

RESIDENTS AND JOB SEEKERS INVITED TO TAVERNIER BREAKWATER REPAIR PROJECT MEETING IN TAVERNIER - FUNDED BY HUD SUBGRANT #IR-045.

Monroe County will conduct a public information meeting to present details of the Tavernier Breakwater Repair Project that is about to be under construction in the Tavernier community. The team will provide details of the project that includes repair of the existing breakwater and installation of a weed gate. A schedule of activities will be provided. Representatives from the Contractor, LPS Utilities, Incorporated and the Construction Engineering Firm, WSP USA, Incorporated, will be present.

Details on types of jobs applicable for this construction project and other restoration projects will also be shared at the meeting. This project is funded by the United States Department of Housing and Urban Development (HUD), under Grant #IR-045 issued by the State of Florida, Department of Commerce.

Residents and job seekers are invited to attend and ask questions. This is an in-person meeting only.
