functions.

Describe how you will communicate when technology systems are down, phones/internet unavailable.
How will this affect your ability to provide your essential service?
